**PROXY STATEMENT FOR A MEETING OF STOCKHOLDERS
OF IRON SPARK I INC.
AND PROSPECTUS FOR UP TO
22,040,800 ORDINARY SHARES
OF HYPEBEAST LIMITED**

The board of directors of Iron Spark I Inc., a Delaware corporation (“ISAA”), has unanimously approved the Agreement and Plan of Merger, dated as of April 3, 2022 (as it may amended from time to time the “Merger Agreement”), by and among ISAA, Hypebeast Limited, a Cayman Islands exempted company (“Hypebeast”), and Hypebeast WAGMI Inc., a Delaware corporation and wholly-owned subsidiary of Hypebeast (the “Merger Sub”). Pursuant to the Merger Agreement, (i) before closing of the Merger (the “Closing”) and subject to approval by the Hypebeast shareholders, Hypebeast will conduct a consolidation of its ordinary shares such that not less than 30,000,000 ordinary shares of Hypebeast (each a “Consolidated Share”) will remain issued and outstanding immediately after such share consolidation with a nominal value of HK\$ _____ per share immediately following such share consolidation (the “Recapitalization”); and (ii) following the Recapitalization, at Closing the Merger Sub will merge with and into ISAA in accordance with the applicable provisions of the Delaware General Corporation Law (the “Merger”), with ISAA being the surviving entity and becoming a wholly-owned subsidiary of Hypebeast (the “Surviving Corporation”). The Merger will become effective at the time when a Certificate of Merger to be executed by ISAA and the Merger Sub at Closing becomes effective under the Delaware General Corporation Law (the “Effective Time”).

Concurrently with the execution of the Merger Agreement, each of certain investors (the “PIPE Investors”) entered into subscription agreements (the “PIPE Subscription Agreements”), pursuant to which the PIPE Investors agreed to make a private investment in Hypebeast in the aggregate amount of US\$13,335,000 on the closing date of the Merger (the “Closing”) by way of subscribing for Hypebeast ordinary shares in such number and at such price per share as contemplated under the PIPE Subscription Agreements.

Proposals to approve the Merger Agreement and the other matters discussed in this proxy statement/prospectus will be presented at the meeting of ISAA stockholders scheduled to be held on _____, 2022 at Loeb & Loeb LLP, 345 Park Avenue, New York, NY 10154:

If the ISAA stockholders approve the Merger Proposal, at the Effective Time, each ISAA share of common stock issued and outstanding immediately prior to the Effective Time (other than the ISAA redeemed by stockholders in connection with the Business Combination (the “ISAA Redeeming Shares”)) will be canceled and automatically converted into the right to receive, without interest, _____ Hypebeast ordinary shares (the “Applicable Per Share Merger Consideration”). Each ISAA stockholder will cease to have any rights with respect to the ISAA shares of common stock except (i) in the case of holders of ISAA shares of common stock that are issued and outstanding as of immediately prior to the Effective Time (other than any ISAA Redeeming Shares), the right to receive the respective portions of the Applicable Per Share Merger Consideration in exchange therefor; and (ii) in the case of any holders of ISAA Redeeming Shares, the right to have their public shares redeemed for cash equal to \$10.00 per share (not including dividends previously paid) in connection with the Business Combination. You should read “*The Merger Agreement — Consideration to be Received in the Business Combination*” and “*Unaudited Pro Forma Condensed Combined Financial Information*” for further information.

The shares of ISAA common stock are currently listed on Nasdaq under the symbol “ISAA.” The Surviving Corporation intends to apply to list its ordinary shares on Nasdaq under the symbol “HYPB” in connection with the closing of the Business Combination. ISAA cannot assure you that the Hypebeast ordinary shares will be approved for listing on Nasdaq. While trading on Nasdaq is expected to begin on the first business day following the date of completion of the Business Combination, there can be no assurance that Hypebeast ordinary shares will be listed on Nasdaq or that a viable and active trading market will develop.

Hypebeast Limited is an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012, and is therefore eligible to take advantage of certain reduced reporting requirements otherwise applicable to other public companies.

Hypebeast Limited is also a “foreign private issuer” as defined in the Exchange Act, and will be exempt from certain rules under the Exchange Act that impose certain disclosure obligations and procedural requirements for proxy solicitations under Section 14 of the Exchange Act. In addition, Hypebeast Limited’s officers, directors and principal shareholders will be exempt from the reporting and “short-swing” profit recovery provisions under Section 16 of the Exchange Act. Moreover, Hypebeast Limited will not be required to file periodic reports and financial statements with the Securities and Exchange Commission as frequently or as promptly as U.S. companies whose securities are registered under the Exchange Act.

Hypebeast Limited is a Cayman Islands holding company that conducts its operations in mainland China through its PRC subsidiary, namely Beijing Hypebeast Trading Co., Ltd., (“Beijing Hypebeast”), and its mainland China-based contractual arrangements with the variable interest entity (the “Contractual Arrangements”), namely Hypebeast Cultural Communication (Beijing) Co., Ltd. (“Hypebeast Cultural”), a limited liability company established under the PRC law. Hypebeast Limited does not own any equity interest in Hypebeast Cultural. Hypebeast Limited is not an operating company and does not conduct operations directly. The securities registered herein are securities of Hypebeast Limited, not those of its operating companies. Therefore, investors in Hypebeast Limited will not directly hold any equity interests in its operating companies.

The information in this proxy statement/prospectus is not complete and may be changed. The Registrant may not sell these securities until the Securities and Exchange Commission declares the registration statement effective. This proxy statement/prospectus is not an offer to sell these securities and is not soliciting an offer to buy these securities in any jurisdiction or state where the offer or sale is not permitted.

This holding company structure involves unique risks relating to the Contractual Arrangements to investors. There are substantial uncertainties regarding the interpretation and application of current and future PRC laws, regulations, and rules relating to these Contractual Arrangements. If the PRC government finds these Contractual Arrangements non-compliant with the restrictions on direct foreign investment in the relevant industries, or if the relevant PRC laws, regulations, and rules or the interpretation thereof change in the future, it is unclear what impact the PRC government's actions would have on Hypebeast Limited and its ability to consolidate the financial results of Hypebeast Cultural in its consolidated financial statements. If the imposition of any PRC government actions causes Hypebeast Limited to lose its right to direct the activities of Hypebeast Cultural or its right to receive substantially all of the economic benefits and residual returns from Hypebeast Cultural and Hypebeast Limited is not able to restructure its ownership structure and operations in a satisfactory manner, Hypebeast Limited would no longer be able to consolidate the financial results of Hypebeast Cultural in its consolidated financial statements. Any of these results, or any other penalty that might be imposed in this event may have a material adverse effect on Hypebeast Limited's financial condition and results of operations.

Hypebeast Limited faces various legal and operational risks and uncertainties relating to doing business in mainland China. Hypebeast Limited operates a portion of its business in mainland China, and is subject to complex and evolving PRC laws and regulations. These risks arise from, among other things, PRC governmental authorities' significant oversight and discretion over the business and financing activities of its PRC subsidiaries and variable interest entity, the complex and evolving PRC legal system, frequent changes in laws, regulations and government policies, uncertainties and inconsistencies regarding the interpretation and enforcement of laws and regulations, uncertainties, difficulties or delays in obtaining regulatory approvals for listing on a foreign stock exchange or conducting certain business activities and increasing oversight on cybersecurity and data privacy related to the PRC government's recently issued statements and instituted regulatory actions. Hypebeast Limited and its PRC subsidiaries and variable interest entity are also subject to various restrictions on intercompany fund transfers and foreign exchange control. These risks may result in a material change in the post-combination operations of Hypebeast Limited's PRC subsidiaries and variable interest entity and may limit or hinder Hypebeast Limited's ability to list on a U.S. or other foreign stock exchange, which might result in a material adverse effect on Hypebeast Limited's business operations. The PRC government may disallow Hypebeast Limited's corporate structure in mainland China completely and limit or hinder Hypebeast Limited's ability to conduct its business in mainland China, or receive dividends from or transfer funds to the operating companies from its mainland China entities, which may result in a material adverse change in its overall group business operations.

In addition, on December 16, 2021, the Public Company Accounting Oversight Board (the "PCAOB") issued a report on its determination that it is unable to inspect or investigate completely PCAOB-registered public accounting firms headquartered in mainland China and Hong Kong because of positions taken by local authorities. Hypebeast Limited's auditors, who are headquartered in Hong Kong, are subject to the determinations announced by the PCAOB. As a result, the PCAOB has been and currently is unable to inspect Hypebeast Limited's auditors. The Holding Foreign Companies Accountable Act (the "HFCA Act") has been signed into law on December 18, 2020, pursuant to which the SEC will (i) identify an issuer as a "Commission-Identified Issuer" if the issuer has filed an annual report containing an audit report issued by a registered public accounting firm that the PCAOB has determined it is unable to inspect or investigate completely because of the position taken by the authority in the foreign jurisdiction and (ii) impose a trading prohibition on the issuer after it is identified as a Commission-Identified Issuer for three consecutive years beginning in 2021. The Accelerating Holding Foreign Companies Accountable Act, which was passed by the U.S. Senate in June 2021, (the "AHFCA Act"), if enacted, would shorten the three-consecutive-year compliance period under the HFCA Act to two consecutive years and, as a result, reduce the time before the potential trading prohibition against or delisting of Hypebeast Limited's securities. The fact that the PCAOB has been and currently is unable to inspect Hypebeast Limited's auditors could deprive investors of the benefits of such inspections and cause Hypebeast Limited's securities to be delisted under the HFCA Act and the AHFCA Act. The delisting of Hypebeast Limited's securities, or the threat of such securities being delisted, may materially and adversely affect the value of your investment. For a detailed description of risks related to Hypebeast Limited's corporate structure and doing business in mainland China, see the section of this proxy statement/prospectus entitled "Risk Factors — Risks Relating to the Corporate Structure" and "Risk Factors — Risks Relating to Doing Business in Mainland China and Hong Kong."

Cash is transferred among Hypebeast Limited, Beijing Hypebeast, and Hypebeast Cultural, in the following manners: (i) Hypebeast Cultural may transfer cash to Beijing Hypebeast by paying service fees according to the service agreement. In fiscal 2020 and 2021 and for the six months ended September 30, 2021, the total amount of such service fees that Hypebeast Cultural paid to Beijing Hypebeast under the relevant agreement was RMB2.4 million, RMB17.6 million (US\$2.7 million) and RMB2.6 million (US\$0.4 million), respectively; (ii) Hypebeast Limited may fund Beijing Hypebeast through its BVI and/or Hong Kong subsidiaries in the form of capital contributions or loans, as the case may be. As of March 31, 2020 and 2021 and September 30, 2021, the aggregate amount of capital contribution by Hypebeast Limited to Beijing Hypebeast was RMB1.9 million, nil and nil, respectively; and (iii) Beijing Hypebeast may transfer cash to Hypebeast Limited through its immediate holding company in the form of dividend payouts. In fiscal 2020 and 2021 and for the six months ended September 30, 2021, the total amount of such dividends that Beijing Hypebeast paid to its immediate holding company was nil, RMB11.6 million (US\$1.8 million) and RMB9.5 million (US\$1.5 million), respectively. As of the date of this proxy statement/prospectus, no dividends or distributions have been made to Hypebeast Limited by Hypebeast Cultural.

The accompanying proxy statement/prospectus provides ISAA stockholders with detailed information about the Business Combination and other matters to be considered at the Meeting. We encourage you to read the entire accompanying proxy statement/prospectus, including the Annexes and other documents referred to therein, carefully and in their entirety. You should also carefully consider the risk factors described in "Risk Factors" beginning on page 43 of the accompanying proxy statement/prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities to be issued in connection with the Business Combination, or determined if this proxy statement/prospectus is accurate or adequate. Any representation to the contrary is a criminal offense.

This proxy statement/prospectus is dated , 2022 and is first being mailed to Iron Spark I Inc. stockholders on or about , 2022

**NOTICE OF THE MEETING OF
IRON SPARK I INC. STOCKHOLDERS
To Be Held on _____, 2022**

To Iron Spark I Inc. (“ISAA”) Stockholders:

A meeting of stockholders of ISAA will be held at Loeb & Loeb LLP, 345 Park Avenue, New York, NY 10154, on _____, 2022, at 10:00 a.m. (the “Meeting”), for the following purposes:

- **The Merger Proposal**— To approve the Merger Agreement, dated April 3, 2022, by and between Iron Spark I Inc., a Delaware corporation (“ISAA”), Hypebeast Limited, a Cayman Islands exempted company (“Hypebeast”) and Hypebeast WAGMI Inc., a Delaware corporation and wholly owned subsidiary of Hypebeast (the “Merger Sub”) and the Plan of Merger to be entered into by and between ISAA, Hypebeast and Merger Sub, pursuant to which Merger Sub will merge into ISAA with ISAA being the surviving entity and wholly-owned subsidiary of Hypebeast (the “Surviving Corporation”), and the transactions contemplated thereby, including the Merger. On the Effective Date all issued and outstanding shares of ISAA common stock held by the ISAA stockholders immediately prior to the Effective Date (other than the ISAA Redeeming Shares) will automatically be canceled and cease to exist, and ISAA stockholders will receive _____ Hypebeast ordinary shares in exchange for each ISAA share canceled. The effect of the Merger will be that ISAA stockholders (other than ISAA stockholders who exercise their redemption rights) will become stockholders of the “Surviving Corporation” which will be a “foreign private issuer” under the Exchange Act. A copy of the Merger Agreement is attached to this proxy statement/prospectus as Annex A; and

- **The Adjournment Proposal**— To approve the adjournment of the Meeting in the event ISAA does not receive the requisite stockholder vote to approve the Business Combination.

All of the proposals set forth above are sometimes collectively referred to herein as the “Proposals.” It is important for you to note that in the event that either of the Merger Proposal is not approved, then ISAA will not consummate the Business Combination. If ISAA does not consummate the Business Combination and fails to complete an initial business combination by June 11, 2023 (24 months after the consummation of the IPO), ISAA will be required to dissolve and liquidate.

As of May 5, 2022, there were 22,040,800 shares of common stock of ISAA issued and outstanding and entitled to vote, consisting of 17,870,800 shares of Class A common stock and 4,170,000 shares of Class B common stock. Only ISAA stockholders who hold shares of common stock of record as of the close of business on _____, 2022 are entitled to vote at the Meeting or any adjournment of the Meeting. This proxy statement/prospectus is first being mailed to ISAA stockholders on or about _____, 2022. Approval of the Merger Proposal requires the affirmative vote of the holders of a majority of the issued and outstanding ISAA shares of common stock, and the Adjournment Proposal will require the affirmative vote of the holders of a majority of the issued and outstanding shares of common stock that are voted at the Meeting or any adjournment thereof; provided, however, that if more than 15,014,000 of the shares of common stock purchased in the IPO demand redemption of their ISAA shares of common stock, then the Business Combination may not be completed. Assuming that a quorum is present, attending the Meeting either in person or by proxy and abstaining from voting will have the same effect as a “No” vote on the Merger Proposal, but will have no effect on any of the Proposals. Similarly, broker non-votes will have the same effect as a “No” vote on the Merger Proposal, but will have no effect on any of the Proposals.

Whether or not you plan to attend the Meeting in person, please submit your proxy card without delay to ISAA’s proxy solicitor, Morrow Sodali LLC, not later than the time appointed for the Meeting or adjourned meeting. Voting by proxy will not prevent you from voting your ISAA shares of common stock in person

if you subsequently choose to attend the Meeting. If you fail to return your proxy card and do not attend the Meeting in person, the effect will be that your ISAA shares of common stock will not be counted for purposes of determining whether a quorum is present at the Meeting. You may revoke a proxy at any time before it is voted at the Meeting by executing and returning a proxy card dated later than the previous one, by attending the Meeting in person and casting your vote by hand or by ballot (as applicable) or by submitting a written revocation Morrow Sodali LLC, 333 Ludlow Street, 5th Floor, South Tower, Stamford, CT 06902, Telephone: (800) 662 -5200, that is received by the proxy solicitor before ISAA takes the vote at the Meeting. If you hold your shares through a bank or brokerage firm, you should follow the instructions of your bank or brokerage firm regarding revocation of proxies.

ISAA's Board of Directors unanimously recommends that ISAA stockholders vote "FOR" approval of each of the Proposals.

By order of the Board of Directors,

ABOUT THIS PROXY STATEMENT/PROSPECTUS

This document, which forms part of a registration statement on Form F-4 filed by Hypebeast with the SEC, constitutes a prospectus of Hypebeast under Section 5 of the Securities Act, with respect to the issuance of the Hypebeast Ordinary Shares to ISAA stockholders if the Merger is consummated. This document also constitutes a notice of meeting and a proxy statement under Section 14(a) of the Exchange Act, with respect to the Meeting at which ISAA stockholders will be asked to consider and vote upon the Proposals to approve and adopt the Merger Agreement (a copy of which is attached to the accompanying proxy statement/prospectus as Annex A), and the transactions contemplated therein, including the Merger, and to adjourn the Meeting, if necessary, to permit further solicitation of proxies in the event there are not sufficient votes to adopt the Merger Agreement.

This proxy statement/prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, any securities, or the solicitation of a proxy, in any jurisdiction to or from any person to whom it is not lawful to make any such offer or solicitation in such jurisdiction.

INDUSTRY AND MARKET DATA

In this proxy statement/prospectus, Hypebeast relies on and refers to industry data, information and statistics regarding the markets in which it competes from research as well as from publicly available information, industry and general publications and research and studies conducted by third parties. Hypebeast has supplemented this information where necessary with its own internal estimates, considering publicly available information about other industry participants and Hypebeast management's best view as to information that is not publicly available. This information appears in "*Hypebeast's Management's Discussion and Analysis of Financial Condition and Results of Operations*," and other sections of this proxy statement/prospectus. CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This proxy statement/prospectus contains forward-looking statements, including statements about the parties' ability to close the Business Combination, the anticipated benefits of the Business Combination, the financial conditions, results of operations, earnings outlook and prospects of the Surviving Corporation, ISAA and/or Hypebeast and may include statements for the period following the consummation of the Business Combination. Forward-looking statements appear in a number of places in this proxy statement/prospectus including, without limitation, in the sections titled "Operating and Financial Review of Hypebeast," and "Business of Hypebeast." In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. Forward-looking statements are typically identified by words such as "plan," "believe," "expect," "anticipate," "intend," "outlook," "estimate," "forecast," "project," "continue," "could," "may," "might," "possible," "potential," "predict," "should," "would" and other similar words and expressions, but the absence of these words does not mean that a statement is not forward-looking.

The forward-looking statements are based on the current expectations of the management of ISAA and Hypebeast, as applicable, and are inherently subject to uncertainties and changes in circumstances and their potential effects and speak only as of the date of such statement. There can be no assurance that future developments will be those that have been anticipated. These forward-looking statements involve a number of risks, uncertainties or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described in "Risk Factors," those discussed and identified in public filings made with the SEC by ISAA and the following:

- expectations regarding Hypebeast's strategies and future financial performance, including Hypebeast's future business plans or objectives, prospective performance and opportunities and competitors, revenues, ability to raise capital, customer acquisition and retention, products and services, pricing, marketing plans, operating expenses, market trends, liquidity, cash flows and uses of cash, capital expenditures, and Hypebeast's ability to invest in growth initiatives and pursue acquisition opportunities;
- the inability to complete the Business Combination due to the failure to obtain ISAA stockholder approval;
- the risk that the proposed Business Combination disrupts current plans and operations of Hypebeast as a result of the announcement and consummation of the Business Combination;
- the ability to recognize the anticipated benefits of the Business Combination;
- unexpected costs related to the proposed Business Combination;
- the ability of ISAA to continue as a going concern;
- the amount of any redemptions by existing holders of ISAA shares of common stock being greater than expected;
- the management and board composition of the Surviving Corporation following the proposed Business Combination;
- the ability to list the Surviving Corporation's securities on Nasdaq;
- limited liquidity and trading of ISAA's and the Surviving Corporation's securities;
- geopolitical risk and changes in applicable laws or regulations;
- the possibility that ISAA, the Surviving Corporation and/or Hypebeast may be adversely affected by other economic, business, and/or competitive factors;
- operational risk;
- litigation and regulatory enforcement risks, including the diversion of management time and attention and the additional costs and demands on Hypebeast's resources;

- fluctuations in exchange rates between the foreign currencies in which Hypebeast typically does business and the United States dollar; and
- the risks that the consummation of the Business Combination is substantially delayed or does not occur.

Should one or more of these risks or uncertainties materialize, or should any of the assumptions made by the management of ISAA, Hypebeast and the Surviving Corporation prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements.

All subsequent written and oral forward-looking statements concerning the Business Combination or other matters addressed in this proxy statement/prospectus and attributable to Hypebeast, ISAA, the Surviving Corporation or any person acting on their behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this proxy statement/prospectus. Except to the extent required by applicable law or regulation, the Surviving Corporation, Hypebeast and ISAA undertake no obligation to update these forward-looking statements to reflect events or circumstances after the date of this proxy statement/prospectus or to reflect the occurrence of unanticipated events.

NOTICE TO PROSPECTIVE INVESTORS IN HONG KONG

The ISAA shares have not been offered or sold and will not be offered or sold in Hong Kong, by means of any document, other than (a) to “professional investors” as defined in the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) (the “SFO”) of Hong Kong and any rules made thereunder; or (b) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong) (the “CO”) or which do not constitute an offer to the public within the meaning of the CO. No advertisement, invitation or document relating to the shares has been or may be issued or has been or may be in the possession of any person for the purposes of issue, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to ISAA shares which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made thereunder.

QUESTIONS AND ANSWERS ABOUT THE BUSINESS COMBINATION AND THE MEETING

Q: What is the purpose of this document?

A: ISAA is proposing to consummate the Business Combination. The Business Combination consists of the Merger which is described in this proxy statement/prospectus. In addition, the Merger Agreement, and the Articles of Merger and Plan of Merger are attached to this proxy statement/prospectus as Annex A and Annex A-1, respectively, and are incorporated into this proxy statement/prospectus by reference. This proxy statement/prospectus contains important information about the proposed Business Combination and the other matters to be acted upon at the Meeting. You are encouraged to carefully read this proxy statement/prospectus, including “Risk Factors” and all the annexes hereto.

Approval of the Merger will require the affirmative vote of the holders of a majority of the issued and outstanding ISAA shares of common stock.

Q: What is being voted on at the Meeting?

A: Below are the Proposals that the ISAA stockholders are being asked to vote on:

- The Merger Proposal to approve the Merger Agreement and the Plan of Merger, and the transactions contemplated thereby, including the Merger; and
- The Adjournment Proposal to approve the adjournment of the Meeting in the event ISAA does not receive the requisite stockholder vote to approve the Merger Proposal.

Approval of the Merger Proposal requires the affirmative vote of the holders of a majority of the issued and outstanding ISAA shares of common stock, and the Adjournment Proposal requires the affirmative vote of the holders of a majority of the issued and outstanding ISAA shares of common stock that are voted at the Meeting or any adjournment thereof. As of the record date, 5,360,800 shares held by the Sponsor and the directors and officers of ISAA, or approximately 24.3% of the outstanding ISAA shares of common stock, would be voted in favor of each of the Proposals.

Q: Are any of the Proposals conditioned on one another?

A: Yes, the Merger Proposal is dependent upon each other. It is important for you to note that in the event that either of the Merger Proposal is not approved, ISAA will not consummate the Business Combination. If ISAA does not consummate the Business Combination and fails to complete an initial business combination by June 11, 2023 (24 months after the consummation of the IPO), ISAA will be required to dissolve and liquidate. Adoption of the Adjournment Proposal is not conditioned upon the adoption of any of the other Proposals.

Q: Do any of ISAA’s directors or officers have interests that may conflict with my interests with respect to the Business Combination?

A: ISAA’s directors and officers may have interests in the Business Combination that are different from your interests as a stockholder. In February 2021, ISAA issued an aggregate of 5,031,250 Founder Shares for an aggregate purchase price of \$25,000. On June 8, 2021, the Sponsor returned 718,750 Founder Shares to ISAA for cancellation, resulting in 4,312,500 Founder Shares being outstanding at a price per share of \$0.006. On July 26, 2021, the Sponsor forfeited an additional 142,500 Founder Shares for no consideration, resulting in an aggregate of 4,170,000 Founder Shares outstanding.

Simultaneously with the closing of the IPO, the Sponsor consummated a private placement with ISAA of 1,090,000 shares of its Class A Common Stock (the “Private Placement Shares”) at a price of USD\$10.00 per Private Placement Share. Simultaneously with the sale of the over-allotment units in the IPO, ISAA consummated a private sale of an additional 100,800 Private Units to the Sponsor.

If ISAA does not consummate the Business Combination by June 11, 2023 (24 months after the consummation of the IPO), ISAA will be required to dissolve and liquidate and the securities held by the Sponsor and the directors and officers will be worthless because the Sponsor and the directors and officers have agreed to waive their rights to any liquidation distributions.

The exercise of ISAA's directors' and officers' discretion in agreeing to changes or waivers in the terms of the Business Combination may result in a conflict of interest when determining whether such changes or waivers are appropriate and in ISAA stockholders' best interests.

Q: When and where is the Meeting?

A: The Meeting will take place at Loeb & Loeb LLP, 345 Park Avenue, New York, NY 10154 on _____, 2022, at 10:00 a.m.

Q: Who may vote at the Meeting?

A: Only holders of record of ISAA shares of common stock as of the close of business on _____, 2022 (the record date) may vote at the Meeting. As of _____, 2022, there were 22,040,800 ISAA shares of common stock outstanding and entitled to vote. Please see the section titled "*The Meeting — Record Date; Who is Entitled to Vote*" for further information.

Q: What is the quorum requirement for the Meeting?

A: Stockholders representing not less than a majority of the votes of the ISAA shares of common stock issued and outstanding as of the record date and entitled to vote at the Meeting must be present in person or represented by proxy in order to hold the Meeting and conduct business. This is called a quorum. ISAA shares of common stock will be counted for purposes of determining if there is a quorum if the stockholder (i) is present and entitled to vote at the meeting, or (ii) has properly submitted a proxy card or voting instructions through a broker, bank or custodian. In the absence of a quorum, the Meeting will be adjourned to the next business day at the same time and place or to such other time and place as the directors may determine.

Q: What vote is required to approve the Proposals?

A: Approval of the Merger Proposal requires the affirmative vote of the holders of a majority of the issued and outstanding ISAA shares of common stock, and the Adjournment Proposal will require the affirmative vote of the holders of a majority of the issued and outstanding ISAA shares of common stock that are voted at the Meeting or any adjournment thereof. Assuming that a quorum is present, attending the Meeting either in person or by proxy and abstaining from voting will have the same effect as a "No" vote on the Merger Proposal, but no effect on any of the Adjournment Proposal. Similarly, broker non-votes will have the same effect as a "No" vote on the Merger Proposal, but no effect on any of the Adjournment Proposal.

Q: How will the Initial Stockholders vote?

A: ISAA's Sponsor and directors and officers, who as of _____, 2022 owned 5,360,800 ISAA shares of common stock, or approximately 24.3% of the outstanding ISAA shares of common stock, have agreed to vote the common stock acquired by them prior to or concurrently with the IPO, and any ISAA shares of common stock purchased in the open market after the IPO, in favor of the Merger Proposal, and intends to vote in favor of the Adjournment Proposal, although there is no agreement in place with respect to voting on the Adjournment Proposal.

Q: What do I need to do now?

A: ISAA urges you to read carefully and consider the information contained in this proxy statement/prospectus, including the annexes, and consider how the Business Combination will affect you as a ISAA stockholder. You should vote as soon as possible in accordance with the instructions provided in this proxy statement/prospectus and on the enclosed proxy card.

Q: Do I need to attend the Meeting to vote my shares?

A: **No.** You are invited to attend the Meeting to vote on the Proposals described in this proxy statement/prospectus. However, you do not need to attend the Meeting to vote your ISAA shares of common stock.

Instead, you may submit your proxy by signing, dating and returning the applicable enclosed proxy card in the pre-addressed postage paid envelope. Your vote is important. ISAA shares of common stock encourages you to vote as soon as possible after carefully reading this proxy statement/prospectus.

Q: Am I required to vote against the Merger in order to have my shares of common stock redeemed?

A: No. You are not required to vote against the Merger Proposal in order to have the right to demand that ISAA redeem your ISAA shares of common stock for \$10.00 per share. These redemption rights in respect of ISAA shares of common stock are sometimes referred to herein as “redemption rights.” If the Business Combination is not completed holders of ISAA shares of common stock electing to exercise their redemption rights will not be entitled to receive such payments and their ISAA shares of common stock will be returned to them.

Q: How do I exercise my redemption rights?

A: If you are a public stockholder and you seek to have your shares redeemed, you must (i) demand, no later than 5:00 p.m., Eastern time on _____, 2022 (two business days before the Meeting), that ISAA redeem your shares for cash, and (ii) submit your request in writing to Continental Stock Transfer and Trust Company and deliver your shares to Continental Stock Transfer and Trust Company (physically, or electronically using the DWAC system) at least two business days prior to the vote at the Meeting. The contact information for Continental Stock Transfer & Trust Company is as follows:

Continental Stock Transfer & Trust Company
One State Street Plaza, 30th Floor
New York, NY 10004
Attn: Mark Zimkind
E-mail: mzimkind@continentalstock.com

Any corrected or changed written demand of redemption rights must be received by ISAA’s transfer agent two business days prior to the Meeting. No demand for redemption will be honored unless the holder’s shares have been delivered (either physically or electronically) to the transfer agent at least two business days prior to the vote at the Meeting.

Public stockholders may seek to have their shares redeemed regardless of whether they vote for or against the Business Combination and whether or not they are holders of ISAA shares of common stock as of the record date. Any public stockholder who holds ISAA shares of common stock on or before _____, 2022 (two business days before the Meeting) will have the right to demand that his, her or its shares be redeemed for USD\$10.00 per share, at the consummation of the Business Combination.

Q: How can I vote?

A: If you were a holder of record of ISAA shares of common stock on _____, 2022, the record date for the Meeting, you may vote with respect to the Proposals in person at the Meeting, or by submitting a proxy by mail so that it is received prior to 10:00 a.m. on _____, 2022, in accordance with the instructions provided to you under the section titled “*The Meeting*.” If you hold your shares in “street name,” which means your shares are held of record by a broker, bank or other nominee, your broker or bank or other nominee may provide voting instructions (including any telephone or Internet voting instructions). You should contact your broker, bank or nominee in advance to ensure that votes related to the shares you beneficially own will be properly counted. In this regard, you must provide the record holder of your shares with instructions on how to vote your shares or, if you wish to attend the Meeting and vote in person, obtain a proxy from your broker, bank or nominee.

- Q: If my shares are held in “street name” by my bank, brokerage firm or nominee, will they automatically vote my shares for me?**
- A:** No. Under Nasdaq rules, your broker, bank or nominee cannot vote your ISAA shares of common stock with respect to non-discretionary matters unless you provide instructions on how to vote in accordance with the information and procedures provided to you by your broker, bank or nominee. ISAA believes the Proposals are non-discretionary and, therefore, your broker, bank or nominee cannot vote your ISAA shares of common stock without your instruction. Broker non-votes will not be considered present for the purposes of establishing a quorum and will have no effect on the Proposals. If you do not provide instructions with your proxy, your bank, broker or other nominee may submit a proxy card expressly indicating that it is NOT voting your ISAA shares of common stock; this indication that a bank, broker or nominee is not voting your ISAA shares of common stock is referred to as a “broker non-vote.” Your bank, broker or other nominee can vote your ISAA shares of common stock only if you provide instructions on how to vote. You should instruct your broker to vote your ISAA shares of common stock in accordance with directions you provide.
- Q: What if I abstain from voting or fail to instruct my bank, brokerage firm or nominee?**
- A:** ISAA will count a properly executed proxy marked “ABSTAIN” with respect to a particular Proposal as present for the purposes of determining whether a quorum is present at the Meeting. Assuming that a quorum is present, attending the Meeting either in person or by proxy and abstaining from voting will have the same effect as a “No” vote on the Merger Proposal, but no effect on any of the other Proposals. Similarly, broker non-votes will have the same effect as a “No” vote on the Merger Proposal, but no effect on any of the Proposals.
- Q: May I seek statutory dissenter rights with respect to my shares?**
- A:** No. There are no dissenter rights available to holders of ISAA shares of common stock in connection with the Business Combination.
- Q: What happens if I sell my ISAA shares of common stock before the Meeting?**
- A:** The record date for the Meeting is earlier than the date that the Business Combination is expected to be consummated. If you transfer your ISAA shares of common stock after the record date, but before the Meeting, unless the transferee obtains from you a proxy to vote those shares, you would retain your right to vote at the Meeting. However, you would not be entitled to receive any Merger Sub shares of common stock following the consummation of the Business Combination because only ISAA shares of common stock at the time of the consummation of the Business Combination will be entitled to receive 16,680,000 Hypebeast Ordinary Share (assuming there are no ISAA stockholders who exercise their redemption rights) in connection with the Business Combination.
- Q: Will I experience dilution as a result of the Business Combination?**
- A:** Prior to the Business Combination, the ISAA stockholders who hold shares issued in the IPO own approximately 75.2% of ISAA’s issued and outstanding shares of common stock. After giving effect to the Business Combination and to the issuance of the Hypebeast Ordinary Shares to the ISAA stockholders in connection with the Merger (assuming there are no ISAA stockholders who exercise their redemption rights), ISAA’s current stockholders who hold shares issued in the IPO will own approximately 31.25% of Hypebeast (assuming there are no ISAA stockholders who exercise their redemption rights).
- Q: Is the consummation of the Business Combination subject to any conditions?**
- A:** Yes. The obligations of each of ISAA, Hypebeast and Merger Sub to consummate the Business Combination are subject to conditions, as more fully described in the section titled “*Summary of the Proxy Statement/Prospectus — Overview of the Merger Agreement*” in this proxy statement/prospectus.

Q: Can I change my vote after I have mailed my proxy card?

- A:** Yes. You may change your vote at any time before your proxy is voted at the Meeting. You may revoke your proxy by executing and returning a proxy card dated later than the previous one, or by attending the Meeting in person and casting your vote by hand or by ballot (as applicable) or by submitting a written revocation stating that you would like to revoke your proxy that ISAA's proxy solicitor receives prior to the Meeting. If you hold your ISAA shares of common stock through a bank, brokerage firm or nominee, you should follow the instructions of your bank, brokerage firm or nominee regarding the revocation of proxies. If you are a record holder, you should send any notice of revocation or your completed new proxy card, as the case may be, to:

Morrow Sodali LLC
333 Ludlow Street, 5th Floor, South Tower
Stamford, CT 069 02
Telephone: (800) 662 -5200
(Banks and brokers can call: (203) 658-9400)
Email: ISAA.info@investor.morrowsodali.com

Q: Should I send in my share certificates now?

- A:** Yes. ISAA stockholders who intend to have their shares of common stock redeemed should send their certificates or tender their shares electronically no later than two business days before the Meeting. Please see the section titled "The Meeting — Redemption Rights" for the procedures to be followed if you wish to redeem your shares of common stock for cash.

Q: When is the Business Combination expected to occur?

- A:** Assuming the requisite stockholder approvals are received, ISAA expects that the Business Combination will occur as soon as practicable following the Meeting, but only after Merger Sub holds a statutory meeting of stockholders, which is expected to be held 30 days after the date of this proxy statement/prospectus.

Q: Who will manage Merger Sub?

- A:** Joshua L. Spear, who currently serves as Chief Executive Officer of Merger Sub, and Alexander P. Oxman, who currently serves as Chief Financial Officer of Merger Sub, will serve in those respective roles at Merger Sub following the consummation of the Business Combination. For more information on Merger Sub's current and anticipated management, see the section titled "Merger Sub's Directors and Executive Officers after the Business Combination" in this proxy statement/prospectus.

Q: What happens if the Business Combination is not consummated?

- A:** If ISAA does not complete the Merger with Hypebeast for whatever reason, ISAA would search for another target business with which to complete an initial business combination. If ISAA does not complete the Merger with Hypebeast or a business combination with another company by June 11, 2023 (or such later date as may be approved by ISAA stockholders in an amendment to the ISAA certificate of incorporation), ISAA must redeem 100% of the outstanding public shares, at a per-share price, payable in cash, equal to an amount then held in the Trust Account (approximately \$ per share as of , 2022). The Sponsors and certain of ISAA's officers and directors have waived their redemption rights with respect to their ISAA shares of common stock in the event a merger is not effected in the required time period, and, accordingly, their shares will be worthless.

Q: What happens to the funds deposited in the Trust Account following the Business Combination?

- A:** Following the closing of the Business Combination, holders of ISAA shares of common stock exercising redemption rights will receive their per share redemption price out of the funds in the Trust Account. The balance of the funds will be released to Merger Sub and utilized to fund working capital needs of Merger Sub. As of , 2022, there was approximately \$ in the Trust

Account. ISAA estimates that approximately \$ _____ per outstanding share issued in ISAA's IPO will be paid to the public investors exercising their redemption rights. Any funds remaining in the Trust Account after such uses will be used for future working capital and other corporate purposes of the combined entity.

Q: What are the U.S. federal income tax consequences of exercising my redemption rights?

A: In the event that a U.S. Holder elects to redeem its ISAA shares of common stock for cash, the treatment of the transaction for U.S. federal income tax purposes will depend on whether the redemption qualifies as sale or exchange of the ISAA shares of common stock under Section 302 of the Internal Revenue Code (the "Code"). If the redemption qualifies as a sale or exchange of the ISAA shares of common stock, the U.S. Holder will be treated as recognizing capital gain or loss equal to the difference between the amount realized on the redemption and such U.S. Holder's adjusted tax basis in the ISAA shares of common stock surrendered in such redemption transaction. Any such capital gain or loss generally will be long-term capital gain or loss if the U.S. Holder's holding period for the ISAA shares of common stock redeemed exceeds one year. Long-term capital gains recognized by non-corporate U.S. Holders will be eligible to be taxed at reduced rates. It is unclear, however, whether the redemption rights with respect to the ISAA shares of common stock have suspended the applicable holding period for this purpose. The deductibility of capital losses is subject to limitations. See the section titled "Material U.S. Federal Income Tax Consequences of the Business Combination — Certain U.S. Federal Income Tax Consequences of Exercising Redemption Rights."

Q: Will holders of ISAA shares of common stock be subject to U.S. federal income tax on the Hypebeast ordinary shares received in the Business Combination?

A: Subject to the limitations and qualifications described in the section of this proxy statement/prospectus entitled "Material U.S. Federal Income Tax Consequences of the Business Combination," the parties to the Merger intend that the Merger qualify as a tax-free reorganization within the meaning of Section 368(a) of the Code, as to U.S. holders (as defined below) of ISAA shares of common stock. There are many requirements that must be satisfied in order for the Merger to qualify as a reorganization under Section 368(a) of the Code, some of which are based upon factual determinations, and the reorganization treatment could be adversely affected by events or actions that occur or are taken after the Merger. One such requirement, among others, is that the acquiring corporation continue, either directly or indirectly through certain controlled corporations, either a significant line of the acquired corporation's historic business or use a significant portion of the acquired corporation's historic business assets in a business, in each case, within the meaning of Treasury regulations Section 1.368-1(d). However, due to the absence of guidance bearing directly on how the above rules apply in the case of an acquisition of a corporation with no active business and only investment-type assets, such as ISAA, the qualification of the Merger as a reorganization is not free from doubt. In addition, the treatment of the Merger as a reorganization would depend on whether sufficient stockholders of ISAA exchange their common stock for Hypebeast ordinary shares rather than redeem it for cash. If a significant number of stockholders of ISAA decide to redeem their common stock, the "continuity of business enterprise" requirement that is necessary to qualify as a reorganization under Section 368(a) of the Code may not be satisfied and the requirement that ISAA retain "substantially all" of its assets to qualify as a reorganization under Section 368 of the Code may not be satisfied. Due to the absence of guidance bearing directly on whether an acquisition of a corporation with no active business can qualify as a "reorganization" under Section 368(a) of the Code, legal counsel to ISAA on U.S. federal income tax matters is not rendering an opinion regarding the qualification of the Merger as a "reorganization" under Section 368(a) of the Code. No ruling has been, or will be, sought by ISAA or Hypebeast from the IRS with respect to the Business Combination and there can be no assurance that the IRS will not challenge the qualification of the Merger as a "reorganization" under Section 368(a) of the Code or that a court would not sustain such a challenge.

Moreover, Section 367(a) of the Code and the applicable Treasury regulations promulgated thereunder provide that, where a U.S. person exchanges stock or securities in a U.S. corporation for stock or securities in a non-U.S. ("foreign") corporation in a transaction that qualifies as a reorganization, the U.S. person is required to recognize any gain, but not loss, realized on such exchange unless certain

additional requirements are met. There are significant factual and legal uncertainties concerning the determination of whether these requirements will be satisfied in the case of the Business Combination.

Provided that the Merger qualifies as a tax-free reorganization pursuant to Section 368 of the Code and additional requirements for tax-free treatment under Section 367(a) of the Code are satisfied, a U.S. holder will generally not recognize gain or loss with respect to the exchange of ISAA shares of common stock for Hypebeast ordinary shares pursuant to the Merger and such U.S. holder's (i) tax basis in its Hypebeast ordinary shares received in the Merger will generally equal the adjusted tax basis of the ISAA shares of common stock surrendered in exchange therefor and (ii) holding period for the Hypebeast ordinary shares will generally include the period during which such U.S. holder held ISAA shares of common stock.

The tax consequences of the Merger are complex and will depend on your particular circumstances. For a more detailed discussion of the U.S. federal income tax considerations of the Merger, see the section titled "Material U.S. Federal Income Tax Consequences of the Business Combination." If you are a U.S. holder exchanging ISAA shares of common stock in the Merger, you are urged to consult your tax advisor to determine the tax consequences thereof.

The HBX E-Commerce platform focuses on delivering the latest, trend-setting apparel, accessories and lifestyle products to its customers, curating and creating fashion-forward pieces and collaborations to include in its merchandise portfolio. Combining its industry leading digital and social media reach, its unique foresight on fashion and youth culture movements, and its longstanding reputation in the industry as a community and cultural leader, Hypebeast is able to source and curate products most desired by its target demographic, thereby generating growing popularity and usage amongst online shoppers.

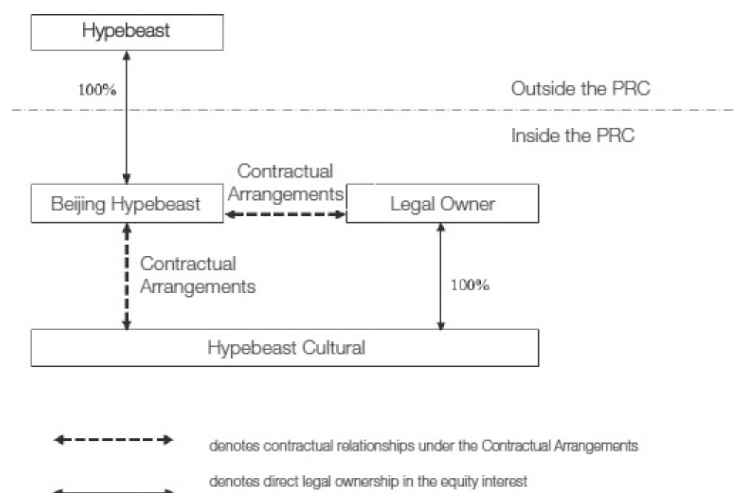

Hypebeast is an exempted company with limited liability incorporated under the laws of the Cayman Islands. Hypebeast's ordinary shares are currently traded on the Stock Exchange of Hong Kong, with the stock code 00150.

Corporate Structure

Hypebeast is a Cayman Islands holding company and does not conduct operations directly. Hypebeast conducts operations in multiple jurisdictions through its operating subsidiaries. Particularly, its operations in China are conducted through (i) Hypebeast's PRC subsidiary, namely Beijing Hypebeast Trading Co., Ltd. ("Beijing Hypebeast"), in which Hypebeast holds equity ownership interests, and (ii) the variable interest entity, namely Hypebeast Cultural Communication (Beijing) Co., Ltd. ("Hypebeast Cultural") through a series of contractual arrangements. Hypebeast does not own any equity interest in Hypebeast Cultural. Investors are purchasing equity interests in Hypebeast, the Cayman holding company, and are not purchasing, and may never directly hold, equity interests in its operating companies. In August 2019, Beijing Hypebeast entered into a series of contractual arrangements with Hypebeast Cultural and its shareholder (the "Contractual Arrangements"), including (i) a service agreement, which enables Hypebeast to receive substantially all of the economic benefits of Hypebeast Cultural. Pursuant to the service agreement, Hypebeast Cultural is obliged to pay service fees to Beijing Hypebeast for the exclusive management consulting and technical services provided, which shall be reasonably determined by Beijing

Hypebeast; (ii) an exclusive option and equity trust agreement, which grants Beijing Hypebeast and its nominee the full power and authority to purchase all or part of the equity interests in and assets of Hypebeast Cultural at the consideration being either RMB1 (or any price mutually agreed by the parties) or the minimum price allowed by applicable laws if such transfer of equity interests is allowed by the applicable PRC laws; (iii) an equity pledge agreement, which provides Hypebeast with effective control over Hypebeast Cultural; (iv) a loan agreement, pursuant to which Beijing Hypebeast has granted an interest-free loan to Hypebeast Cultural's shareholder with the sole purpose of investing into the equity interest in Hypebeast Cultural; and (v) a non-competition agreement, pursuant to which Hypebeast Cultural's shareholder agreed to avoid any direct or indirect competition in the same business with Beijing Hypebeast and Hypebeast Cultural, during the period when Hypebeast Cultural's shareholder has pledged her interests in Hypebeast Cultural. Pursuant to the equity pledge agreement, Hypebeast Cultural's shareholder pledged all her equity interests in Hypebeast Cultural as well as all rights and benefits relating to such equity interests to Beijing Hypebeast to secure Hypebeast Cultural and its shareholder's due performance of their respective obligations under the Contractual Arrangements. Hypebeast exercises control over Hypebeast Cultural and becomes the primary beneficiary of Hypebeast Cultural for accounting purposes through such Contractual Arrangements, which are less effective than direct ownership. We could face heightened risks and costs in enforcing these Contractual Arrangements, because there are very few precedents and little formal guidance as to how contractual arrangements in the context of a variable interest entity should be interpreted or enforced under PRC law. In addition, there are substantial uncertainties regarding the interpretation and application of current and future PRC laws, regulations, and rules relating to these contractual arrangements. If the PRC government finds such agreements non-compliant with relevant PRC laws, regulations, and rules, or if these laws, regulations, and rules or the interpretation thereof change in the future, Hypebeast could be subject to severe penalties or be forced to relinquish its interests in Hypebeast Cultural or forfeit its rights under the Contractual Arrangements. The PRC regulatory authorities could also disallow this operating structure and limit or hinder Hypebeast's ability to conduct its business through, receive dividends from or transfer funds to the operating companies or list on a U.S. or other foreign exchange, which could cause the value of Hypebeast's securities to significantly decline or become worthless. See "Risk Factors — Risks Relating to the Corporate Structure."

The following diagram illustrates Hypebeast's corporate structure in China, including its PRC subsidiary and variable interest entity, as of the date of this proxy statement/prospectus:

Cash is transferred among Hypebeast, Beijing Hypebeast, and Hypebeast Cultural, in the following manners: (i) Hypebeast Cultural may transfer cash to Beijing Hypebeast by paying service fees according to

the service agreement. In fiscal 2020 and 2021 and for the six months ended September 30, 2021, the total amount of such service fees that Hypebeast Cultural paid to Beijing Hypebeast under the relevant agreement was RMB2.4 million, RMB17.6 million (US\$2.7 million) and RMB2.6 million (US\$0.4 million), respectively; (ii) Hypebeast may fund Beijing Hypebeast through its BVI and/or Hong Kong subsidiaries in the form of capital contributions or loans, as the case may be. As of March 31, 2020 and 2021 and September 30, 2021, the aggregate amount of capital contribution by Hypebeast to Beijing Hypebeast was RMB1.9 million, nil and nil, respectively; and (iii) Beijing Hypebeast may transfer cash to Hypebeast through its immediate holding company in the form of dividend payouts. In fiscal 2020 and 2021 and for the six months ended September 30, 2021, the total amount of such dividends that Beijing Hypebeast paid to its immediate holding company was nil, RMB11.6 million (US\$1.8 million) and RMB9.5 million (US\$1.5 million), respectively.

As of March 31, 2020 and 2021, the total assets of Hypebeast Cultural after eliminating the intra-group balances and transactions were HK\$19.5 million and HK\$26.4 million (US\$3.4 million), respectively, which mainly consisted of bank balances and cash, trade and other receivables, and other assets. As of March 31, 2020 and 2021, the total liabilities of Hypebeast Cultural after eliminating the intra-group transactions were HK\$5.7 million and HK\$11.0 million (US\$1.4 million), respectively, which mainly consisted of trade and other payables. In fiscal 2020 and 2021, Hypebeast Cultural recorded net revenues of HK\$32.8 million and HK\$35.0 million (US\$4.5 million), respectively. As of the date of this proxy statement/prospectus, no dividends or distributions have been made to Hypebeast by Hypebeast Cultural.

The PRC government imposes controls on the convertibility of Renminbi into foreign currencies and, in certain cases, the remittance of currency out of mainland China. A portion of Hypebeast's income is received in Renminbi and shortages in foreign currencies may restrict its ability to pay dividends or other payments, or otherwise satisfy Hypebeast's foreign currency denominated obligations, if any. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and expenditures from trade-related transactions, can be made in foreign currencies without prior approval from SAFE as long as certain procedural requirements are met. Approval from or filing, registration with or report to appropriate government authorities is required if Renminbi is converted into foreign currency and remitted out of mainland China to pay capital expenses such as the repayment of loans denominated in foreign currencies. The PRC government may, at its discretion, impose restrictions on access to foreign currencies for current account transactions and if this occurs in the future, Hypebeast may not be able to pay dividends in foreign currencies to its shareholders. Since a part of Hypebeast's future net income and cash flow will be denominated in Renminbi, any existing and future restrictions on currency exchange may limit its ability to utilize cash generated in Renminbi to fund its business activities outside of the PRC or pay dividends in foreign currencies to its shareholders, and may limit its ability to obtain foreign currency through debt or equity financing for its PRC subsidiary and the variable interest entity.

In addition, Hypebeast faces various legal and operational risks and uncertainties relating to doing business in mainland China. These risks arise from, among other things, PRC governmental authorities' significant oversight and discretion over the business and financing activities of its PRC subsidiaries, the complex and evolving PRC legal system, frequent changes in laws, regulations and government policies, uncertainties and inconsistencies regarding the interpretation and enforcement of laws and regulations, difficulties or delays in obtaining regulatory approvals for listing on a foreign stock exchange or conducting certain business activities and increasing oversight on cybersecurity and data privacy related to the PRC government's recently issued statements and instituted regulatory actions. Hypebeast and its PRC subsidiaries are also subject to various restrictions on intercompany fund transfers and foreign exchange control. These risks could result in a material change in the post-combination operations of Hypebeast's PRC subsidiaries and significantly limit or completely hinder Hypebeast's ability to list on a U.S. or other foreign stock exchange, to accept foreign investments and to offer or continue to offer securities to foreign investors, which might result in a material adverse effect on Hypebeast's business operations, damage its reputation, and further cause its securities to significantly decline in value or become worthless. Furthermore, since Hypebeast's auditors are located in Hong Kong, a jurisdiction where the PCAOB has been unable to conduct inspections without the approval of the local authorities, its auditors are currently not inspected by the PCAOB. As a result, Hypebeast's securities may be delisted under the Holding Foreign Companies Accountable Act. The delisting of its securities, or the threat of their being delisted, may materially and adversely affect the value of your investment. Additionally, the inability of the PCAOB to conduct inspections

deprives Hypebeast’s investors with the benefits of such inspections. See “Risk Factors — Risks Relating to Doing Business in Mainland China and Hong Kong.”

Iron Spark I Inc.

ISAA is a blank check company, incorporated as a Delaware corporation on January 22, 2021, for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which ISAA refers to as a “target business.” ISAA’s effort to identify prospective target businesses were limited to the branded consumer sector. Within this sector, ISAA planned to focus on verticals that aligned with the experiences and core competencies of its management team — Athletics and Sport-Culture, Apparel and Accessories and Food, Wellness and Lifestyle.

The registration statement for the ISAA’s IPO was declared effective on June 8, 2021. On June 11, 2021, ISAA consummated its IPO of 15,000,000 Public Shares. The Public Shares were sold at a price of \$10.00 per Public Share, generating gross proceeds to ISAA of \$150,000,000.

Simultaneously with the closing of the IPO, ISAA consummated the sale of 1,090,000 Private Placement Shares at a price of \$10.00 per Private Placement Share in a private placement to the Sponsor, generating gross proceeds of \$10,900,000.

ISAA granted the underwriters in the IPO (the “Underwriters”) a 45-day option to purchase up to 2,250,000 additional shares to cover over-allotments, if any. On June 16, 2021, the Underwriters partially exercised the over-allotment option and purchased an additional 1,680,000 shares (the “Over-Allotment Shares”), generating gross proceeds of \$16,800,000. The remaining 570,000 shares were not exercised by the underwriter and expired on July 26, 2021.

Simultaneously with the closing of the exercise of the over-allotment option, the ISAA consummated the sale of 100,800 shares (the “Over-Allotment Private Placement Shares”) at a purchase price of \$10.00 per share in a private placement to the Sponsor, generating gross proceeds of \$1,008,000.

Following the closing of the IPO on June 11, 2021 and the partial exercise of the over-allotment option on June 16, 2021, an amount of \$173,472,000 (\$10.40 per Public Share) from the net proceeds of the sale of the Public Shares in the IPO, the sale of the Over-Allotment Private Placement Shares and the sale of the Over-Allotment Shares was placed in a U.S.-based trust account (the “Trust Account”), and were invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with maturities of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest only in direct U.S. government treasury obligations, as determined by ISAA, until the earlier of: (i) the completion of a Merger and (ii) the distribution of the funds held in the Trust Account.

As of the date of this proxy statement/prospectus, ISAA has approximately \$387,000 of unused net proceeds that were not deposited into the Trust Account to pay future general and administrative expenses. The net proceeds deposited into the Trust Account remain on deposit in the Trust Account earning interest. As of _____, 2022, there was \$ _____ held in the Trust Account (including \$ _____ of accrued interest which ISAA can withdraw to pay taxes).

In accordance with ISAA’s Amended and Restated Certificate of Incorporation, the amounts held in the Trust Account may only be used by ISAA upon the consummation of a business combination, except for the withdrawal of interest to pay taxes and for the payment of dividends. None of the funds held in the Trust Account (including the interest earned on the funds held in the Trust Account) will be released from the Trust Account until the earliest to occur of (i) the completion of the initial Business Combination, (ii) the redemption of 100% of the public shares if the ISAA is unable to complete its initial Business Combination within 24 months from the closing of the IPO and (iii) the redemption of public shares in connection with a vote seeking to amend any provisions of this Amended and Restated Certificate relating to stockholders’ rights or pre-initial Business Combination activity. ISAA must liquidate unless a business combination is consummated by the date that is 24 months from the closing of the IPO.

ISAA’s shares of common stock is quoted on Nasdaq, under the symbol “ISAA.” ISAA’s shares of common stock commenced trading on Nasdaq on June 9, 2021.

Simplified Post-Business Combination Structure

The following diagram depicts Hypebeast’s corporate structure following the Business Combination:

Ownership of the Post-Business Combination Company after the Closing

Prior to the Business Combination, the ISAA stockholders who hold shares issued in the IPO own approximately 75.7% of ISAA’s issued and outstanding shares of common stock. After giving effect to the

Business Combination and to the issuance of the Hypebeast Ordinary Shares to the ISAA stockholders in connection with the Merger (assuming there are no ISAA stockholders who exercise their redemption rights), ISAA's current stockholders who hold shares issued in the IPO will own approximately 31.25% of Hypebeast.

Overview of the Merger Agreement

The Merger Agreement was entered into by and among ISAA, Hypebeast and Merger Sub on April 3, 2022. Pursuant to the Merger Agreement, (i) before closing of the Merger (the "Closing") and subject to approval by the Hypebeast shareholders, Hypebeast will conduct a consolidation of its ordinary shares such that not less than 30,000,000 ordinary shares of Hypebeast (each a "Consolidated Share") will remain issued and outstanding immediately after such share consolidation with a nominal value of HK\$ per share immediately following such share consolidation (the "Recapitalization"); and (ii) following the Recapitalization, at Closing the Merger Sub will merge with and into ISAA in accordance with the applicable provisions of the Delaware General Corporation Law (the "Merger"), with ISAA being the surviving entity and becoming a wholly-owned subsidiary of Hypebeast. The Merger will become effective at the time when a Certificate of Merger to be executed by ISAA and the Merger Sub at Closing becomes effective under the Delaware General Corporation Law (the "Effective Time"). Upon closing of the Business Combination, the Consolidated Shares will be dual listed for trading on both the HKSE and the Nasdaq Capital Market LLC ("Nasdaq").

The Merger Consideration of the Business Combination

At the Effective Time, each share of Class A common stock of ISAA, par value US\$0.0001 per share (each an "ISAA Class A Share") and each share of Class B common stock of ISAA, par value US\$0.0001 per share (each an "ISAA Class B Share;" and each ISAA Class A Share and ISAA Class B Share is referred to as an "ISAA Share") (other than the ISAA Shares owned by ISAA as treasury shares, the ISAA Shares owned by any of ISAA's direct or indirect wholly-owned subsidiaries, and any ISAA Redeeming Shares (as defined below)) will cease to be outstanding and will automatically be converted into the right to receive, without interest, one Consolidated Share. The holders of the ISAA Shares outstanding immediately prior to the Effective Time will cease to have any rights with respect to such ISAA Shares, except as provided by the Merger Agreement or by law. The "ISAA Redeeming Shares" means any ISAA Class A Shares in respect of which the eligible holder (as determined in accordance with the Amended and Restated Certificate of Incorporation and the By-Laws of ISAA (the "ISAA Organizational Documents"), which shall not include Iron Spark I LLC (the "Sponsor") or any other holder of ISAA Class B Shares) thereof has validly exercised (and not validly revoked, withdrawn or lost) his, her or its redemption right. Holders of ISAA Redeeming Shares will receive US\$10.00 per ISAA Share at the Closing.

If any change in the outstanding ISAA shares of common stock will occur (other than the issuance of additional shares of capital stock of ISAA as permitted by the Merger Agreement), including by reason of any reclassification, recapitalization, stock split (including a reverse stock split), or combination, exchange, readjustment of shares, or similar transaction, or any stock dividend or distribution paid in stock, any amounts payable pursuant to the Merger Agreement shall be appropriately adjusted to reflect such change.

Material Adverse Effect

With respect to Hypebeast, “Hypebeast Material Adverse Effect” as used in the Merger Agreement means any event, state of facts, development, change, circumstance, occurrence or effect that has had, or would reasonably be expected to have, individually or in the aggregate, a material adverse effect on (i) the business, assets and liabilities, operations or properties of Hypebeast and its subsidiaries, taken as a whole or (ii) the ability of Hypebeast or Merger Sub to consummate the Business Combination; provided, however, that in no event would any of the following, alone or in combination, be deemed to constitute, or be taken into account in determining whether there has been or will be, a “Hypebeast Material Adverse Effect”:

- any change in general economic or political conditions;
- any events generally affecting the industries in which Hypebeast or any of its subsidiaries operates;
- any changes in financial, banking or securities markets in general, including any disruption thereof and any decline in the price of any security or any market index or any change in prevailing interest rates;

- any failure in and of itself of Hypebeast and any of its subsidiaries to meet any projections or forecasts, provided that this exception shall not prevent or otherwise affect a determination that any change, effect or development underlying such change has resulted in or contributed to a Hypebeast Material Adverse Effect;
- any matter set forth on or incorporated in the disclosure letter of Hypebeast; or
- any events that are cured by Hypebeast prior to the Closing.

With respect to ISAA, “ISAA Material Adverse Effect” as used in the Merger Agreement means any event, state of facts, development, change, circumstance, occurrence or effect that has had, or would reasonably be expected to have, individually or in the aggregate, a material adverse effect on the ability of ISAA to consummate the Business Combination; provided, however, that in no event would any of the following, alone or in combination, be deemed to constitute, or be taken into account in determining whether there has been or will be, an “ISAA Material Adverse Effect”:

- Hypebeast shall, or shall cause its affiliates to, obtain and fully pay the premium for a "tail" insurance policy that provides coverage for the benefit of the respective current or former directors and officers of ISAA (solely to the extent acting in his or her capacity as such and to the extent such activities are related to the business of ISAA) for anytime starting from the Closing to the sixth anniversary of the Closing that is substantially equivalent to and in any event not less favorable in the aggregate than ISAA's existing policy or, if substantially equivalent insurance coverage is unavailable, the best available coverage; provided that in no event shall Hypebeast be required to expend for such policies in excess of US\$1.6 million;
- Except as would not reasonably be expected to have a Hypebeast Material Adverse Effect, during the Interim Period, Hypebeast shall, and shall cause its subsidiaries and controlled entities to, duly and timely file all material tax returns required to be filed with the applicable taxing authorities, pay any and all material taxes required by any taxing authority and duly observe and conform in all material respects, to all material applicable laws and orders; and

In the event of a valid termination of the Merger Agreement, the Merger Agreement shall forthwith become void and have no effect, without any liability on the part of any party or its affiliates, or its and its

affiliates' representatives, other than liability of any party for any fraud or any intentional and willful breach of the Merger Agreement by such party occurring prior to such termination; provided that the non-disclosure and confidentiality agreement dated as of September 8, 2021 by and between Hypebeast and ISAA and certain provisions of the Merger Agreement shall survive the termination of the Merger Agreement.

Other Agreements Relating to the Business Combination

PIPE Subscription Agreements

On April 3, 2022 and concurrently with the execution of the Merger Agreement, Hypebeast entered into subscription agreements (the "PIPE Subscription Agreements") with certain third-party investors (the "PIPE Investors"), pursuant to which the PIPE Investors agreed to purchase, severally and not jointly, and Hypebeast agreed to issue, allot and credit as fully paid-up to PIPE Investors, upon the payment of the subscription price, 1,333,500 Consolidated Shares (the "PIPE Shares") at a price of US\$10.00 per share (such subscription and issuance, the "PIPE Subscription"). The consummation of the PIPE Subscription is contingent upon the substantially simultaneous occurrence of the Closing.

The PIPE Subscription Agreements provide certain registration rights for PIPE Investors. In particular, Hypebeast is required to file with the SEC, within forty-five (45) calendar days after the consummation of the transactions contemplated by the Merger Agreement, a registration statement covering the resale of the PIPE Shares and to use its commercially reasonable efforts to have such registration statement declared effective as soon as practicable after the filing thereof. Hypebeast must use commercially reasonable efforts

to keep the registration statement effective until the earliest of: (i) two (2) years from the date of effectiveness of the registration statement; (ii) the date the PIPE Investors no longer hold any registrable shares; and (iii) the date all registrable shares held by the PIPE Investors may be sold without restriction under Rule 144.

Additionally, pursuant to the PIPE Subscription Agreements, the PIPE Investors agreed to waive any claims that they may have at the closing of the PIPE Investment, or in the future, as a result of, or arising out of, the PIPE Subscription Agreements against ISAA, including with respect to the monies held in the Trust Account. The PIPE Subscription Agreements will terminate, and be of no further force and effect upon the earliest to occur of (i) such date and time as the Merger Agreement is terminated in accordance with its terms, (ii) the mutual written agreement of each of the parties to the respective PIPE Subscription Agreements, and (iii) thirty (30) days after the Long-Stop Date if closing of the PIPE Investment has not occurred by such date and the terminating party's breach was not the primary reason such closing failed to occur by such date.

The lock-up period applicable to the Sponsor Lock-Up Shares will be three-year from the date of Closing; provided that (i) one-third of the Sponsor Lock-Up Shares shall be released from such lock-up on the one-year anniversary of the date of Closing; and (ii) the remaining Sponsor Lock-Up Shares shall be released from such lock-up in equal monthly installments over 24 months starting from the first anniversary of the date of Closing.

Shareholder Support Agreement

On April 3, 2022 and concurrently with the execution of the Business Combination Agreement, ISAA also entered into a Company Shareholder Support Agreement (the "Shareholder Support Agreement") with Hypebeast and CORE Capital Group Limited, a private company incorporated in the British Virgin Islands and a controlling shareholder of Hypebeast ("CORE Capital"), pursuant to which, among other things, and subject to the terms and conditions set forth therein, CORE Capital agreed to vote to approve the Merger Agreement, the ancillary agreements and the Business Combination, including (i) if a meeting is held, to appear at such meeting or otherwise cause the shares of Hypebeast held by CORE Capital to be counted as present at such meeting for purposes of establishing a quorum; (ii) to vote or cause to be voted (including by class vote and/or written consent, if applicable) the shares of Hypebeast held by CORE Capital

in favor of granting the required approval by shareholder of Hypebeast for the Business Combination or, if there are insufficient votes in favor of granting such required approval, in favor of the adjournment of such meeting of the shareholders of Hypebeast to a later date; and (iii) to vote against any other alternative transactions that would impede, interfere with, delay or attempt to discourage, frustrate the purpose of or result in a breach by Hypebeast of, prevent or nullify any provision of the Merger Agreement or any other ancillary transaction documents, or any transactions contemplated thereby.

The lock-up period applicable to the CORE Capital Lock-Up Shares will be one-year from the date of Closing, subject to earlier release if certain criteria are met.

Registration Rights Agreement

On April 3, 2022 and concurrently with the execution of the Merger Agreement, Hypebeast, Sponsor and ISAA entered into a registration rights agreement (the “Registration Rights Agreement”), pursuant to which, among other things, Hypebeast agreed to file the applicable registration statements following the Closing that includes, among other things and subject to certain exceptions, the relevant portion of the Consolidated Shares issued in consideration of the Merger held by signatories to such Registration Rights Agreement.

The Registration Rights Agreement also provides that Hypebeast will pay certain expenses relating to such registrations and indemnify the relevant holders of ordinary share of Hypebeast against certain liabilities. The rights granted under the Registration Rights Agreement supersede any prior registration, qualification or similar rights of the parties with respect to their ISAA Shares.

Approval of the Merger Proposal requires the affirmative vote of the holders of a majority of the issued and outstanding ISAA shares of common stock, and the Adjournment Proposal will require the affirmative vote of the holders of a majority of the issued and outstanding ISAA shares of common stock present and entitled to vote and voting at the Meeting.

Recommendations of the ISAA Board of Directors to the ISAA Stockholders

After careful consideration of the terms and conditions of the Merger Agreement, the ISAA Board has determined that Business Combination and the transactions contemplated thereby are fair to and in the best interests of ISAA and its stockholders. In reaching its decision with respect to the Merger, the ISAA Board reviewed various industry and financial data and the due diligence and evaluation materials provided by Hypebeast. The ISAA Board did not obtain a fairness opinion on which to base its assessment. ISAA's Board recommends that ISAA stockholders vote:

- **FOR** the Merger Proposal; and
- **FOR** the Adjournment Proposal, if presented to the Meeting.

ISAA's Board of Directors' Reasons for the Approval of the Business Combination and Recommendations

The ISAA Board, in evaluating the transaction with Hypebeast, consulted with ISAA's management and its legal counsel. In reaching its resolution (i) that the terms and conditions of the Merger Agreement and the transactions contemplated thereby, including the Business Combination, are advisable, fair to and in the best interests of ISAA and its stockholders and (ii) to recommend that ISAA's stockholders adopt the Merger Agreement and approve the transactions contemplated thereby, including the Business Combination, the ISAA Board considered and evaluated a number of factors, including, but not limited to, the factors discussed below. In light of the number and wide variety of factors considered in connection with its evaluation of the Business Combination, the ISAA Board did not consider it practicable to, and did not attempt to, quantify or otherwise assign relative weights to the specific factors that it considered in reaching its determination and supporting its decision. The ISAA Board viewed its decision as being based on all of the information available and the factors presented to and considered by it. In addition, individual directors may have given different weight to different factors. This explanation of ISAA's reasons for the Business Combination and all other information presented in this section is forward-looking in nature and, therefore, should be read in light of the factors discussed under "*Cautionary Note Regarding Forward-Looking Statements*" appearing elsewhere in this proxy statement/prospectus.

A potential transaction with Hypebeast was consistent with the ISAA mandate to identify a company of appropriate size, growth prospects, synergies with ISAA management capabilities and likelihood of deal closure. Hypebeast is an attractive target for the following reasons:

- Hypebeast was already an existing public company (0150.HK and a thinly traded US ADR). Management discussed the view that the Company was underappreciated without a US Listing. Relative to comparable companies, both public and private, Hypebeast was trading at a material valuation discount. With just \$8mm raised during their 2016 IPO, Hypebeast had grown with 35% CAGR to \$100MM+ in revenue on positive EBITDA, representing a 2.6x 2021 multiple. Hypebeast Management had built a robust business organically but had not been able to generate more momentum in the stock or raise funds elsewhere and wanted to accelerate growth. Based on a preliminary understanding of numbers ISAA estimated a post-transaction valuation of \$500 to \$600 million which was in the target valuation range for ISAA with a \$167,600,000 IPO.
- With more than 26 million social media followers, Hypebeast is an iconic brand and market leader at the center of media, commerce, consumer brands and emerging culture. The opportunity to infuse the Company with additional capital to invest further in a North American expansion and increase revenues is promising.
- Beyond an infusion of capital from Trust assets and a potential PIPE, ISAA believes that it could bring additional corporate governance and leadership to Hypebeast via the inclusion of Board members to the a US publicly listed entity. The ISAA skill set and connections would be important in completing the Hypebeast listing process, communicating with investors and identifying new investors for the Company.

ISAA management also reviewed the likelihood of the Merger closing with the ISAA Board. The ISAA Board was sensitive to this topic having seen prior deals disintegrate after the signing of the LOI. Positive attributes of the transaction included:

- A deal size not likely to be dependent on a large PIPE transaction.
- Public company ready management team and infrastructure.
- A large insider ownership of Hypebeast reduced the risk that shareholders would not vote for the transaction.
- Excitement in the space with recent transactions in the space such as large financing rounds of GOAT, StockX, the pending acquisition of Complex, as well as purchases of highly regarded streetwear brand Supreme by VF Corp.

The ISAA Board also reviewed due diligence and deal attribute questions such as:

- Past examples of SPAC business combinations involving an existing public company and dual listing.
- Complexities of working with a HK listed company.
- Need for extensive due diligence.
- Better understanding of why Hypebeast Limited had been unable to raise more funds independently.
- Potential expenses with a deal this size.

The ISAA Board also considered a variety of uncertainties and risks and other potentially negative factors concerning this merger, including but not limited to the following:

- **Benefits Not Achieved.** The risk that the potential benefits of the Business Combination may not be fully achieved, or may not be achieved within the expected timeframe.
- **Liquidation of ISAA.** The risks and costs to ISAA if the Business Combination is not completed, including the risk of diverting management focus and resources from other businesses combination opportunities, which could result in ISAA being unable to effect a business combination by June 2023 and force ISAA to liquidate and the warrants to expire worthless.
- **Stockholder Vote.** The risk that ISAA's stockholders may fail to provide the votes necessary to effect the Business Combination.
- **Closing Conditions.** The fact that completion of the Business Combination is conditioned on the satisfaction of certain closing conditions that are not within ISAA's control.

- **Litigation.** The possibility of litigation challenging the Business Combination or that an adverse judgment granting permanent injunctive relief could indefinitely enjoin consummation of the Business Combination.
- **Fees and Expenses.** The fees and expenses associated with completing the Business Combination.
- **Other Risks.** Various other risks associated with the Business Combination, the business of ISAA and the business of Hypebeast described under the section entitled “*Risk Factors.*”

Following a robust discussion, ISAA’s board of directors concluded that the potential benefits that it expected ISAA and its stockholders to achieve as a result of the Business Combination outweighed the potentially negative factors associated with the Business Combination. Accordingly, ISAA’s board of directors determined that the Merger Agreement and the Business Combination contemplated therein were advisable, fair to and in the best interests of ISAA and its stockholders. See the section of this proxy statement/prospectus titled “*Proposal One — The Merger Proposal — ISAA’s Board of Directors’ Reasons for the Business Combination and Recommendations.*”

Interests of Certain Persons in the Business Combination

In considering the recommendation of ISAA’s board of directors to vote in favor of approval of the Business Combination, ISAA stockholders should keep in mind that ISAA’s directors and executive officers have interests in such proposals that are different from, or in addition to, those of ISAA’s stockholders generally. These interests may have influenced the decision of ISAA’s board of directors to approve the Business Combination and could incentivize ISAA’s officers and directors to pursue a business combination with a less favorable target company or on terms less favorable to ISAA’s public stockholders rather than liquidate. In particular:

- If the proposed Business Combination is not completed by June 11, 2023, the date that is 24 months from the closing of the IPO, ISAA will be required to liquidate. In such event, the 4,170,000 shares of common stock held by the Sponsor, which were acquired prior to the IPO for an aggregate purchase price of USD\$25,000, will be worthless. Such common stock had an aggregate market value of approximately USD\$ based on the closing price of ISAA shares of common stock of USD\$ on Nasdaq as of , 2022;
- If ISAA is unable to complete a business combination within the required time period, the Sponsor will be liable under certain circumstances described herein to ensure that the proceeds in the Trust Account are not reduced by the claims of target businesses or claims of vendors or other entities that are owed money by ISAA for services rendered or contracted for or for products sold to ISAA. If ISAA consummates a business combination, on the other hand, ISAA or the combined company will be liable for all such claims.
- The Sponsor and ISAA’s officers and directors and their affiliates are entitled to reimbursement of out-of-pocket fees and expenses incurred by them in connection with certain activities on ISAA’s behalf, such as identifying and investigating possible business targets and business combinations. However, if ISAA fails to consummate a business combination within the required period, they will not have any claim against the Trust Account for reimbursement. Accordingly, ISAA may not be able to reimburse these fees and expenses if the Business Combination or another business combination is not completed by June 11, 2023 (or such later date as may be approved by ISAA’s stockholders in an amendment to ISAA’s Amended and Restated Certificate of Incorporation). As of the date of this proxy statement/prospectus, the Sponsor and ISAA’s officers and directors and their affiliates had incurred approximately \$71,382 of unpaid reimbursable fees and expenses.
- If the proposed Business Combination is not completed by June 11, 2023, the date that is 24 months from the closing of the IPO, the 1,190,800 Private Placement Shares purchased by the Sponsor for a total purchase price of USD\$11,908,000, will be worthless. Such Private Placement Shares had an aggregate market value of approximately USD\$, based on the closing price of ISAA’s Private Placement Shares of USD\$ on Nasdaq as of , 2022;
- The exercise of ISAA’s directors’ and officers’ discretion in agreeing to changes or waivers in the terms of the transaction may result in a conflict of interest when determining whether such changes or waivers are appropriate and in ISAA’s stockholders’ best interest;

- The Merger Agreement provides for the continued indemnification of ISAA’s current directors and officers and the continuation of directors and officers liability insurance covering ISAA’s current directors and officers;
- Iron Spark Opportunity, LLC, an entity controlled by Joshua L. Spear, the Chief Executive Officer and Director of ISAA and a managing member of the Sponsor, participated in the PIPE Investment; and
- Joshua L. Spear, the Chief Executive Officer and a director of ISAA and a managing member of the Sponsor, and Trevor A. Edwards, a director of ISAA, will be members of the board of directors of Hypebeast following the closing of the Business Combination and, therefore, in the future Mr. Spear and Mr. Edwards could receive cash fees, share options or share-based awards that Hypebeast’s board of directors determines to pay to its non-executive directors.

Anticipated Accounting Treatment

ISAA will be treated as the “acquired” company for financial reporting purposes. The Merger will be treated as an acquisition of ISAA by Hypebeast in the way of Hypebeast issuing equity instruments for the net assets of ISAA as of the closing date. The net assets of ISAA will be stated at pre-combination amount, with no goodwill or other intangible assets recorded.

Hypebeast has been determined to be the accounting acquirer based on evaluation of the following facts and circumstances:

- Hypebeast’s shareholders will have the largest voting interest in Hypebeast under both the no redemption and maximum redemption scenarios;
- Hypebeast shareholders will have the ability to nominate at least a majority of the members of the Board of Directors of the combined entity; and
- Hypebeast’s senior management is the senior management of the post-combination company.

The Merger, which is not within the scope of IFRS 3 — *Business Combinations* (“IFRS 3”) since ISAA does not meet the definition of a business in accordance with IFRS 3, is accounted for as a share-based payment transaction within the scope of IFRS 2 — *Share-based Payment* (“IFRS 2”). The net assets of Hypebeast will be stated at their pre-combination carrying amounts, with no goodwill or other intangible assets recorded. Any excess of the fair value of equity instruments issued by Hypebeast to ISAA shareholders over the pre-combination carrying value of ISAA’s identifiable net assets acquired represents compensation for the service of a stock exchange listing for its shares and is expensed as incurred.

Comparison of Rights of Hypebeast Shareholders and ISAA Stockholders

If the Business Combination is successfully completed, holders of ISAA shares of common stock will become holders of Hypebeast Ordinary Shares and their rights as shareholders will be governed by Hypebeast’s constitutional documents. Please see “*Comparison of Rights of Hypebeast Shareholders and ISAA Stockholders*” on page 198 for more information.

Regulatory Matters

The Business Combination is not subject to any federal or state regulatory requirement or approval, except for filings with the State of Delaware necessary to effectuate the Business Combination.

Emerging Growth Company

Hypebeast is, and consequently, following the Business Combination, will be, an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”). As such, the combined company will be eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act”), reduced disclosure obligations regarding executive compensation in their periodic reports and proxy

statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find the combined company's securities less attractive as a result, there may be a less active trading market for the combined company's securities and the prices of the combined company's securities may be more volatile.

The combined company will remain an emerging growth company until the earlier of: (i) the last day of the fiscal year (a) following the fifth anniversary of the ISAA IPO, (b) in which Hypebeast has total annual gross revenue of at least \$1.07 billion, or (c) in which the combined company is deemed to be a large accelerated filer, which means the market value of the combined company's common equity that is held by non-affiliates exceeds \$700 million as of the last business day of its most recently completed second fiscal quarter; and (ii) the date on which the combined company has issued more than \$1.00 billion in non-convertible debt securities during the prior three-year period. References herein to "emerging growth company" have the meaning associated with it in the JOBS Act.

Foreign Private Issuer

Hypebeast is a foreign private issuer within the meaning of the rules under the Exchange Act and, as such, Hypebeast is permitted to follow the corporate governance practices of its home country in lieu of the corporate governance standards of Nasdaq Stock Market LLC applicable to U.S. domestic companies. For example, Hypebeast is not required to have a majority of the board consisting of independent directors nor have a compensation committee or a nominating and corporate governance committee consisting entirely of independent directors. While Hypebeast does not currently intend to follow home country practice in lieu of the above requirements, Hypebeast could decide in the future to follow home country practice. As a result, Hypebeast's shareholders may not have the same protection afforded to shareholders of U.S. domestic companies that are subject to Nasdaq corporate governance requirements. As a foreign private issuer, Hypebeast is also subject to reduced disclosure requirements and are exempt from certain provisions of the U.S. securities rules and regulations applicable to U.S. domestic issuers such as the rules regulating solicitation of proxies and certain insider reporting and short-swing profit rules.

Risk Factors

In evaluating the Business Combination and the Proposals to be considered and voted on at the Meeting, you should carefully review and consider the risk factors set forth under the section titled "Risk Factors" beginning on page 45 of this proxy statement/prospectus. The occurrence of one or more of the events or circumstances described in that section, alone or in combination with other events or circumstances, may have a material adverse effect on (i) ISAA's ability to complete the Business Combination, and (ii) the business, cash flows, financial condition and results of operations of the Merger Sub following consummation of the Business Combination. Such risks include, but are not limited to:

Risks Relating to Hypebeast's Business and Operations

- *Hypebeast's business depends on its ability to offer digital media content and online retail products that attract visitors and online shoppers.*
- *Hypebeast depends on the Internet traffic to its websites for the operation of its business.*
- *Hypebeast relies on its e-commerce suppliers to supply goods for sale on its e-commerce platform.*
- *Hypebeast's business depends on its ability to maintain existing relationship with brand owners and advertising agencies and its ability to attract new digital media customers to place advertisements with it.*
- *Hypebeast relies on customers in the fashion industry.*
- *Hypebeast's business depends on a strong brand, which it might not be able to maintain or enhance; unfavorable customer feedback or negative publicity could adversely affect its brand.*
- *Any unauthorized use of Hypebeast's brand name or any other intellectual property infringements by third parties, and the expenses incurred in protecting such intellectual property rights, may adversely affect Hypebeast's business and reputation.*

- Hypebeast is exposed to the risk of infringement of intellectual property rights owned by third parties.
- Hypebeast may not be able to sustain the growth of revenue and profitability that it experienced historically.
- If Hypebeast fails to achieve the marketing objectives of the brand owners and advertising agencies, it could lose customers.

Risks Relating to the Corporate Structure

- If the PRC government deems that the contractual arrangements that establish the structure for operating our operations in mainland China (the “Contractual Arrangements”) do not comply with PRC regulatory restrictions on foreign investment in the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, Hypebeast could be subject to severe penalties or be forced to relinquish its interests in those operations.
- The Contractual Arrangements may not be as effective as direct ownership in providing control over Hypebeast Cultural.
- The shareholder of Hypebeast Cultural may potentially have a conflict of interests with Hypebeast.
- The Contractual Arrangements may be subject to scrutiny of the PRC tax authorities and transfer pricing adjustments and additional tax may be imposed.
- A substantial amount of costs and time may be involved in transferring the ownership of Hypebeast Cultural to Beijing Hypebeast under the Exclusive Option and Equity Trust Agreement.
- Any failure by Hypebeast Cultural or its shareholder to perform their obligations under the Contractual Arrangements with them would have a material and adverse effect on the business of Hypebeast.
- Hypebeast does not have any insurance which covers the risks relating to the Contractual Arrangements and the transactions contemplated thereunder.
- Hypebeast would be adversely affected if Hypebeast Cultural suffers losses.
- Uncertainties exist with respect to the interpretation and implementation of the Foreign Investment Law and its Implementation Regulations and how they may impact the viability of Hypebeast’s current corporate structure, corporate governance and business operations.
- Hypebeast may rely on dividends and other distributions on equity paid by its PRC subsidiaries to fund any cash and financing requirements it may have, and any limitation on the ability of Hypebeast’s PRC subsidiaries to make payments to it could have a material and adverse effect on its ability to conduct its business.

Risks Relating to Doing Business in Mainland China and Hong Kong

- The PRC government has significant authority to intervene or influence in a company’s operations in mainland China, such as Hypebeast’s, at any time. The PRC government may exert more control over offerings conducted overseas by and/or foreign investment in China-based issuers. If the PRC government exerts more oversight and control over offerings that are conducted overseas and/or foreign investment in China based issuers and Hypebeast were to be subject to such oversight and control, it may result in a material adverse change to Hypebeast’s business operations, including its Hong Kong operations, significantly limit or completely hinder its ability to offer or continue to offer securities to investors, and cause its shares to significantly decline in value or become worthless.
- Uncertainties arising from the legal system in China, including uncertainties regarding the interpretation and enforcement of PRC laws and the possibility that regulations and rules can change quickly with little advance notice, could hinder Hypebeast’s ability to offer or continue to offer shares, result in a material adverse change to its business operations, and damage Hypebeast’s reputation, which would materially and adversely affect its financial condition and results of operations and cause its shares to significantly decline in value or become worthless.
- The ADSs will be prohibited from trading in the United States under the Holding Foreign Companies Accountable Act, or the HFCAA, in 2024 if the PCAOB is unable to inspect or fully investigate auditors

located in Mainland China and Hong Kong, or as early as 2023 if proposed changes to the law are enacted. The delisting of the ADSs, or the threat of their being delisted, may materially and adversely affect the value of your investment.

- The PCAOB is currently unable to inspect Hypebeast's auditor in relation to their audit work performed for Hypebeast's financial statements and the inability of the PCAOB to conduct inspections over Hypebeast's auditor deprives Hypebeast's investors with the benefits of such inspections.*
- Failure to comply with cybersecurity, data privacy, data protection, or any other laws and regulations related to data may materially and adversely affect Hypebeast's business, financial condition, and results of operations.*
- If Hypebeast were to be required to obtain any permission or approval from the CSRC, the CAC, or other PRC authorities in connection with this offering under PRC law, it cannot predict whether or for how long it will be able to obtain such approval or complete such filing.*
- We are subject to PRC restrictions on currency exchange.*

ISAA will be treated as the “acquired” company for financial reporting purposes. In addition, the Summary Pro Forma Information does not purport to project the future financial position or operating results of Hypebeast following the Business Combination.

The unaudited pro forma condensed combined financial information has been prepared using the assumptions below:

- **Assuming No Redemptions:** This presentation assumes that no Public Shareholders of ISAA exercise redemption rights respect to their Public Shares for a pro rata share of cash in the Trust Account.
- **Assuming Maximum Redemptions:** This presentation assumes that 15,014,000 ISAA Public Shares are redeemed for their pro rata share of the cash in the Trust Account, which is the maximum amount that can be redeemed. This scenario gives effect to ISAA share redemptions for aggregate redemption payments of \$150,146,812 USD (HK\$1,170,619,620) at a redemption price of approximately \$10.00 USD (HK\$77.97) based on the investments held in the Trust Account as of December 31, 2021. RISK FACTORS

If the Business Combination is completed, the combined company will operate in a market environment that is difficult to predict and that involves significant risks, many of which will be beyond its control. You should carefully consider the risks described below before voting your shares. If any of the events, contingencies, circumstances or conditions described in the following risks actually occur, the combined company's business, financial condition or results of operations could be seriously harmed. If that happens, the trading price of Hypebeast Ordinary Shares or, if the Business Combination is not consummated, ISAA Class A common stock could decline, and you may lose part or all of the value of any Hypebeast Ordinary Shares or ISAA Class A common stock that you hold.

Risks Relating to Hypebeast's Business and Operations

Hypebeast's business depends on its ability to offer digital media content and online retail products that attract visitors and online shoppers.

Hypebeast's future growth depends on its ability to retain visitors to its websites and social media platforms, as well as its ability to continue attracting new online shoppers and gaining new purchases from its e-commerce platform. Constantly changing fashion trend and consumer preferences have affected and will continue to affect Hypebeast's business. To maintain its attractiveness, Hypebeast's websites and social media platforms are constantly updated to provide latest trend in fashion, lifestyle, culture and music. If Hypebeast fails to update its websites and social media platforms regularly, readers may lose interest in its online platforms and may not return again to look for information on new products and latest trend contents.

Hypebeast attempts to analyze visitors' and online shoppers' preference using data and determine its product selection and marketing strategy for its e-commerce platform accordingly. It cannot guarantee that its prediction on consumer behavior could be accurate. In addition, while visitors and followers of Hypebeast's integrated digital platforms are mostly from the male demographic, its online shoppers' gender ratio are near equal, which exposes Hypebeast to risks of disproportionate and unpredictable online conversion rates between its digital websites and social media platforms, with its e-commerce platform leading to missed targeted segments. There can be no guarantee or assurance that the number of either gender's online shoppers will continue to grow at the same rate as the future growth rate of Hypebeast's digital media content readership. If Hypebeast's prediction deviates further from the online retail shoppers' actual preference and it fails to offer products that are attractive to retail consumers at its e-commerce platform, the sales at its e-commerce platform may be adversely affected.

Further, privacy concerns and tightening regulatory restrictions will prevent Hypebeast from collecting or using data it collected in the course of its business to analyze consumer preference in a meaningful way or if there are any defects in its data analytic model, Hypebeast's prediction on consumer behavior may not be accurate. With regard to the accuracy of its data, Hypebeast relies on the information provided by its registered users or online shoppers as well as information obtained by monitoring its visitors' browsing behavior. Hypebeast does not verify the authenticity of all such data. If the information that Hypebeast collects is materially inaccurate or false, or there are increasing regulatory requirements over user consent in the absence of which prevents Hypebeast to capture and analyze such consumer preference data, its prediction on market trends as well as its business implementation and monetization strategies may be adversely affected.

Hypebeast must stay abreast of constantly changing consumer preferences and anticipate product trends that will appeal to existing and potential visitors and online shoppers, and any failure to identify and respond to such trends could result in decreased number of visitors and online shoppers and reduced attractiveness of its websites as a marketing platform for advertisers. This may in turn lead to significant adverse effects on its business, financial condition and results of operations.

Hypebeast depends on the Internet traffic to its websites for the operation of its business.

The Hypebeast, Hypebae and Popbee websites, together with Hypebeast's social media platforms, attract a large number of young adult readers by featuring up-to-date fashion, lifestyle, culture and music trends that are appealing to millennials. Through the Internet, Hypebeast's websites as well as the

advertisements on these websites are delivered to its followers and visitors around the globe. Its digital media customers choose Hypebeast for its ability to deliver the advertising materials to their target viewers. As such, the revenue from its digital media business depends on Hypebeast's ability to attract Internet traffic to its websites. In addition, sales of its e-commerce segment also depend heavily on the number of Internet users browsing its e-commerce platform.

In view of the importance of Internet traffic to Hypebeast's websites and e-commerce platform, should there be (i) any reduction in the number of followers and visitors in its websites and its e-commerce platform; (ii) any decrease in the popularity of its websites and its e-commerce platform in the markets where it operates; (iii) any failure by Hypebeast or third parties to make improvement, upgrades or enhancement to its websites and its e-commerce platform in a timely manner; (iv) any lasting or prolonged server interruption due to network failures or other factors; or (v) any other adverse developments specific to its websites and its e-commerce platform, Hypebeast's business, financial condition and results of operations could be adversely affected.

Hypebeast relies on its e-commerce suppliers to supply goods for sale on its e-commerce platform.

Hypebeast plans its procurement for the e-commerce platform at least 3 to 6 months before the commencement of each fashion season. Generally, Hypebeast does not enter into any long-term contracts with suppliers of its e-commerce platform. Such arrangement gives Hypebeast flexibility in deciding the brands and the type of products to procure for the next season, which involves consideration on the forthcoming market trends and the popularity of the brands as revealed by its market analysis. Further, due to Hypebeast's brand recognition and relationship with suppliers, favorable terms were being offered by some of its suppliers such as consignment sale arrangements and extended credit periods.

Hypebeast may also experience shipment delays in delivering popular items to its e-commerce warehouse located in Hong Kong, or not be able to replenish such items if they are sold out quickly. Hypebeast cannot guarantee that its suppliers will continue to provide goods to it and will provide the goods in an amount and lead time that is sufficient to meet the demand of its e-commerce customers. Hypebeast's agreements typically do not restrict its suppliers from selling products to other buyers or distributors. It also cannot assure you that the suppliers will continue to offer products to it on commercially attractive terms. Even if Hypebeast maintains good relationships with its suppliers, it may be unable to remain in business due to economic conditions, labor actions, regulatory or legal decisions, natural disasters or other causes. In the event that Hypebeast is unable to source products at all or at favorable terms, the revenue and operation of its e-commerce segment may be materially affected.

Hypebeast's business depends on its ability to maintain existing relationship with brand owners and advertising agencies and its ability to attract new digital media customers to place advertisements with it.

Hypebeast provides advertisement spaces and services to high-profile international brand owners and their advertising agencies. Hypebeast's ability to continue to grow its revenue and profit will depend in large part on expanding business with its current digital media customers and attracting new ones. Hypebeast relies on its reputation in the industry as well as its websites' viewing statistics to attract brand owners and advertising agencies to place advertisements with it. Hypebeast cannot guarantee that its digital media platforms will remain attractive. Further, the number of Hypebeast's current digital media customers may not expand further and may even decline. As Hypebeast's contracts with its digital media customers are generally on individual project basis, it generally does not enter into any long-term business contracts with its digital media customers. Accordingly, Hypebeast may have limited visibility as to its future revenue streams and there is no assurance that it will maintain or increase the level of its business with existing or potential customers. Should Hypebeast's digital media customers decide to reallocate their budgets and choose its competitors due to the market conditions or it fails to provide attractive digital media content and pricing structures to attract or retain customers or any other factors, the demand for its services may not grow or even decline and its business, results of operations and financial condition may be materially and adversely affected. Hypebeast also cannot guarantee that it would secure new digital media customers to advertise in its platforms.

If Hypebeast is unable to attract new visitors and maintain or increase consumer traffic to Hypebeast's websites or various digital media platforms, Hypebeast's potential digital media customers may not use, and

existing digital media customers may not continue to use Hypebeast's solutions for their promotional campaigns, then Hypebeast's sales will decrease and Hypebeast's operating results will be adversely affected.

Hypebeast relies on customers in the fashion industry.

Some of Hypebeast's digital media customers are from the fashion industries, including producers of apparel, accessory and footwear. The revenue and growth of the fashion industry is highly sensitive to the general economic performance regionally and globally. Should the fashion industry suffer a downturn or be affected by fluctuations in the macroeconomic conditions, the branding and marketing budgets of brand owners conducting business with Hypebeast may be adversely affected. Hypebeast's sales of branded products via its e-commerce platform would also be adversely affected if consumers are less willing to spend money on fashionable items due to economic downturn. This would have an impact on Hypebeast's business and financial performance.

Hypebeast does not enter into any long term contracts with its e-commerce customers. Should Hypebeast's e-commerce customers change their shopping behavior or it fails to offer goods which are appealing to its customers for sale on the e-commerce platform, its business results of operations and financial condition may be materially and adversely affected.

Hypebeast's business depends on a strong brand, which it might not be able to maintain or enhance; unfavorable customer feedback or negative publicity could adversely affect its brand.

Hypebeast believes that its Hypebeast brand under which it operates has significantly contributed to the growth of its business. It also believes that the strong awareness of the Hypebeast brand contributes to higher organic traffic on its websites and lower marketing costs. Therefore, Hypebeast believes that maintaining and enhancing its Hypebeast brand, whilst building and maintaining its other vertical brands, is critical to expand and retain its base of visitors, customers and suppliers.

Hypebeast's brand may be adversely affected if its public image or reputation is tarnished by negative publicity. Customer complaints or negative publicity about its websites, products, delivery times, product returns procedures, customer data handling and security practices, or customer support on its Internet-based platforms such as blogs and social media websites or on other platforms could have a significant negative impact on its reputation and on the popularity of its websites.

Hypebeast cannot guarantee that negative reports about its business or its brand will not occur in the future and serious damage to its brand, public image, reputation and business may follow as a result. If Hypebeast is unable to maintain or enhance its brand image, or if its brand image is damaged by negative publicity or if its brand is not accepted by audience, this could have a material adverse effect on its business, financial condition and results of operations.

Any unauthorized use of Hypebeast's brand name or any other intellectual property infringements by third parties, and the expenses incurred in protecting such intellectual property rights, may adversely affect Hypebeast's business and reputation.

Hypebeast regards its brand, trademarks, copyright in the digital content and other intellectual property rights as critical to its success. It has developed Hypebeast into a strong and well-recognised brand in the digital media and fashion industry. Hypebeast believes that many digital media customers approached it for its advertising services because of the reputation and strong brand image. It also believes that the followers and visitors of its platforms are attracted to the digital media platforms because of the quality digital content created by the its editorial teams. These visitors and followers may access the HBX E-Commerce platform via the link on the Hypebeast website and become Hypebeast's e-commerce customers. Hypebeast's continuing success and growth of both the digital media and e-commerce segments therefore depend on the its ability to protect and promote its brand, trademarks, copyright and other intellectual property rights.

As of September 30, 2021, Hypebeast owned certain copyrights in relation to its digital media content and advertising materials, including artistic works (such as artworks and photos), films (such as videos) or literary works (such as text) and a total of 231 trademarks registrations and 119 domain names (amongst which 2 domain names are awaiting verification for registration). Unauthorized use of the intellectual

properties by third parties may adversely affect the business and reputation of Hypebeast. For example, competitors and other third parties may imitate Hypebeast's brand or infringe its trademark by using an identical brand name or trademark or by creating brand names or inventing keywords that are confusingly similar to those owned by Hypebeast. It may also be possible for third parties to obtain and use Hypebeast's copyrighted materials, such as articles and blog posts on its digital media platforms, without authorization. Preventing such unauthorized use of intellectual property is inherently difficult. If Hypebeast is unable to prevent such unauthorized use, competitors and other third parties may drive visitors and followers away from Hypebeast, which could harm its reputation and materially and adversely affect its results of operations.

Hypebeast generally relies on trademark and copyright laws to protect its intellectual property rights. However, the validity, viability, enforceability and scope of protection of intellectual property in Internet-related industries could be uncertain. In particular, the laws in certain other countries may not offer intellectual property protection to the same extent as the laws of Hong Kong, and the laws in certain jurisdictions where Hypebeast hold intellectual property protection rights may not be extendable to certain other locations where infringement has taken place. In the future, if suspected infringement arises, litigation may be necessary to enforce Hypebeast's intellectual property rights and to protect its intellectual properties. Future litigation could result in substantial costs and diversion of resources. As of the date of this proxy statement/prospectus, Hypebeast has applied for the trademark registration of 180 trademarks in Hong Kong, the U.S., mainland China, the EU, Japan, the United Kingdom, Canada, South Korea and other countries and regions. However, there is no assurance that these applications for trademark registration will eventually be approved or that Hypebeast would be granted exclusive rights to use these marks as registered trademarks. If the trademarks cannot be registered, or if the registration process is delayed, such trademarks may be infringed, which may materially and adversely affect Hypebeast's business, prospects, results of operations and financial condition. In addition, there is no assurance that the use of the trademarks by Hypebeast will not infringe the intellectual property rights of any other third party or in breach of the laws of Hong Kong, the US, mainland China or other jurisdictions (whether stated above or otherwise newly identified) before the registration process has commenced and/or is completed. Any claim in relation to the use of trademark by Hypebeast, made or threatened to be made against it, in the future, regardless of merits, could result in litigation and could adversely and materially affect its business, results of operations and financial conditions.

Hypebeast is exposed to the risk of infringement of intellectual property rights owned by third parties.

Hypebeast's digital media platforms report the latest trend in fashion, lifestyle, culture and music. The articles written by its editorial teams and posted on its digital media platforms include updates, event reports and product reviews. Its editorial teams gather information from various sources to create digital content and may include artworks, photos or videos in the articles. Where possible, Hypebeast endeavors to create original artworks, photos or videos or use materials provided to it by brand owners or their advertising agencies. In other situations, Hypebeast acknowledges the sources of these artworks, photos and/or videos.

The copyright of the artworks, photos and videos Hypebeast used on its digital media platforms may be owned by third parties. Hypebeast cannot guarantee the copyright owner will not object to the use of the relevant copyrighted materials on its digital media platforms. Hypebeast may incur legal liability for infringing intellectual property rights in the pictures or videos that it posts on its digital media platforms.

Hypebeast cannot assure that in the future it will not be threatened or sued upon in relation to infringement of intellectual property rights of others. Any such claims, if arise and regardless of their merits, could be time-consuming and costly to defend, and may result in litigation and divert management's attention and resources. Furthermore, an adverse determination in any such litigation or proceedings to which Hypebeast may become a party could cause Hypebeast to pay substantial damages, may result in harm to its reputation or may require it to pay ongoing royalties or may subject it to injunctions requiring Hypebeast to remove content or take other steps to prevent infringement, each of which could prevent Hypebeast from pursuing some or all of its business and result in its users and advertising customers or potential users and advertising customers deferring or limiting their use of its services, which could materially adversely affect its financial condition and results of operations.

Hypebeast may not be able to sustain the growth of revenue and profitability that it experienced historically.

Hypebeast experienced fluctuations in its revenue and gross profit margin during the recent fiscal years and will implement plans to sustain the growth momentum of its business. Hypebeast's revenue decreased from HK\$751.4 million in fiscal 2020 to HK\$674.2 million (US\$86.6 million) in fiscal 2021 due to the impact of the COVID-19 pandemic. Its revenue increased from HK\$285.5 million for the six months ended September 30, 2020 to HK\$440.8 million (US\$56.6 million) for the six months ended September 30, 2021, in line with the recovery in Hypebeast's business during the post-COVID-19 pandemic period. Similarly, Hypebeast's gross profit margin decreased from 50.5% in fiscal 2020 to 49.6% in fiscal 2021. Its gross profit margin increased from 44.8% for the six months ended September 30, 2020 to 58.6% for the six months ended September 30, 2021.

External factors affecting the development of, and which may add uncertainty to, Hypebeast's business include but are not limited to the economic conditions of the US, the EU, Asia and Hong Kong, the general industry trend, the consumption behavior of consumers and government policies. In order to sustain the growth momentum, Hypebeast plans to, among others, increase the traffic to its digital media platforms which it may monetize into its revenue and profitability.

Hypebeast intends to introduce additional localized websites in different languages for different regions of the world. Hypebeast also has to recruit additional employees with the necessary skills and knowledge in relation to its business. Its content production team requires staff who are proficient in multimedia design and its marketing team looks for sales talents who are able to solicit business from brand owners and advertising agencies. Hypebeast cannot guarantee that it could recruit the required skilled persons for the growth of its business.

In addition, the growth and expansion of Hypebeast's business will require significant managerial, financial and human resources and may result in significant expenditures incurred by Hypebeast, which may or may not be recoverable, and may divert management's attention from other business concerns. There is no assurance that Hypebeast will successfully implement its strategies or that its strategies, even if implemented, will result in the achievement of its objectives.

In the event that Hypebeast fails to implement efficiently the aforementioned measures to sustain the growth of its revenue and profitability or it fails to secure recurring business from its media service and e-commerce customers, its business operations and financial conditions may be adversely affected.

If Hypebeast fails to achieve the marketing objectives of the brand owners and advertising agencies, it could lose customers.

Hypebeast offers services to digital media customers depending on the individual needs and marketing objectives of the brand owners and advertising agencies. In general, the marketing objectives of an advertiser or marketer, such as the number of impression of an advertisement, will be set out in the relevant agreement with the customer before the commencement of a project and may be revised throughout the project, and Hypebeast's digital media services may be fine-tuned with reference to the feedback from the customer.

Most of Hypebeast's digital media customers assess its performance mainly based on its effectiveness in achieving their marketing objectives. As a result, Hypebeast is expected to provide effective digital media services that can achieve the desired marketing objectives (such as reaching a specific number of impressions within a given time frame). If Hypebeast's digital media services are not able to achieve the desired marketing objectives, its relationships with digital media customers, reputation and revenue will be adversely affected.

Hypebeast's international footprint exposes it to a variety of different local legal, regulatory, tax, payment, and cultural standards which it might fail to comply with.

While Hypebeast's physical presence is largely concentrated in Hong Kong, its websites and social media platforms can be viewed by Internet users around the world. For its e-commerce platform, Hypebeast sources its offering of fashion products from various countries including US, Germany, France and Japan and Hypebeast had sold its goods to customers globally in the past. Therefore, the international scope of Hypebeast's operations exposes it to several types of complexities that increase the risks associated with its business, including but not limited to:

- the need to serve its overseas customers with different cultural background and time zones resulting in difficulties in maintaining relationship with them;
- the need to effectively adjust its business to target the local markets, including the offering of country-specific websites in foreign languages (the Hypebeast website is available in traditional and simplified Chinese, Japanese, Korean, Indonesia and English language);
- different local laws and regulations, including relating to consumer protection, data privacy, labor, intellectual property, licensing, tax, trade, and customs duties or other trade restrictions;
- the potential for unexpected changes in legal, political or economic conditions in the countries from which Hypebeast sources or into which it sells;
- exposure to liabilities under various anti-corruption and anti-money laundering laws; and
- fluctuations in foreign exchange rates against the Hong Kong dollar.

If Hypebeast fails to manage these risks adequately, or if one or more of these risks materializes, this could have a material adverse effect on its reputation, business, financial condition and results of operations.

Hypebeast relies on third-party courier to deliver goods to e-commerce customers and third-party suppliers for technical and payment services.

Hypebeast uses a number of third-party couriers to deliver goods ordered by its e-commerce customers at the e-commerce platform. Interruptions to or failures in these third parties' delivery services could prevent the timely or proper delivery of the goods to customers. These interruptions may be due to events that are beyond Hypebeast's control or the control of these delivery companies, such as inclement weather, natural disasters, transportation disruptions or labor unrest. If these third-party couriers fail to deliver the goods, Hypebeast may not be able to find alternative delivery companies to provide delivery services in a timely and reliable manner, or at all. If the goods are not delivered in proper condition or on a timely basis to its customers, Hypebeast's business and reputation could suffer.

Hypebeast relies on online payment service providers for the settlement of sales transacted on its e-commerce platform. Hypebeast also relies on third-party technical service providers for the operation of its integrated digital platforms. Any technical interruption in the functions provided by its third-party service providers could have a material adverse effect on the financial condition of Hypebeast.

Hypebeast's e-commerce business is subject to seasonality risk.

Hypebeast's e-commerce business is seasonal and it typically records higher sales during the months between October and January and also between May and July. Its sales may be affected by a change in weather in different countries. Historically, the fourth quarter of each year generally contributes the largest portion of the annual revenues of its e-commerce business as a result of increased advertising and promotion activities, which is primarily because (i) shoppers traditionally increase their spending on warm clothes and other fashion items during the winter season; and (ii) a number of promotions of its e-commerce platform typically occur in the winter season, such as Thanksgiving sale and Cyber Monday sale which are followed by the Christmas and New Year sales. Festive shopping, with customers shopping for gifts and treats, is an important driver for sales on Hypebeast's e-commerce business. In addition, the festive ambience, as well as holiday promotions, also make impulse spending more likely. Therefore, historically revenue performance has seen a greater spike during the winter months, where there are numerous holiday celebrations such as Thanksgiving or Christmas. In addition, as a result of seasonal fluctuations, comparisons of sales and operating results between different quarters within a single year are not necessarily meaningful and should not be relied on as indicators of Hypebeast's full-year performance.

Hypebeast's business operations could be significantly disrupted by information technology system failures or undetected programming errors or other defects of its platforms.

Hypebeast's business operations and success depend on the stable performance of its information technology system, which it utilizes to, among other things:

- host its integrated digital platforms comprising Hypebeast, Hypebae, Popbee and HBX store;

- analyze consumer preference;
- communicate with its digital media customers;
- design, execute and place advertisements; and
- monitor its inventory level.

Any system failure that interrupts Hypebeast's ability to provide services to digital media customers and sell its products to consumers through the e-commerce platform could significantly reduce the attractiveness of its services and reduce its revenue. Hypebeast's systems are vulnerable to a variety of events, including telecommunications failures, power shortages, computer virus infection, malicious human acts and natural disasters. In addition, any steps to increase the reliability and to avoid the redundancy of its information technology system may not be effective and may not be successful in preventing system failures.

Hypebeast's integrated digital platforms may contain undetected programming errors or other defects and it faces the challenge of external interruptions. For example, parties unrelated to Hypebeast may develop programs to interrupt the operation of its websites and online store. Users may also develop programs or use other means to infringe content of its integrated digital platforms. The occurrence of undetected errors or defects in its integrated digital platforms, and Hypebeast's failure to discover and stop the external interruptions could disrupt its operations, damage its reputation and weaken its users' experience. As a result, such errors, defects and external interruptions could adversely affect Hypebeast's business, financial condition and results of operations.

Hypebeast may be liable for its users' privacy being compromised which may materially and adversely affect its reputation and business.

Hypebeast collects, receives, stores and processes personal information and other data from users of its websites. In addition to standard data security measures such as passwords and firewalls, Hypebeast seeks to protect users' information and accounts by employing comprehensive content filters, such as auto-detecting and blocking the appearance of phone numbers or bank account numbers to ensure that content posted by its users on its webpages are screened to prevent disclosure of personal information. As of the date of this proxy statement/prospectus, there has been no material users' privacy breach.

Hypebeast collects various personal data in the operation of its business. For example, visitors may register for an account on its integrated digital platforms. Similarly Hypebeast also collects its online shoppers' personal details such as name and address for the delivery of the goods. In addition, its information technology system monitors visitors' activities on its webpages so as to collect data on consumer preference.

Hypebeast collects personal data from registered users with their prior consent. Hypebeast's privacy policy is stated at the webpages of its integrated digital platforms. Its internal control procedure aims to ensure compliance with the Personal Data (Privacy) Ordinance (Chapter 486 of the Laws of Hong Kong or other applicable laws) in relation to the proper collection, use and storage of the personal data it collected.

Despite its efforts to employ security features to safeguard user information, there is no guarantee that Hypebeast can successfully keep its users free from inappropriate behavior, offensive contact or other acts of third parties that violate the privacy of its users. Similar to other providers of Internet content services and operators of Internet platforms, Hypebeast is subject to risks of hacking. Unauthorized users may gain access to or control of other users' personal accounts and their personal data for malicious purposes. Any failure or perceived failure by Hypebeast to (i) prevent its users' exposure to such infiltration and (ii) comply with its privacy policies, its privacy-related obligations to users or other third parties, or any privacy laws or regulations, or any compromise of security that results in the unauthorized release or transfer of personally identifiable information or users' personal data, may result in governmental enforcement actions, litigation or public statements against Hypebeast by its users, consumer advocacy groups or others, which would detrimentally affect its reputation, and materially and adversely affect its business.

Hypebeast is subject to product liability risk for the goods sold on its e-commerce platform.

In recent fiscal years, Hypebeast primarily sold clothing, shoes and accessories to its e-commerce customers worldwide through the e-commerce platform. Hypebeast cannot guarantee that the goods

shipped to its customers are free of any patent or latent defects. If defective or sub-standard goods cause damage or injury to its customers or persons who deal with the goods, Hypebeast may be liable for the damage or injury.

In addition, any defects in the products could result in material and adverse customer reaction towards Hypebeast, resulting in negative publicity and additional time, effort and expenditures to correct the problems and settle or defend the claims against Hypebeast. Hypebeast maintains limited insurance policies covering losses related to potential product liabilities. Nonetheless, any litigation in relation to product liability claims may result in substantial costs and diversion of its resources.

There is no assurance that Hypebeast will not encounter any of the abovementioned claims in the future. Any such claims may have an adverse monetary impact. Even if such claims are found meritless, the resulting negative publicity may cause significant damage to Hypebeast's reputation.

Hypebeast relies on the availability of social media platforms for the promotion of its business.

Hypebeast makes use of various social media platforms, such as Facebook, Instagram, Twitter, Pinterest, YouTube, Weibo and Snapchat to promote its business. For instance, its Hypebeast accounts on Facebook, Instagram and Twitter recorded approximately 29,488,773 social media followers as of February 28, 2022. Hypebeast also put its articles on Facebook so that its viewers may like or share its posts, thereby allowing the post to reach a broader audience.

While Hypebeast has internal control policies in place to monitor the content it uploads to the above social media platforms and ensure compliance with these social media platforms' policies, Hypebeast cannot guarantee that these social media platforms will continue to allow it to operate its accounts. If its accounts are blocked or banned, Hypebeast will lose a channel for communicating with its viewers and its popularity may be adversely impacted. Hypebeast may also as a result fail to attract viewers to its other websites through these social media platforms, leading to decreased monthly page views or monthly unique visitors and losing both advertising and retail customers.

If Hypebeast's digital content is not viewed by its visitors and followers, Hypebeast's digital media customers may not engage it for advertising services and its financial results will be adversely impacted.

Further, such social media platforms do not charge Hypebeast fees for its corporate user accounts. If these social media platforms demand payment of fees for its corporate user accounts, Hypebeast's financial performance may be adversely affected.

Rapid changes in fashion trends, consumer preference and spending patterns may affect Hypebeast's e-commerce business and result in obsolete or slow-moving inventories.

The sale of Hypebeast's products on the e-commerce platform is subject to fashion trends, consumer preferences and spending patterns which may change rapidly. Hypebeast's ability to analyze and predict fashion trends precisely as well as its ability to respond in a timely manner will determine the level of success of its e-commerce business and its growth rate. In addition, demand for products can change between the time when inventories are ordered and they are sold. As such, Hypebeast's customers may not order its products in the quantities that it expects. As at March 31, 2020 and 2021 and September 30, 2021, Hypebeast's inventories amounted to HK\$71.4 million, HK\$42.4 million (US\$5.4 million) and HK\$54.3 million (US\$7.0 million), respectively. Its inventory turnover days in fiscal 2020 and 2021 and the six months ended September 30, 2021 were approximately 160, 159 and 178 days, respectively. If Hypebeast fails to anticipate, identify or respond to changes in consumer preferences in a timely manner, it may experience a reduced demand for its products, a lower level of revenue and an increased level of inventory turnover days as well as inventory obsolescence. Further, if Hypebeast fails to manage its inventories effectively, it may be subject to a heightened risk of inventory obsolescence, a decline in inventory values, and significant inventory write-downs or write-offs. In addition, Hypebeast may be required to lower sale prices in order to reduce inventory level, which may lead to lower gross margins or a loss. High inventory levels may also require Hypebeast to commit substantial capital resources, preventing it from using that capital for other important purposes. As such, Hypebeast's results of operations, financial performance and business could be materially and adversely affected.

As a result of being a public company, Hypebeast is obligated to develop and maintain proper and effective internal controls over financial reporting, and any failure to maintain the adequacy of these internal controls may adversely affect investor confidence in Hypebeast and, as a result, the value of its securities.

Hypebeast will be required, pursuant to Section 404 of the Sarbanes-Oxley Act, to furnish a report by management on, among other things, the effectiveness of its internal control over financial reporting as of the end of the fiscal year that coincides with the filing of its second annual report on Form 20-F. This assessment will need to include disclosure of any material weaknesses identified by Hypebeast's management in its internal control over financial reporting. In addition, Hypebeast's independent registered public accounting firm will be required to attest to the effectiveness of its internal control over financial reporting in its first annual report required to be filed with the SEC following the date Hypebeast is no longer an "emerging growth company."

Hypebeast's current internal controls and any new controls that it develops may become inadequate because of changes in conditions in its business. In addition, changes in accounting principles or interpretations could also challenge its internal controls and require that it establish new business processes, systems and controls to accommodate such changes. Additionally, if these new systems, controls or standards and the associated process changes do not give rise to the benefits that Hypebeast expects or do not operate as intended, it could materially and adversely affect its financial reporting systems and processes, its ability to produce timely and accurate financial reports or the effectiveness of its internal control over financial reporting. Moreover, Hypebeast's business may be harmed if it experiences problems with any new systems and controls that result in delays in their implementation or increased costs to correct any post-implementation issues that may arise.

During the evaluation and testing process of Hypebeast's internal controls, if it identifies one or more material weaknesses in its internal control over financial reporting, it will be unable to certify that its internal control over financial reporting is effective. Hypebeast cannot assure you that there will not be material weaknesses or significant deficiencies in its internal control over financial reporting in the future. Any failure to maintain internal control over financial reporting could severely inhibit its ability to accurately report its financial condition or results of operations. If Hypebeast is unable to conclude that its internal control over financial reporting is effective, or if its independent registered public accounting firm determines that it has a material weakness or significant deficiency in its internal control over financial reporting, Hypebeast could lose investor confidence in the accuracy and completeness of its financial reports, the market price of its securities could decline, and Hypebeast could be subject to sanctions or investigations by the SEC or other regulatory authorities. Failure to remedy any material weakness in its internal control over financial reporting, or to implement or maintain other effective control systems required of public companies, could also restrict its future access to the capital markets.

The growth and expansion of Hypebeast's business places a continuous, significant strain on its operational and financial resources, and its internal controls and procedures may not be adequate to support its operations. As Hypebeast continues to grow, it may not be able to successfully implement requisite improvements to these systems, controls and processes, such as system access and change management controls, in a timely or efficient manner. Hypebeast's failure to improve its systems and processes, or their failure to operate in the intended manner, whether as a result of the growth of Hypebeast's business or otherwise, may result in its inability to accurately forecast its revenue and expenses, or to prevent certain losses. Moreover, the failure of Hypebeast's systems and processes could undermine its ability to provide accurate, timely and reliable reports on its financial and operating results and could impact the effectiveness of its internal control over financial reporting. In addition, Hypebeast's systems and processes may not prevent or detect all errors, omissions or fraud.

Hypebeast has identified significant deficiencies in its internal controls over financial reporting, which, if not corrected, could affect the reliability of Hypebeast's financial statements and have other adverse consequences.

In connection with the audit of Hypebeast's consolidated financial statements as of and for the years ended March 31, 2020 and 2021, Hypebeast and Hypebeast's independent registered public accounting firm have identified significant deficiencies in Hypebeast's internal controls over financial reporting, which Hypebeast has begun to address and have a plan to further address. A significant deficiency is a deficiency,

or a combination of deficiencies, in internal controls over financial reporting that is less severe than a material weakness but important enough to merit attention by those responsible for oversight of the company's financial reporting.

The significant deficiencies identified relate to (i) Hypebeast's insufficient accounting personnel with appropriate knowledge of SEC reporting, and (ii) Hypebeast's lack of formal, comprehensive accounting policies and procedures relating to the application and compliance with SEC reporting.

Neither Hypebeast nor its independent registered public accounting firm undertook a comprehensive assessment of Hypebeast's internal controls under the Sarbanes-Oxley Act for purposes of identifying and reporting any weakness in Hypebeast's internal controls over financial reporting. Had Hypebeast performed a formal assessment of its internal controls over financial reporting, or had Hypebeast's independent registered public accounting firm performed an audit of Hypebeast's internal control over financial reporting, additional internal control deficiencies may have been identified.

Hypebeast has begun remediation and will continue to implement several measures, including, among others: (i) hiring a chief accounting officer with appropriate knowledge and experience in SEC reporting. The chief accounting officer, together with other experienced accountants, would support Hypebeast's chief financial officer to continue build up a stronger accounting and finance team with a greater understanding of SEC reporting requirements; (ii) organizing regular training for Hypebeast's accounting staff, especially trainings related to SEC reporting requirements. These staff would be kept current with the SEC reporting requirements via various means, such as attending external SEC reporting seminar as well as the getting access of the most updated SEC technical information; (iii) formulating comprehensive accounting policies and procedures that's tailored to Hypebeast's business. Such policies would include but not limited to (a) compliance reporting checklist for annual report and other SEC filings; and (b) processes to monitor new SEC reporting requirements; (iv) implementing internal controls over financial reporting policies to ensure accounting policies and procedures are operating effectively; and (v) creating relevant SEC reporting policies and procedures manual, which will be maintained, regularly reviewed, updated and readily accessible to accounting personnel. However, the implementation of these measures may not fully address these deficiencies in Hypebeast's internal control over financial reporting, and Hypebeast cannot conclude that they have been fully remediated. Hypebeast's failure to correct these deficiencies or failure to discover and address any other deficiencies could result in inaccuracies in Hypebeast's financial statements and impair Hypebeast's ability to comply with applicable financial reporting requirements and related regulatory filings on a timely basis. Moreover, ineffective internal control over financial reporting could significantly hinder Hypebeast's ability to prevent fraud.

Hypebeast's historical outstanding accounts receivable have been high. Inability to collect the accounts receivable on a timely basis, if at all, could materially and adversely affect Hypebeast's financial condition, liquidity and results of operations.

As of March 31, 2020 and 2021 and September 30, 2021, Hypebeast's traded and outstanding unbilled accounts receivables were HK\$188.3 million, HK\$172.7 million (US\$22.2 million) and HK\$200.5 million (US\$25.8 million), respectively. Although Hypebeast conducts credit evaluations of its customers, it generally does not require collateral or other security from its customers. In addition, Hypebeast has had a relatively high customer concentration. As a result, an extended delay or default in payment relating to a significant account will have a material and adverse effect on the aging schedule and turnover days of its accounts receivable. Hypebeast's inability to collect its accounts receivable on a timely basis, if at all, could materially and adversely affect its financial condition, liquidity and results of operations.

Fluctuations in foreign currency exchange rates may result in foreign currency exchange losses.

Hypebeast undertakes certain operating transactions in foreign currency, mainly in USD and Euro, which exposes Hypebeast to foreign currency risk. In fiscal 2020 and 2021 and the six months ended September 30, 2021, revenue received from its digital media customers denominated in USD was approximately USD34.0 million, USD39.3 million and USD48.8 million, representing approximately 46.1%, 40.0% and 50.3% of total digital media income, respectively; and those denominated in Euro was approximately EUR5.8 million, EUR6.7 million and EUR3.5 million, representing approximately 10.5%, 9.5% and 9.8% of total digital media income, respectively. Other major currencies and revenue received from

its e-commerce customers was dominated in USD. In fiscal 2020 and 2021 and the six months ended September 30, 2021, payments made by Hypebeast for settlement of purchases from its suppliers denominated in USD were approximately USD4.8 million, USD3.3 million and USD2.2 million, representing approximately 23.4%, 21.3% and 21.6% of total purchase, respectively; and those denominated in Euro were approximately EUR7.1 million, EUR6.1 million and EUR3.5 million representing approximately 42.0%, 48.0% and 42.4% of total purchase, respectively.

The value of HK\$ against USD, Euro and other currencies may fluctuate and Hypebeast's cash flows, revenues, earnings and financial position may be materially and adversely affected if there is any severe fluctuation in exchange rates among HK\$, USD and Euro. Hypebeast has not used and at present does not intend to use any derivative instruments in foreign currency to hedge the risk against foreign currency exchange fluctuations. Accordingly, Hypebeast is exposed to exchange rate fluctuations and such exposure may adversely affect the financial position and performance of Hypebeast.

If Hypebeast fails to attract, recruit or retain its key personnel including its executive directors, senior management and key employees, its ongoing operations and growth could be affected.

Hypebeast's success depends to a large extent on the efforts of its key personnel including its executive directors, senior management and key employees. For instance, its chairman, chief executive officer and executive director, Mr. Ma is the founder of Hypebeast and is responsible for the overall business development and financial and strategic planning of Hypebeast. There is no assurance that Mr. Ma or other key personnel will not voluntarily terminate their employment with Hypebeast. The loss of any of its key personnel could be detrimental to Hypebeast's ongoing operations. Hypebeast's success will also depend on its ability to attract and retain qualified personnel in order to manage its existing operations as well as its future growth. Hypebeast may not be able to successfully attract, recruit or retain key personnel and this could adversely impact its growth.

Adverse changes in Hong Kong's or global economic and political policies could materially and adversely affect Hypebeast's business, financial condition and results of operations.

Any prolonged slowdown in the global or Hong Kong economy or changes in political conditions may have a negative impact on Hypebeast's business, results of operations and financial condition, and continued turbulence in the international markets may adversely affect Hypebeast's ability to access the capital markets to meet potential liquidity needs. The global spread of COVID-19 in a significant number of countries around the world and the traveling restrictions due to COVID-19 have resulted in, and may intensify, global economic distress, and the extent to which it may affect Hypebeast's business and results of operations will depend on the Hypebeast's future developments, which are highly uncertain and cannot be predicted.

In addition, Hypebeast's results of operations may also be affected by geopolitical events and other developments beyond Hypebeast's control, which may in turn adversely affect the economic and market conditions in Hong Kong and globally. There have been concerns over unrest, terrorist threats and the potential for war in the Middle East, Europe and elsewhere, as well as over the conflicts involving Ukraine, Syria and North Korea. For example, the military conflict between Russia and Ukraine has resulted in an escalated regional instability, amplified the existing geopolitical tension among Russia and other countries in the region and in the west, as well as adversely affected commodity and other financial markets or economic conditions. The United States, European Union, the United Kingdom, Switzerland and other countries have imposed, and may further impose, financial and economic sanctions and export controls targeting certain Russian entities and/or individuals, which could adversely affect the global economy and financial markets, even though Hypebeast does not have any direct exposure to Russia. The duration of such military conflict and the related sanctions, as well as their impact on the global financial markets, cannot be predicted. In addition, political unrest such as protests or demonstrations could disrupt economic activities and adversely affect Hypebeast's business. The unrest in Hong Kong in recent years led to decreased consumer spending and an overall negative impact on Hong Kong's economy. There can be no assurance that these protests and other economic, social, or political unrest in the future will not have a material adverse effect on Hypebeast's financial conditions and results of operations. Furthermore, there is considerable uncertainty over the long-term effects of the monetary and fiscal policies adopted by central banks and financial authorities in some of the world's leading economies, including the United States and China.

Hypebeast may face risks related to natural disasters, health epidemics and other outbreaks, which could significantly disrupt its operations.

Hypebeast's business may be materially and adversely affected by the effects of natural disasters, health epidemics or other public safety concerns. For example, the outbreak of a novel strain of coronavirus (COVID-19), first reported in December 2019, has spread rapidly throughout the world. On March 11, 2020, the World Health Organization declared the outbreak a "global pandemic". The pandemic has resulted in government authorities implementing numerous measures to try to contain the virus, such as travel bans and restrictions, quarantines, stay-at-home or shelter-in-place orders and business shutdowns. These measures may adversely impact Hypebeast's employees and operations and the operations of its customers, suppliers and business partners, and may negatively impact demands for digital media and e-commerce services. In 2020, Hypebeast experienced decrease in its revenue as a result of the COVID-19 pandemic. In 2021, its business operation had substantially returned to normal levels. Recently, there has been an increasing number of COVID-19 cases, including the COVID-19 Delta and Omicron variant cases, in multiple countries and regions. As a result, various measures, including travel restrictions and stay-at-home orders, have been reinstated and Hypebeast may have to adjust various aspects of its operations. Concerns about the transmission of COVID-19 and mandates or orders from government authorities could continue to affect consumer behaviors, leading to changes in consumer spending. There remain significant uncertainties surrounding COVID-19, including the existing and new variants of COVID-19, and its further development as a global pandemic, including the effectiveness of vaccine programs against existing and any new variants of COVID-19. The extent to which the COVID-19 outbreak may continue to adversely affect the macro-economic environment as well as Hypebeast's business, results of operations and financial condition remains uncertain, and will depend on future developments, including the duration, severity and reach of the COVID-19 outbreak, and actions taken to contain the outbreak or treat its impacts.

Hypebeast's headquarters is located in Hong Kong, where most of its management and employees currently reside. Consequently, if any natural disasters, health epidemics or other public safety concerns were to affect Hong Kong and other locations where Hypebeast's offices reside in, its operation may experience material disruptions, which may materially and adversely affect its business, financial condition and results of operations. It is also vulnerable to natural disasters and other calamities. Fire, floods, typhoons, earthquakes, power loss, telecommunications failures, break-ins, war, riots, terrorist attacks or similar events may give rise to server or service interruptions, breakdowns, system failures, technology platform failures or internet failures, which could cause the loss or corruption of data or malfunctions of software or hardware, as well as adversely affect its ability to provide products and services. Hypebeast's business operation could also be disrupted if any of its employees are suspected of having contracted any contagious disease or condition, since it could require its employees to be quarantined or its offices to be closed down and disinfected. All of these may have a material adverse effect on Hypebeast's results of operations and financial condition in the near terms. Additionally, if the outbreak persists or escalates, it may be subject to further negative impact on its business operations or financial condition.

Risks Relating to the Industry

If Hypebeast fails to successfully develop and introduce new services, and keep up with the rapidly changing technology, its competitive position and ability to generate revenue and growth could be affected.

Internet is a fast changing and evolving platform. In order to adapt to this environment, Hypebeast has to continuously develop new services for its business, such as customized websites for its viewers in different regions of the world. The introduction of new services is subject to risks and uncertainties. Unexpected technical, operational, distribution or other problems could delay or prevent the introduction of its new services. Moreover, there can be no assurance that any of Hypebeast's new features and services will achieve widespread market acceptance.

Hypebeast's success also depends on its ability to adapt to rapidly changing technologies and to enhance the quality of its existing services. Hypebeast may experience difficulties that could delay or prevent the successful design, development, introduction or marketing of its new services or products. Any new service or product Hypebeast develops will need to meet the requirements of its existing and potential customers and may not achieve significant market acceptance. If Hypebeast fails to keep pace with

changing technologies and to introduce successful and well-accepted products or services for its existing or potential customers, it could lose its customers and its revenue and growth could be adversely affected.

Intense competition in the media segment.

The online marketing industry is intensely competitive. In the highly competitive online marketing industry, Hypebeast may not be able to compete successfully and this could reduce its market share and adversely affect its financial performance.

There are numerous companies that specialize in the provision of online marketing and advertising services. Hypebeast competes with other competitors in Hong Kong, US and worldwide primarily on the following bases:

- brand recognition;
- quality of services;
- effectiveness of sales and marketing efforts;
- creativity in design and content of its websites;
- price;
- strategic relationships with brand owners and advertising agencies;
- hiring and retention of talented staff; and
- quality and volume of traffic of its websites.

Increased competition may result in price reductions for advertising space, reduced margins and loss of Hypebeast's market share. Hypebeast's existing competitors may in the future achieve greater market acceptance and recognition and gain a greater market share. It is also possible that potential competitors may emerge and acquire a significant market share. If existing or potential competitors develop or offer services that are superior to those offered by Hypebeast in terms of any of the above areas, Hypebeast's business, results of operations and financial conditions would be negatively affected. Hypebeast also competes with traditional forms of media, such as newspapers, magazines, radio and television broadcast, for brand owners and advertising agencies and advertising revenue.

Its existing and potential competitors may enjoy competitive advantages over it, such as longer operating histories, greater name recognition, larger customer bases, greater access to advertising space on popular websites, apps and mobile sites, and significantly greater financial, technical and marketing resources. If Hypebeast fails to compete successfully, it could lose customers. Hypebeast also cannot assure you that its strategies will remain competitive or that they will continue to be successful in the future. Increasing competition could result in pricing pressure and loss of its market share, either of which could have a material adverse effect on its financial conditions and results of operations.

Further, Hypebeast's ability to generate and maintain certain level of revenue in the digital media services segment will depend on a number of factors, many of which are beyond its control, including but not limited to:

- intensified competition in the marketing and advertising industry and potential downward pressure on advertising prices;
- the acceptance and/or attractiveness of online digital media and social media platforms as an effective way for advertisers to place advertisements;
- availability of quality advertising space;
- the effectiveness of its marketing strategy, delivery, tracking and reporting systems;
- the development of software that blocks digital advertisements and the expansion of advertisement blocking on digital media and social media platforms, which might affect the delivery, display or tracking of digital advertisements; and
- implementation of government policy that promotes Internet and e-commerce industries.

Intense competition in the e-commerce business.

In the e-commerce business Hypebeast competes with its competitors for customer orders and brand owners who supply their goods for Hypebeast to sell. Hypebeast's current or potential competitors include major online retailers in US and worldwide that offer a wide range of general or fashionable merchandise product categories, major traditional retailers that are moving into online retailing and major Internet companies that have commenced e-commerce businesses and physical retail stores.

In addition, new and enhanced technologies may increase the competition in the e-commerce industry. New competitive business models may appear, for example, based on new forms of social media or social commerce. Increased competition may reduce Hypebeast's margins, market share and brand recognition, or result in significant losses. Some of its current or future competitors may have longer operating histories, greater brand recognition, better supplier relationships, larger customer bases or greater financial, technical or marketing resources than Hypebeast does. Those smaller companies or new entrants may be acquired by, receive investment from or enter into strategic relationships with well-established and well-financed companies or investors which would help enhance their competitive positions.

Some of Hypebeast's competitors may be able to secure more favorable terms from brand owners, devote greater resources to marketing and promotional campaigns, adopt more aggressive pricing or inventory policies and devote substantially more resources to their websites, mobile apps and systems development than us.

Hypebeast cannot assure you that it will be able to compete successfully against current or future competitors, and competitive pressures may have a material and adverse effect on its business, financial condition and results of operations.

Hypebeast's revenue growth depends on the continuous growth of Internet usage and infrastructure.

If use of the Internet does not continue to grow, or if the Internet infrastructure does not effectively support its growth, Hypebeast's revenue and growth could be adversely affected.

Hypebeast's business and financial results depend heavily on the continuous growth in the use of Internet, whether through computers or other mobile connected devices. Internet usage may be inhibited for a number of reasons, many of which are beyond Hypebeast's control, including but not limited to:

- security concerns;
- unavailability of inexpensive and high speed service;
- inconsistent quality of service; and
- inadequate network infrastructure.

If Internet infrastructure is unable to support the growing use of the Internet, the performance, usability and reliability of the Internet may be hindered and may decline. In addition, websites, apps and mobile sites may experience interruptions in their service as a result of sabotage and other delays occurring throughout the Internet network infrastructure. The Internet could lose its viability as a commercial medium due to delays in the development or adoption of new technology required to accommodate increased levels of Internet activity. If use of the Internet does not continue to grow, or if the Internet infrastructure does not effectively support its growth, Hypebeast's revenue and growth could be adversely affected.

The PRC's regulation and censorship of information distributed over the Internet in the PRC may adversely affect Hypebeast's business and Hypebeast may be liable for information contained on its website.

The PRC Government has enacted laws and regulations governing Internet access and the distribution of products, services, news, information, audio-video programs and other content through the Internet. The PRC Government prohibits the distribution of information through the Internet that it deems to be in violation of PRC laws and regulations. If any of the content on Hypebeast's, its PRC subsidiary' or the variable interest entity's digital media platform were deemed to violate any content restrictions by the PRC Government, it would not be able to continue to display such content and could become subject to penalties

which could materially and adversely affect its business, financial condition and results of operations. Hypebeast may also be subject to potential liability for any unlawful actions.

Risks Relating to the Corporate Structure

If the PRC government deems that the contractual arrangements that establish the structure for operating the operations in mainland China (the “Contractual Arrangements”) do not comply with PRC regulatory restrictions on foreign investment in the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, Hypebeast could be subject to severe penalties or be forced to relinquish its interests in those operations.

The PRC government regulates certain businesses through strict business licensing requirements and laws and regulations including restrictions on foreign investment. For instance, foreign investors are not allowed to own more than 50% equity interests in any PRC company engaging in value-added telecommunications (“VAT”) services with certain exceptions relating to online retail and mobile commerce, domestic multi-party communications, store-and-forward, call centres business; in addition, the primary foreign investor must also have experience and a good track record in providing VAT services overseas. Because Hypebeast is an exempted company incorporated in the Cayman Islands, it is classified as a foreign enterprise under PRC laws and regulations, and its wholly-owned PRC subsidiary, Beijing Hypebeast Trading Co., Ltd (“Beijing Hypebeast”), is a foreign-invested enterprise (“FIE”). To comply with PRC laws and regulations, Hypebeast relies on the Contractual Arrangements with Hypebeast Cultural Communication (Beijing) Co., Ltd (“Hypebeast Cultural”) and its shareholder to conduct VAT services in China. The Contractual Arrangements with Hypebeast Cultural and its shareholder enable Hypebeast to obtain effective control over the finance and operation of Hypebeast Cultural and the entire economic interests and benefits generated by Hypebeast Cultural.

Hypebeast believes that the ownership structures of Hypebeast Cultural and Beijing Hypebeast comply with all existing PRC laws and regulations, and the Contractual Arrangements between Beijing Hypebeast, Hypebeast Cultural and its shareholder governed by PRC law are valid, binding and enforceable, and will not result in any violation of PRC laws or regulations currently in effect. However, there are substantial uncertainties regarding the interpretation and application of current and future PRC laws, regulations and rules. If Hypebeast or Hypebeast Cultural is found to be in violation of any existing or future PRC laws or regulations, or fail to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities would have broad discretion to take action in dealing with such violations or failures, including:

- revoking the business licenses of such entities;
- discontinuing or restricting the conduct of any transactions between Hypebeast and Hypebeast Cultural;
- imposing fines, confiscating the income from Hypebeast Cultural, or imposing other requirements with which Hypebeast or Hypebeast Cultural may not be able to comply;
- requiring Hypebeast to restructure its ownership structure or operations, including terminating the Contractual Arrangements with Hypebeast Cultural and deregistering the equity pledges of Hypebeast Cultural, which in turn would affect Hypebeast’s ability to consolidate, derive economic interests from, or exert effective control over Hypebeast Cultural; or
- restricting or prohibiting Hypebeast’s use of the proceeds of any of its financing outside PRC to finance Hypebeast’s business and operations in PRC.

The imposition of any of these penalties would result in a material and adverse effect on Hypebeast’s ability to conduct its business. In addition, it is unclear what impact the PRC government actions would have on Hypebeast and on its ability to consolidate the financial results of Hypebeast Cultural in its consolidated financial statements, if the PRC government authorities were to find the legal structure and the Contractual Arrangements to be in violation of PRC laws and regulations. If the imposition of any of these government actions causes Hypebeast to lose its right to direct the activities of Hypebeast Cultural or its right to receive substantially all the economic benefits and residual returns from Hypebeast Cultural

and Hypebeast is not able to restructure its ownership structure and operations in a satisfactory manner, Hypebeast would no longer be able to consolidate the financial results of Hypebeast Cultural in its consolidated financial statements. Either of these results, or any other significant penalties that might be imposed on Hypebeast in this event, would have a material adverse effect on its financial condition and results of operations.

Furthermore, it is uncertain whether any new PRC laws, rules or regulations relating to Contractual Arrangements will be adopted or if adopted, what they would provide. For example, the National People's Congress approved the PRC Foreign Investment Law on March 15, 2019 (the "Foreign Investment Law") and the State Council approved the Regulation on Implementing the Foreign Investment Law (the "Implementation Regulations") on December 12, 2019, effective from January 1, 2020. The Supreme People's Court of China issued a judicial interpretation on the Foreign Investment Law on December 26, 2019, effective from January 1, 2020. The Foreign Investment Law and the Implementation Regulations do not touch upon the relevant concepts and regulatory regimes that were historically suggested for the regulation of the variable interest entity structures, and thus this regulatory topic remains unclear under the Foreign Investment Law. Since the Foreign Investment Law and the Implementation Regulations are new, there are substantial uncertainties exist with respect to its implementation and interpretation and it is also possible that variable interest entities will be deemed as foreign invested enterprises and be subject to restrictions in the future. Such restrictions may cause interruptions to our operations, products and services and may incur additional compliance cost, which may in turn materially and adversely affect our business, financial condition and results of operations.

Any of these events could cause significant disruption to our business operations and severely damage Hypebeast's reputation, which would in turn materially and adversely affect Hypebeast's business, financial condition and results of operations. If occurrences of any of these events results in Hypebeast's inability to direct the activities of the variable interest entity in mainland China that most significantly impact their economic performance, or Hypebeast's failure to receive the economic benefits from the variable interest entity, Hypebeast may not be able to consolidate the entity in its consolidated financial statements in accordance with IFRS.

The Contractual Arrangements may not be as effective as direct ownership in providing control over Hypebeast Cultural.

Hypebeast relies on the Contractual Arrangements to operate our business in mainland China. Such Contractual Arrangement may not be as effective in providing Beijing Hypebeast with control over Hypebeast Cultural as direct ownership. If Beijing Hypebeast has direct ownership of Hypebeast Cultural, it will be able to exercise its rights as a shareholder to effect changes in the board of directors of Hypebeast Cultural, which in turn could effect changes, subject to any applicable fiduciary obligations, at the management level. However, under the Contractual Arrangements, Hypebeast relies on the performance by the shareholder of Hypebeast Cultural of her obligations under the Contractual Arrangements to exercise control over Hypebeast Cultural. Such risks exist throughout the period in which Hypebeast intends to operate its business through the Contractual Arrangements with Hypebeast Cultural. Hypebeast may replace the shareholder of Hypebeast Cultural at any time pursuant to the Contractual Arrangements with Hypebeast Cultural and its shareholder. However, if any dispute relating to these contracts remains unresolved, Hypebeast will have to enforce its rights under the Contractual Arrangements through the operations of PRC law and courts and therefore will be subject to uncertainties in the PRC legal system. Therefore, the Contractual Arrangements with the shareholder of Hypebeast Cultural may not be as effective in ensuring Beijing Hypebeast's control over Hypebeast Cultural as direct ownership would be.

The shareholder of Hypebeast Cultural may potentially have a conflict of interests with Hypebeast.

Hypebeast's control over Hypebeast Cultural is based on the Contractual Arrangements. Therefore, conflict of interests of the shareholder of Hypebeast Cultural will adversely affect the interests of Hypebeast. Pursuant to the Exclusive Option and Equity Trust Agreement, the shareholder of Hypebeast Cultural will irrevocably appoint any person as designated by Beijing Hypebeast as their representative to exercise the voting rights of such shareholder of Hypebeast Cultural. Therefore, it is unlikely that there will be potential conflict of interests between Hypebeast and the shareholder of Hypebeast Cultural. However, in the unlikely

event that conflict of interests arises and cannot be resolved, Hypebeast will consider removing and replacing the shareholder of Hypebeast.

The Contractual Arrangements may be subject to scrutiny of the PRC tax authorities and transfer pricing adjustments and additional tax may be imposed

Hypebeast could face material adverse tax consequences if the PRC tax authorities determine that the Contractual Arrangements were not entered into based on arm's length negotiations. If the PRC tax authorities determine that these agreements were not entered into on an arm's length basis, they may adjust income and expenses of Beijing Hypebeast and/or Hypebeast Cultural for PRC tax purposes, which could result in higher tax liabilities on Beijing Hypebeast and/or Hypebeast Cultural. The operating and financial results of Hypebeast may be materially and adversely affected if the tax liabilities of Hypebeast Cultural or those of Beijing Hypebeast increase significantly or if they are required to pay interest on late payments and other penalties.

A substantial amount of costs and time may be involved in transferring the ownership of Hypebeast Cultural to Beijing Hypebeast under the Exclusive Option and Equity Trust Agreement.

In case Beijing Hypebeast exercises its option to acquire all or part of the equity interests in Hypebeast Cultural under the Exclusive Option and Equity Trust Agreement, such acquisition may only be conducted to the extent as permitted by the applicable PRC laws and will be subject to necessary approvals and relevant procedures under the applicable PRC laws. In addition, the abovementioned acquisitions may be subject to a minimum price limitation (such as an appraised value for the equity interests in Hypebeast Cultural) or other limitations as imposed by the applicable PRC laws. Further, a substantial amount of taxes, other necessary costs (if any), expenses and time may be involved in transferring the ownership of Hypebeast Cultural, which may have a material adverse impact on the business, prospects and results of operation of Hypebeast.

Any failure by Hypebeast Cultural or its shareholder to perform their obligations under the Contractual Arrangements with them would have a material and adverse effect on the business of Hypebeast.

If Hypebeast Cultural or its shareholder fail to perform their respective obligations under the Contractual Arrangements, Hypebeast may have to incur substantial costs and expend additional resources to enforce such arrangements. Hypebeast may also have to rely on legal remedies under PRC law, including seeking specific performance or injunctive relief, and claiming damages, the effectiveness of which cannot be assured. For example, if the shareholder of Hypebeast Cultural was to refuse to transfer her equity interest in Hypebeast Cultural to Beijing Hypebeast or its designee when Beijing Hypebeast exercises the purchase option pursuant to the Contractual Arrangements, or if they were otherwise to act in bad faith towards Hypebeast, Hypebeast may have to take legal actions to compel them to perform its contractual obligations. All the Contractual Arrangements are governed by PRC law and provide for the resolution of disputes through arbitration in China. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. Meanwhile, there are very few precedents and little formal guidance as to how contractual arrangements in the context of a variable interest entity should be interpreted or enforced under PRC law, and as a result it may be difficult to predict how an arbitration panel would view such contractual arrangements. As a result, uncertainties in the PRC legal system could limit Hypebeast's ability to enforce these Contractual Arrangements. Additionally, under PRC law, rulings by arbitrators are final, parties cannot appeal the arbitration results in courts, and if the losing parties fail to carry out the arbitration awards within a prescribed time limit, the prevailing parties may only enforce the arbitration awards in PRC courts through arbitration award recognition proceedings, which would require additional expenses and delay. Hypebeast Cultural holds the necessary licenses and permits of Hypebeast. In the event Hypebeast is unable to enforce the Contractual Arrangements, Hypebeast may not be able to exert effective control over Hypebeast Cultural, and its ability to conduct these businesses may be negatively affected.

Hypebeast does not have any insurance which covers the risks relating to the Contractual Arrangements and the transactions contemplated thereunder.

The insurance of Hypebeast does not cover the risks relating to the Contractual Arrangements and the transactions contemplated thereunder. If any risk arises from the Contractual Arrangements in the future,

such as those affecting the enforceability of the Contractual Arrangements and the relevant agreements for the transactions contemplated thereunder and the operation of the Contractual Arrangements, the results of Hypebeast may be adversely affected. However, Hypebeast will monitor the relevant legal and operational environment from time to time to comply with the applicable laws and regulations. Hypebeast will continue evaluating the feasibility, the cost and the benefit of insuring the transactions contemplated under the Contractual Arrangements.

Hypebeast would be adversely affected if Hypebeast Cultural suffers losses.

Beijing Hypebeast is not required to share the losses of, or provide financial support to Hypebeast Cultural under the Contractual Arrangements. Further, Hypebeast Cultural is a limited liability company and shall be solely liable for its own debts and losses with assets and properties owned by it. However, given that (i) the business operations of Hypebeast Cultural is an important part of the PRC business conducted by Hypebeast, (ii) Hypebeast Cultural holds the requisite PRC operational licenses and approvals, and (iii) the financial position and results of operations of Hypebeast Cultural are consolidated into Hypebeast's financial statements under the applicable accounting principles, Hypebeast's business, financial position and results of operations would be adversely affected if Hypebeast Cultural suffers losses.

Uncertainties exist with respect to the interpretation and implementation of the Foreign Investment Law and its Implementation Regulations and how they may impact the viability of Hypebeast's current corporate structure, corporate governance and business operations.

The Foreign Investment Law embodies an expected PRC regulatory trend to rationalize its foreign investment regulatory regime in line with prevailing international practice and the legislative efforts to unify the corporate legal requirements for both foreign and domestic investments. However, since the Foreign Investment Law and the Implementation Regulations are relatively new, uncertainties still exist in relation to its interpretation and implementation. For instance, under the Foreign Investment Law, "foreign investment" refers to the investment activities directly or indirectly conducted by foreign individuals, enterprises or other entities in China. Though it does not explicitly classify the Contractual Arrangements as a form of foreign investment, there is no assurance that foreign investment via the Contractual Arrangements would not be interpreted as a type of indirect foreign investment activities under the definition in the future. In addition, the definition contains a catch-all provision which includes investments made by foreign investors through means stipulated in laws or administrative regulations or other methods prescribed by the State Council. Therefore, it still leaves leeway for future laws, administrative regulations or provisions promulgated by the State Council to provide for the Contractual Arrangements as a form of foreign investment. In any of these cases, it will be uncertain whether the Contractual Arrangements will be deemed to be in violation of the market access requirements for foreign investment under the PRC laws and regulations. Furthermore, if future laws, administrative regulations or provisions prescribed by the State Council mandate further actions to be taken by companies with respect to existing Contractual Arrangements, Hypebeast may face substantial uncertainties as to whether it can complete such actions in a timely manner, or at all. Failure to take timely and appropriate measures to cope with any of these or similar regulatory compliance challenges could materially and adversely affect Hypebeast's current corporate structure, corporate governance and business operations.

Hypebeast may rely on dividends and other payments made by its PRC subsidiaries to fund any cash and financing requirements it may have, and any limitation on the ability of Hypebeast's PRC subsidiaries to make payments to it could have a material and adverse effect on its ability to conduct its business.

Hypebeast is a holding company incorporated under the laws of the Cayman Islands and as such relies on dividends and other payments made by its PRC subsidiaries to satisfy part of its liquidity requirements. If Hypebeast's PRC subsidiaries incur debt on their own behalf in the future, the instruments governing the debt may restrict their ability to pay dividends or make other payments to Hypebeast. In addition, the income of Hypebeast's PRC subsidiaries in turn depends on the service fees paid by the variable interest entity and the PRC tax authorities may require us to adjust the taxable income under the Contractual Arrangements in a manner that would materially and adversely affect the ability of Hypebeast's PRC subsidiaries to pay dividends and make other payments to Hypebeast.

In addition, Hypebeast's PRC subsidiaries are required to maintain certain statutory reserves and may also allocate a portion of their after-tax profits to staff welfare and bonus funds, which in each case are not distributable as cash dividends except in the event of liquidation. Any limitation on the ability of Hypebeast's PRC subsidiaries to pay dividends or make other payments to it could materially and adversely limit Hypebeast's ability to grow, make investments or acquisitions that could be beneficial to its business, pay dividends, or otherwise fund and conduct its business. For example, relevant PRC laws and regulations permit the PRC companies to pay dividends only out of their accumulated after-tax profits, if any, as determined in accordance with PRC accounting standards and regulations and Hypebeast's PRC subsidiaries shall make up its losses of previous years when conducting outward remittance. Additionally, Hypebeast's PRC subsidiaries can only distribute dividends upon approval of the shareholders after they have met the PRC requirements for appropriation to the statutory reserves. As a result of these and other restrictions under the PRC laws and regulations, Hypebeast's PRC subsidiaries are restricted to transfer a portion of their net assets to Hypebeast either in the form of dividends, loans or advances.

Risks Relating to Doing Business in Mainland China and Hong Kong

The PRC government has significant authority to intervene or influence in a company's operations in mainland China, such as Hypebeast's, at any time. The PRC government may exert more control over offerings conducted overseas by and/or foreign investment in China-based issuers. If the PRC government exerts more oversight and control over offerings that are conducted overseas and/or foreign investment in China based issuers and Hypebeast were to be subject to such oversight and control, it may result in a material adverse change to Hypebeast's business operations, including its Hong Kong operations, significantly limit or completely hinder its ability to offer or continue to offer securities to investors, and cause its shares to significantly decline in value or become worthless.

Hypebeast conducts its operations in mainland China through its PRC subsidiaries and the variable interest entity. Hypebeast's operations in mainland China are governed by PRC laws and regulations. The PRC government may intervene or influence its business operations at any time, or may extend such oversight and control to Hypebeast's Hong Kong operations, which could result in a material change in Hypebeast's operations and/or the value of its shares. In addition, the PRC government has recently indicated an intent to exert more oversight and control over listings conducted overseas and/or foreign investment in China-based issuers. Hypebeast cannot assure you that the oversight will not be extended to companies operating in Hong Kong like it and any such action may hinder its ability to offer or continue to offer its securities to investors, result in a material adverse change to its business operations, including its Hong Kong operations, and damage its reputation, which could cause its shares to significantly decline in value or become worthless. See also "— Failure to comply with cybersecurity, data privacy, data protection, or any other laws and regulations related to data may materially and adversely affect its business, financial condition, and results of operations."

Uncertainties arising from the legal system in China, including uncertainties regarding the interpretation and enforcement of PRC laws and the possibility that regulations and rules can change quickly with little advance notice, could hinder Hypebeast's ability to offer or continue to offer shares, result in a material adverse change to its business operations, and damage Hypebeast's reputation, which would materially and adversely affect its financial condition and results of operations and cause its shares to significantly decline in value or become worthless.

Hypebeast may be affected directly or indirectly by PRC laws and regulations. The legal system in China is a civil law system based on written statutes. Unlike common law systems, it is a system in which decided legal cases may be cited for reference but have less precedential value. The laws, regulations, and legal requirements in China are quickly evolving and their interpretation and enforcement involve uncertainties. These uncertainties could limit the legal protections available to you and Hypebeast. In addition, Hypebeast cannot predict the effect of future developments in the PRC legal system, particularly with regard to new economies, including the promulgation of new laws, changes to existing laws or the interpretation or enforcement thereof, or the preemption of local regulations by national laws. Furthermore, the PRC legal system is based in part on government policies and internal rules, some of which are not published on a timely basis or at all. As a result, Hypebeast may not be aware of its potential violation of these policies and

rules. In addition, any administrative and court proceedings in China may be protracted and result in substantial costs and diversion of resources and management attention.

New laws and regulations may be enacted from time to time and substantial uncertainties exist regarding the interpretation and implementation of current and any future PRC laws and regulations applicable to Hypebeast's businesses. In particular, the PRC government authorities may continue to promulgate new laws, regulations, rules and guidelines governing new economy companies with respect to a wide range of issues, such as intellectual property, unfair competition and antitrust, privacy and data protection, and other matters. Compliance with these laws, regulations, rules, guidelines, and implementations may be costly, and any noncompliance or associated inquiries, investigations, and other governmental actions may divert significant management time and attention and Hypebeast's financial resources, bring negative publicity, subject it to liabilities or administrative penalties, or materially and adversely affect its business, financial condition, results of operations, and the value of its shares.

The ADSs will be prohibited from trading in the United States under the Holding Foreign Companies Accountable Act, or the HFCAA, in 2024 if the PCAOB is unable to inspect or fully investigate auditors located in Mainland China and Hong Kong, or as early as 2023 if proposed changes to the law are enacted. The delisting of the ADSs, or the threat of their being delisted, may materially and adversely affect the value of your investment.

The HFCAA was signed into law on December 18, 2020. The HFCAA states that if the SEC determines that Hypebeast has filed audit reports issued by a registered public accounting firm that has not been subject to inspection for the PCAOB for three consecutive years beginning in 2021, the SEC will prohibit Hypebeast's shares or the ADSs from being traded on a national securities exchange or in the over-the-counter trading market in the United States. On December 16, 2021, the PCAOB issued a report to notify the SEC of its determination that the PCAOB is unable to inspect or investigate completely registered public accounting firms headquartered in Mainland China and Hong Kong. The PCAOB identified Hypebeast's auditor as one of the registered public accounting firms that the PCAOB is unable to inspect or investigate completely. In March 2022, the SEC issued its first list of issuers identified under the HFCAA indicating that the companies on the list are now formally subject to the delisting provisions if they remain on the list for three consecutive years.

Whether the PCAOB will be able to conduct inspections of Hypebeast's auditor before the issuance of Hypebeast's financial statements on Form 20-F for the year ending December 31, 2023, which is due by April 30, 2024, or at all, is subject to substantial uncertainty and depends on a number of factors out of Hypebeast's, and Hypebeast's auditor's, control. If the ADSs are prohibited from trading in the United States, there is no certainty that Hypebeast will be able to list on a non-U.S. exchange or that a market for the ADSs will develop outside of the United States. Such a prohibition would substantially impair your ability to sell or purchase the ADSs when you wish to do so, and the risk and uncertainty associated with delisting would have a negative impact on the price of the ADSs. Also, such a prohibition would significantly affect Hypebeast's ability to raise capital on terms acceptable to Hypebeast, or at all, which would have a material adverse impact on Hypebeast's business, financial condition, results of operations, and prospects.

On June 22, 2021, the U.S. Senate passed a bill, which would reduce the number of consecutive non-inspection years required for triggering the prohibitions under the HFCAA from three years to two. On February 4, 2022, the U.S. House of Representatives passed a bill, which contained, among other things, an identical provision. If this provision is enacted into law and the number of consecutive non-inspection years required for triggering the prohibitions under the HFCAA is reduced from three years to two, then the ADSs could be prohibited from trading in the United States as early as 2023.

The PCAOB is currently unable to inspect Hypebeast's auditor in relation to their audit work performed for Hypebeast's financial statements and the inability of the PCAOB to conduct inspections over Hypebeast's auditor deprives Hypebeast's investors with the benefits of such inspections.

Hypebeast's auditor, the independent registered public accounting firm that issues the audit report included elsewhere in this prospectus, as an auditor of companies that are traded publicly in the United States and a firm registered with the PCAOB, is subject to laws in the United States pursuant to which the PCAOB conducts regular inspections to assess its compliance with the applicable professional standards.

Hypebeast's auditor is included on a list of audit firms the PCAOB determined it is unable to inspect or investigate completely because of a position taken by one or more authorities in those jurisdictions, and is therefore subject to the PCAOB's determination and currently not inspected by the PCAOB.

Inspections of other audit firms that the PCAOB has conducted outside China have identified deficiencies in those firms' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. The inability of the PCAOB to conduct inspections or full investigations of Hypebeast's auditor would deprive investors in Hypebeast securities of the benefits of such PCAOB inspections. In addition, the inability of the PCAOB to conduct inspections or full investigations of auditors would make it more difficult to evaluate the effectiveness of our independent registered public accounting firm's audit procedures or quality control procedures as compared to auditors that are subject to the PCAOB inspections, which could cause investors and potential investors to lose confidence in the audit procedures and reported financial information and the quality of Hypebeast's financial statements.

Failure to comply with cybersecurity, data privacy, data protection, or any other laws and regulations related to data may materially and adversely affect Hypebeast's business, financial condition, and results of operations.

Hypebeast may be subject to a variety of cybersecurity, data privacy, data protection, and other laws and regulations related to data, including those relating to the collection, use, sharing, retention, security, disclosure, and transfer of confidential and private information, such as personal information and other data. These laws and regulations apply not only to third-party transactions, but also to transfers of information within its organization.

These laws and regulations may restrict Hypebeast's business activities and require it to incur increased costs and efforts to comply, and any breach or noncompliance may subject Hypebeast to proceedings against it, damage its reputation, or result in penalties and other significant legal liabilities, and thus may materially and adversely affect its business, financial condition, and results of operations.

In some jurisdictions, including mainland China, the cybersecurity, data privacy, data protection, or other data-related laws and regulations are relatively new and evolving, and their interpretation and application may be uncertain. For example, the PRC Data Security Law, which was promulgated by the Standing Committee of the National People's Congress on June 10, 2021 and took effect on September 1, 2021, requires data collection to be conducted in a legitimate and proper manner, and stipulates that, for the purpose of data protection, data processing activities must be conducted based on data classification and hierarchical protection system for data security. Furthermore, the recently issued Opinions on Strictly Cracking Down Illegal Securities Activities require (i) speeding up the revision of the provisions on strengthening the confidentiality and archives management relating to overseas issuance and listing of securities and (ii) improving the laws and regulations relating to data security, cross-border data flow, and management of confidential information. The PRC Personal Information Protection Law, which was promulgated by the Standing Committee of the National People's Congress on August 20, 2021 and took effect on November 1, 2021, integrates the scattered rules with respect to personal information rights and privacy protection and applies to the processing of personal information within mainland China as well as certain personal information processing activities outside mainland China, including those for the provision of products and services to natural persons within China or for the analysis and assessment of acts of natural persons within China. Although as of the date of this proxy statement/prospectus, Hypebeast, its PRC subsidiary and the variable interest entity had not collected, stored, or managed any personal information in mainland China, given that there remain uncertainties regarding the further interpretation and implementation of those laws and regulations, Hypebeast cannot assure you that it will be compliant with all relevant laws and regulations in all respects, and it may be ordered to rectify and terminate any actions that are deemed illegal by the government authorities and become subject to fines and other government sanctions, which may materially and adversely affect its business, financial condition, and results of operations.

The Regulations on Network Data Security Management (Draft for Comments), or the Draft Network Data Regulations, was released by the Cyberspace Administration of China (the "CAC") on November 14, 2021. According to the Draft Network Data Regulations, data processors conducting the following activities shall apply for cybersecurity review: (i) merger, reorganization or division of internet platform

operators that have acquired a large number of data resources related to national security, economic development or public interests affects or may affect national security; (ii) listing abroad of data processors processing over one million users' personal information; (iii) listing in Hong Kong which affects or may affect national security; or (iv) other data processing activities that affect or may affect national security. The Draft Network Data Regulations also provide that operators of large internet platforms that set up headquarters, operation centers or research and development centers overseas shall report to the national cyberspace administration and competent authorities. In addition, the Draft Network Data Regulations also require that data processors processing important data or listed overseas shall conduct an annual data security self-assessment or entrust a data security service institution to do so, and submit the data security assessment report of the previous year to the local branch of CAC before January 31 each year. As of the date of this proxy statement/prospectus, the Network Data Regulations had not yet been formally adopted and there is no timetable as to when it will be enacted. As such, substantial uncertainties exist with respect to the enactment timetable, final content, interpretation and implementation, and Hypebeast cannot assure that relevant governmental authorities will not interpret the laws and regulations in ways that may negatively affect it. On December 28, 2021, Measures for Cybersecurity Review was issued by CAC jointly with other governmental authorities, which took effect on February 15, 2022. Under the Measures for Cybersecurity Review, the procurement of network products and services by critical information infrastructure operators and the data processing activities conducted by network platform operators which affect or may affect national security shall be subject to cybersecurity review. Besides, according to the Measures for Cybersecurity Review, a network platform operator who holds the personal information of more than one million users and is seeking for listing in a foreign country must apply for a cybersecurity review.

Hypebeast, its PRC subsidiary and the variable interest entity do not collect, store, or manage any personal information in mainland China. As such, Hypebeast currently does not expect the laws and regulations released by the CAC or other recent regulations will have an impact on its business, results of operations, or this offering, and it believes that it is compliant with the regulations and policies that have been issued by the CAC to date. However, Hypebeast still faces uncertainties regarding the interpretation and implementation of these laws and regulations in the future. Cybersecurity review could result in disruption in its operations, negative publicity with respect to the company, and diversion of its managerial and financial resources. Furthermore, if Hypebeast were found to be in violation of applicable laws and regulations in China during such review, it could be subject to fines or other government sanctions and reputation damages. Therefore, potential cybersecurity review, if applicable to Hypebeast, could materially and adversely affect its business, financial condition, and results of operations.

If Hypebeast were to be required to obtain any permission or approval from the CSRC, the CAC, or other PRC authorities in connection with this offering under PRC law, it cannot predict whether or for how long it will be able to obtain such approval or complete such filing.

The Regulations on Mergers and Acquisitions of Domestic Companies by Foreign Investors, or the M&A Rules, adopted by six PRC regulatory agencies in 2006 and amended in 2009, purport to require offshore special purpose vehicles that are controlled by PRC domestic companies or individuals and that have been formed for the purpose of seeking a public listing on an overseas stock exchange through acquisitions of PRC domestic companies or assets to obtain CSRC approval prior to publicly listing and trading their securities on an overseas stock exchange. The interpretation and implementation of the regulations remain unclear.

In addition, the PRC government authorities may strengthen oversight over offerings that are conducted overseas. For instance, on July 6, 2021, the relevant PRC governmental authorities promulgated the Opinions on Strictly Cracking Down on Illegal Securities Activities, which emphasized the need to strengthen the supervision over overseas listings by PRC companies. Effective measures, such as promoting the construction of relevant regulatory systems, are to be taken to deal with the risks and incidents of China-based overseas-listed companies, cybersecurity and data privacy protection requirements and similar matters. On November 14, 2021, the CAC publicly solicited opinions on the Draft Network Data Regulations, according to which, data processors seeking a public listing in Hong Kong that affect or may affect national security shall apply for cybersecurity review. On December 28, 2021, the Revised Cybersecurity Review Measures was released, which stipulate, among others, that any online platform operator holding personal information of over one million users that intends to apply for overseas listing shall apply for a cybersecurity review. “— Failure to comply with cybersecurity, data privacy, data protection, or any other laws and regulations related to data may materially and adversely affect Hypebeast’s business, financial condition, and results of operations.” These statements and regulations are recently issued and there remain substantial uncertainties about their interpretation and implementation.

On December 24, 2021, the CSRC released the draft Administrative Provisions on the Offshore Listing and Securities Issuance of PRC-Based Companies and the draft Administrative Measures on the Filing of Offshore Listing and Securities Issuance of PRC-Based Companies for public comments through January 23, 2022 (collectively, the “CSRC Draft Rules”). Under the CSRC Draft Rules, issuers that intend to list or offer securities on foreign stock exchanges through direct offshore listing (i.e., the listing of a PRC-incorporated company) or indirect offshore listing (i.e., the listing of an overseas company that meets the following conditions: (a) more than 50% of the revenue, profit, gross assets or net assets of the issuer in the last fiscal year originated from a PRC-incorporated company or companies, (b) a majority of the issuer’s senior executives in charge of its business operations are PRC citizens or habitually reside in the PRC and the issuer’s business operations are mainly conducted or located in the PRC) shall complete a filing with the CSRC within three business days upon the issuer’s initial filing of its listing application documents with the foreign stock exchange. The relevant filing materials include but are not limited to: (i) the filing report and relevant undertakings; (ii) regulatory opinions issued by, filings with or approvals from competent authorities of our industry, if applicable; (iii) cybersecurity assessment review opinions issued by competent authorities, if applicable; (iv) opinions issued by a PRC legal counsel; and (v) the prospectus used for the overseas listing. If the filing documents submitted to the CSRC are complete and in compliance with the applicable requirements, the CSRC will issue a notice of record within 20 business days. It is uncertain whether, when and in what form the CSRC Draft Rules will be enacted. Hypebeast believes that it does not fall within the definition of “indirect offshore listing”. However, given that (i) it is uncertain whether the CSRC Draft Rules will take effect as currently drafted; and (ii) PRC governmental authorities have significant discretion in interpreting and implementing statutory provisions and there remains significant uncertainty in the interpretation and enforcement of the CSRC Draft Rules, there is no assurance that Hypebeast will not be required to comply with the filing requirements under the CSRC Draft Rules if the CSRC Draft Rules are adopted into law in the future or if the PRC regulatory authorities take a position contrary to Hypebeast’s. If Hypebeast is required to comply with the filing requirements under the CSRC Draft Rules (if enacted), it is uncertain whether it can, or how long it will take to, complete such filing procedures.

Hypebeast believes that it is not required to obtain any permission from PRC authorities to operate its business or issue its shares to foreign investors as of the date of this proxy statement/prospectus, including permissions from the CSRC or CAC. However, if it later finds out that it were required to obtain such permissions or approvals in the future in connection with the listing or continued listing of its securities on stock exchange outside of Hong Kong or mainland China, or if applicable laws, regulations, or interpretations change and obligate Hypebeast to obtain such permissions or approvals in the future, it is uncertain how long it will take for Hypebeast to obtain such approval, and, even if it obtains such permissions and/or approval, the permissions and/or approval could be rescinded. Any failure to obtain or a delay in obtaining the necessary permissions or approvals from the PRC authorities to conduct offerings or list outside of Hong Kong or mainland China may subject it to sanctions imposed by the PRC regulatory authorities, which could include fines and penalties, proceedings against it, and other forms of sanctions, and its ability to conduct business, invest into mainland China as foreign investments or accept foreign investments, or list on a U.S. or other overseas exchange may be restricted, and its business, reputation, financial condition, and results of operations may be materially and adversely affected.

We are subject to PRC restrictions on currency exchange.

Some of Hypebeast’s expenses and a portion of its revenues are denominated in Renminbi. The PRC government imposes controls on the convertibility of the Renminbi into foreign currencies and, in certain cases, the remittance of currency out of China. Under Hypebeast’s current corporate structure, it may rely on dividend payments from its PRC subsidiaries to fund any cash and financing requirements it may have. Under existing PRC foreign exchange control regulations, payments of current account items, including profit distributions, interest payments and trade and service-related foreign exchange transactions, can be made in foreign currencies without prior approval from SAFE by complying with certain procedural requirements. Therefore, Hypebeast’s PRC subsidiaries are currently able to pay dividends in foreign currencies to us

without prior approval from SAFE by complying with certain procedural requirements. However, approval from or filing, registration with or report to appropriate government authorities or designated banks is required where Renminbi is to be converted into foreign currency and remitted out of mainland China to pay capital expenses, such as the repayment of loans denominated in foreign currencies. As a result, Hypebeast Cultural needs to obtain and complete SAFE approval or registration to use cash generated from its operations to pay off its respective debt in a currency other than Renminbi owed to entities outside mainland China (if any), or to make other capital expenditure payments outside mainland China in a currency other than Renminbi. The PRC government may also at its discretion restrict access in the future to foreign currencies for current account transactions. Since a part of Hypebeast's future net income and cash flow will be denominated in Renminbi, any existing and future restrictions on currency exchange may limit its ability to utilize cash generated in Renminbi to fund its business activities outside of the PRC or pay dividends in foreign currencies to its shareholders, and may limit its ability to obtain foreign currency through debt or equity financing for its PRC subsidiaries and the variable interest entity.

Hypebeast may be affected by the currency peg system in Hong Kong

Since 1983, Hong Kong dollars have been pegged to the US dollars at the rate of approximately HK\$7.80 to US\$1.00. There is no assurance that this policy will not be changed in the near future. If the pegging system collapses and the value of the Hong Kong dollars rises against the US dollar, Hypebeast's sale in US or other US currency based regions may be adversely affected.

Costs of conducting business in Hong Kong

The costs of doing business in Hong Kong is high as compared to its surrounding regions. Hypebeast rents office space and warehouse in Hong Kong. The majority of its workforce is also based in Hong Kong. In view of the high rental price and high labour cost in Hong Kong, Hypebeast needs to exercise careful control over its expenditures in these areas. Should Hypebeast fail to control its costs, the financial performance of Hypebeast may be adversely affected.

Risk Factors Relating to ISAA's Business

ISAA will be forced to liquidate the trust account if it cannot consummate a business combination within 24 months from the closing of the IPO, ISAA's public stockholders will receive USD \$10.00 per share.

If ISAA is unable to complete a business combination within 24 months from the closing of the IPO, and is forced to liquidate, the per-share liquidation distribution will be USD\$10.00 (not including dividends previously paid), plus interest earned on amounts held in trust that have not been used to pay for taxes.

ISAA's independent registered public accounting firm, Marcum LLP's, report contains an explanatory paragraph that expresses substantial doubt about ISAA's ability to continue as a going concern.

As of December 31, 2021, ISAA had \$494,693 in cash held outside of the Trust Account and working capital of \$391,964. ISAA has incurred and expects to continue to incur significant costs in pursuit of its financing and acquisition plans. Marcum LLP's report on ISAA's financial statements includes an explanatory paragraph stating that there is substantial doubt regarding ISAA's ability to continue as a going concern within one year after the date that the financial statements are issued. There is no assurance that ISAA's plans to raise capital or to consummate a Business Combination will be successful. ISAA's financial statements do not include any adjustments that might result from the outcome of this uncertainty.

You must tender your ISAA shares of common stock in order to validly seek redemption at the Meeting.

In connection with tendering your shares for redemption, you must elect either to physically tender your share certificates to ISAA's transfer agent by two (2) business days before the Meeting, or deliver your shares of common stock to the transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, which election would likely be determined based on the manner in which you hold your shares of common stock. The requirement for physical or electronic delivery by two (2) business days before the Meeting ensures that a redeeming holder's election to redeem is irrevocable

once the Business Combination is consummated. Any failure to observe these procedures will result in your loss of redemption rights in connection with the vote on the Business Combination.

If third parties bring claims against ISAA, the proceeds held in trust could be reduced and the per-share liquidation price received by ISAA's stockholders may be less than USD\$10.00.

ISAA's placing of funds in trust may not protect those funds from third party claims against ISAA. Although ISAA has received from many of the vendors, service providers (other than its independent accountants) and prospective target businesses with which it does business executed agreements waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of ISAA's public stockholders, they may still seek recourse against the trust account. Additionally, a court may not uphold the validity of such agreements. Accordingly, the proceeds held in trust could be subject to claims which could take priority over those of ISAA's public stockholders. The Sponsor has agreed that it will be liable to ISAA if and to the extent any claims by a third party for services rendered or products sold to ISAA, or a prospective target business with which ISAA has entered into a written letter of intent, confidentiality or similar agreement or Merger Agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.40 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.40 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the underwriters of the IPO against certain liabilities, including liabilities under the Securities Act. However, ISAA cannot assure you that the Sponsor will be able to meet such obligation.

Additionally, if ISAA is forced to file a bankruptcy case or an involuntary bankruptcy case is filed against it which is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in ISAA's bankruptcy estate and subject to the claims of third parties with priority over the claims of its stockholders. To the extent any bankruptcy claims deplete the trust account, ISAA may not be able to return USD\$10.00 to ISAA's public stockholders.

If ISAA's due diligence investigation of Hypebeast was inadequate, then stockholders of ISAA following the Business Combination could lose some or all of their investment.

Even though ISAA conducted a due diligence investigation of Hypebeast, it cannot be sure that this diligence uncovered all material issues that may be present inside Hypebeast or its business, or that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of Hypebeast and its business and outside of its control will not later arise.

The Sponsor and officers and certain officers and directors of ISAA own ISAA shares of common stock and will not participate in liquidation distributions and, therefore, the Sponsor and the officer and directors of ISAA may have a conflict of interest in determining whether the Business Combination is appropriate.

As of _____, 2022, ISAA's Sponsor and directors and officers owned 5,360,800 ISAA shares of common stock, or approximately 24.3% of the outstanding ISAA shares of common stock. They have waived their right to redeem these shares, or to receive distributions with respect to these shares upon the liquidation of the trust account if ISAA is unable to consummate a business combination. Accordingly, the ISAA shares of common stock held by the Sponsor and the directors and officer of ISAA will be worthless if ISAA does not consummate a business combination. Consequently, ISAA's directors' and officers' discretion in identifying and selecting Hypebeast as a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of the Business Combination are appropriate and in ISAA's stockholders' best interest.

ISAA is requiring stockholders who wish to redeem their shares of common stock in connection with the Business Combination to comply with specific requirements for redemption that may make it more difficult for them to exercise their redemption rights prior to the deadline for exercising their rights.

ISAA is requiring public stockholders who wish to redeem their shares of common stock to either tender their certificates to ISAA's transfer agent or deliver their shares to the transfer agent electronically

using the Depository Trust Company's, or DTC, DWAC (Deposit/Withdrawal At Custodian) System two (2) business days before the Meeting. In order to obtain a physical certificate, a stockholder's broker and/or clearing broker, DTC and ISAA's transfer agent will need to act to facilitate this request. It is ISAA's understanding that stockholders should generally allot at least two weeks to obtain physical certificates from the transfer agent. However, because ISAA does not have any control over this process or over the brokers or DTC, it may take significantly longer than two weeks to obtain a physical stock certificate. While ISAA has been advised that it takes a short time to deliver shares through the DWAC System, ISAA cannot assure you of this fact. Accordingly, if it takes longer than ISAA anticipates for stockholders to deliver their shares of common stock, stockholders who wish to redeem may be unable to meet the deadline for exercising their redemption rights and thus may be unable to redeem their shares of common stock.

ISAA will require its public stockholders who wish to redeem their shares of common stock in connection with the Business Combination to comply with specific requirements for redemption described above, such redeeming stockholders may be unable to sell their securities when they wish to in the event that the Business Combination is not consummated.

If ISAA requires public stockholders who wish to redeem their shares of common stock in connection with the proposed Business Combination to comply with specific requirements for redemption as described above and the Business Combination is not consummated, ISAA will promptly return such certificates to its public stockholders. Accordingly, investors who attempted to redeem their shares of common stock in such a circumstance will be unable to sell their securities after the failed acquisition until ISAA has returned their securities to them. The market price for ISAA's shares of common stock may decline during this time and you may not be able to sell your securities when you wish to, even while other stockholders that did not seek redemption may be able to sell their securities.

The Sponsor controls a substantial interest in ISAA and thus may influence certain actions requiring a stockholder vote.

As of _____, 2022, ISAA's Sponsor and directors and officers owned 5,360,800 ISAA shares of common stock, or approximately 24.3% of the outstanding ISAA shares of common stock. However, if a significant number of ISAA stockholders vote, or indicate an intention to vote, against the Business Combination, the Sponsor or its affiliates, could make such purchases in the open market or in private transactions in order to influence the vote. The Sponsor and its affiliates, have agreed to vote any shares they own in favor of the Business Combination.

If the current ISAA's security holders exercise their registration rights with respect to their securities after the Business Combination, it may have an adverse effect on the market price of Hypebeast's securities.

As a condition to the closing of the Business Combination, Hypebeast, ISAA, and the Sponsor agreed that the Hypebeast will execute an Amended and Restated Registration Rights Agreement, pursuant to which, among other things, Hypebeast will assume all the rights, duties, obligations, benefits, interest, duties and liabilities of ISAA in, to and under the Sponsor Registration Rights Agreement. Holders of a majority of the Sponsor Registrable Securities are entitled to make up to two demands that Hypebeast register the Sponsor Registrable Securities. Holders of a majority of the Founder Shares can elect to exercise these registration rights at any time in accordance with the terms of the Amended and Restated Registration Rights Agreement. The presence of additional shares of common stock trading in the public market may have an adverse effect on the market price of Hypebeast's shares after the consummation of the Business Combination.

ISAA will not obtain an opinion from an unaffiliated third party as to the fairness of the Business Combination to its stockholders.

ISAA is not required to obtain an opinion from an unaffiliated third party that the price it is paying is fair to its public stockholders from a financial point of view. ISAA's public stockholders therefore, must rely solely on the judgment of ISAA's Board.

If the Business Combination's benefits do not meet the expectations of financial or industry analysts, the market price of Hypebeast's securities may decline after the Business Combination.

The market price of Hypebeast's securities may decline as a result of the Business Combination if:

- Hypebeast does not achieve the perceived benefits of the acquisition as rapidly as, or to the extent anticipated by, financial or industry analysts; or

- The effect of the Business Combination on the financial statements is not consistent with the expectations of financial or industry analysts.

Accordingly, investors may experience a loss as a result of decreasing stock prices.

ISAA's directors and officers may have certain conflicts in determining to recommend the acquisition of Hypebeast, since certain of their interests, and certain interests of their affiliates and associates, are different from, or in addition to, your interests as a stockholder.

ISAA's management and directors have interests in and arising from the Business Combination that are different from, or in addition to, your interests as a stockholder, which could result in a real or perceived conflict of interest. These interests include the fact that certain of the ISAA's shares of common stock owned by ISAA's management and directors, or their affiliates and associates, would become worthless if the Business Combination is not approved and ISAA otherwise fails to consummate a Business Combination prior to its liquidation.

In connection with the restatement of ISAA's financial statements in November 2021, ISAA's management has concluded that ISAA's disclosure controls and procedures were not effective as of December 31, 2021 due to a material weakness in internal control over financial reporting solely related to ISAA's accounting for complex financial instruments. If ISAA is unable to maintain an effective system of disclosure controls and procedures and internal control over financial reporting, ISAA may not be able to accurately report its financial results in a timely manner, which may adversely affect investor confidence in ISAA and materially and adversely affect its business and financial results.

As previously disclosed in ISAA's Current Report on Form 8-K filed with the SEC on November 17, 2021, after consultation with its independent registered public accounting firm, ISAA's management team and audit committee concluded that it was appropriate to restate ISAA's June 11, 2021 8-K Balance Sheet and unaudited financial statements as of and for the period ended June 30, 2021 to reclassify ISAA's redeemable common stock. As part of such process, ISAA identified a material weakness in its internal control over financial reporting, solely related to ISAA's accounting for complex financial instruments.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the company's annual or interim consolidated financial statements will not be prevented or detected and corrected on a timely basis. Effective internal controls are necessary for us to provide reliable financial reports and prevent fraud. We expect to take steps to remediate the material weakness, but there is no assurance that any remediation efforts will ultimately have the intended effects.

If ISAA identifies any new material weaknesses in the future, any such newly identified material weakness could limit its ability to prevent or detect a misstatement of its accounts or disclosures that could result in a material misstatement of its annual or interim consolidated financial statements. In such case, ISAA may be unable to maintain compliance with securities law requirements regarding timely filing of periodic reports in addition to applicable stock exchange listing requirements, investors may lose confidence in ISAA's financial reporting and its stock price may decline as a result. ISAA cannot assure you that the measures ISAA has taken to date, or any measures ISAA may take in the future, will be sufficient to avoid potential future material weaknesses.

Risk Factors Relating to the Business Combination

ISAA and Hypebeast have incurred and expect to incur significant costs associated with the Business Combination. Whether or not the Business Combination is completed, the incurrence of these costs will reduce the amount of cash available to be used for other corporate purposes by ISAA if the Business Combination is completed or by ISAA if the Business Combination is not completed.

ISAA and Hypebeast expect to incur significant costs associated with the Business Combination. Whether or not the Business Combination is completed, ISAA expects to incur approximately USD\$1 million in expenses. These expenses will reduce the amount of cash available to be used for other corporate purposes by ISAA if the Business Combination is completed or by ISAA if the Business Combination is not completed.

In the event that a significant number of ISAA's shares of common stock are redeemed, the Hypebeast's ordinary shares may become less liquid following the Business Combination.

If a significant number of ISAA's shares of common stock are redeemed, Hypebeast may be left with a significantly smaller number of stockholders. As a result, trading in the shares of Hypebeast following the Business Combination may be limited and your ability to sell your shares in the market could be adversely affected.

ISAA may waive one or more of the conditions to the Business Combination without resoliciting stockholder approval for the Business Combination.

ISAA may agree to waive, in whole or in part, some of the conditions to its obligations to complete the Business Combination, to the extent permitted by applicable laws. The ISAA Board will evaluate the materiality of any waiver to determine whether amendment of this proxy statement/prospectus and resolicitation of proxies is warranted. In some instances, if the ISAA Board determines that a waiver is not sufficiently material to warrant resolicitation of stockholders, ISAA has the discretion to complete the Business Combination without seeking further stockholder approval. For example, it is a condition to ISAA's obligations to close the Business Combination that there be no restraining order, injunction or other order restricting Hypebeast's conduct of its business, however, if the ISAA Board determines that any such order or injunction is not material to the business of Hypebeast, then the ISAA Board may elect to waive that condition and close the Business Combination.

There will be a substantial number of Hypebeast ordinary shares available for sale in the future that may adversely affect the market price of Hypebeast's ordinary shares.

Hypebeast may issue such number of shares as may be approved by its shareholders and authorized by its directors, in accordance with the terms of its constitution. The shares to be issued to the Sponsor and officers and directors of ISAA will be subject to lock-up restrictions for a period of up to three-years from the date of closing of the Business Combination, subject to the early release provisions set forth in the Sponsor Lock-up Agreement. After the expiration of the lock-up restrictions, there will then be an additional 5,360,800 shares that are eligible for trading in the public market. The availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of Hypebeast's ordinary shares.

ISAA's stockholders will experience immediate dilution as a consequence of the issuance of Hypebeast's ordinary shares as consideration in the Business Combination. Having a minority share position may reduce the influence that ISAA's current stockholders have on the management of ISAA.

After the Business Combination, assuming there are no redemptions of ISAA public shares, ISAA's current public stockholders will own approximately 31.25% of Hypebeast, ISAA's current directors, officers and affiliates will own approximately 10.04% of Hypebeast, and the existing shareholders of Hypebeast will own approximately 56.21% of Hypebeast. After the Business Combination and assuming redemption by holders of 15,014,000 ISAA's outstanding shares of common stock, ISAA's current public stockholders will own approximately 4.34% of Hypebeast, ISAA's current directors, officers and affiliates will own approximately 13.97% of Hypebeast, and the existing shareholders of Hypebeast will own approximately 78.21% of Hypebeast. The minority position of the former ISAA stockholders will give them limited influence over the management and operations of the post-Business Combination company.

Risks Relating to the Combined Company's Securities Following the Business Combination

The price of Hypebeast Ordinary Shares may be volatile, and the value of Hypebeast Ordinary Shares may decline.

Hypebeast cannot predict the prices at which Hypebeast Ordinary Shares will trade. The price of Hypebeast Ordinary Shares may not bear any relationship to the market price at which Hypebeast Ordinary Shares will trade after the Transactions or to any other established criteria of the value of Hypebeast's business and prospects, and the market price of Hypebeast Ordinary Shares following the Business Combination may fluctuate substantially and may be lower than the price agreed by ISAA and Hypebeast

in connection with the Transactions. In addition, the trading price of Hypebeast Ordinary Shares following the Business Combination could be subject to fluctuations in response to various factors, some of which are beyond Hypebeast's control. These fluctuations could cause you to lose all or part of your investment in Hypebeast Ordinary Shares as you might be unable to sell these securities at or above the price you paid in the Transactions. Factors that could cause fluctuations in the trading price of Hypebeast Ordinary Shares include the following:

- actual or anticipated fluctuations in Hypebeast's financial condition or results of operations;
- variance in Hypebeast's financial performance from expectations of securities analysts;
- changes in Hypebeast's projected operating and financial results;
- changes in laws or regulations applicable to Hypebeast's business;
- announcements by Hypebeast or its competitors of significant business developments, acquisitions or new offerings;
- sales of Hypebeast Ordinary Shares by Hypebeast, its shareholders or its warrant holders, as well as the anticipation of lockup releases;
- significant breaches of, disruptions to or other incidents involving Hypebeast's information technology systems or those of its business partners;
- Hypebeast's involvement in litigation;
- conditions or developments affecting the digital advertising and online retail industries in Hong Kong;
- changes in Hypebeast's senior management or key personnel;
- the trading volume of Hypebeast's securities;
- changes in the anticipated future size and growth rate of Hypebeast's markets;
- publication of research reports or news stories about Hypebeast, its competitors or its industry, or positive or negative recommendations or withdrawal of research coverage by securities analysts;
- general economic and market conditions; and
- other events or factors, including those resulting from war, incidents of terrorism, global pandemics or responses to these events.

The process of taking a company public by means of a business combination with a special purpose acquisition company is different from taking a company public through an IPO and may create risks for Hypebeast's unaffiliated investors.

An IPO involves a company engaging underwriters to purchase its shares and resell them to the public. An underwritten offering imposes statutory liability on the underwriters for material misstatements or omissions contained in the registration statement unless they are able to sustain the burden of proving that they did not know and could not reasonably have discovered such material misstatements or omissions. This is referred to as a "due diligence" defense and results in the underwriters undertaking a detailed review of an IPO company's business, financial condition and results of operations. Going public via a business combination with a special purpose acquisition company ("SPAC"), such as ISAA, does not involve any underwriters and may therefore result in less careful vetting of information that is presented to the public.

In addition, going public via a business combination with a SPAC does not involve a bookbuilding process as is the case in an IPO. In any IPO, the initial value of a company is set by investors who indicate the price at which they are prepared to purchase shares from the underwriters. In the case of a business combination involving a SPAC, the value of the target company is established by means of negotiations between the target company and the SPAC. The process of establishing the value of a target company in a SPAC business combination may be less effective than an IPO bookbuilding process and also does not reflect events that may have occurred between the date of the Merger Agreement and the closing of the transaction. In addition, while IPOs are frequently oversubscribed, resulting in additional potential demand for shares

in the aftermarket following an IPO, there is no comparable process of generating investor demand in connection with a business combination between a target company and a SPAC, which may result in lower demand for the combined company's securities after closing, which could in turn decrease liquidity and trading prices as well as increase trading volatility.

An active trading market for Hypebeast Ordinary Shares may not develop or be sustained, which would adversely affect the liquidity and price of Hypebeast Ordinary Shares.

Following the Business Combination, the price of Hypebeast Ordinary Shares may fluctuate significantly due to the market's reaction to the Business Combination and general market and economic conditions. An active trading market for Hypebeast's ordinary shares following the Business Combination may never develop or, if developed, may not be sustained. The trading price or liquidity for Hypebeast Ordinary Shares on the Hong Kong Stock Exchange might not be indicative of those of Hypebeast Ordinary Shares on Nasdaq following the completion of the Business Combination. In addition, the price of Hypebeast Ordinary Shares after the Business Combination may vary due to general economic conditions and forecasts, Hypebeast's general business condition and the release of Hypebeast's financial reports. Additionally, if the combined company's securities are not listed on Nasdaq and are quoted on the OTC Bulletin Board (an inter-dealer automated quotation system for equity securities that is not a national securities exchange), the liquidity and price of Hypebeast Ordinary Shares may be more limited than if Hypebeast were quoted or listed on Nasdaq or another national securities exchange. You may be unable to sell your securities unless a market can be established or sustained.

If Hypebeast does not meet the expectations of equity research analysts, if they do not publish research reports about Hypebeast's business or if they issue unfavorable commentary or downgrade Hypebeast Ordinary Shares, the price of Hypebeast Ordinary Shares could decline.

The trading market for Hypebeast Ordinary Shares will rely in part on the research reports that equity research analysts publish about Hypebeast and its business. The analysts' estimates are based upon their own opinions and are often different from Hypebeast's estimates or expectations. If its results of operations are below the estimates or expectations of equity research analysts and investors, the price of Hypebeast Ordinary Shares could decline. Moreover, the price of Hypebeast Ordinary Shares could decline if one or more equity research analysts downgrade Hypebeast Ordinary Shares or if those analysts issue other unfavorable commentary or cease publishing reports about Hypebeast or its business.

Hypebeast's issuance of additional share capital in connection with financings, acquisitions, investments, Hypebeast's equity incentive plans or otherwise will dilute all other shareholders.

Hypebeast expects to issue additional share capital in the future that will result in dilution to all other shareholders. Hypebeast expects to grant equity awards to key employees under its equity incentive plans. Hypebeast may also raise capital through equity financings in the future. As part of its business strategy, Hypebeast may acquire or make investments in companies, solutions or technologies and issue equity securities to pay for any such acquisition or investment. Any such issuances of additional share capital may cause shareholders to experience significant dilution of their ownership interests and the per share value of Hypebeast Ordinary Shares to decline.

Hypebeast does not intend to pay dividends for the foreseeable future, and as a result, your ability to achieve a return on your investment will depend on appreciation in the price of Hypebeast Ordinary Shares.

Hypebeast does not intend to pay any cash dividends in the foreseeable future, and any determination to pay dividends in the future will be at the discretion of its board of directors. Accordingly, you may need to rely on sales of Hypebeast Ordinary Shares after price appreciation, which may never occur, as the only way to realize any future gains on your investment.

Hypebeast is an "emerging growth company," and it cannot be certain if the reduced reporting and disclosure requirements applicable to emerging growth companies will make Hypebeast Ordinary Shares less attractive to investors.

Hypebeast is an "emerging growth company," as defined in the JOBS Act, and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies

that are not “emerging growth companies,” including the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards.

The combined company will remain an emerging growth company until the earlier of: (i) the last day of the fiscal year (a) following the fifth anniversary of the consummation of this offering, (b) in which the combined company has total annual gross revenue of at least \$1.07 billion, or (c) in which the combined company is deemed to be a large accelerated filer, which means the market value of the combined company’s common equity that is held by non-affiliates exceeds \$700 million as of the last business day of its most recently completed second fiscal quarter; and (ii) the date on which the combined company has issued more than \$1.00 billion in non-convertible debt securities during the prior three-year period. References herein to “emerging growth company” have the meaning associated with it in the JOBS Act.

Hypebeast cannot predict if investors will find Hypebeast Ordinary Shares less attractive if Hypebeast chooses to rely on these exemptions. If some investors find Hypebeast Ordinary Shares less attractive as a result, there may be a less active trading market for Hypebeast Ordinary Shares, and the price of Hypebeast Ordinary Shares may be more volatile.

Hypebeast will be a foreign private issuer, and as a result, it will not be subject to U.S. proxy rules and will be subject to Exchange Act reporting obligations that, to some extent, are more lenient and less frequent than those of a U.S. domestic public company.

Upon the closing of the Transactions, Hypebeast will report under the Exchange Act as a non-U.S. company with foreign private issuer status. Because Hypebeast qualifies as a foreign private issuer under the Exchange Act, it is exempt from certain provisions of the Exchange Act that are applicable to U.S. domestic public companies, including, among others, (1) the sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations in respect of a security registered under the Exchange Act, (2) the sections of the Exchange Act requiring insiders to file public reports of their share ownership and trading activities and liability for insiders who profit from trades made in a short period of time, and (3) the rules under the Exchange Act requiring the filing with the SEC of quarterly reports on Form 10-Q containing unaudited financial and other specified information. In addition, foreign private issuers are not required to file their annual report on Form 20-F until 120 days after the end of each fiscal year, while U.S. domestic issuers that are accelerated filers are required to file their annual report on Form 10-K within 75 days after the end of each fiscal year, and U.S. domestic issuers that are large accelerated filers are required to file their annual report on Form 10-K within 60 days after the end of each fiscal year. As a result of all of the above, you may not have the same protections afforded to shareholders of a company that is not a foreign private issuer.

As Hypebeast is a “foreign private issuer” and intends to follow certain home country corporate governance practices, its shareholders may not have the same protections afforded to shareholders of companies that are subject to all Nasdaq corporate governance requirements.

As a foreign private issuer, Hypebeast has the option to follow certain home country corporate governance practices rather than those of Nasdaq, provided that it discloses the requirements it is not following and describe the home country practices it is following. If Hypebeast chooses to follow home country practices in the future, its shareholders may not have the same protections afforded to shareholders of companies that are subject to all Nasdaq corporate governance requirements.

Hypebeast may lose its foreign private issuer status in the future, which could result in significant additional costs and expenses.

As discussed above, Hypebeast is a foreign private issuer, and therefore, it is not required to comply with all of the periodic disclosure and current reporting requirements of the Exchange Act. The determination

of foreign private issuer status is made annually on the last business day of an issuer's most recently completed second fiscal quarter, and accordingly, the next determination will be made with respect to Hypebeast on June 30, 2022. In the future, Hypebeast would lose its foreign private issuer status if (1) more than 50% of its outstanding voting securities are owned by U.S. residents and (2) a majority of its directors or executive officers are U.S. citizens or residents, a majority of its assets are located in the U.S., or its business is administered principally in the U.S. If Hypebeast loses its foreign private issuer status, it will be required to file with the SEC periodic reports and registration statements on U.S. domestic issuer forms, which are more detailed and extensive than the forms available to a foreign private issuer. It will also have to mandatorily comply with U.S. federal proxy requirements, and its officers, directors and principal shareholders will become subject to the short-swing profit disclosure and recovery provisions of Section 16 of the Exchange Act. In addition, Hypebeast will lose its ability to rely upon exemptions from certain corporate governance requirements under the listing rules of Nasdaq. A U.S.-listed public company that is not a foreign private issuer will incur significant additional legal, accounting and other expenses that a foreign private issuer will not incur.

Hypebeast does not intend to make any determinations on whether it or its subsidiaries are CFCs for U.S. federal income tax purposes.

Hypebeast does not intend to make any determinations on whether it or any of its subsidiaries are treated as "controlled foreign corporations" within the meaning of Section 957(a) of the Code ("CFCs"), or whether any U.S. Holder of Hypebeast Ordinary Shares is treated as a "United States shareholder" within the meaning of Section 951(b) of the Code with respect to any such CFC. Hypebeast does not expect to furnish to any U.S. Holder of Hypebeast Ordinary Shares information that may be necessary to comply with applicable reporting and tax paying obligations with respect to CFCs. The Internal Revenue Service, or the IRS, has provided limited guidance regarding the circumstances in which investors may rely on publicly available information to comply with their reporting and taxpaying obligations with respect to CFCs. U.S. Holders of Hypebeast Ordinary Shares should consult their tax advisors regarding the potential application of these rules to their particular circumstances.

If Hypebeast or any of its subsidiaries are characterized as a passive foreign investment company, or PFIC, for U.S. federal income tax purposes, U.S. Holders may suffer adverse U.S. federal income tax consequences.

A non-U.S. corporation generally will be treated as a PFIC for U.S. federal income tax purposes, in any taxable year if either (1) at least 75% of its gross income for such year is passive income or (2) at least 50% of the value of its assets (generally based on an average of the quarterly values of the assets) during such year is attributable to assets that produce or are held for the production of passive income. Based on the 2021 composition of the income, assets and operations of Hypebeast and its subsidiaries, Hypebeast does not believe it will be treated as a PFIC for the taxable year that includes the Business Combination, however there can be no assurances in this regard or any assurances that Hypebeast will not be treated as a PFIC in any future taxable year. Moreover, the application of the PFIC rules is subject to uncertainty in several respects, and Hypebeast cannot assure you that the IRS will not take a contrary position or that a court will not sustain such a challenge by the IRS.

Whether Hypebeast or any of its subsidiaries are a PFIC for any taxable year is a factual determination that depends on, among other things, the composition of Hypebeast's income and assets, its market value and the market value of its subsidiaries' shares and assets. Changes in Hypebeast's composition, the composition of its income or the composition of any of its subsidiaries assets may cause it to be or become a PFIC for the current or subsequent taxable years. Whether Hypebeast is treated as a PFIC for U.S. federal income tax purposes is a factual determination that must be made annually at the close of each taxable year and, thus, is subject to significant uncertainty.

If Hypebeast is a PFIC for any taxable year, a U.S. Holder of Hypebeast Ordinary Shares may be subject to adverse tax consequences and may incur certain information reporting obligations. U.S. Holders of Hypebeast Ordinary Shares are strongly encouraged to consult their own advisors regarding the potential application of these rules to Hypebeast and the ownership of Hypebeast Ordinary Shares.

The Business Combination may be a taxable event for U.S. Holders of ISAA Shares of Common Stock.

It is intended that the Merger qualify as a “reorganization” within the meaning of Section 368 of the Code and, as a result, a U.S. Holder (as defined below) would not recognize gain or loss on the exchange of ISAA shares of common stock for Hypebeast ordinary shares pursuant to the Business Combination.

However, there are many requirements that must be satisfied in order for the Merger to qualify as a reorganization under Section 368(a) of the Code, some of which are based upon factual determinations, and the reorganization treatment could be adversely affected by events or actions that occur or are taken after the Merger. One such requirement, among others, is that the acquiring corporation continue, either directly or indirectly through certain controlled corporations, either a significant line of the acquired corporation’s historic business or use a significant portion of the acquired corporation’s historic business assets in a business, in each case, within the meaning of Treasury regulations Section 1.368-1(d). However, due to the absence of guidance bearing directly on how the above rules apply in the case of an acquisition of a corporation with no active business and only investment-type assets, such as ISAA, the qualification of the Merger as a reorganization is not free from doubt. In addition, the treatment of the Merger as a reorganization would depend on whether sufficient stockholders of ISAA exchange their common stock for Hypebeast ordinary shares rather than redeem it for cash. If a significant number of stockholders of ISAA decide to redeem their common stock, the “continuity of business enterprise” requirement that is necessary to qualify as a reorganization under Section 368(a) of the Code may not be satisfied and the requirement that ISAA retain “substantially all” of its assets to qualify as a reorganization under Section 368 of the Code may not be satisfied. Due to the absence of guidance bearing directly on whether an acquisition of a corporation with no active business can qualify as a “reorganization” under Section 368(a) of the Code, legal counsel to ISAA on U.S. federal income tax matters is not rendering an opinion regarding the qualification of the Merger as a “reorganization” under Section 368(a) of the Code. No ruling has been, or will be, sought by ISAA or Hypebeast from the IRS with respect to the Business Combination and there can be no assurance that the IRS will not challenge the qualification of the Merger as a “reorganization” under Section 368(a) of the Code or that a court would not sustain such a challenge. Moreover, Section 367(a) of the Code and the applicable Treasury regulations promulgated thereunder provide that, where a U.S. person exchanges stock or securities in a U.S. corporation for stock or securities in a non-U.S. (“foreign”) corporation in a transaction that qualifies as a reorganization, the U.S. person is required to recognize any gain, but not loss, realized on such exchange unless certain additional requirements are met. There are significant factual and legal uncertainties concerning the determination of whether these requirements will be satisfied in the case of the Business Combination.

If the Merger does not qualify as a reorganization for a reason other than the application of Section 367(a) of the Code, a U.S. Holder that exchanges its ISAA shares of common stock for the consideration under the Business Combination will recognize gain or loss equal to the difference between (i) the fair market value of the Hypebeast ordinary shares received and (ii) the U.S. Holder’s adjusted tax basis in the ISAA shares of common stock exchanged.

THE MEETING

General

ISAA is furnishing this proxy statement/prospectus to the ISAA stockholders as part of the solicitation of proxies by ISAA Board for use at the Meeting to be held on _____, 2022 and at any adjournment or postponement thereof. This proxy statement/prospectus is first being furnished to ISAA's stockholders on or about _____, 2022 in connection with the vote on the Merger Proposal and the Adjournment Proposal. This document provides you with the information you need to know to be able to vote or instruct your vote to be cast at the Meeting.

Date, Time and Place

The Meeting will be held on _____, 2022 at 10:00 a.m., at Loeb & Loeb LLP, 345 Park Avenue, New York, NY 10154, or such other date, time and place to which such meeting may be adjourned or postponed.

Purpose of the Meeting

At the Meeting, ISAA is asking holders of ISAA shares of common stock to approve the following Proposals:

- FOR the Merger Proposal; and
- FOR the Adjournment Proposal, if presented at the Meeting.

Recommendation of ISAA's Board of Directors

ISAA's Board :

- has determined that the Merger Proposal is fair to, and in the best interests of, ISAA and its stockholders;
- has approved the Merger Proposal; and
- recommends that the ISAA stockholders vote "FOR" the Merger Proposal.

ISAA's directors have interests that may be different from or in addition to your interests as a stockholder. See "The Business Combination — Interests of Certain Persons in the Business Combination" in this proxy statement/prospectus for further information.

Record Date; Who is Entitled to Vote

ISAA has fixed the close of business on _____, 2022, as the record date for determining those ISAA stockholders entitled to notice of and to vote at the Meeting. As of the close of business on _____, 2022, there were 22,040,800 ISAA shares of common stock outstanding and entitled to vote. Each holder of ISAA shares of common stock is entitled to one vote per share on the Merger Proposal.

As of _____, 2022, the Sponsor and the directors and officers of ISAA owned and were entitled to vote 5,360,800 ISAA shares of common stock, or approximately 24.3% of ISAA's issued and outstanding common stock. With respect to the Business Combination, the Sponsor and the directors and officers of ISAA have agreed to vote their ISAA shares of common stock acquired by it in favor of the Merger Proposal. The Sponsor and the director and officers have indicated that they intend to vote they shares, as applicable, "FOR" the other Proposals, although there is no agreement in place with respect to such Proposals.

Quorum and Required Vote for Stockholder Proposals

A quorum of ISAA stockholders is necessary to hold a valid meeting. A quorum will be present at the Meeting if not less than a majority of the votes of the shares of common stock issued and outstanding and entitled to vote at the Meeting is represented in person or by proxy. An ISAA holder present in person or

by proxy and abstaining from voting at the Meeting will count as present for the purposes of establishing a quorum but broker non-votes will not.

Approval of the Merger Proposal requires the affirmative vote of the holders of a majority of the issued and outstanding ISAA shares of common stock, and the Adjournment Proposal will require the affirmative vote of the holders of a majority of the issued and outstanding common stock of ISAA present and entitled to vote and voting at the Meeting.

Voting Your Shares

Each ISAA share of common stock that you own in your name entitles you to one vote for each Proposal on which such shares are entitled to vote at the Meeting. Your proxy card shows the number of ISAA shares of common stock that you own.

There are two ways to ensure that your ISAA shares of common stock are voted at the Meeting:

- You can cause your shares to be voted by signing and returning the enclosed proxy card. If you submit your proxy card, your “proxy,” whose name is listed on the proxy card, will vote your shares as you instruct on the proxy card. If you sign and return the proxy card but do not give instructions on how to vote your shares, your shares will be voted, as recommended by the ISAA board of directors, “FOR” the adoption of the Merger Proposal. Votes received after a matter has been voted upon at the Meeting will not be counted.
- You can attend the Meeting and vote in person. ISAA will give you a ballot when you arrive. However, if your shares are held in the name of your broker, bank or another nominee, you must get a proxy from the broker, bank or other nominee. That is the only way ISAA can be sure that the broker, bank or nominee has not already voted your shares.

IF YOU RETURN YOUR PROXY CARD WITHOUT AN INDICATION OF HOW YOU WISH TO VOTE, YOUR SHARES WILL BE VOTED IN FAVOR OF THE MERGER PROPOSAL. IN ORDER TO REDEEM YOUR SHARES, YOU MUST CONTINUE TO HOLD YOUR SHARES THROUGH THE CLOSING DATE OF THE BUSINESS COMBINATION AND TENDER YOUR PHYSICAL STOCK CERTIFICATE TO ISAA’S TRANSFER AGENT AT LEAST TWO BUSINESS DAYS PRIOR TO THE MEETING. IF THE BUSINESS COMBINATION IS NOT COMPLETED, THEN THESE SHARES WILL NOT BE REDEEMED FOR CASH.

Revoking Your Proxy

If you give a proxy, you may revoke it at any time before it is exercised by doing any one of the following:

- you may send another proxy card with a later date;
- if you are a record holder, you may notify ISAA’s proxy solicitor, Morrow Sodali LLC, in writing before the Meeting that you have revoked your proxy; or
- you may attend the Meeting, revoke your proxy, and vote in person, as indicated above.

Who Can Answer Your Questions About Voting Your Shares

If you have any questions about how to vote or direct a vote in respect of your common stock, you may call Morrow Sodali LLC, ISAA’s proxy solicitor, at (800) 662 -5200.

No Additional Matters May Be Presented at the Meeting

This Meeting has been called only to consider the approval of the Proposals.

Redemption Rights

Pursuant to ISAA’s Amended and Restated Certificate of Incorporation, a holder of ISAA shares of common stock has the right to have its public shares redeemed for cash equal to \$10.00 per share (not including dividends previously paid) in connection with the Business Combination.

If you are a public stockholder and you seek to have your shares redeemed, you must (i) demand, no later than 5:00 p.m., Eastern time on _____, 2022 (two (2) business days before the Meeting), that ISAA redeem your shares into cash; and (ii) submit your request in writing to ISAA's transfer agent, at the address listed at the end of this section and deliver your shares to ISAA's transfer agent physically or electronically using the DWAC system at least two (2) business days prior to the vote at the Meeting.

You may tender the ISAA shares of common stock for which you are electing redemption by two (2) business days before the Meeting by either:

- Delivering certificates representing ISAA's shares of common stock to ISAA's transfer agent, or
- Delivering the ISAA shares of common stock electronically through the DWAC system.

ISAA stockholders will be offered the option to redeem their ISAA shares of common stock USD\$10.00 per share).

Any corrected or changed written demand of redemption rights must be received by ISAA's transfer agent two (2) business days prior to the Meeting. No demand for redemption will be honored unless the holder's shares have been delivered (either physically or electronically) to the transfer agent at least two (2) business days prior to the vote at the Meeting.

Public stockholders may seek to have their shares redeemed regardless of whether they vote for or against the Business Combination and whether or not they are holders of ISAA shares of common stock as of the record date. Any public stockholder who holds ISAA shares of common stock on or before _____, 2022 (two (2) business days before the Meeting) will have the right to demand that his, her or its shares be redeemed for USD\$10.00 (not including dividends previously paid) at the consummation of the Business Combination.

In connection with tendering your shares for redemption, you must elect either to physically tender your share certificates to ISAA's transfer agent or deliver your shares to the transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, in each case, two (2) business days before the Meeting.

Through the DWAC system, this electronic delivery process can be accomplished by contacting your broker and requesting delivery of your shares through the DWAC system. Delivering shares physically may take significantly longer. In order to obtain a physical stock certificate, a stockholder's broker and/or clearing broker, DTC, and ISAA's transfer agent will need to act together to facilitate this request. There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC system. The transfer agent will typically charge the tendering broker USD\$ _____ and the broker would determine whether or not to pass this cost on to the redeeming holder. It is ISAA's understanding that stockholders should generally allot at least two weeks to obtain physical certificates from the transfer agent. ISAA does not have any control over this process or over the brokers or DTC, and it may take longer than two weeks to obtain a physical stock certificate. Stockholders who request physical stock certificates and wish to redeem may be unable to meet the deadline for tendering their common stock before exercising their redemption rights and thus will be unable to redeem their common stock.

In the event that a stockholder tenders its common stock and decides prior to the consummation of the Business Combination that it does not want to redeem its common stock, the stockholder may withdraw the tender. In the event that a stockholder tenders common stock and the Business Combination is not completed, these common stock will not be redeemed for cash and the physical certificates representing these common stock will be returned to the stockholder promptly following the determination that the Business Combination will not be consummated. ISAA anticipates that a stockholder who tenders common stock for redemption in connection with the vote to approve the Business Combination would receive payment of the redemption price for such common stock soon after the completion of the Business Combination.

If properly demanded by ISAA's public stockholders, ISAA will redeem each such share into USD\$10.00 per share (not including dividends previously paid). If you exercise your redemption rights, you will be exchanging your ISAA shares of common stock for cash and will no longer own the common stock. If ISAA is unable to complete the Business Combination by June 11, 2023 (24 months after the consummation of

the IPO), as previously described herein), it will liquidate and dissolve and public stockholders would be entitled to receive approximately USD\$ _____ per share upon such liquidation based on the balance of the trust account on _____, 2022.

Proxies and Proxy Solicitation Costs

ISAA is soliciting proxies on behalf of the ISAA board of directors. This solicitation is being made by mail but also may be made by telephone or in person. ISAA and its directors, officers and employees may also solicit proxies in person, by telephone or by other electronic means. Any solicitation made and information provided in such a solicitation will be consistent with the written proxy statement/prospectus and proxy card. ISAA will bear the cost of the solicitation. Morrow Sodali LLC, a proxy solicitation firm that ISAA has engaged to assist it in soliciting proxies, will be paid its customary fee of approximately USD\$27,500 and out-of-pocket expenses.

ISAA will ask banks, brokers and other institutions, nominees and fiduciaries to forward its proxy materials to their principals and to obtain their authority to execute proxies and voting instructions. ISAA will reimburse them for their reasonable expenses.

If you send in your completed proxy card, you may still vote your shares in person if you revoke your proxy before it is exercised at the Meeting.

PROPOSAL NO. 1
THE MERGER PROPOSAL

The following is a discussion of the proposed Business Combination and the Merger Agreement. This is a summary only and may not contain all of the information that is important to you. This summary is subject to, and qualified in its entirety by reference to, the Merger Agreement, a copy of which is attached to this proxy statement/prospectus as Annex A. ISAA's stockholders are urged to read this entire proxy statement/prospectus carefully, including the Merger Agreement, for a more complete understanding of the Business Combination.

General

Merger Agreement

On April 3, 2022, ISAA entered into an Agreement and Plan of Merger with Hypebeast Limited, a Cayman Islands exempted company with its shares publicly traded with stock code "00150" on the Main Board of The Stock Exchange of Hong Kong Limited (the "HKSE") and Hypebeast WAGMI Inc., a Delaware corporation and wholly owned subsidiary of the Company (the "Merger Sub"), which provides the Merger and other transactions in connection therewith (collectively, the "Business Combination").

Pro Forma Capitalization

The pro forma equity valuation of the Company upon consummation of the Transactions is estimated to be approximately \$534 million. We estimate that, upon consummation of the Transactions, assuming none of the ISAA's public stockholders demand redemption pursuant to ISAA's Amended and Restated Certificate of Incorporation, the shareholders of Hypebeast will own approximately 56.2% of Hypebeast Ordinary Shares, the shareholders of ISAA (including ISAA's initial stockholders) will own approximately 41.3% of the outstanding Hypebeast Ordinary Shares and the PIPE Investors will own approximately 2.5% of the outstanding Hypebeast Ordinary Shares.

The Merger Consideration of the Business Combination

At the Effective Time, each ISAA share of common stock issued and outstanding immediately prior to the Effective Time (other than the ISAA Redeeming Shares) will be canceled and automatically converted into the right to receive, without interest, Hypebeast ordinary shares (the "Applicable Per Share Merger Consideration"). Each ISAA stockholder will cease to have any rights with respect to the ISAA shares of common stock except (i) in the case of holders of ISAA shares of common stock that are issued and outstanding as of immediately prior to the Effective Time (other than any ISAA Redeeming Shares), the right to receive the respective portions of the Applicable Per Share Merger Consideration in exchange therefor; and (ii) in the case of any holders of ISAA Redeeming Shares, the right to have their public shares redeemed for cash equal to \$10.00 per share (not including dividends previously paid) in connection with the Business Combination.

If any change in the outstanding ISAA shares of common stock will occur (other than the issuance of additional shares of capital stock of the ISAA as permitted by the Merger Agreement), including by reason of any reclassification, recapitalization, stock split (including a reverse stock split), or combination, exchange, readjustment of shares, or similar transaction, or any stock dividend or distribution paid in stock, any amounts payable pursuant to the Merger Agreement shall be appropriately adjusted to reflect such change.

Background of the Business Combination

The terms of the Merger Agreement and related ancillary documents are the result of extensive negotiations between ISAA, Hypebeast and their respective representatives. The following is a brief description of ISAA's formation, the background of ISAA's previous attempts at a business combination, its negotiations with and evaluation of Hypebeast, the Merger Agreement, the Merger, and the related transactions. The following is not intended to be a list of all opportunities initially evaluated or explored or

discussions held by ISAA, but rather summarizes the key meetings and events that led to the signing of the Merger Agreement with Hypebeast and includes all information that ISAA and Hypebeast consider material regarding the negotiation of the Merger. All dates and times referred to in the following chronology are Eastern Standard Time in the United States unless otherwise indicated.

ISAA is a blank check company incorporated as a Delaware corporation on January 22, 2021, for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization, or similar business combination with one or more target businesses. The proposed Merger was the result of an extensive search for potential initial business combinations utilizing the network of ISAA's management team, the ISAA Board and ISAA's advisors.

On June 11, 2021, ISAA consummated its initial public offering of 15,000,000 Public Shares at HK\$77.85 (US\$10.00) per share (the "IPO"), generating gross proceeds of HK\$1,167,750,000 (US\$150,000,000). Simultaneously with the IPO, ISAA also consummated the sale of 1,090,000 Private Placement Shares to its Sponsor generating total proceeds of HK\$84,856,500 (US\$10,900,000).

On June 16, 2021, ISAA closed the partial exercise of the over-allotment option resulting in additional gross proceeds of HK\$130,788,000 (US\$16,800,000). Simultaneously with the closing of the over-allotment option, ISAA consummated the sale of 100,800 Over-Allotment Private Placement Shares generating gross proceeds of HK\$7,847,280 (US\$1,008,000).

On July 26, 2021, the Sponsor forfeited 142,500 ISAA Class B Shares upon the expiration of the underwriters' over-allotment option, resulting in an aggregate of 4,170,000 ISAA Class B Shares outstanding in ISAA.

Prior to the consummation of the IPO, neither ISAA, nor anyone on its behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target regarding a business combination with ISAA.

Promptly following its IPO, ISAA commenced consideration and evaluation of potential target businesses with the objective of consummating a business combination. ISAA focused its search for potential target businesses by utilizing internal research and the networks of relationships of its management, board of directors and with professional service providers (including lawyers, accountants, consultants, and investment bankers). ISAA educated these parties on its structure as a special purpose acquisition company ("SPAC") and its criteria for an acquisition. ISAA also responded to inquiries from investment bankers or other similar professionals who represented companies engaged in either a sale or financing process. On a regular basis, ISAA's directors were updated with respect to the status of the search for a potential target for the business combination. Input received from ISAA's directors was material to its management's evaluation of a potential business combination.

From the closing of the IPO through the signing of the Merger Agreement with Hypebeast on April 3, 2022, representatives of ISAA contacted and were contacted by numerous individuals and entities with respect to business combination opportunities and engaged in discussions with several possible targets with respect to a potential business combination. In all, prior to the execution of the Merger Agreement, representatives of ISAA evaluated over 25 potential initial business combinations. ISAA executed 5 non-disclosure agreements on standard terms during the course, in addition to its non-disclosure and confidentiality agreement with Hypebeast dated as of September 8, 2021 (the "NDA"). ISAA had active discussions with 3 target companies in addition to Hypebeast. ISAA issued one other letter of intent to a potential target that included an exclusivity provision. The exclusivity period was mutually terminated on August 10, 2021 and all discussions with that potential target ended at that time. During the target search process, ISAA evaluated various features of the companies under consideration, including but not limited to the target's financial strength, total addressable market, customer solutions, internal processes, operational management, management team, and competitive barriers. Key reasons for terminating discussions with other parties included, but not limited to: (i) overestimated potential TAM, (ii) lack of a strategic plan, (iii) lack of cultural fit, (iv) valuation expectations that were inconsistent with ISAA's due diligence and (v) the targets were negotiating with other SPACs and/or pursuing their own IPO interests, which posed a significant risk to completing a merger.

On August 24, 2021, Mr. Joshua L. Spear, Chief Executive Officer of ISAA and a member of the ISAA Board, contacted Mr. Kevin Ma, Chairman and Chief Executive Officer of Hypebeast, via teleconference. They discussed Mr. Ma's goals for Hypebeast and if these could be accelerated through a potential business combination. Mr. Ma and Mr. Spear had been acquaintances for many years prior having had several overlapping personal and professional relationships.

Between August 24, 2021 and August 31, 2021, a number of discussions between ISAA management and Hypebeast management took place regarding Hypebeast's business goals, and places that ISAA could be value added in addition to delivering capital. These discussions included Mr. Spear, Mr. Ma, Mr. Alexander P. Oxman ("Mr. Oxman"), Chief Financial Officer and Chief Operating Officer of ISAA and Mr. Wong Kar Hang Patrick ("Mr. Wong"), the Chief Financial Officer of Hypebeast. Scheduled meetings via teleconference with all four parties occurred on August 26, 2021 and August 31, 2021 along with ad hoc communication via email and messaging. These early discussions focused primarily on Hypebeast's strategic objectives and the impact that a business combination with ISAA could have on reaching them, rather than valuation or specific deal terms.

On September 8, 2021, the NDA was executed between ISAA and Hypebeast to facilitate further discussions and diligence related to a potential business combination. Such non-disclosure and confidentiality agreement did not contain a standstill provision.

On September 20, 2021, Ms. Olivia Deferchereux Dejah ("Ms. Deferchereux Dejah"), an ISAA Senior Associate, electronically updated the ISAA Board and Mr. Oxman to advise them that ISAA was preparing a draft letter of intent ("LOI") regarding the Merger.

Also on September 20, 2021, Loeb & Loeb LLP ("Loeb & Loeb"), ISAA's counsel, was introduced to Hypebeast electronically, and representatives of Loeb & Loeb, ISAA, Hypebeast and Deacons (Hypebeast's Hong Kong compliance counsel) discussed via teleconference the laws and regulations of Hong Kong applicable to a potential business combination of ISAA and Hypebeast.

On September 28, 2021, representatives of Loeb & Loeb contacted representatives of Kirkland & Ellis to discuss potential deal structures and questions related to Hypebeast's status as a publicly traded company in Hong Kong. Subsequent to this initial communication, representatives of Loeb & Loeb and Kirkland & Ellis had numerous exchanges and discussions, including with representatives of Hypebeast, to discuss technical requirements specific to this transaction, including filing requirements with The Stock Exchange of Hong Kong Limited (the "HKSE"), Hong Kong regulatory requirements and potential transaction structures.

On September 29, 2021, Mr. Spear sent a draft LOI to Mr. Ma for review and comments which reflected a proposed pre-Merger consolidated equity value of the Company of HK\$2,140,875,000 (US\$275,000,000) to HK\$2,530,125,000 (US\$325,000,000). The LOI outlined the proposed terms for the Merger for discussion purposes, including, among other things, structuring considerations, sources and uses of capital, proposed post-closing governance and an exclusivity arrangement. The LOI also provided for key terms regarding lock-up arrangements with respect to securities of the combined entity after the Merger to be held by the Sponsor and the controlling shareholder of Hypebeast, closing conditions, and the initial size and composition of the board of directors of the combined entity. Also on the same day, Mr. Spear, Mr. Oxman, and Ms. Deferchereux Dejah communicated via teleconference with Mr. Ma and the Hypebeast management regarding the Merger.

On October 7, 2021, representatives of ISAA sent Hypebeast a revised draft of the LOI which included, among other changes, (i) a pre-Merger consolidated equity value of the Company of HK\$2,335,500,000 (US\$300,000,000); (ii) a proposed structure where ISAA would merge with a subsidiary of Hypebeast and stockholders of ISAA would become shareholders of Hypebeast as a result of such merger (as opposed to the original LOI which did not specify the legal form of the transaction); (iii) eliminating restrictions on Hypebeast's ability to declare dividends or make other distributions before closing; and

(iv) adding a provision that up to 10% of the net proceeds available to Hypebeast at closing that are in excess of HK\$389,250,000 (US\$50,000,000) may be used to purchase shares from existing shareholders of Hypebeast.

On October 11, 2021, representatives of Kirkland & Ellis sent Loeb & Loeb a revised draft of the LOI which included, among other changes, requirements for filings with regulators in the US and Hong Kong, structuring updates, a proposed consolidation of shares of Hypebeast before closing of the Merger for purpose of satisfying listing and trading requirements on Nasdaq, financing requirements and the expected PIPE Investment, post-closing lock-up arrangements and closing conditions.

Between October 11, 2022 and October 12, 2021, discussions were held among ISAA and Hypebeast and their respective advisors to finalize the LOI.

On October 12, 2021, ISAA and Hypebeast executed the LOI. The LOI set forth key terms of the Merger as well as standard confidentiality and exclusivity terms. The LOI contemplated a business combination which would value Hypebeast at a fully-diluted pre-money enterprise value of HK\$2,335,500,000 (US\$300,000,000). The LOI also stated that no less than HK\$389,250,000 (US\$50,000,000) of gross proceeds would be available to the combined company at closing of the Merger, which would be financed by proceeds from the Trust Account and up to an additional HK\$389,250,000 (US\$50,000,000) to be generated by the PIPE Investment. Pursuant to the LOI, each of Hypebeast and ISAA agreed to be subject to an exclusivity period from the date of the LOI and ending by the earliest of (a) 11:59 p.m., Hong Kong time, on the 30th day following the date of the LOI, (b) the date that the Hypebeast and ISAA mutually agree in writing that they do not wish to pursue the Merger and (c) the date the definitive business combination agreement is entered into for the Merger (the “Exclusivity Period”). During the Exclusivity Period, each of Hypebeast, on the one hand, and ISAA, on the other hand, agreed that it would not (i) initiate, solicit or encourage (including by means of furnishing or disclosing information), facilitate, negotiate or discuss any proposal, inquiry or offer with any person or entity, relating to or concerning, (x) with respect to Hypebeast, any transaction similar to or having the same effect as, the Merger or any other transaction pursuant to which the control of Hypebeast is directly or indirectly transferred to a third party or all or a substantial portion of Hypebeast’s assets are sold or otherwise transferred to a third party, in each case subject to certain exceptions; and (y) with respect to ISAA, any “initial business combination” as described in the prospectus of ISAA’s IPO or any other transaction involving ISAA or a material portion of its assets or equity securities, in each case other than the Merger. The LOI was non-binding and subject to execution of a definitive agreement signed by all parties with respect to the Merger, except for provisions relating to due diligence, exclusivity, confidentiality, transaction expenses, governing law, waiver of jury trial and the waiver of claims against the Trust Account.

On October 20, 2021, Mr. Spear introduced Mr. Ma to Mr. Trevor Edwards, a director of ISAA, via e-mail.

Also on October 20, 2021, representatives of Loeb & Loeb and Kirkland & Ellis discussed next steps on the Merger via teleconference, including, among other things, the proposed timeline for the Merger and ISAA’s expectation that before the parties enter into definitive agreements for the Merger, Hypebeast would initiate the termination process of its American depository receipt facilities established with The Bank of New York Mellon for the American depository shares (“ADSS”) representing the ordinary shares of Hypebeast, which ADSS were traded on the US over-the-counter market (such American depository receipt facilities of Hypebeast, the “Existing ADR Facility”).

The ISAA Board's Reasons for the Approval of the Business Combination and Recommendations

The ISAA Board, in evaluating the transaction with Hypebeast, consulted with ISAA's management and its legal counsel and financial advisors. In reaching its resolution (i) that the terms and conditions of the Merger Agreement and the transactions contemplated thereby, including the Business Combination, are advisable, fair to and in the best interests of ISAA and its stockholders and (ii) to recommend that ISAA's stockholders adopt the Merger Agreement and approve the transactions contemplated thereby, including the Business Combination, the ISAA Board considered and evaluated a number of factors, including, but not limited to, the factors discussed below. In light of the number and wide variety of factors considered in connection with its evaluation of the Business Combination, the ISAA Board did not consider it practicable to, and did not attempt to, quantify or otherwise assign relative weights to the specific factors that it considered in reaching its determination and supporting its decision. The ISAA Board viewed its decision as being based on all of the information available and the factors presented to and considered by it. In addition, individual directors may have given different weight to different factors. This explanation of ISAA Board's reasons for the Business Combination and all other information presented in this section is forward-looking in nature and, therefore, should be read in light of the factors discussed under "*Cautionary Statement Regarding Forward-Looking Statements*" appearing elsewhere in this proxy statement/prospectus.

A potential transaction with Hypebeast was consistent with ISAA's mandate to identify a company of appropriate size, growth prospects, synergies with ISAA's management capabilities and likelihood of deal closure. Hypebeast is an attractive target for the following reasons:

- *Attractive Valuation.* Hypebeast was already a listed company with its shares publicly traded with stock code "00150" on the Main Board of the HKSE and thinly traded ADRs in the United States. ISAA's management discussed and considered that Hypebeast was underappreciated without a listing on a major exchange in the United States. Relative to comparable companies, both public and private, Hypebeast was trading at a material valuation discount. With just US\$8 million raised during its initial public offering on the HKSE in 2016, Hypebeast had grown at a CAGR of 35% to over US\$100 million in revenue on positive EBITDA, representing a 2.6x 2021 multiple. Hypebeast's management had built a robust business organically but had not been able to generate more momentum in its stock or raise funds elsewhere and wanted to accelerate growth. Based on a preliminary understanding of numbers ISAA estimated a post-transaction equity valuation of US\$500 million to US\$600 million which was in the target valuation range for ISAA with a US\$167,600,000 IPO. See the section entitled "*Summary of Hypebeast Financial Analysis*" in this proxy statement/prospectus for additional details.
- *Platform for Future Development and Expansion.* With more than 26 million social media followers worldwide, Hypebeast is an iconic brand and market leader at the center of media, commerce, consumer brands and emerging culture. The opportunity to infuse Hypebeast with additional capital to invest further in a North American expansion and increase revenues is promising.
- *Strong Sponsorship.* Beyond an infusion of capital from ISAA's trust assets and the PIPE Investment, ISAA believes that it could bring additional corporate governance and leadership to Hypebeast via the inclusion of board members from the US-listed ISAA. The skill set and connections of the ISAA Board and ISAA management would also be helpful in completing the Hypebeast listing process, communicating with investors and identifying new investors for Hypebeast.
- *Due Diligence.* ISAA has conducted extensive due diligence review of Hypebeast's business, industry dynamics, financial results, projected growth, material contracts, regulatory compliance, among others, including hiring K2 Integrity to conduct key personnel background checks, and held discussions with Hypebeast's management and financial and legal advisors.
- *Negotiated Transaction.* The financial and other terms of the Merger Agreement were the product of arm's-length negotiations between ISAA and Hypebeast.

- *Shareholder Approval.* The ISAA Board considered the fact that in connection with the Business Combination, public stockholders of ISAA have the option to (i) remain shareholders of the combined company, (ii) sell their shares on the open market or (iii) redeem their ISAA Shares for the per share amount held in the trust account.
- *Other Alternatives.* The ISAA Board believed, after a review of other business combination opportunities reasonably available to ISAA, that the Business Combination represents the best potential business combination reasonably available to ISAA and an attractive opportunity for ISAA's management to accelerate its business plan based upon the process utilized to evaluate and assess other potential combination targets, and the ISAA Board believed that such process has not presented a better alternative.

The ISAA management also reviewed with the ISAA Board the likelihood of consummating the Merger. The ISAA Board was sensitive to this topic having seen prior deals disintegrate after the signing of the LOI. Positive attributes of the Merger included:

- A deal size not likely to be dependent on a large PIPE transaction.
- Hypebeast has a dedicated management team and infrastructure that the ISAA Board believes is ready to be public in the United States.
- CORE Capital, being a controlling shareholder of Hypebeast and an entity controlled by Mr. Ma, owns approximately 73.7% of Hypebeast's outstanding share capital as of the date of the Merger Agreement. Such a large insider ownership of Hypebeast reduces the risk that Hypebeast fails to secure approval of the Merger by its shareholders.
- Existing Hypebeast shareholders would not be receiving any cash consideration at closing of the Merger and that CORE Capital had agreed to post-closing lock-up arrangements and will continue to own over 40% of the combined company (assuming no redemptions). The ISAA Board considered these to be strong signs of CORE Capital's confidence in the combined company and the benefits to be realized as a result of the Business Combination.
- Excitement in the space with recent transactions in the space such as large financing rounds of GOAT, StockX, the pending acquisition of Complex, as well as purchases of highly regarded streetwear brand "Supreme" by VF Corp.

The ISAA Board also reviewed due diligence and deal attribute questions such as:

- Past examples of SPAC business combinations involving an existing public company and dual listing.
- Complexities of working with a target company having its shares already listed in Hong Kong.
- Need for extensive due diligence.
- Better understanding of why Hypebeast had been unable to raise more funds independently.
- Potential expenses with a deal of this size.

Before reaching its decision to approve the Business Combination, the ISAA Board also reviewed the results of due diligence conducted by ISAA's management and by ISAA's legal and financial advisors, which included, among other things:

- participation in multiple meetings with Hypebeast's management team and representatives regarding operations, business development, intellectual property, regulatory compliance and financial prospects, among other customary due diligence matters;
- reviewing industry-related financial information and consultation with industry experts;
- reviewing Hypebeast's business model and historical audited and unaudited financial statements, among other financial information;
- reviewing Hypebeast's material business contracts and certain other legal and commercial diligence; and

- reviewing other financial aspects of Hypebeast and the Business Combination.

The ISAA Board also considered a variety of uncertainties and risks and other potentially negative factors concerning this merger, including but not limited to the following:

- **Benefits Not Achieved.** The risk that the potential benefits of the Business Combination may not be fully achieved, or may not be achieved within the expected timeframe.
- **Liquidation of ISAA.** The risks and costs to ISAA if the Business Combination is not completed, including the risk of diverting management focus and resources from other businesses combination opportunities, which could result in ISAA being unable to effect a business combination by June 2023 and force ISAA to liquidate and the warrants to expire worthless.
- **Stockholder Vote.** The risk that ISAA's stockholders may fail to provide the votes necessary to effect the Business Combination.
- **Redemptions.** The risk that ISAA's current public stockholders may redeem their ISAA Shares for cash in connection with consummation of the Business Combination, thereby reducing the amount of cash available to ISAA and potentially resulting in an inability to consummate the Business Combination if ISAA's total cash proceeds, after giving effect to the PIPE Investment and Permitted Equity Financing prior to the Closing, does not equal to or exceed US\$35,000,000.
- **Closing Conditions.** The fact that completion of the Business Combination is conditioned on the satisfaction of certain closing conditions that are not within ISAA's control.
- **No Survival of Remedies for Breach of Representations, Warranties or Covenants of Hypebeast.** The risk that ISAA will not have any surviving remedies against Hypebeast after the closing of the Business Combination to recover for losses as a result of any inaccuracies or breaches of Hypebeast's representations, warranties or covenants set forth in the Merger Agreement. As a result, stockholders of ISAA could be adversely affected by, among other things, a decrease in the financial performance or worsening of financial condition of Hypebeast prior to the closing of the Business Combination without any ability to reduce the number of ordinary shares of Hypebeast to be issued in the Business Combination or recover for the amount of any damages. The ISAA Board determined that this structure was appropriate and customary in light of the fact that similar transactions include similar terms.
- **Fairness Opinion.** The fact that the ISAA Board did not receive a fairness opinion from a bank stating that the consideration to be paid in the Business Combination was fair to ISAA from a financial point of view.
- **Litigation.** The possibility of litigation challenging the Business Combination or that an adverse judgment granting permanent injunctive relief could indefinitely enjoin consummation of the Business Combination.
- **Fees and Expenses.** The fees and expenses associated with completing the Business Combination.
- **Other Risks.** Various other risks associated with the Business Combination, the business of ISAA and the business of Hypebeast described under the section entitled "*Risk Factors*."

In addition to considering the factors described above, the ISAA Board also considered that certain directors and officers of ISAA may have interests in the Business Combination as individuals that are in addition to, and that may be different from, the interests of stockholders of ISAA as described further under the section entitled "*Interests of Certain Persons in the Business Combination*" in this proxy statement/prospectus. The ISAA Board reviewed and considered these interests during the negotiation of the Business Combination and in evaluating and approving the Merger Agreement and the transactions contemplated therein, including the Business Combination.

Following a robust discussion, the ISAA Board concluded that the potential benefits that it expected ISAA and its stockholders to achieve as a result of the Business Combination outweighed the potentially negative factors associated with the Business Combination. Accordingly, the ISAA Board determined that the Merger Agreement and the Business Combination contemplated therein were advisable, fair to and in the best interests of ISAA and its stockholders.

Summary of Hypebeast Financial Analysis

The following is a summary of the financial analyses prepared by ISAA management and reviewed by the ISAA Board in connection with the valuation of Hypebeast. The summary set forth below does not purport to be a complete description of the financial analysis performed or factors considered by ISAA nor does the order of the financial analysis described represent the relative importance or weight given to those financial analysis by the ISAA Board. We may have deemed various assumptions more or less probable than other assumptions, so the valuations implied by the analysis summarized below should not be taken to be ISAA's view of the actual value of Hypebeast.

In performing its analyses, ISAA made numerous material assumptions with respect to, among other things, timing of revenue streams, pace of new client acquisition, characterization of the products, the timing of, and amounts of, any payments from contracts or collaborations, the entry by Hypebeast into license or collaboration agreements, market size, commercial efforts, industry performance, general business and economic conditions and numerous other matters, many of which are beyond the control of ISAA, Hypebeast, or any other parties to the Business Combination. Further, the ISAA management specifically assumed:

- Hypebeast will be able to continuously execute on its business plan, both in terms of existing operations and opportunities for future expansion; and
- the cash delivered to Hypebeast at the closing of the Business Combination will be sufficient to finance Hypebeast for the next several years, allowing for the achievement of meaningful catalysts and value creation as a result of the closing of the Business Combination.

None of Hypebeast, ISAA, or any other person assumes responsibility if future results are materially different from those discussed. Any estimates contained in these analyses are not necessarily indicative of actual values or predictive of future results or values, which may be significantly more or less favorable than as set forth below. In addition, analyses relating to the value of Hypebeast do not purport to be appraisals or reflect the prices at which Hypebeast shares may actually be valued upon closing of the Business Combination. Accordingly, the assumptions and estimates used in, and the results derived from, the financial analyses are inherently subject to substantial uncertainty. Except as otherwise noted, the following analysis, to the extent that it is based on market data, is based on market data as it existed on or before January 8, 2022 and is not necessarily indicative of current market conditions.

Selected Comparable Public Company Analysis

ISAA reviewed certain financial information of Hypebeast and compared it to certain comparable disruptive, tech-enabled media and ecommerce companies, selected based on ISAA's experience and the professional judgment of its management team. ISAA identified the following criteria as significant in determining whether a company was considered to be comparable:

- **Digital Media Businesses:** Hypebeast operates within the digital media industry, and generates significant revenue through advertising contracts with clients. Other companies with similar profiles in terms of clientele and service offerings share a number of characteristics with respect to market opportunity and revenue cycle, among others.
- **Inventory eCommerce and Marketplace Companies:** Hypebeast operates a robust eCommerce website shipping to a worldwide customer base across fashion verticals that include streetwear, casual wear, high fashion, lifestyle and accessories. A small percentage of Hypebeast's eCommerce offerings are considered to be used and ISAA believes a significant opportunity for further investment into Marketplace and ReCommerce exists.
- **Luxury Fashion and Streetwear Brands:** Hypebeast generates revenue from both luxury fashion and streetwear brands by both contract-based advertising and eCommerce activities, through inventory eCommerce and ReCommerce.

None of the selected companies has characteristics identical to Hypebeast. Some of the companies have greater resources than does Hypebeast, and their businesses may be more mature than Hypebeast. An analysis of selected publicly traded companies is not purely quantitative; rather it involves complex

considerations and judgments concerning differences in financial and operating characteristics of the selected companies and other factors that could affect the public trading values of the companies reviewed. ISAA believed that it was inappropriate to, and therefore did not, rely solely on the quantitative results of the selected public company analysis. Accordingly, ISAA also made qualitative judgments, based on its experience and the professional judgment of its management team, concerning differences between the operational, business and/or financial characteristics of Hypebeast and the selected companies to provide a context in which to consider the results of the quantitative analysis.

* Based upon Hypebeast projected revenue of not less than US\$117 million for the financial year ended March 31, 2022. ISAA did not believe that the subsequent revision to Hypebeast projected revenue to not less than US\$112 million materially affected the valuation analysis.

** Implied based on H1 FY2021 actual EBITDA margin.

Hypebeast compares favorably to the selected companies across all categories in terms of both operational benchmarking and valuation. Operationally Hypebeast has revenue growth at the top end of the range across all of the selected companies while maintaining an EBITDA margin that is well above the median across all but luxury comps, where it still slightly above at the median. In terms of valuation Hypebeast compares very favorably across all of the selected companies as a both a multiple of 2021 revenue

and EBITDA. For example, using a 2021 EV/EBITDA of 23.7 (the median for media companies), results in Hypebeast having a valuation of US\$584 million.

In addition to ISAA's analysis of comparable public companies, ISAA also considered the market cap and enterprise value implied by Hypebeast's share price on the HKSE, where it has seen in significant appreciation since listing in 2016. In 2021 Hypebeast had a high market cap of over US\$500 million based on the closing price of its shares on February 16, 2022 at the HKSE (assuming a US\$/HK\$ exchange rate of 1:7.8, as of the same date). As of January 10, 2022 Hypebeast's market cap was approximately US\$280 million (assuming a US\$/HK\$ exchange rate of 1:7.8, as of the same date). ISAA believes that Hypebeast is undervalued on the HKSE due to limited exposure and sub-optimal access for US investors, it's largest market from a business perspective. Furthermore, ISAA's management believes that the proceeds from this transaction and ISAA's involvement will significantly accelerate Hypebeast's organic growth trajectory. Accordingly, and in addition to ISAA's fundamental and comparative analysis, ISAA believes that a modest implied enterprise value premium to the HKSE market cap is justified.

Interests of Certain Persons in the Business Combination

In considering the recommendation of ISAA's board of directors to vote in favor of approval of the Business Combination, ISAA stockholders should keep in mind that ISAA's directors and executive officers have interests in such proposals that are different from, or in addition to, those of ISAA's stockholders generally. These interests may have influenced the decision of ISAA's board of directors to approve the Business Combination and could incentivize ISAA's officers and directors to pursue a business combination with a less favorable target company or on terms less favorable to ISAA's public stockholders rather than liquidate. In particular:

- If the proposed Business Combination is not completed by June 11, 2023, the date that is 24 months from the closing of the IPO, ISAA will be required to liquidate. In such event, the 4,170,000 shares of common stock held by the Sponsor, which were acquired prior to the IPO for an aggregate purchase price of USD\$25,000, will be worthless. Such common stock had an aggregate market value of approximately USD\$ [redacted] based on the closing price of ISAA shares of common stock of USD\$ [redacted] on Nasdaq as of [redacted], 2022;
- If ISAA is unable to complete a business combination within the required time period, the Sponsor will be liable under certain circumstances described herein to ensure that the proceeds in the Trust Account are not reduced by the claims of target businesses or claims of vendors or other entities that are owed money by ISAA for services rendered or contracted for or for products sold to ISAA. If ISAA consummates a business combination, on the other hand, ISAA or the combined company will be liable for all such claims.
- The Sponsor and ISAA's officers and directors and their affiliates are entitled to reimbursement of out-of-pocket fees and expenses incurred by them in connection with certain activities on ISAA's behalf, such as identifying and investigating possible business targets and business combinations. However, if ISAA fails to consummate a business combination within the required period, they will not have any claim against the Trust Account for reimbursement. Accordingly, ISAA may not be able to reimburse these fees and expenses if the Business Combination or another business combination is not completed by June 11, 2023 (or such later date as may be approved by ISAA's stockholders in an amendment to ISAA's Amended and Restated Certificate of Incorporation). As of the date of this proxy statement/prospectus, the Sponsor and ISAA's officers and directors and their affiliates had incurred approximately \$71,382 of unpaid reimbursable fees and expenses.
- If the proposed Business Combination is not completed by June 11, 2023, the date that is 24 months from the closing of the IPO, the 1,190,800 Private Placement Shares purchased by the Sponsor for a total purchase price of USD\$11,908,000, will be worthless. Such Private Placement Shares had an aggregate market value of approximately USD\$ [redacted], based on the closing price of ISAA's Private Placement Shares of USD\$ [redacted] on Nasdaq as of [redacted], 2022;
- The exercise of ISAA's directors' and officers' discretion in agreeing to changes or waivers in the terms of the transaction may result in a conflict of interest when determining whether such changes or waivers are appropriate and in ISAA's stockholders' best interest;

- The Merger Agreement provides for the continued indemnification of ISAA's current directors and officers and the continuation of directors and officers liability insurance covering ISAA's current directors and officers;
- Iron Spark Opportunity, LLC, an entity controlled by Joshua L. Spear, the Chief Executive Officer and Director of ISAA and a managing member of the Sponsor, participated in the PIPE Investment; and
- Joshua L. Spear, the Chief Executive Officer and a director of ISAA and a managing member of the Sponsor, and Trevor A Edwards, a director of ISAA, will be members of the board of directors of Hypebeast following the closing of the Business Combination and, therefore, in the future Mr. Spear and Mr. Edwards could receive cash fees, share options or share-based awards that Hypebeast's board of directors determines to pay to its non-executive directors.

Anticipated Accounting Treatment

ISAA will be treated as the "acquired" company and Hypebeast will be treated as the "accounting acquirer" for financial reporting purposes. The Merger will be treated as an acquisition of ISAA by Hypebeast in the way of Hypebeast issuing equity instruments for the net assets of ISAA as of the closing date.

Hypebeast has been determined to be the accounting acquirer based on evaluation of the following facts and circumstances:

- Hypebeast's shareholders will have the largest voting interest in Hypebeast under both the no redemption and maximum redemption scenarios;
- Hypebeast's designees are expected to comprise a majority of the governing body of the combined company; and
- Hypebeast's senior management is the senior management of the post-combination company.

The Merger will be accounted for as an acquisition of assets (in exchange for shares) as the underlying transactions do not result in a business combination in accordance with IFRS 3 as ISAA does not constitute a business as defined under IFRS 3. Consequently, the Merger will be accounted for under IFRS 2, Share-Based Payment. In the accompanying pro forma information, the net assets of ISAA were recognized at its fair value, which was approximated by its carrying value, and no goodwill or other intangible assets were recorded. All direct costs of the Merger will be expensed. Any difference between the fair value of Hypebeast Ordinary Shares issued and the fair value of ISAA's identifiable net assets are recorded as a listing fee.

Regulatory Matters

The Business Combination is not subject to any federal or state regulatory requirement or approval, except for filings with the State of Delaware necessary to effectuate the Business Combination.

Vote Required for Approval

The approval of the Merger Proposal will require the affirmative vote of the holders of the issued and outstanding ISAA shares of common stock. Abstentions will have the same effect as a vote "against" the Merger Proposal. Brokers are not entitled to vote on the Merger Proposal absent voting instructions from the beneficial holder and, consequently, broker non-votes will have the effect of voting against the Merger Proposal. The Transactions will not be consummated if ISAA has less than \$5,000,001 of net tangible assets (as determined in accordance with Rule 3a51-1(g)(1) of the Securities Exchange Act) either immediately prior to or upon consummation of the Transactions.

The approval of the Merger Proposal is a condition to the consummation of the Transactions. If the Merger Proposal is not approved, the other proposals (except an Adjournment Proposal, as described below) will not be presented to the ISAA stockholders for a vote.

Recommendation of ISAA’s Board of Directors

ISAA’S BOARD OF DIRECTORS RECOMMENDS THAT ISAA STOCKHOLDERS VOTE “FOR” THE APPROVAL OF THE MERGER PROPOSAL.

No Appraisal Rights

Under Section 262 of the DGCL, the holders of ISAA will not have appraisal rights in connection with the Business Combination.

Resale of Hypebeast Ordinary Shares

The Hypebeast Ordinary Shares to be issued to stockholders of ISAA in connection with the Business Combination will be freely transferable under the Securities Act except for shares issued to any shareholder who may be deemed for purposes of Rule 144 under the Securities Act an “affiliate” of ISAA immediately prior to the Effective Time or an “affiliate” of Hypebeast following the Business Combination. Persons who may be deemed to be affiliates include individuals or entities that control, are controlled by, or are under common control with, Hypebeast or ISAA (as appropriate) and may include the executive officers, directors and significant shareholders of Hypebeast or ISAA (as appropriate).

Stock Exchange Listing of Hypebeast Ordinary Shares

Hypebeast will use reasonable best efforts to cause, prior to the Effective Time, the Hypebeast Ordinary Shares issuable pursuant to the Merger Agreement to be approved for listing on the Nasdaq Capital Market under the symbol “HYPB”, subject to official notice of issuance. Approval of the listing on the Nasdaq Capital Market of the Hypebeast Ordinary Shares (subject to official notice of issuance) is a condition to each party’s obligation to complete the Business Combination.

Delisting and Deregistration of ISAA Ordinary Shares

If the Business Combination is completed, the ISAA shares of common stock will be delisted from the Nasdaq Capital Market and will be deregistered under the Exchange Act.

Combined Company Status as a Foreign Private Issuer under the Exchange Act

Hypebeast expects to remain a “foreign private issuer” (under SEC rules). Consequently, upon consummation of the Business Combination, the combined company will be subject to the reporting requirements under the Exchange Act applicable to foreign private issuers. The combined company will be required to file its annual report on Form 20-F for the year ending March 31, 2022 with the SEC by July 31, 2022. In addition, the combined company will furnish reports on Form 6-K to the SEC regarding certain information required to be publicly disclosed by the combined company in the Cayman Islands or that is distributed or required to be distributed by the combined company to its shareholders.

Based on its foreign private issuer status, the combined company will not be required to file periodic reports and financial statements with the SEC as frequently or as promptly as a U.S. company whose securities are registered under the Exchange Act. The combined company will also not be required to comply with Regulation FD, which addresses certain restrictions on the selective disclosure of material information. In addition, among other matters, the combined company officers, directors and principal shareholders will be exempt from the reporting and “short-swing” profit recovery provisions of Section 16 of the Exchange Act and the rules under the Exchange Act with respect to their purchases and sales of the Hypebeast Ordinary Shares.

Despite its initial exemption due to its foreign private issuer status, Hypebeast, and following the consummation of the Business Combination, the combined company, nevertheless expects to issue interim quarterly financial information publicly and to furnish it to the SEC on Form 6-K.

Combined Company Status as an Emerging Growth Company under U.S. Federal Securities Laws and Related Implications

Each of ISAA and Hypebeast is, and, following the Business Combination, the combined company will be, an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the

JOBS Act. As such, the combined company will be eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in their periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find the combined company’s securities less attractive as a result, there may be a less active trading market for the combined company’s securities and the prices of the combined company’s securities may be more volatile.

The combined company will remain an emerging growth company until the earlier of: (i) the last day of the fiscal year (a) following the fifth anniversary of the closing of the ISAA IPO, (b) in which the combined company’s has total annual gross revenue of at least \$1.07 billion, or (c) in which the combined company is deemed to be a large accelerated filer, which means the market value of the combined company’s common equity that is held by non-affiliates exceeds \$700 million as of the last business day of its most recently completed second fiscal quarter; and (ii) the date on which the combined company has issued more than \$1.00 billion in non-convertible debt securities during the prior three-year period. References herein to “emerging growth company” have the meaning associated with it in the JOBS Act.

PROPOSAL NO. 2

THE ADJOURNMENT PROPOSAL

Purpose of the Adjournment Proposal

In the event there are not sufficient votes for, or otherwise in connection with, the adoption of the Merger and the Share Exchange Agreement, ISAA's board of directors may adjourn the Meeting to a later date, or dates, if necessary, to permit further solicitation of proxies. In no event will ISAA seek adjournment which would result in soliciting of proxies, having a stockholder vote, or otherwise consummating a business combination after June 11, 2023 (the date that is within 24 months from the closing of the IPO).

Required Vote

Approval of the Adjournment Proposal requires the affirmative vote of the holders of a majority of the ISAA common stock as of the record date represented in person or by proxy at the Meeting and entitled to vote and voting thereon. Adoption of the Adjournment Proposal is not conditioned upon the adoption of any of the other Proposals.

Recommendation of ISAA's Board of Directors

The ISAA board of directors recommends a vote "FOR" adoption of the Adjournment Proposal.

OUR STRENGTHS

We believe that the following competitive strengths have contributed to our success and differentiated us from our competitors:

We possess a valuable brand name in the digital media industry that drives growth of our business, and our leadership in youth culture allows us to attract international brand owners for our advertising services and to supply their branded products to our e-commerce platform.

As an early entrant into digital media with respect to culture and lifestyle at the time when the industry had few well-established players, we possess strong brand recognition in the digital media and fashion industries and have amassed a large base of globally engaged followers on our digital media platforms. Our audience recognize and respect our brand, our opinion and our community leadership in the cultural space and consistently engage with our content through our digital content network. Our community of followers and visitors reads and shares our content and updates, engages with our editorial and advertising features and shares and connects via our social media platforms, all of which provides exponential exposure to any editorial or brand-driven content distributed to target audiences within our digital media network. Attracted by our ability to deliver bespoke advertising content to our large audience base, brand owners and other advertisers consistently engage with us as partners for advertising and creative media services.

We are a valuable media brand with more than fifteen years of experience in the digital media industry with a profound understanding of cultural and lifestyle trends and deep knowledge of media and retail consumption patterns of our users and shoppers. Combining these insights with our ability to deliver continuous updates to our global digital content, we are an iconic international online media platform with

an accurately positioned target market which builds upon our loyal community of unique followers and visitors. Our customers partner with us as an advertising and creative agency service provider owing to our industry and audience insight, strong reputation and brand image as well as our engaged and well-established follower and visitor base.

Our brand partnerships also in turn empower our e-commerce business. We benefit from our well-established relationships with our digital media customers with respect to product procurement for our HBX E-Commerce platform and physical retail stores, as certain of our digital media customers are also suppliers of our e-commerce business, including coveted brands which are sought after by our e-commerce customers.

Our integrated digital platforms attract millions of followers all over the world.

Our media platforms had an aggregate of approximately 16.7 million MUVs in September 2021, and recorded an aggregate of approximately 6.0 million and 18.5 million followers on Facebook and Instagram, respectively, as of September 30, 2021. Our community comprises culturally-engaged, Generation Z and Millennials between the ages of 18 to 35 across the Asia Pacific, the Americas and Europe, with particularly strong engagement from the United States, the United Kingdom, Canada, Australia, Hong Kong, mainland China, Korea, Japan and Southeast Asia.

We attribute our ability to consistently reach and resonate with a global audience to our capabilities in staying ahead of cultural trends and movements, which is empowered by our strong brand relationships established through the Hypebeast network, our experience and presence as an industry leader, as well as the deep knowledge of our followers' and visitors' media and product consumption patterns obtained from the engagement with our community. These in turn augment our ability to (i) identify and report the latest and newsworthy trends and information in fashion, lifestyle, culture and music that suit our followers' and visitors' interests; (ii) curate products coveted by the fashion-conscious audience of our digital media platforms; (iii) produce engaging editorial and branded creative agency content that are Generation Z and Millennial-focused and appeal to our audience's needs and desires; and (iv) provide tailored, multi-language content with localized insights to suit our regional audience's preferences and tastes.

The quality of our digital content attracts a large base of followers and visitors which we are able to capitalize and generate revenue.

Our business model thrives on our ability to attract millions of followers and visitors. Whilst social media platforms and the sharing of articles by our followers bring additional visitors to our integrated digital platforms, our wide range of articles and videos on topics such as fashion, lifestyle, culture and music extends the time our visitors spend on viewing our articles and videos, and the quality of our articles and videos strengthens our brand image, which attracts our visitors to come back to our digital media platforms.

Our global community of followers and visitors empowers our business growth and acts in a virtuous cycle in tandem with our media, creative agency and e-commerce businesses. Our followers and visitors are a natural target audience for brand advertisers' content and products, with our creative agency services and our digital media platforms combining as a one-stop shop delivering bespoke media production and distribution services directly to our 44.7 million strong audience base worldwide. Further, our community is also a low acquisition cost customer base for our HBX E-Commerce and physical retail platforms. Followers and visitors view our editorial and social media platforms as destinations for product and brand focused content, and our audience has a strong intent to purchase coveted brands and products on our retail platforms.

Our websites and mobile apps developed by our in-house developers are designed to be customer-experience focused and user-friendly resulting in a compelling user experience which supports our business growth.

We design and develop our websites and mobile apps with a customer-experience focused and user-friendly interface, which can support products from over 700 brand partners for sale and millions of visitors on our HBX E-Commerce platform. We engage third-party service providers to ensure that our system is secured and easy-to-maintain with minimal downtime. Our developers also make use of data analytics software to track the popularity of our editorial and branded content as well as transaction and inventory data of

our e-commerce products on our integrated digital platforms, which allows us to cater our digital and product marketing strategies according to the prevailing market trends and develop a deeper understanding of the preferences of our visitors, followers and online shoppers. Our targeted data analytics allow us to create and deliver content that is more focused, curated and appealing to our target audience and thereby enhances our visitors' experience and engagement with our digital media platforms. As readers become more receptive to our content, our advertisements and marketing campaigns become more effective, interesting and compelling. Further, our data analytics allow our management and our procurement team to gain valuable insights into our online shoppers' preferences and potential customer demand prior to ordering products for up-coming seasons, thereby optimizing our inventory quantities and selection and increasing sales on our e-commerce platform.

We have an experienced senior management team with a proven track record in operating our business.

OUR STRATEGIES

We plan to implement the following strategies:

We will continue the integration of editorial, digital media, creative agency and e-commerce businesses to drive conversion of customers.

We have a synergistic platform whereby our engaged community of followers and visitors form a natural audience for our editorial and branded content and are also a latent customer base with strong potential intent to purchase via our e-commerce platform. We plan to drive the continued conversion of our community to become customers through investment in building an integrated editorial-e-commerce digital customer experience and ecosystem, through omni-channel and cross platform promotion strategies, and through exerting Hypebeast's unique ability to identify and curate appealing experiences throughout our editorial to e-commerce funnel. A larger follower and visitor base and in turn an increased number of potential target audiences for brand campaigns extend our opportunities for brand partnership revenue growth.

We will continue to strengthen our business by increasing our sales and marketing efforts.

We plan to continue our targeted marketing efforts to further enhance our brand awareness and recognition and to promote our campaigns, products and initiatives. This may include social media marketing, placement of advertisements, as well as search engine marketing and search engine optimization. We plan to allocate resources to enhance our brand image, to boost customer and user spending and to further extend our audience and consumer reach. We plan on investing in content and campaign ideation and production, brand positioning and communication, brand awareness campaigns and digital and performance marketing, as well as other forms of marketing and promotional tactics to expand and broaden our user-customer base and drive conversion of user-customers on our HBX E-Commerce platform.

We will enhance the content of our digital media platforms to retain and expand our base of followers and visitors.

To retain and expand our base of followers and visitors, we intend to enhance our digital media platforms to reach more global users who are interested in the latest trends in fashion, lifestyle, culture, music and other topics in the following ways:

- Enrich our original digital media content by developing further capabilities in video, editorial and other content production;
- Expand our topical coverage into adjacent categories such as sports, art, crypto-currency, to expand the variety of the content and as a focus of readership expansion;
- Expand our regional offerings to promote, establish and monetize the Hypebeast platforms and brand in regions with high opportunities; and
- Enhance our data analytics capabilities in researching and analyzing the preferences, behaviors and needs of our followers and visitors through recruiting additional data scientists and analysts.

We may expand by opportunistic and strategic acquisitions of business and/or companies.

Although we will continue to focus on the organic growth of our business, should opportunities arise for the strategic growth through acquisition of other players in the digital media industry, we would consider consolidating their business with us. We may consider to acquire online digital media company having a broad visitor base to further enhance our global reach, as well as media and advertising companies with strong advertising platforms and advertising production capabilities. In identifying suitable acquisition targets, we will take into account factors including their reputation, popularity, statistics on MUVs, geographical location, information technology, revenue and customer base, our financial capability and whether the target company's business is complementary to our business. As of the date of this proxy statement/prospectus, we have not identified any acquisition targets.

We will enhance our e-commerce platform by improving our services and expanding our product portfolio.

We intend to enhance our online shoppers' experience on our e-commerce platform and thereby promoting the loyalty of our online shoppers with us by the following ways:

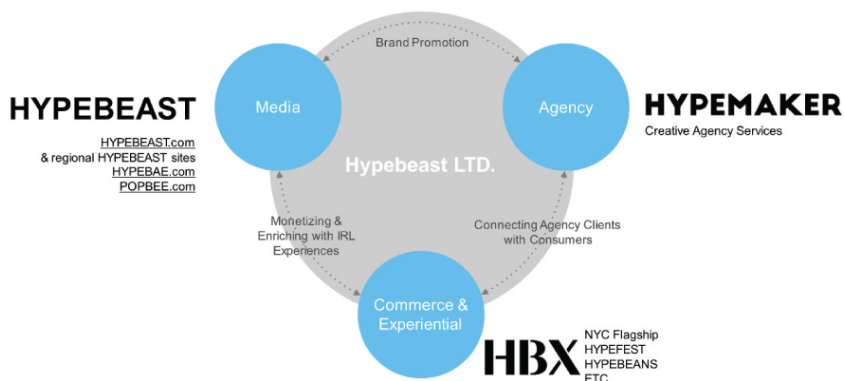

- Improve our data analytics capabilities through upgrading our database and IT systems to analyze the preferences and therefore the demand of our customers so as to plan for the purchase in the following season;
- Enhance the time and cost efficiencies of our e-commerce business by investing in upgrades and improvements to our global logistics and warehousing infrastructures;
- Continue leveraging brand relationships established through the Hypebeast network as well as unique consumer insight derived from our editorial community in curating and delivering brands and products coveted by our target audience;
- Enhance our customer service to serve our overseas customers in different time zones through recruiting additional customer service personnel; and
- Enhance our inventory system by the addition of automated features.

INFORMATION TECHNOLOGY SYSTEM

We have invested intentionally and intensively in technology to enable us to scale and support our continued expansion. We believe establishing a stable, resilient, secured and up-to-date technology infrastructure is critical to the operations of our online business. As our digital media business generates a large amount of internet traffic from visitors across the world, we utilize a third-party services provider to maintain our servers running continuously. We also employ technologies to improve our content delivery. We have strict policies to ensure the stability, security and robustness of the system for our websites or upgrade of software.

We are committed to safeguard the confidentiality, integrity and availability of all electronic information. Our servers are hosted on one of the leading cloud computing service providers and its data center and network architecture are built to satisfy the requirements of security-sensitive organizations. In addition to our routine security check, we use the tools offered by such computing service provider including firewall and back-up services to assist us in meeting our security and stability objectives. Such measures play a crucial role in mitigating risks posed to our technology infrastructure. We are actively tracking our service level such as the traffic data to maintain stability of our integrated digital platforms. We use software to help us monitor our websites performance and availability. We also perform monthly vulnerability scanning to detect any weakness in the security of our integrated digital platforms.

As of September 30, 2021, there were 32 employees in our information technology team. Our information technology team intends to provide training to our employees when new software features are deployed. Our system is protected by regular back-ups which are carried out by our information technology team and our third-party service providers.

Our software infrastructure and the code we developed based on third-party components allow us to perform data analysis. Our analysis is conducted based on the number of impressions of our advertisements (i.e. the number of times the advertisements are loaded) and our online sale data, so as to collect and analyses our visitors' and customers' preference. The results obtained from such analysis provide us with market information for planning our marketing strategy and selection of online retail products. Our e-commerce software is scalable and our information technology team continuously customizes it by incorporating new features and functions suggested by our editorial, sales, creative agency and e-commerce teams which increase our overall productivity. To increase traffic to our integrated digital platforms, we have adopted a variety of search engine optimization techniques to increase the page views and ranking of our integrated digital platforms in the search engine result page.

We believe we have applied adequate measures for safeguarding our visitors' and customers' personal information.

QUALITY CONTROL

Quality Control of Digital Content

We implement various quality control policies with regard to our digital media business, including policies for monitoring the quality of the editorial posts we upload to our digital media platforms and the quality of the photos or videos produced by our production team, as well as policies for monitoring of our visitors' posts on our discussion forum. Generally, we communicate with brands and industry contacts for content curation and carry out extensive research throughout the Internet by visiting websites that are relevant to our readers' interests before we determine what articles will be published on our digital media platforms. Once we determine the suitable content for our sites, editors and editorial assistants from our editorial team prepare the articles by composing and editing the text and adding relevant imagery to the articles. We have a dedicated senior editorial team to oversee all digital content and to ensure that all digital content is properly processed and published. The senior editorial team focuses on screening, reviewing and approving the articles, videos and photos before they are posted to ensure that all third-party sourced materials comply with our quality standards. Where practicable, members of the senior editorial team will obtain third-party consent before posting if the author of the original work can be identified. The editorial team of each of Hypebeast, Hypebae and Popbee websites holds meetings from time-to-time to review the most popular articles published in our websites. During the meeting, the senior or chief editors will discuss with editors on the strength of these articles and analyses the reason that these articles attract our audience. We believe that such discussion is essential in training our junior editors to avoid intellectual property infringement.

Our sales team and production team maintain regular contact with our customers to ensure that the final products satisfy the requirements of our customers. Senior members in the editorial, sales and production teams also review the materials to ensure the quality and the conformance with ethical and moral standards.

Members of our social media team also monitor our discussion forums and will remove any objectionable content.

Our brand partnership team maintains regular communication with our customers. Any feedback of our digital media production is passed to our production, video and editorial teams for consideration. If there is any complaint or specific demand from our customers, our sales personnel will communicate with the relevant customers to understand and resolve the issue.

Quality Control of Our E-Commerce and Retail Business

The main objectives of quality control in our e-commerce and retail business is to ensure the quality of the goods we received from suppliers and minimize incorrectly packed items and hence reduce the cost associated with returning and exchanging these items.

We have a quality control policy in place to check the goods we receive from our suppliers. After the shipment arrives from our suppliers, our inventory officers check for defects, quality as well as quantity in accordance with our quality control policy. If there is any problem with the products, our inventory officers would report to our procurement team to follow up with the suppliers and resolve the issue.

Prior to delivery of each customer's order, our quality control personnel checks every picking against the customer's order record as stored in our system. Our quality control personnel scans the label on each product being picked and checks whether the style and size of the products are correct. If there is any mistake, the basket of products picked is returned for re-packing. The mistake would also be logged onto our system for record.

SALES AND MARKETING

Our integrated marketing framework represents a core competency that we regard as essential to the success of our digital media and e-commerce businesses. We principally acquire users and customers through online channels, including paid and organic search, display advertising, app stores and social media channels. To continue to maintain and promote our brand, we organize marketing campaigns including

social media marketing, placement of advertisements, and utilizing marketing on search engines to raise the profile of our integrated digital platforms. Over the last three years, we also enhanced our brand partnership department by recruiting additional account service managers, which supports our marketing activities on social media platforms and through offline channels.

Digital Media Business

Our brand and our digital media platforms act as a marketing tool for our company. We continuously post updates on fashion, lifestyle, culture, music and other topics on our digital media platforms and accounts on social media platforms. Many of our digital media customers learn about us through our digital media platforms.

We have a brand partnership team responsible for sales and marketing activities for the promotion of our digital media services, who maintain regular contacts with our existing media customers to understand their marketing needs and keep them updated on our advertising products and services. For potential advertising customers, we inform them of our recent developments and achievements by distributing project portfolios and background materials. Our brand partnership team also attends events organized by brands to broaden the team's network and provide coverage of these events on our digital media platforms. Our brand partnership team conducts cross-selling of advertisement spaces among our various digital media platforms, as well as cross-selling with other business alliances who are independent digital media platform operators and digital publications. We constantly look for and identify synergy among various digital publications, social media platforms and mobile apps and devise impactful cross advertising opportunities.

E-Commerce and Retail Business

We believe that our brand and digital media platforms also provide a free of charge and highly effective marketing channel for our e-commerce and retail business. Followers and visitors of our digital media platforms and accounts on social media platforms may find an item we report on of particular interest to them and HBX store provides a convenient way for these followers and visitors to purchase the item.

Further, our sales and marketing personnel conduct advertising and marketing for our e-commerce and retail business via online channels, such as through Google and Facebook. We employ various search engine optimization techniques to increase the chances that HBX store appears in search engine results. We also engage the advertising services of Google and Facebook to place advertisements on their platforms to promote HBX store.

Depending on our marketing strategy, the general economic condition and seasonality in the industry, we may offer electronic coupons to our e-commerce customers from time to time to redeem a discount upon checkout at HBX store. We also offer a discount program to our customers who attain a minimum spending. We regularly monitor the turnover of the goods we sold on our e-commerce platform. We offer discounts on slow moving goods except for goods that are on consignment sale.

SEASONALITY

Our e-commerce and retail business is seasonal and we typically record higher sales during the months between October and January and also between May and July. Our sales may be affected by a change in weather in different countries. Please refer to the section headed "Risk factors — Hypebeast's e-commerce and retail business is subject to seasonality risk" in this proxy statement/prospectus.

INTELLECTUAL PROPERTY

We regard our trademarks, copyrights, patents, domain names, know-how, proprietary technologies, and similar intellectual property as critical to our success, and we rely on copyright, trademark and patent law and confidentiality, invention assignment and non-compete agreements with our employees and others to protect our proprietary rights. As of April 3, 2022, we had registered 231 trademarks, 119 registered domain names with 2 domain names awaiting registration amid verifying submitted documentations.

We seek to protect our technology and associated intellectual property rights through a combination of patent, copyright and trademark laws, as well as license agreements and other contractual protections. In

addition, we enter into employment agreements with confidentiality arrangements with our employees, and cooperation agreements with confidentiality arrangements with business partners to protect our proprietary rights. The agreements we enter into with our employees also provide that all patents, software, inventions, developments, works of authorship and trade secrets created by them during the course of their employment with us are our property.

EMPLOYEES

As of September 30, 2021, we had 404 employees. We generally recruit our employees from the open market and enter into employment contracts with our employees. In addition to salaries, our employees who are retained after the probation period are entitled to discretionary performance bonus and medical insurance coverage. We provide a defined contribution to the Mandatory Provident Fund as required under the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of the Laws of Hong Kong) for our eligible employees in Hong Kong. Contributions are made based on a percentage of the employee's basic salaries.

We regularly review the performance of our employees and make reference to such performance reviews in our discretionary performance bonus, salary review and promotional appraisal in order to attract and retain talented employees. In order to promote overall efficiency, employee loyalty and retention, we provide our employees with technical and operational on-the-job training and promotion prospects.

We also engage services of consultants and freelancers. Our consultants extend the reach of our brand partnership team by liaising with our existing and potential digital media customers located within or outside Hong Kong. We consider that these consultants provide a cost-effective channel for us to communicate with overseas digital media customers. We pay our consultants a fixed fee and/or a commission between 3% and 10.5% on the gross profit derived from either existing or new customers based on their performance. We engage freelancers on a project-by-project basis for the production of content to be placed on our digital media platforms. The services rendered by these freelancers include translation of articles and shooting of photos or videos in Hong Kong or abroad. We believe it is more cost efficient to engage freelancers for translation services as compared to hiring a full-time translator. Our consultants and freelancers are independent contractors and there is no employer-employee relationship between them and our Group. Our standard contracts with the consultants and freelancers provide that all intellectual property rights arising out of the course of performance of the freelancers' duties or obligations under the contract shall be vested with us; in addition, they will also ensure that in delivering their work product, they will ensure no third-party intellectual property rights will be infringed.

FACILITIES

We are headquartered in Hong Kong. We lease properties for our corporate headquarters, offices as well as store and warehouse premises. Our leases have a term between less than one to seven years. We believe that these facilities are generally adequate to meet our current needs, although we expect to seek additional space as needed to accommodate future growth.

INSURANCE

We are headquartered in Hong Kong. We maintain employees' compensation insurance in compliance with the Employees' Compensation Ordinance (Chapter 282 of the Laws of Hong Kong) to cover compensation and costs liable by our Group for personal injuries of our employees in Hong Kong in the course of employment with us. We have also taken out and maintained an office insurance for our office premises and office equipment in Hong Kong. The office insurance policy mainly covers loss resulting from burglary, damages made to insured property and increased cost due to business interruptions. We have also maintained an insurance for our warehouse to cover any damage or loss to our stocks and equipment in the warehouse.

We consider that our insurance coverage is sufficient and in line with the general industry practice in Hong Kong. We do not maintain any product liability insurance as we believe it is not the general industry practice in Hong Kong to take out such insurance.

COMPETITION

Both the digital advertising and retail industries are very competitive. For our digital media business, we face competition from digital vertical news media companies that attract readers and subscribers through specialized or even customized news or editorial opinions. Also, we face competition from horizontal e-commerce companies that sell a range of diversified products to a broad base of customers with the primary advantage of convenience, as well as competition from vertical e-commerce companies that focus on industry-specific marketing approach and sell products in certain industry.

The competitive edges of our business include our well-recognized brand, our global reach through our integrated digital platforms, our ability to attract followers and visitors as well as our experience management team with in-depth understanding of fashion, music, culture and lifestyle. We believe that we are well-positioned to effectively compete on the basis of these strengths. However, some of our current or future competitors may have longer operating histories, greater brand recognition, better supplier network, larger customer bases or greater financial, technical or marketing resources than we do.

LEGAL PROCEEDINGS AND REGULATORY COMPLIANCE

We are currently not involved in any material legal or administrative proceedings. We may from time to time be subject to various legal or administrative claims and proceedings arising in the ordinary course of business. Litigation or any other legal or administrative proceeding, regardless of the outcome, is likely to result in substantial cost and diversion of our resources, including our management's time and attention.

We are headquartered in Hong Kong and substantially all of our operations are in Hong Kong. All of our employees are located in Hong Kong. During the years ended March 31, 2020 and 2021 and for the six months ended September 30, 2021 and up to the date of this proxy statement/prospectus, we did not experience any incident of non-compliance which, in the opinion of our directors, is likely to materially and adversely affect our business, financial condition or results of operations. During the years ended March 31, 2020 and 2021 and for the six months ended September 30, 2021 and up to the date of this proxy statement/prospectus, we had complied with all applicable material laws and regulations in Hong Kong.

Company Overview

We are a global digital media and retail company primarily engaged in (i) the provision of digital media content, creative agency services and online advertising for global brands; and (ii) the sale of goods through our online and offline retail platforms. Our community of digital and social media followers and visitors are a coveted target market for our digital media and agency brand partners and also a natural customer base for our e-commerce and retail segment. Our editorial, digital media, creative agency and e-commerce offerings work in tandem and provide synergistic impact on our digital platform following, our digital media and creative agency revenue expansion as well as e-commerce and retail growth.

We have a track record of steady and profitable revenue growth during the past few years. Our total revenue was HK\$751.4 million in fiscal 2020, which decreased to HK\$674.2 million (US\$86.6 million) in fiscal 2021 due to the impact of the COVID-19 pandemic. Our revenue increased from HK\$285.5 million for the six months ended September 30, 2020 to HK\$440.8 million (US\$56.6 million) for the six months ended September 30, 2021, in line with the recovery in our business during the post-COVID-19 pandemic period. Our profit for the year showed robust growth over the same period, which increased from HK\$65.8 million in fiscal 2020 to HK\$70.6 million (US\$9.1 million) in fiscal 2021. Further, our profit for the year increased from HK\$20.9 million for the six months ended September 30, 2020 to HK\$63.0 million (US\$8.1 million) for the six months ended September 30, 2021.

Current Situation with Regards to COVID-19

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. Actions taken around the world to help mitigate the spread of COVID-19 include restrictions on travel, quarantines in certain areas and forced closures for certain types of public places and businesses. COVID-19 and

actions taken to mitigate its spread have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical areas in which we operate.

The COVID-19 outbreak has resulted in suspension of or slowdown in certain businesses in certain countries and regions that we operate in to various extents, including mainland China, Hong Kong, the United States, the United Kingdom, Korea and Japan, which has resulted in disruptions or delays to the delivery of a portion of our planned physical advertising campaigns as well as our customers' purchases through our online and offline retail platforms. However, the COVID-19 pandemic also accelerated the digitalization of advertising as global brands shifted marketing dollars from traditional marketing channels to digital channels. As such, for the media segment, we forecast positive developments going forward, and for the e-commerce and retail segment, we expect to undergo more rapid expansion after governments lift pandemic-related restrictions and stabilize supply chain disruptions.

Given the impacts of the COVID-19 pandemic, our total revenue decreased from HK\$751.4 million in fiscal 2020 to HK\$674.2 million (US\$86.6 million) in fiscal 2021. Specifically, our revenue from the media segment decreased from HK\$473.5 million in fiscal 2020 to HK\$447.4 million (US\$57.5 million) in fiscal 2021, and our revenue from the e-commerce and retail segment decreased from HK\$277.8 million to HK\$226.8 million (US\$29.1 million). As the COVID-19 situation and the corresponding containment measures abated, our revenues increased from HK\$285.5 million for the six months ended September 30, 2020 to HK\$440.8 million (US\$56.6 million) for the six months ended September 30, 2021, during which time our revenue from the media segment increased from HK\$172.6 million to HK\$326.9 million (US\$42.0 million), and our revenue from the e-commerce and retail segment increased from HK\$112.8 million to HK\$113.9 million (US\$14.6 million).

Throughout the pandemic, we have taken temporary precautionary measures intended to help minimize the risk of the virus to our employees, including encouraging employees to utilize the work from home policy, maintaining good personal hygiene and implementing social distancing protocol for all work conducted onsite.

As the COVID-19 pandemic's intensity wanes and pandemic-related restrictions continue to ease, our events production and offline partnerships under the media segment have already recovered to pre-COVID-19 levels. We expect the demand for offline campaigns and activations to resume and grow as global marketing spend continues to expand. However, concerns about the transmission of COVID-19 and mandates or orders from government authorities could continue to affect consumer behavior, leading to changes in spending. There remain significant uncertainties surrounding COVID-19, including the existing and new variants of COVID-19, and its further development as a global pandemic, including the effectiveness of vaccine programs against existing and any new variants of COVID-19.

As the COVID-19 pandemic continues to evolve, the ultimate extent of the impact on our businesses, operating results, cash flows, liquidity and financial condition will be primarily driven by the severity and duration of the outbreak, the pandemic's impact on Hong Kong, mainland China, the United States and global economies and the timing, scope and effectiveness of governmental responses to the pandemic.

Key Factors Affecting Hypebeast's Performance

We believe that our performance and future success is dependent on multiple factors that both present themselves as significant opportunities and pose risks and challenges, including those discussed below and in the section of this proxy statement/prospectus titled "*Risk Factors*."

Change of overall economic conditions

Some of our digital media customers are from the fashion, luxury goods and consumer industries. The revenue and growth of these industries are highly sensitive to the general economic performance regionally and globally. Should these industries suffer a downturn or be affected by fluctuations in the macroeconomic conditions, the branding and marketing budgets of brand owners and advertising agencies conducting business with us may be adversely affected. As budgets of brand owners and advertising agencies are closely related to the economic trend, we are indirectly exposed to the economic factors and risks that affect such brand owners and advertising agencies, such as the economic conditions of the United States, European

countries, Hong Kong, mainland China and other Asian countries, general industry trends, shift in consumption behavior of consumers and government policies. Our e-commerce platform would also be adversely affected if consumers are less willing to spend money on fashionable or luxury items due to economic downturn. This would have an impact on our business and financial performance.

Our ability to offer digital media content and e-commerce products that attract customers

We believe that our ability to provide services satisfactory to the brand owners and advertising agencies is critical to the success of our media segment. Therefore, we must keep abreast of the emergence of new digital media services in order to keep up with the changing demand of brand owners and advertising agencies. Should we fail to stay ahead of the industry trend and rapidly respond to the latest developments and the needs of our digital media customers in terms of offerings and pricing of our services, the continual growth of our business may be affected. To maintain our competitiveness, our digital media platforms and social media platforms are constantly updated to provide up-to-date information on fashion, lifestyle, technology, art and entertainment, culture, music and other topics that appeals to our followers.

For our e-commerce business, we believe that constantly changing product trends and consumer preferences have affected and will continue to affect the e-commerce industry. We must stay abreast of emerging consumer preferences and anticipate product trends that appeal to existing and potential online shoppers, and any failure to identify and respond to such trends could result in decreased number of shoppers to our e-commerce platform. This may in turn lead to significant adverse effects on our business performance, financial condition and results of operations.

Service and product mix

Our profitability and results of operations are affected by our service and product mix. We mainly provide advertising services under the media segment, including the provision of advertisement services and spaces and creative agency services. Our e-commerce and retail segment includes sales of variety of third-party branded products in our online and offline platforms. Our gross profit margins vary between business segments attributable to our different product and service portfolios. Our service and product mix may change over time and the magnitude of such change has affected, and is expected to continue to affect, our financial performance as different products or services generate different gross profits depending on factors such as cost structures and marketing, promotional and pricing strategies. The fluctuation of our overall gross profit margin was principally attributable to change in sales mix in our services and products. Going forward, we will continue to evaluate and adjust portfolio of our service and product offerings from time to time so as to focus on products with higher profit margins, greater market demand and better potential to maintain or increase our profitability.

Attraction and retention of talented staff and staff costs

We believe our employees are one of our most important assets in order to grow and manage our business successfully. We intend to continue to invest in hiring and retaining talented employees. In fiscal 2020 and 2021 and for the six months ended September 30, 2021, we retained a management team with extensive industry experiences and a creative workforce. As of September 30, 2021, we had 404 employees. We expect to grow our headcount in selected functions, particularly in editorial, production and sales and marketing functions.

We believe that it is important to continually develop and train our hired personnel and upskill our key existing employees in order to maintain and improve our business performance. As part of our continuing efforts to enhance the quality of our service, we will encourage our staff to attend internal and external training to keep abreast of latest developments in order to support our business growth.

Moreover, we believe that a positive work environment encourages better staff relations and enhanced quality of service by motivated staff, leading to greater employee retention. We are committed to foster a work environment which attracts and inspires people to excel in their work performance by implementing an incentive scheme to align remuneration with performance.

Effectiveness of sales and marketing efforts

We believe attracting visitors to our digital media platforms in a cost-efficient way and converting them into profitable online shoppers of our e-commerce platform is critical to our continued growth. We have incurred and will continue to incur significant expenses in marketing through a broad range of channels to drive website traffic, acquire new customers, grow revenue and enhance our overall brand awareness. Marketing expenses include expenses for online marketing, such as via search engine marketing and social media platform. In addition, we believe that our brand and digital media platforms are highly effective marketing channels for our e-commerce business. Visitors of our digital media platforms and accounts on social media platforms may find an item we reported to be of particular interest and our e-commerce and retail platform to be able to provide a convenient way for them to purchase the item.

Basis of Presentation

Our consolidated financial statements have been prepared in accordance with IFRS. The consolidated financial statements include the accounts of the Company, entities (including the variable interest entity) controlled by the Company, and its wholly owned subsidiaries. Control is achieved when the Company (1) has power over the investee; (2) is exposed, or has rights, to variable returns from its involvement with the investee; and (3) has the ability to use its power to affect its returns.

All intragroup assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the group are eliminated in full on consolidation. Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items, are recognized in profit or loss in the period in which they arise.

(b) for commission fee from consignment sales, we act as consignee for certain suppliers on selling their clothing, shoes and accessories and lifestyle products to customers through our online retail platform on consignment basis. We are an agent under the consignment sales contracts as our performance obligation is to sell the products supplied by a third party and therefore do not control such products. Accordingly, we recognize revenue in the amount of commission to be received pursuant to the consignment sales contracts when the goods are shipped/delivered to customers, being the point when the customer obtains the control of the goods and we have present right to payment and collection of the consideration is probable. Our income tax expense primarily consists of current tax expenses. Currently, the Hong Kong Profits Tax is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million. The basic tax rate of our PRC subsidiaries is 25%. Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdiction.

Revenue

Our total revenue of HK\$440.8 million (US\$56.6 million) for the six months ended September 30, 2021 comprised of HK\$326.9 million (US\$42.0 million) of revenue from the media segment and HK\$113.9 million (US\$14.6 million) from the e-commerce and retail segment. Our total revenue of HK\$285.5 million for the six months ended September 30, 2020 comprised of HK\$172.6 million of revenue from the media segment and HK\$112.8 million from the e-commerce and retail segment.

Our revenue increased by HK\$155.3 million, or 54.4%, from HK\$285.5 million for the six months ended September 30, 2020 to HK\$440.8 million (US\$56.6 million) for the six months ended September 30, 2021.

The significant increase in revenue was primarily due to the significant increase in revenue from the media segment from HK\$172.6 million for the six months ended September 30, 2020 to HK\$326.9 million (US\$42.0 million) for the six months ended September 30, 2021. This is in turn attributable to (i) the significant increase in the revenue from provision of advertising spaces from HK\$72.9 million to HK\$188.8 million (US\$24.2 million) and (ii) the significant increase in the revenue from provision of services for creative agency projects from HK\$99.5 million to HK\$138.1 million (US\$17.7 million) in the same periods, due to softer

comparatives for the six months ended September 30, 2020 due to COVID-19 and record high total signed contract value, which represents an increase of 54.4% as compared to the six months ended September 30, 2020 overall and 148.1% in our core markets.

The revenue from our e-commerce and retail segment increased from HK\$112.8 million for the six months ended September 30, 2020 to HK\$113.9 million (US\$14.6 million) for the six months ended September 30, 2021 primarily due to an increase in proportion of full price items and the improvements in sell-through rates.

Cost of Revenue

Our cost of revenue increased by HK\$24.9 million, or 15.8%, from HK\$157.6 million for the six months ended September 30, 2020 to HK\$182.5 million (US\$23.4 million) for the six months ended September 30, 2021. The increase was primarily due to the resumption of productions and strong performance in the media segment in the six months ended September 30, 2021, which led to the increase in campaign production costs.

Selling and Marketing Expenses

Our selling and marketing expenses increased by HK\$21.7 million, or 43.7%, from HK\$49.7 million for the six months ended September 30, 2020 to HK\$71.4 million (US\$9.2 million) for the six months ended September 30, 2021. The significant increase was primarily due to increase in (i) the new headcounts within our brand partnership team to drive current and future revenue and business growth; (ii) variable commission paid for the respective size of our contracts and the level of production within our contractual pipeline for the relevant period; and (iii) spending in our social media marketing and advertising for digital and e-commerce platforms.

Administrative and Operating Expenses

Our administrative and operating expenses increased by HK\$39.9 million, or 74.4%, from HK\$53.6 million for the six months ended September 30, 2020 to HK\$93.5 million (US\$12.1 million) for the six months ended September 30, 2021. The significant increase was primarily due to the fact that, for the six months ended September 30, 2020, we enjoyed more favorable policy from government subsidies and we adopted management-led cost-savings measures during the COVID-19 pandemic.

Finance Costs

Our finance costs increased by HK\$1.4 million, or 147.7%, from HK\$0.9 million for the six months ended September 30, 2020 to HK\$2.3 million (US\$0.3 million) for the six months ended September 30, 2021. The significant increase was primarily due to an increase in interest on lease liabilities, partially offset by the decrease in interest on bank borrowings.

Other Income, other Gains and Losses

Our other income, other gains and losses decreased by HK\$3.4 million, or 93.9%, from HK\$3.6 million for the six months ended September 30, 2020 to HK\$0.2 million (US\$28.1 thousand) for the six months ended September 30, 2021. The significant decrease was primarily due to fluctuations in foreign currency exchange rates and decrease in penalty on customers for overdue settlement, partially offset by gain on disposal of property, plant and equipment. In the six months ended September 30, 2020 and the six months ended September 30, 2021, we were exposed to foreign exchange differences between the HK\$ and US\$, Euro and RMB arising from our foreign currency denominated accounts receivable, accounts payable and cash balances. In addition, to enhance the turnover of our trade receivables and hence financial liquidity, we maintained a late payment fee policy on customers and applied surcharges for overdue settlements with a determined rate over the overdue balances agreed by customers stated on the payment term.

Revenue

Our total revenue of HK\$674.2 million (US\$86.6 million) for the year ended March 31, 2021 comprised of HK\$447.4 million (US\$57.5 million) of revenue from the media segment and HK\$226.8 million (US\$29.1 million) from the e-commerce and retail segment. Our total revenue of HK\$751.4 million for the year ended March 31, 2020 comprised of HK\$473.5 million of revenue from the media segment and HK\$277.8 million from the e-commerce and retail segment.

Our revenue decreased by HK\$77.2 million, or 10.3%, from HK\$751.4 million for the year ended March 31, 2020 to HK\$674.2 million (US\$86.6 million) for the year ended March 31, 2021.

The decrease in revenue was primarily due to the decrease in revenue from the e-commerce and retail segment from HK\$277.8 million for the year ended March 31, 2020 to HK\$226.8 million (US\$29.1 million) for the year ended March 31, 2021. This is in turn primarily attributable to the decrease in the revenue from sales of goods through online retail platform from HK\$275.5 million to HK\$224.4 million (US\$28.8 million) in the same periods due to a management-imposed restriction on the inventory purchases for the Fall/Winter 2020 Season as a measure of risk management to navigate pandemic-related uncertainties during the reporting period, which was lifted in the Spring/Summer 2021 Season to serve demand growth and led to significantly increased inventory sell through rates and partially mitigated by the sale of our highly popular product offerings and the resumption of discounting and sell-through to healthy levels.

The revenue from our media segment also decreased from HK\$473.5 million for the year ended March 31, 2020 to HK\$447.4 million (US\$57.5 million) for the year ended March 31, 2021, primarily

attributable to the decrease in revenue from provision of advertising spaces from HK\$267.8 million to HK\$215.6 million (US\$27.7 million) in the same periods. This is due to COVID-related lockdown measures, which led several endemic brand customers in the retail, fashion and luxury industry that were exposed to physical retail lockdowns to adjust their marketing spending in the first half of fiscal 2021, which experienced resurgence in the second half of fiscal 2021 and was mitigated by an increased marketing spending from non-endemic brand customers in the alcohol, e-gaming and consumer technology industries that gained traction from stay-at-home and lockdown trends, mitigated by the increase in revenue from provision of services for creative agency projects from HK\$203.6 million to HK\$231.5 million (US\$29.7 million) in the same periods due to the increasing shift from traditional advertising channels to online channels by the brand owners and advertising agencies in anticipation of post-COVID rebound as well as the continued growth of our user base as we continue to solidify ourselves as the go-to destination for cultural enthusiasts who follows the latest trends.

Cost of Revenue

Our cost of revenue decreased by HK\$32.0 million, or 8.6%, from HK\$372.1 million for the year ended March 31, 2020 to HK\$340.1 million (US\$43.7 million) for the year ended March 31, 2021. The decrease was primarily due to the impact of the COVID-19 pandemic, which further led to the decrease in (i) product and inventory related costs of our e-commerce business due to overall lower levels of sales and inventory volume; (ii) direct staff costs with the effect of government subsidies and streamlined team size, despite the increase in campaign production costs due to resume of productions.

Selling and Marketing Expenses

Our selling and marketing expenses decreased by HK\$46.0 million, or 29.0%, from HK\$158.8 million for the year ended March 31, 2020 to HK\$112.8 million (US\$14.5 million) for the year ended March 31, 2021. The decrease was primarily due to the impact of COVID-19 pandemic, which led to the decrease in (i) associated distribution charges in our e-commerce business, (ii) spending in our social media marketing and advertising for digital and e-commerce platforms due to a shift to more cost effective channels, and (iii) variable commission paid for the respective size of our contracts and level of production within our contractual pipeline for the year.

Administrative and Operating Expenses

Our administrative and operating expenses kept stable at HK\$126.0 million for the year ended March 31, 2020 and HK\$125.0 million (US\$16.1 million) for the year ended March 31, 2021, primarily due to the impact of COVID-19 pandemic, which led to the decrease in travel expenses for the business trip arrangement, offset by the increase in rental and utilities cost for the new headquarters in Hong Kong and the office and retail premise in the lower East Side neighborhood of Manhattan, which will host our offline retail store alongside our offices in the East Coast in the U.S.

Finance Costs

Our finance costs increased by HK\$0.3 million, or 19.6%, from HK\$1.4 million for the year ended March 31, 2020 to HK\$1.6 million (US\$0.2 million) for the year ended March 31, 2021. The increase was primarily due to an increase in lease liabilities related to our office and retail premise expansion, partially offset by a decrease in bank borrowings outstanding.

Other Income, other Gains and Losses

Our other income, other gains and losses was HK\$3.2 million (US\$0.4 million) for the year ended March 31, 2021, compared with an expense of HK\$4.5 million for the year ended March 31, 2020. The change was primarily due to fluctuations in foreign currency exchange rates, penalty on customers for overdue settlement and bank interest income, partially offset by loss on disposal of property, plant and equipment. In fiscal 2021 and 2020, we were exposed to foreign exchange differences between the HK\$ and US\$, Euro and RMB arising from our foreign currency denominated accounts receivable, accounts payable and cash balances. In addition, to enhance the turnover of our trade receivables and hence financial liquidity, we

maintained a late payment fee policy on customers and applied surcharges for overdue settlements with a determined rate over the overdue balances agreed by customers stated on the payment term.

Liquidity and Capital Resources

Our primary uses of cash are for operating expenses and capital expenditure, which have been funded through a combination of cash generated from our operations and bank borrowings. As of September 30, 2021, we had current assets of HK\$560.5 million (US\$72.0 million), trade and other payables of HK\$136.9 million (US\$17.6 million) and net current assets of HK\$373.3 million (US\$48.0 million). Our profit for the period was HK\$63.0 million (US\$8.1 million) for the six months ended September 30, 2021 and HK\$20.9 million for the six months ended September 30, 2020. Our total interest-bearing bank borrowings as of September 30, 2021 were approximately HK\$8.8 million (US\$1.1 million), and current ratio remained at approximately 3.0 times as of September 30, 2021. These bank borrowings were denominated in HK dollar and Pound Sterling, due within one year, and the interest rates applied were primarily subject to floating rate terms. As of September 30, 2021, we had HK\$70.5 million (US\$9.1 million) available credit facilities comprising of revolving loans, term loan, trade loan, tax loan and bank guarantee. As of September 30, 2021, we had bank balances and cash of HK\$254.7 million (US\$32.7 million) and pledged bank deposits of HK\$10 million (US\$1.28 million), which we placed to a bank to secure banking facilities to us that carry interest at prevailing market rates of 1.85% per annum. Our profit for the year was HK\$70.6 million (US\$9.1 million) in fiscal 2021 and HK\$65.8 million in fiscal 2020.

We believe that our cash on hand following the consummation of the Business Combination, including the net proceeds from ISAA's cash in trust (assuming no redemptions by ISAA's stockholders), and the PIPE will be sufficient to meet its working capital and capital expenditure requirements for at least the next 12 months from the date of this proxy statement/prospectus and sufficient to fund its operations. We may, however, need additional cash resources due to changed business conditions or other developments, including disruptions due to the COVID-19 pandemic, uncertainties of market fluctuation and regulatory changes. To the extent that our current resources are insufficient to satisfy its cash requirements, we may need to seek additional equity or debt financing. If the financing is not available, or if the terms of financing are less desirable than we expect, we may be forced to decrease its level of investment in product development or delay, scale back or abandon all or part of our growth strategy, which could have an adverse impact on our business and financial prospects.

were a profit before tax of HK\$79.5 million (US\$10.2 million), after adjusting for (i) non-cash charges of HK\$30.4 million (US\$3.9 million), consisting primarily of depreciation of right-of-use assets of HK\$10.3 million (US\$1.3 million) arisen from the existing leases of offices and warehouses and a newly entered lease for the coffee shop in South Korea, impairment losses recognised on amount due from a joint venture of HK\$9.1 million (US\$1.2 million) due to the collectability of the balance after assessing the financial information of the joint venture and share-based payment expense of HK\$3.2 million (US\$0.4 million) for the existing share options granted to directors and employees; (ii) net changes in operating assets and liabilities of HK\$31.3 million (US\$4.0 million), consisting primarily of increase in inventories of HK\$12.2 million (US\$1.6 million) due to the resume of inventory purchase to the levels of pre-COVID-19 pandemic period, increase in trade and other receivables of HK\$39.3 million (US\$5.1 million) due to increased trade receivables following the robust strength in recovery in revenue, and increase in trade and other payables of HK\$19.0 million (US\$2.4 million) due to accrual for staff bonus and commission payable to staff following the increase in media campaigns executed; and (iii) payment of income taxes of HK\$9.0 million (US\$1.2 million).

During the year ended March 31, 2021, net cash generated from operating activities was HK\$195.7 million (US\$25.1 million). The primary factors affecting operating cash flows during this period were a profit before tax of HK\$93.1 million (US\$12.0 million), after adjusting for (i) non-cash charges of HK\$42.1 million (US\$5.4 million), consisting primarily of depreciation of right-of-use assets of HK\$21.3 million (US\$2.7 million) arisen from the existing leases of offices and warehouses and commencement of lease of a seven storey building in the United States and share-based payment expense of HK\$7.0 million (US\$0.9 million) for the existing and new share options granted to directors and employees; (ii) net changes in operating assets and liabilities of HK\$83.9 million (US\$10.8 million), consisting primarily of decrease in inventories of HK\$28.0 million (US\$3.6 million) due to the promotion and sell-through of pre-existing inventories throughout first half of the year ended March 31, 2021, increase in trade and other payables of HK\$27.5 million (US\$3.5 million) due to accrual for campaign cost and commission payable to staff following the strong growth and recovery of revenue in in the second half of fiscal year 2021, and decrease in trade and other receivables of HK\$23.5 million (US\$3.0 million) due to the collection efforts of trade receivables; and (iii) payment of income taxes of HK\$23.4 million (US\$3.0 million).

During the year ended March 31, 2020, net cash generated from operating activities was HK\$45.6 million. The proceeds from disposal of property, plant and equipment of HK\$1.3 million (US\$0.2 million) for the six months ended September 30, 2021 and the withdrawal of pledged bank deposits of HK\$5.6 million for the six months ended September 30, 2020 partially offset the cash outflow in the respective periods.

Recent Accounting Pronouncements

For a discussion of our new and amendments to IFRSs in issue but not yet effective, see Note 2 to our consolidated financial statements included elsewhere in this proxy statement/prospectus.

Off-Balance Sheet Commitments and Arrangements

During the periods presented, we did not have any off-balance sheet commitments or arrangements.

Critical Accounting Policies and Estimates

An accounting policy is considered critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time such estimate is made, and if different accounting estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact the consolidated financial statements.

We prepare our consolidated financial statements in conformity with IFRS issued by the International Accounting Standards Board, which requires us to make judgments, estimates and assumptions. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experiences and various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from our expectations as a result of changes in our estimates. Some of our accounting policies require a higher degree of judgment than others in their application and require us to make significant accounting estimates.

The following descriptions of critical accounting policies, judgments and estimates should be read in conjunction with our consolidated financial statements and other disclosures included in this prospectus. When reviewing our consolidated financial statements, you should consider (i) our selection of critical accounting policies, (ii) the judgments and other uncertainties affecting the application of such policies and (iii) the sensitivity of reported results to changes in conditions and assumptions.

Revenue Recognition

We recognize revenue in accordance with IFRS 15, *Revenue from Contracts with Customers*, when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular

performance obligation is transferred to the customer. A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the our performance as we perform;
- our performance creates or enhances an asset that the customer controls as we perform; or
- our performance does not create an asset with an alternative use to us and we have an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

Sales of goods through online and offline retail platform

Revenue from sales of goods through online and offline retail platform is therefore recognised at a point in time when the goods is shipped/delivered to customers, being at the point that the customer obtains the control of the goods and we have present right to payment and collection of the consideration is probable.

Taking into consideration of the relevant contract terms that entered into with customers on sales of goods through online and offline retail platform, we concluded that we do not have an enforceable right to payment prior to the relevant products shipped/delivered to customers.

Commission fee from consignment sales

Commission fee from consignment sales represents commission received us when we act as consignee for certain suppliers on selling their clothing, shoes and accessories to customers through its online retail platform on consignment basis.

We are an agent under the consignment sales contracts as its performance obligation is to sell the products supplied by another party. In this regards, we do not control the products provided by another party before those goods sold and shipped/ delivered to customers. Accordingly, we recognise revenue in the amount of commission to be received pursuant to the consignment sales contracts and is therefore recognised at a point in time when the goods is shipped/delivered to customers, being at the point that the customer obtains the control of the goods and we have present right to payment and collection of the consideration is probable.

Provision of advertising spaces

Revenue from provision of advertising spaces is recognised over time because the customer simultaneously receives and consumes the benefits provided by our performance as we perform. Revenue is recognised for provision of advertising spaces based on insertion order agreed by both parties using output method over the period that the advertisement launched.

Provision of services for creative agency projects

Creative agency projects consist of project-based production of advertisement (including photo shooting, video production and editorial work prior to the publishing on advertising spaces). The relevant deliverables (i.e. completed advertisement) specified in the contracts are based on customer's specifications with no alternative use. Creative agency projects comprise of large-scale projects and small-scale projects.

For large-scale projects, we will typically sign a service contract with the customer, taking into consideration of the relevant contract terms, we concluded that we have an enforceable right to payment prior to the completion of the relevant services and delivered to customers. Accordingly, revenue from the

provision of services for large-scale projects is therefore recognised based on the agreed payment schedule pursuant to the contracts using output method over the period of the projects.

For small-scale projects, we will typically issue the insertion order to the customer. There is no contract terms to mention an enforceable right to payment prior to the completion of relevant services and delivered to customers. Accordingly, revenue from the provision of services for small-scale projects is therefore recognised at a point in time when the completed advertisement is delivered to customers, being at the point that the customer obtains the control of the advertisement and we have present right to payment and collection of the consideration is probable.

Publication of magazines

We publish our own magazine every quarter and delivers to its customers upon subscription made. Taking into consideration of the relevant contract terms that entered into with customers on the subscription of magazines, we conclude that we do not have an enforceable right to payment prior to the magazines published and shipped/delivered to customers. Revenue from publication of magazines is therefore recognised at a point in time when the published magazines is shipped/delivered to customers, being at the point that the customer obtains the control of the magazines and we have present right to payment and collection of the consideration is probable.

Impairment assessment of trade and unbilled receivables

We perform impairment assessment under expected credit loss (“ECL”) model on trade and unbilled receivables and the amount of ECL is remeasured at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. We always recognise lifetime ECL for trade and unbilled receivables.

Trade and unbilled receivables that with significant balances or credit-impaired are assessed for ECL individually. The amount of the remaining trade and unbilled receivables are estimated based on collective assessment through grouping of various debtors by geographical locations and then further grouped by past due status of respective trade receivables. We also take into consideration the characteristics like the nature, size and industry of debtors and external credit ratings where available when formulating the grouping. The grouping is regularly reviewed to ensure the constituents of each group continue to share similar credit risk characteristics.

The provision of ECL is sensitive to changes in estimates and estimated loss rates are based on historical observed default rates over the expected life of the debtors and forward-looking information that is reasonable and supportable available without undue costs or effort.

As at March 31, 2020 and 2021, trade and unbilled receivables with gross carrying amounts of HK\$123.4 million and HK\$134.8 million (US\$17.3 million) were assessed collectively with average loss rate from 0.4% to 10.0% and from 0.4% to 12.5% respectively. Trade and unbilled receivables with gross carrying amounts of HK\$65.9 million and HK\$38.9 million (US\$5.0 million) were assessed individually with all are classified as low risk and loss rate of 0.16% in 2020 and 0.10% to 0.20% in 2021 were applied. During the year ended March 31, 2020 and 2021, we recognised impairment losses under ECL model, net of reversal, of HK\$1.0 million and HK\$0.8 million (US\$0.1 million), respectively. During the six months ended 30 September 2020 and 2021, we recognised impairment losses under ECL model, net of reversal, of HK\$0.2 million and HK\$2.8 million (US\$0.4 million), respectively.

Consolidation of Variable Interest Entity (“VIE”)

PRC laws and regulations currently restrict foreign ownership of companies involved in the provision of VAT services. Accordingly, we, through our wholly foreign-owned subsidiary in the PRC, Beijing Hypbeast, has entered into the following contractual arrangements with Hypebeast Cultural, the VIE, and

the VIE's shareholders that enable us to (1) have power to direct the activities that most significantly affects the economic performance of the VIE, and (2) receive the economic benefits of the VIE that could be significant to the VIE.

We believe we have the power to control the VIE. Specifically, we believe that the terms of the Exclusive Option and Equity Trust Agreement are currently exercisable and legally enforceable under PRC laws and regulations. We also believe that the lowest price of consideration permitted by the applicable PRC law to exercise the option does not represent a financial barrier or disincentive for us to exercise our rights under the Exclusive Option and Equity Trust Agreement. To exercise our rights under the Exclusive Option and Equity Trust Agreement does not require the consent of the VIE or the VIE's shareholders. Therefore, we believe this gives us the power to direct the activities that most significantly impact the economic performance of our affiliated entities. We believe that our ability to exercise effective control, together with the Service Agreement and the Equity Pledge Agreement, give us the rights to receive substantially all of the economic benefits from the VIE in consideration for the services provided by Beijing Hypebeast. Accordingly, as the primary beneficiary of the VIE and in accordance with IFRS, we consolidate the VIE's financial results and assets and liabilities in our consolidated financial statements.

As advised by our PRC legal counsel, the ownership structures of Beijing Hypebeast and Hypebeast Cultural are not in violation of applicable PRC laws or regulations currently in effect; and the contractual arrangements among Beijing Hypebeast, Hypebeast Cultural and the VIE's shareholders governed by PRC law are valid, binding and enforceable, and will not result in any violation of applicable PRC laws or regulations currently in effect.

However, our PRC legal counsel has also advised us that as there are substantial uncertainties regarding the interpretation and application of PRC laws and regulations, and we cannot assure you that the PRC government would agree that our corporate structure or any of the above contractual arrangements comply with current or future PRC laws or regulations. PRC laws and regulations governing the validity of these contractual arrangements are uncertain and the relevant government authorities may have broad discretion in interpreting these laws and regulations.

Equity-settled share-based payment transactions

Equity-settled share-based payments to our directors who have contributed or will contribute are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments without taking into consideration all non-market vesting conditions determined at the grant date is expensed on a straight-line basis over the vesting period, based on our estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share options reserve). At the end of each reporting period, we revise its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share options reserve. For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to accumulated profits.

Emerging Growth Company Status

As defined in Section 102(b)(1) of the JOBS Act, we are an emerging growth company ("EGC"). As such, we will be eligible for and intends to rely on certain exemptions and reduced reporting requirements provided by the JOBS Act, including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in their periodic reports and proxy statements, and exemptions from the

requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

We will remain an EGC under the JOBS Act until the earliest of (i) the last day of the fiscal year (a) following the fifth anniversary of the ISAA IPO, (b) in which we have total annual gross revenue of at least US\$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our securities that are held by non-affiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter; and (ii) the date on which we have issued more than US\$1.00 billion in non-convertible debt securities during the prior three-year period.

Internal Control over Financial Reporting

In the course of auditing our consolidated financial statements included in this proxy statement/prospectus, we and our independent registered public accounting firm identified two significant deficiencies in our internal control over financial reporting, which we have begun to address and have a plan to further address. As defined in the standards established by the PCAOB, a “significant deficiency” is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness but important enough to merit attention by those responsible for oversight of the company’s financial reporting.

The significant deficiencies identified relate to (i) our insufficient accounting personnel with appropriate knowledge of SEC reporting, and (ii) our lack of formal, comprehensive accounting policies and procedures relating to the application and compliance with SEC reporting.

Neither we nor our independent registered public accounting firm undertook a comprehensive assessment of our internal control under the Sarbanes-Oxley Act for purposes of identifying and reporting any weakness in our internal control over financial reporting. Had we performed a formal assessment of our internal control over financial reporting or had our independent registered public accounting firm performed an audit of our internal control over financial reporting, additional control deficiencies may have been identified.

We have begun remediation and will continue to implement several measures, including, among others: (i) hiring a chief accounting officer with appropriate knowledge and experience in SEC reporting. The chief accounting officer, together with other experienced accountants, would support our chief financial officer to continue build up a stronger accounting and finance team with a greater understanding of SEC reporting requirements; (ii) organizing regular training for our accounting staff, especially trainings related to SEC reporting requirements. These staff would be kept current with the SEC reporting requirements via various means, such as attending external SEC reporting seminar as well as the getting access of the most updated SEC technical information; (iii) formulating comprehensive accounting policies and procedures that’s tailored to our business. Such policies would include but not limited to (a) compliance reporting checklist for annual report and other SEC filings; and (b) processes to monitor new SEC reporting requirements; (iv) implementing internal controls over financial reporting policies to ensure accounting policies and procedures are operating effectively; and (v) creating relevant SEC reporting policies and procedures manual, which will be maintained, regularly reviewed, updated and readily accessible to accounting personnel. However, the implementation of these measures may not fully address these deficiencies in our internal control over financial reporting, and we cannot conclude that they have been fully remediated. our failure to correct these deficiencies or failure to discover and address any other deficiencies could result in inaccuracies in our financial statements and impair our ability to comply with applicable financial reporting requirements and related regulatory filings on a timely basis. Moreover, ineffective internal control over financial reporting could significantly hinder our ability to prevent fraud.

However, we cannot assure you that all these measures will be sufficient to remediate our significant deficiencies in time, or at all.

Quantitative and Qualitative Disclosures About Market Risk

We are exposed to various risks in relation to financial instruments. The main types of risks are foreign currency risk and interest rate risk. While we may enter into hedging contracts from time to time, any changes in the fair value of the contracts could be offset by changes in the underlying value of the transactions

being hedged. Furthermore, we currently do not enter into any hedging instrument for cash flow interest rate risk, nor do we currently have a foreign currency hedging policy. Our directors monitor foreign exchange exposure and will consider hedging significant foreign currency exposure should such need arise.

Interest Rates Risk

We are exposed to fair value interest rate risk in relation to lease liabilities and cash flow interest rate risk in relation to variable-rate bank borrowings and bank balances, the latter of which is mainly concentrated on the fluctuation of Hong Kong Dollar Best Lending Rate arising from our Hong Kong dollars denominated borrowings.

If interest rates had been 50 basis points higher/lower for variable rate bank borrowings, with all other variables held constant, our post-tax profit for the year ended March 31, 2020 and 2021 would decrease/increase by HK\$137,000 and HK\$25,000 (US\$3,211), respectively.

Foreign Currency Risk

We undertake certain operating transactions in foreign currency, which exposes us to foreign currency risk mainly related to the fluctuation against US\$, Euro and RMB during the years ended March 31, 2020 and 2021. As the HK\$ is pegged with the US\$ under the Linked Exchange Rate System, and our business operations and strategies involve revenues and expenditures in Euro and RMB, our exposure to the US\$, Euro and RMB exchange risk is not significant.

We currently do not have a foreign currency hedging policy. However, management closely monitors foreign exchange exposure and will consider and execute the hedging of significant foreign currency exposure should such need arises.

Credit Risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to us. Our credit risk mainly arises from trade and unbilled receivables and contract assets arising from contracts with customers, amount due from a joint venture, and other receivables and deposits, pledged bank deposits and bank balances.

While we do not hold any collateral or other credit enhancements to cover our credit risks associated with our financial assets, we would charge penalty on certain customers for overdue settlement according to the sales agreement. In addition, we limit our credit risk by, among others, performing impairment assessment on a periodic basis and having our management delegate a team responsible for determination of credit limits and credit approvals. Before accepting any new customer, we use an internal credit scoring system to assess the potential customers' credit quality and define credit limits by customer. Limits and scoring attributed to customers are reviewed once a year.

Liquidity Risk

We manage liquidity risk by monitoring and maintaining a level of cash and cash equivalents as well as undrawn banking facilities deemed adequate by our directors to finance our operations and mitigate the effects of fluctuations in cash flows. In addition, our directors monitor the utilization of bank borrowings.

OTHER INFORMATION RELATED TO ISAA

Overview

ISAA is a blank check company, incorporated as a Delaware corporation on January 22, 2021, for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which ISAA refers to as a “target business.” ISAA’s effort to identify prospective target businesses were limited to the branded consumer sector. Within this sector, ISAA planned to focus on verticals that aligned with the experiences and core competencies of its management team — Athletics and Sport-Culture, Apparel and Accessories and Food, Wellness and Lifestyle.

ISAA’s Amended & Restated Certificate of Incorporation provide that it will liquidate the trust account and distribute the funds included therein to the holders of common stock sold in its initial public offering and dissolve if it does not consummate a Business Combination within 24 months from the closing of the IPO.

Offering Proceeds Held in Trust

The registration statement for the ISAA’s IPO was declared effective on June 8, 2021. On June 11, 2021, ISAA consummated its IPO of 15,000,000 Public Shares. The Public Shares were sold at a price of \$10.00 per Public Share, generating gross proceeds to ISAA of \$150,000,000.

Simultaneously with the closing of the IPO, ISAA consummated the sale of 1,090,000 Private Placement Shares at a price of \$10.00 per Private Placement Share in a private placement to the Sponsor, generating gross proceeds of \$10,900,000.

ISAA granted the underwriters in the IPO (the “Underwriters”) a 45-day option to purchase up to 2,250,000 additional shares to cover over-allotments, if any. On June 16, 2021, the Underwriters partially exercised the over-allotment option and purchased an additional 1,680,000 shares (the “Over-Allotment Shares”), generating gross proceeds of \$16,800,000. The remaining 570,000 shares were not exercised by the underwriter and expired on July 26, 2021.

Simultaneously with the closing of the exercise of the over-allotment option, the ISAA consummated the sale of 100,800 shares (the “Over-Allotment Private Placement Shares”) at a purchase price of \$10.00 per share in a private placement to the Sponsor, generating gross proceeds of \$1,008,000.

Following the closing of the IPO on June 11, 2021 and the partial exercise of the over-allotment option on June 16, 2021, an amount of \$173,472,000 (\$10.40 per Public Share) from the net proceeds of the sale of the Public Shares in the IPO, the sale of the Over-Allotment Private Placement Shares and the sale of the Over-Allotment Shares was placed in a U.S.-based Trust Account, and were invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with maturities of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest only in direct U.S. government treasury obligations, as determined by ISAA, until the earlier of: (i) the completion of a Merger and (ii) the distribution of the funds held in the Trust Account.

As of the date of this proxy statement/prospectus, ISAA has approximately \$387,000 of unused net proceeds that were not deposited into the trust account to pay future general and administrative expenses. The net proceeds deposited into the trust account remain on deposit in the trust account earning interest. As of _____, 2022, there was \$ _____ held in the trust account (including \$ _____ of accrued interest which ISAA can withdraw to pay taxes).

Fair Market Value of Target Business

The target business or businesses that ISAA acquires must collectively have a fair market value equal to at least 80% of the balance of the funds in the Trust Account at the time of the execution of a definitive agreement for its initial business combination, although ISAA may acquire a target business whose fair market value significantly exceeds 80% of the Trust Account balance. ISAA’s board of directors determined that this test was met in connection with the proposed Business Combination with Hypebeast.

Stockholder Approval of Business Combination

Under the ISAA Amended and Restated Articles of Incorporation, where ISAA seeks stockholder approval of an initial business combination at a meeting called for such purpose, ISAA stockholders have the right to request that ISAA redeem their public shares, regardless of whether they vote for or against the proposed business combination, subject to the limitations described in the prospectus for ISAA's IPO. Accordingly, in connection with the Business Combination with Hypebeast, the ISAA stockholders may seek to have their public shares redeemed in accordance with the procedures set forth in this joint proxy statement/prospectus.

Voting Restrictions in Connection with the Meeting

The Sponsor agreed with Hypebeast and ISAA to vote its securities in favor of the Merger Proposal and all other proposals being presented at the ISAA Special Meeting.

No directors or officers of ISAA have purchased any securities of ISAA in any open market transactions. However, at any time prior to the ISAA Special Meeting, during a period when they are not then aware of any material nonpublic information regarding ISAA or its securities, the ISAA initial stockholders, Hypebeast or Hypebeast's shareholders and/or their respective affiliates may purchase shares from institutional and other investors who vote, or indicate an intention to vote, against the Merger Proposal, or execute agreements to purchase such shares from them in the future, or they may enter into transactions with such persons and others to provide them with incentives to acquire ISAA shares of common stock or vote their shares in favor of the Merger Proposal. The purpose of such share purchases and other transactions would be to increase the likelihood of satisfaction of the requirements that the Business Combination be approved where it appears that such requirements would otherwise not be met. All shares repurchased by ISAA's affiliates pursuant to such arrangements would be voted in favor of the proposed Business Combination. As of the date of this joint proxy statement/prospectus, there have been no such discussions and no agreements to such effect have been entered into with any such investor or holder.

Sponsor Loan

The Sponsor may make working capital loans to ISAA, up to \$1,000,000 of which loans may be converted into warrants, at the price of \$1.00 per warrant at the option of the Sponsor. ISAA may use a portion of working capital held outside the Trust Account to repay such loaned amounts to the Sponsor or its affiliates in relation to the Business Combination. As of the date hereof, ISAA had no borrowings under the working capital loans.

Liquidation if No Business Combination

If the Business Combination with Hypebeast or another business combination is not consummated by June 11, 2023, ISAA will cease all operations except for the purpose of winding down, redeeming 100% of the outstanding shares of common stock for cash and, subject to the approval of its remaining stockholders and its board of directors, dissolving and liquidating. In the event of dissolution or liquidation, all the Founder Shares held by ISAA's initial stockholders which were acquired for an aggregate purchase price of \$25,000 prior to the ISAA IPO, would be worthless because the ISAA's initial stockholders are not entitled to participate in any redemption or liquidation of the Trust Account with respect to Founder Shares. The aggregate market value of ISAA shares of common stock held by the ISAA's initial stockholders was \$ _____ based upon the closing price of \$ _____ per share on Nasdaq on the Record Date.

Each of ISAA's initial stockholder has agreed to waive its rights to participate in any distribution from the Trust Account or other assets with respect to the Founder Shares.

Upon redemption of ISAA's public shares, if ISAA is unable to complete the Business Combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with the Business Combination, ISAA will be required to provide for payment of claims of creditors that were not waived that may be brought against ISAA within the 10 years following redemption. Accordingly, the per-share redemption amount received by ISAA public stockholders could be less than the \$10.40 per share initially held in the trust account, due to claims of such creditors. ISAA's Sponsor has agreed that it will be liable to

ISAA if and to the extent any claims by a third party for services rendered or products sold to ISAA, or a prospective target business with which ISAA has entered into a written letter of intent, confidentiality or similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.40 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.40 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under ISAA's indemnity of the underwriter of its initial public offering against certain liabilities, including liabilities under the Securities Act.

Facilities

ISAA's executive offices are located at 125 N Cache St., 2nd Floor, Jackson, Wyoming 83001 and ISAA's telephone number is (307) 200-9007. ISAA's executive offices are provided to ISAA by its sponsor. Commencing on the date of this proxy statement/prospectus, ISAA has agreed to pay an affiliate of its sponsor a total of \$10,000 per month for office space, utilities and secretarial and administrative support. ISAA considers its current office space adequate for its current operations.

Employees

ISAA currently has two officers. These individuals are not obligated to devote any specific number of hours to ISAA's matters but they are devoting as much of their time as they deem necessary to its affairs until the completion the business combination. ISAA does not have any full-time employees.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF ISAA

The following discussion should be read in conjunction with ISAA's Financial Statements and footnotes thereto contained in this report.

Overview

ISAA is a blank check company, incorporated as a Delaware corporation on January 22, 2021, for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which ISAA refers to as a "target business." ISAA's effort to identify prospective target businesses were limited to the branded consumer sector. Within this sector, ISAA planned to focus on verticals that aligned with the experiences and core competencies of its management team — Athletics and Sport-Culture, Apparel and Accessories and Food, Wellness and Lifestyle.

ISAA presently has no revenue, have had losses since inception from incurring formation costs and have had no operations other than the active solicitation of a target business with which to complete a business combination. ISAA has relied upon the sale of its securities and loans from ISAA's officers and directors to fund ISAA's operations.

Offering Proceeds Held in Trust

On June 11, 2021, ISAA consummated its IPO of 15,000,000 Public Shares. The Public Shares were sold at a price of \$10.00 per Public Share, generating gross proceeds to ISAA of \$150,000,000. ISAA granted the underwriters in the IPO (the "Underwriters") a 45-day option to purchase up to 2,250,000 additional shares to cover over-allotments, if any. On June 16, 2021, the Underwriters partially exercised the over-allotment option and purchased an additional 1,680,000 shares (the "Over-Allotment Shares"), generating gross proceeds of \$16,800,000. The remaining 570,000 shares were not exercised by the underwriter and expired on July 26, 2021. Simultaneously with the closing of the exercise of the over-allotment option, the ISAA consummated the sale of 100,800 shares (the "Over-Allotment Private Placement Shares") at a purchase price of \$10.00 per share in a private placement to the Sponsor, generating gross proceeds of \$1,008,000.

As of June 16, 2021, after deducting the underwriting discounts, offering expenses, and commissions from the IPO, a total of \$173,472,000 of the net proceeds from the IPO (including the exercise of the over-allotment option), the Private Placement Shares, and the Over-allotment Private Placement Shares was deposited into a trust account established for the benefit of its public stockholders, and the remaining proceeds became available to be used to provide for business, legal and accounting due diligence on prospective business combinations and continuing general and administrative expenses.

ISAA's management has broad discretion with respect to the specific application of the net proceeds of IPO and the Private Placements, although substantially all of the net proceeds are intended to be applied generally towards consummating a business combination.

Results of Operations

ISAA has neither engaged in any operations nor generated any operating revenues to date. ISAA's only activities for the period from January 22, 2021 (inception) through December 31, 2021 were organizational activities, those necessary to prepare for the IPO and, after the IPO, identifying a target company for a business combination. ISAA does not expect to generate any operating revenues until after the completion of its initial business combination. ISAA generates non-operating income in the form of interest income on cash and cash equivalents held after the IPO. ISAA incurs expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the period from January 22, 2021 (inception) through December 31, 2021, ISAA had a net loss of \$1,012,145, which resulted from operating and formation costs of \$894,112 and franchise tax expense of \$187,945, offset in part by interest income on the Trust Account of \$7,812 and the change in fair value of the over-allotment option of \$62,100.

Liquidity and Capital Resources

For the period from January 22, 2021 (inception) through December 31, 2021, net cash used in operating activities was \$1,088,818, which was due to our net loss of \$1,012,145, change in fair value of the over-allotment option of \$62,100, interest income on the Trust Account of \$7,812, and changes in working capital of \$185,462, offset in part by the amortization of prepaid expenses and other assets of \$171,582 and formation and operating costs of \$7,119.

For the period from January 22, 2021 (inception) through December 31, 2021, net cash used in investing activities of \$173,472,000 was the result of the amount of net proceeds from the IPO and the sale of Private Placement Shares being deposited to the Trust Account.

For the period from January 22, 2021 (inception) through December 31, 2021, net cash provided by financing activities was \$175,055,511, which was comprised of the net proceeds from the initial public offering, net of underwriter's discount paid of \$163,464,000, proceeds from the sale of private placement shares of \$11,908,000, and proceeds from the sale of common stock to the Sponsor of \$25,000, offset in part by payment of offering costs of \$341,489.

As of December 31, 2021, the Company had \$494,693 in cash held outside of the Trust Account and working capital of \$391,964. The Company has incurred and expects to continue to incur significant costs in pursuit of its acquisition plans. These conditions raise substantial doubt about the Company's ability to continue as a going concern for a period of time within one year after the date that the financial statements are issued. Management plans to address this uncertainty through the Business Combination as discussed above. There is no assurance that the Company's plans to consummate the Business Combination will be successful or successful within the Combination Period. The financial statements for the period ended December 31, 2021 do not include any adjustments that might result from the outcome of this uncertainty.

As of December 31, 2021, ISAA did not have any off-balance sheet arrangements. ISAA has no obligations, assets or liabilities which would be considered off-balance sheet arrangements. ISAA does not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. ISAA has not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or entered into any non-financial assets.

Contractual obligations

Due to Related Party

An affiliate of the Sponsor has paid \$163,715 to cover certain operating costs and offering costs on behalf of ISAA. The outstanding balance is due on-demand.

Registration Rights

The holders of the Sponsor's shares and Private Placement Shares that may be issued upon conversion of working capital loans will have registration rights to require ISAA to register a sale of any of its securities held by them pursuant to a registration rights agreement. The holders of these securities are entitled to make up to three demands, excluding short form demands, that ISAA register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of a business combination. ISAA will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

ISAA granted the underwriter a 45-day option to purchase up to 2,250,000 additional shares of Class A common stock to cover over-allotments at the IPO price, less the underwriting discounts and commissions. On June 16, 2021, the underwriters partially exercised the over-allotment option and purchased an additional 1,680,000 Over-Allotment Shares for an aggregate purchase price of \$16,800,000. The remaining 570,000 shares were not exercised by the underwriter and expired on July 26, 2021.

The underwriter was paid a cash underwriting fee of \$0.20 per share, or \$3,336,000 in the aggregate, upon the closing of the IPO. In addition, \$0.35 per share, or \$5,838,000 in the aggregate will be payable to the underwriter for deferred underwriting commissions. The deferred fee will become payable to the underwriter from the amounts held in the Trust Account solely in the event that ISAA completes a Merger, subject to the terms of the underwriting agreement.

Controls and Procedures

ISAA is required to evaluate its internal control procedures for the fiscal year ended December 31, 2022 as required by the Sarbanes-Oxley Act. Only in the event ISAA is deemed to be a large accelerated filer or an accelerated filer and no longer qualify as an emerging growth company will it be required to comply with the independent registered public accounting firm attestation requirement on its internal control over financial reporting. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Quantitative and Qualitative Disclosures about Market Risk

The net proceeds from the IPO and the sale of the Private Placement Shares held in the trust account are invested in U.S. government treasury bills with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, ISAA believes there will be no associated material exposure to interest rate risk.

Commitments and Contractual Obligations; Quarterly Results

As of the date of this proxy statement/prospectus, ISAA did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this proxy statement/prospectus as ISAA has conducted no operations to date.

JOBS Act

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. ISAA will qualify as an “emerging growth company” and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. ISAA is electing to delay the adoption of new or revised accounting standards, and as a result, ISAA may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As such, ISAA’s financial statements may not be comparable to companies that comply with public company effective dates.

Additionally, ISAA is in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company,” ISAA chooses to rely on such exemptions ISAA may not be required to, among other things, (i) provide an independent registered public accounting firm’s attestation report on ISAA’s system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of this offering or until ISAA are no longer an “emerging growth company,” whichever is earlier.

Related Party Transactions

Founder Shares

On February 3, 2021, the Sponsor paid \$25,000 to cover certain offering costs of ISAA in consideration for 5,031,250 shares of Class B common stock (the “Founder Shares”). The Founder Shares include an aggregate of up to 562,500 shares subject to forfeiture to the extent that the underwriter’s over-allotment is not exercised in full or in part, so that the Sponsor will own 20% of ISAA’s issued and outstanding shares upon the completion of the Initial Public Offering. On June 8, 2021, the Sponsor surrendered 718,750 Founder Shares for no consideration. On June 16, 2021, the underwriters partially exercised the over-allotment option to purchase an additional 1,680,000 shares (see Note 6). On July 26, 2021, 142,500 Founder Shares were forfeited upon the expiration of the underwriters’ over-allotment option, resulting in an aggregate of 4,170,000 Founder Shares outstanding.

The Sponsor has agreed that, subject to certain limited exceptions, the Founder Shares will not be transferred, assigned, sold or released from escrow until the earlier of (a) one year after the completion of a Business Combination or (b) the date on which ISAA completes a liquidation, merger, capital stock exchange or other similar transaction after a Business Combination that results in all of ISAA’s stockholders having the right to exchange their Class A common stock for cash, securities or other property.

Notwithstanding the foregoing, if (i) the closing price of ISAA’s Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Business Combination or (ii) if ISAA consummates a transaction after the Business Combination which results in ISAA’s stockholders having the right to exchange their shares for cash, securities or other property, the Founder Shares will be released from the lock-up.

Due to Related Parties

An affiliate of the Sponsor and the Sponsor have paid \$71,382 to cover certain operating costs and offering costs on behalf of ISAA. A portion of the outstanding balance was paid on January 20, 2022 in the amount of \$11,382. As of December 31, 2021, ISAA owed \$60,000 to the Sponsor and \$11,382 to an affiliate of the sponsor.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of ISAA’s officers and directors may, but are not obligated to, loan ISAA funds as may be required (“Working Capital Loans”). If the Sponsor makes any Working Capital Loans, such loans may be converted into shares of Class A common stock, at the price of \$10.00 per share at the option of the lender. If ISAA completes a Business Combination, ISAA would repay the Working Capital Loans out of the proceeds held in the Trust Account released to ISAA. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination is not completed, ISAA may use a portion of the proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender’s discretion, up to \$1,000,000 of such Working Capital Loans may be convertible into shares of Class A common stock at a price of \$10.00 per share. As of December 31, 2021, ISAA does not have any outstanding related party loans.

Consulting Agreement

ISAA entered into an agreement with a related party on January 26, 2021 (the “Consulting Agreement”), to pay the related party a total of \$25,000 per month for research, financial analysis, due diligence, bookkeeping and other administrative services from formation through the completed business combination. For the period from January 22, 2021 (inception) through December 31, 2021, ISAA incurred \$280,000 in fees for

these services. As of December 31, 2021, \$25,000 related to the Consulting Agreement is recorded in due to related parties on the balance sheet.

Administrative Support Agreement

ISAA entered into an agreement (the Administrative Services Agreement”), commencing on the effective date of the Initial Public Offering, to pay the Sponsor a total of \$10,000 per month for office space, administrative and support services. Upon the completion of the Business Combination or ISAA’s liquidation, ISAA will cease paying these monthly fees. For the period from January 22, 2021 (inception) through December 31, 2021, ISAA incurred \$67,333 in fees for these services. As of December 31, 2021, \$67,333 related to the Administrative Services Agreement is recorded in due to related parties on the balance sheet.

The Company produces and distributes youth focused digital content reporting the latest trends on fashion, lifestyle, technology, arts & entertainment, culture and music to its visitors and followers.

The historical financial information of ISAA was derived from the audited financial statements of ISAA as of December 31, 2021, included elsewhere in this proxy statement/prospectus, and from the unaudited condensed financial statements for the period from January 22, 2021 (inception) to March 31, 2021 and for the six month period from July 1, 2021 through December 31, 2021. The historical financial information of Hypebeast was derived from the audited financial statements of Hypebeast as of and for the year ended March 31, 2021 and the unaudited financial statements for the six months ended September 30, 2021 included elsewhere in this proxy statement/prospectus. This information should be read together with ISAA's and Hypebeast's audited financial statements and related notes, the sections titled "*Management's Discussion and Analysis of Financial Condition and Results of Operations of ISAA*," and "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Hypebeast*" and other financial information included elsewhere in this proxy statement/prospectus.

The unaudited pro forma condensed combined financial information has been presented for illustrative purposes only and is not necessarily indicative of the financial position and results of operations that would have been achieved had the Business Combination and related transactions occurred on the dates indicated. Further, the unaudited pro forma condensed combined financial information may not be useful in predicting the future financial condition and results of operations of the post-combination company. The actual financial position and results of operations may differ significantly from the pro forma amounts reflected herein due to a variety of factors. The unaudited pro forma adjustments represent management's estimates based on information available as of the date of the unaudited pro forma condensed combined financial information and is subject to change as additional information becomes available and analyses are performed.

Description of the Business Combination

On April 3, 2022, ISAA entered into an Agreement and Plan of Merger with Hypebeast Limited, a Cayman Islands exempted company with its shares publicly traded with stock code "00150" on the Main Board of The Stock Exchange of Hong Kong Limited (the "HKSE") and Hypebeast WAGMI Inc., a Delaware corporation and wholly owned subsidiary of the Company (the "Merger Sub"). At the Effective Time, each ISAA share of common stock issued and outstanding immediately prior to the Effective Time (other than the ISAA Redeeming Shares) will be canceled and automatically converted into the right to receive, without interest, Hypebeast ordinary shares (the "Applicable Per Share Merger Consideration"). Each ISAA stockholder will cease to have any rights with respect to the ISAA shares of common stock except (i) in the case of holders of ISAA shares of common stock that are issued and outstanding as of immediately prior to the Effective Time (other than any ISAA Redeeming Shares), the right to receive the respective portions of the Applicable Per Share Merger Consideration in exchange therefor; and (ii) in the case of any

holders of ISAA Redeeming Shares, the right to have their public shares redeemed for cash equal to \$10.00 per share (not including dividends previously paid) in connection with the Business Combination.

The cash held in the Trust Accounts will be released to Hypebeast on closing of the Business Combination. Hypebeast's shares will be listed on the NASDAQ Stock Exchange in the United States from a share consideration to be enacted at the time of the Business Combination, such that the former stockholders of ISAA would become shareholders of Hypebeast (alongside existing shareholders of Hypebeast prior to the Business Combination) as a company dual-listed in Hong Kong and the United States.

The Business Combination is expected to close in the third quarter of 2022, following the receipt of the required approval by ISAA's stockholders and the fulfillment of other customary closing conditions.

Prior to the closing of the Business Combination and the PIPE Investment, the ordinary shares of Hypebeast, par value HK\$0.01 per share (the "Pre-Consolidation Shares") shall be automatically cancelled, extinguished, and consolidated into a number of ordinary shares of Hypebeast immediately prior to the Business Combination (the "Hypebeast ordinary shares") equal to the quotient by dividing (i) the number of all Pre-Consolidation Shares that are issued and outstanding immediately prior to the consolidation of Hypebeast ordinary shares (the "Share Consolidation") by (ii) the Consolidation Factor (as defined below).

The "Consolidation Factor" is a number determined by dividing (i) the Pre-Consolidation Shares by (ii) the Company Equity Value (as defined below) divided by \$10.00 USD (HK\$77.97). For purposes of this calculation, the Pre-Consolidation Shares is the total number of Hypebeast shares issued and outstanding as of the close of business in Hong Kong on the business day prior to the date in which the Share Consolidation occurs, which was determined to be 2,053,629,231. The Company Equity Value is the pre-Merger consolidation equity value of Hypebeast of \$300,000,000 USD (HK\$2,338,950,000). As of the date of the Merger Agreement, the Consolidation Factor was 68.4543077.

Concurrently with the execution of the Merger Agreement, certain investors (the "PIPE Investors") entered into subscription agreements, pursuant to which the PIPE Investors have agreed to make a private investment in 1,333,500 Hypebeast shares at \$10.00 USD (HK\$77.97) per share for an aggregate purchase price of \$13,335,000 USD (HK\$272,877,500).

For more information about the Business Combination, please see the section entitled "*Summary — Overview of the Merger Agreement.*" A copy of the Merger Agreement is attached to this proxy statement/prospectus as Annex A.

Anticipated Accounting Treatment

ISAA will be treated as the "acquired" company for financial reporting purposes. The Merger will be treated as an acquisition of ISAA by Hypebeast in the way of Hypebeast issuing equity instruments for the net assets of ISAA as of the closing date. The net assets of ISAA will be stated at pre-combination amount, with no goodwill or other intangible assets recorded.

Hypebeast has been determined to be the accounting acquirer based on evaluation of the following facts and circumstances:

- Hypebeast's shareholders will have the largest voting interest in Hypebeast under both the no redemption and maximum redemption scenarios;
- Hypebeast shareholders will have the ability to nominate at least a majority of the members of the Board of Directors of the combined entity; and
- Hypebeast's senior management is the senior management of the post-combination company.

The Business Combination, which is not within the scope of IFRS 3 — *Business Combinations* ("IFRS 3") since ISAA does not meet the definition of a business in accordance with IFRS 3, is accounted for as a share-based payment transaction within the scope of IFRS 2 — *Share-based Payment* ("IFRS 2"). The net assets of Hypebeast will be stated at their pre-combination carrying amounts, with no goodwill or

other intangible assets recorded. Any excess of the fair value of equity instruments issued by Hypebeast to ISAA shareholders over the pre-combination carrying value of ISAA's identifiable net assets acquired represents compensation for the service of a stock exchange listing for its shares and is expensed as incurred.

Basis of Pro Forma Presentation

Because ISAA reports its historical financial information in U.S. Dollars ("USD") and Hypebeast reports its historical financial information in Hong Kong Dollars ("HKD"), for purposes of preparing this presentation, all USD balance sheet amounts have been translated into Hong Kong Dollars using an exchange rate of \$1.00 USD to HK\$7.80, which was the exchange rate published by the Wall Street Journal as of December 31, 2021. All U.S. Dollar statement of profit or loss and other comprehensive income amount have been translated into Hong Kong Dollars using an exchange rate of \$1.00 USD to HK\$7.76 and HK\$7.78 for the period from January 22, 2021 (inception) to March 31, 2021 and for the six month period from July 1, 2021 through December 31, 2021, respectively.

The unaudited pro forma condensed combined financial information has been prepared using the assumptions below with respect to the potential redemption by ISAA's public stockholders of ISAA's public shares for cash equal to their pro rata share of the aggregate amount on deposit in the Trust Account:

- **Assuming No Redemptions:** This presentation assumes that no public stockholders of ISAA exercise redemption rights respect to their public shares for a pro rata share of cash in the Trust Account.
- **Assuming Maximum Redemptions:** This presentation assumes that 15,014,000 ISAA public shares are redeemed for their pro rata share of the cash in the Trust Account, which is the maximum amount that can be redeemed. This scenario gives effect to ISAA share redemptions for aggregate redemption payments of \$150,146,812 USD (HK\$1,170,619,620) at a redemption price of approximately \$10.00 USD (HK\$77.97) based on the investments held in the Trust Account as of December 31, 2021. The Merger Agreement includes as a condition to closing the Business Combination that, at Closing, must be at least \$35,000,000 USD (HK\$272,877,500) comprising (i) the cash held in the Trust Account after giving effect to the ISAA stockholder redemption and (ii) aggregate proceeds from the PIPE Financing (the "Available Closing Cash Amount").

The foregoing scenarios are for illustrative purposes only as the actual number of redemptions by ISAA's public stockholders is uncertain prior to the ISAA shareholder vote with respect to the Business Combination. Accordingly, the actual financial position and results of operations may differ significantly from the pro forma amounts presented herein.

The following summarizes the number of shares outstanding of the combined company under the two redemption scenarios:

	Share Ownership in Hypebeast ⁽¹⁾⁽²⁾⁽³⁾			
	Assuming No Redemptions (Shares)		Assuming Maximum Redemptions (Shares)	
	Number of Ordinary Shares	%	Number of Ordinary Shares	%
Hypebeast shareholders	30,000,000	56.21%	30,000,000	78.21%
ISAA public stockholders	16,680,000	31.25%	1,666,000	4.34%
Founder and Private Placement Shares	5,360,800	10.04%	5,360,800	13.97%
PIPE Investors	1,333,500	2.50%	1,333,500	3.48%
Pro forma Combined Ordinary Shares	53,374,300	100.00%	38,360,300	100.00%

- (1) The share amounts and ownership percentages set forth above are not indicative of voting percentages and do not take into account any outstanding Hypebeast options, vested or unvested, that were assumed by the Company upon the completion of the Business Combination. If the actual facts are different than the assumptions set forth above, the share amounts and percentage ownership numbers set forth above will be different.
- (2) For a more detailed description of share ownership upon consummation of the Business Combination, see “Beneficial Ownership of Securities.”
- (3) In both the No Redemption Scenario and the Maximum Redemption Scenario, the payment of deferred underwriting fees incurred as part of Iron Spark’s initial public offering will be \$5,838,000 (HK\$45,515,967).

NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

Note 1. Basis of Presentation

The unaudited pro forma condensed combined financial information has been prepared to illustrate the effect of the Business Combination and has been prepared for informational purposes only.

The historical consolidated financial statements of Hypebeast have been prepared in accordance with IFRS. The historical financial statements of ISAA have been prepared in accordance with U.S. GAAP.

For accounting purposes, the financial statements of the combined company will represent a continuation of the consolidated financial statements of Hypebeast with the acquisition being treated as an acquisition of ISAA by Hypebeast in the way of Hypebeast issuing equity instruments for the net assets of ISAA as of the closing date. The net assets of ISAA will be stated at pre-combination carrying amounts, with no goodwill or other intangible assets recorded.

The Business Combination, which is not within the scope of IFRS 3 — *Business Combinations* (“IFRS 3”) since ISAA does not meet the definition of a business in accordance with IFRS 3, is accounted for within the scope of IFRS 2 — *Share-based Payment* (“IFRS 2”). Any excess of the fair value of equity instruments issued by Hypebeast to ISAA shareholders over the pre-combination carrying value of ISAA’s identifiable net assets acquired represents compensation for the service of a stock exchange listing for its shares and is expensed as incurred.

One-time direct and incremental transaction costs anticipated to be incurred prior to, or concurrent with, the consummation are reflected in the unaudited pro forma condensed combined statement of financial position as either a direct reduction to the reserves or directly expensed and are assumed to be cash settled.

The unaudited pro forma condensed combined statement of financial position as of September 30, 2021 and the unaudited pro forma condensed combined statements of profit or loss and other comprehensive income for the year ended March 31, 2021 and for the six months ended September 30, 2021 are based on the historical financial statements of ISAA and Hypebeast. The accounting adjustments for the Business Combination consist of those necessary to account for the Business Combination.

Hypebeast and ISAA did not have any historical relationship prior to the Business Combination. Accordingly, no pro forma adjustments were required to eliminate activities between the companies.

The unaudited pro forma condensed combined statement of financial position as of September 30, 2021 assumes that the Business Combination occurred on September 30, 2021. The unaudited pro forma condensed combined statement of profit or loss and other comprehensive income for the year ended March 31, 2021 and for the six months ended September 30, 2021 presents pro forma effect to the Business Combination as if it had been completed on April 1, 2020.

The unaudited pro forma condensed combined financial information does not give effect to any anticipated synergies, operating efficiencies, tax savings, or cost savings that may be associated with the Business Combination.

Management has made significant estimates and assumptions in its determination of the pro forma adjustments. The pro forma adjustments reflecting the consummation of the Business Combination are based on certain currently available information and certain assumptions and methodologies that Hypebeast believes are reasonable under the circumstances. The unaudited condensed pro forma adjustments, which are described in the accompanying notes, may be revised as additional information becomes available and is evaluated. Therefore, it is likely that the actual adjustments will differ from the pro forma adjustments and it is possible the difference may be material. Hypebeast believes that these assumptions and methodologies provide a reasonable basis for presenting all of the significant effects of the Business Combination based on information available to management at the time and that the pro forma adjustments give appropriate effect to those assumptions and are properly applied in the unaudited pro forma condensed combined financial information.

The unaudited pro forma condensed combined financial information is not necessarily indicative of what the actual results of operations and financial position would have been had the Business Combination had taken place on the dates indicated, nor are they indicative of the future consolidated results of

³/₄Operations or financial position of the combined company. They should be read in conjunction with the historical financial statements and notes thereto of Hypebeast and ISAA.

Note 2. IFRS Conversion and Presentation Alignment

The historical financial information of ISAA has been adjusted to give effect to the differences between U.S. GAAP and IFRS as issued by the IASB for the purposes of the unaudited pro forma condensed combined financial information. The only adjustment required to convert ISAA's financial statements from U.S. GAAP to IFRS for purposes of the unaudited pro forma condensed combined financial information was to adjust ISAA's Class A common stock subject to possible redemption to non-current financial liabilities under IFRS.

Further, as part of the preparation of the unaudited pro forma condensed combined financial information, certain reclassifications were made to align ISAA's historical financial information in accordance with the presentation of Hypebeast's historical financial information.

The IFRS conversion and presentation alignment adjustments included in the unaudited pro forma condensed combined statement of financial position as of September 30, 2021 and unaudited pro forma condensed combined statement of profit or loss and other comprehensive income for the six months ended September 30, 2021 are as follows:

- A. Reflects the adjustment of ISAA's ordinary shares subject to final redemption to non-current financial liabilities.
- B. Reflects the reclassifications/alignment of ISAA additional paid-in capital, franchise taxes payable and expenses, accrued expenses, prepaid expenses and other current assets, franchise taxes expense and change in fair value of over-allotment option to align ISAA's historical financial information in accordance with the presentation of Hypebeast's historical financial information.

Note 3. Adjustments to Unaudited Pro Forma Condensed Combined Financial Information

The adjustments included in the unaudited pro forma condensed combined balance sheet as of September 30, 2021 are as follows:

- C. Represents release of the investments held in the Trust Account upon consummation of the Business Combination to fund the closing of the Business Combination.
- D. Represents cash proceeds of \$13,335,000 USD (HK\$103,966,328) from the private placement of 1,333,500 shares of Hypebeast at \$10.00 USD (HK\$77.97) per share pursuant to the concurrent PIPE Investment.

Equity issuance costs of \$849,544 (HK\$6,591,171) under a no redemption scenario and \$973,755 (HK\$7,554,861) under a maximum redemption scenario, respectively, are offset to equity through reserves and the remaining balance is expensed through reserves. The costs expensed through reserves are included in the unaudited pro forma condensed combined statement of operations for the year ended March 31, 2021 as discussed below (see adjustment BB).
- F. Reflects the settlement in deferred underwriting commissions that become payable at the closing of the Business Combination.

- K. Represents the preliminary estimated listing service expense recognized, in accordance with IFRS 2, for the excess of the fair value of Hypebeast shares issued and the pre-combination carrying value of ISAA's identifiable net assets at the date of the Business Combination, resulting in a HK\$241.0 million and HK\$363.3 million increase to reserves assuming no redemptions and maximum redemptions, respectively. The fair value of shares issued was estimated based on a market price as of September 30, 2021 of HK\$1.02 per share as adjusted for the Consolidation Factor of 68.4543077. The value is preliminary and will change based on fluctuations in the share price of the Hypebeast shares through the closing date. A one percent change in the market price per share would result in a change of HK\$15.4 million and HK\$4.9 million in the estimated expense assuming no redemptions and maximum redemptions, respectively.

This adjustment is recorded after consideration of the closing condition in which the ISAA Cash Amount may be no less than \$35,000,000 USD (HK\$272,877,500).

Adjustments to Unaudited Pro Forma Condensed Combined Statements of Operations

The pro forma adjustments included in the unaudited pro forma condensed combined statements of operations for the year ended March 31, 2021 and for the six months ended September 30, 2021 are as follows:

- AA. Reflects elimination of investment income on the Trust Account.
- BB. Reflects the accrual of additional transaction costs incurred subsequent to September 30, 2021. These costs are in addition to transaction costs incurred by ISAA in the respective historical statement of operations for the period from January 22, 2021 (inception) to March 31, 2021. Additional transaction costs are reflected as if incurred on April 1, 2020, the date the Business Combination occurred for the purposes of the unaudited pro forma condensed combined statement of operations. This is a non-recurring item.
- CC. Represents HK\$241.0 million and HK\$363.3 million of expense recognized assuming no redemptions and maximum redemptions, respectively, in accordance with IFRS 2, for the difference between the fair

value of equity instruments issued and the pre-combination carrying amounts of ISAA's identifiable net assets, as described in adjustment K. These costs are a nonrecurring item.

Note 4. Net Earnings (Loss) per Share

Net earnings (loss) per share was calculated using the historical weighted average shares outstanding, and the issuance of additional shares in connection with the Business Combination, assuming the shares were outstanding since April 1, 2020. As the Business Combination related transactions are being and reflected as if they had occurred at the beginning of the periods presented, the calculation of weighted average shares outstanding for basic and diluted net earnings per share assumes that the shares issuable in the Business Combination have been outstanding for the entirety of all periods presented. If the number of shares of Public Shares described under the "Assuming Maximum Redemptions" scenario described above are redeemed, this calculation is retroactively adjusted to eliminate such shares for the entire period.

The unaudited pro forma condensed combined financial information has been prepared to present two alternative scenarios with respect to redemption of ordinary shares by Public Shareholders at the time of the Business Combination for the year ended March 31, 2021 and for the six months ended September 30, 2021 (amounts in thousands except share and per share amounts):

	For the Year Ended March 31, 2021		For the Six Month Period Ended September 30, 2021	
	Assuming No Redemptions	Assuming Maximum Redemptions	Assuming No Redemptions	Assuming Maximum Redemptions
Net earnings (loss)	HK\$ (311,893)	HK\$ (409,901)	HK\$ 56,227	HK\$ 56,227
Weighted average ordinary shares outstanding – basic	53,374,300	38,360,300	53,374,300	38,360,300
Net earnings (loss) per share – basic	HK\$ (5.84)	HK\$ (10.69)	HK\$ 1.05	HK\$ 1.47
Weighted average ordinary shares outstanding – basic	53,374,300	38,360,300	53,374,300	38,360,300
Dilutive effect of Hypebeast share options ⁽¹⁾⁽²⁾	1,021,484	1,021,484	1,021,484	1,021,484
Weighted average ordinary shares outstanding – diluted	54,395,784	39,381,784	54,395,784	39,381,784
Net earnings (loss) per share – diluted	HK\$ (5.84)	HK\$ (10.69)	HK\$ 1.03	HK\$ 1.43

- (1) The computation of diluted earnings per share did not assume the exercise of certain share options granted by the Company because the adjusted exercise prices for the computation of diluted earnings per share of those share options were higher than the average market price for shares for the six months ended September 30, 2021.
- (2) Diluted earnings per share for the year ended March 31, 2021 did not assume the exercise of certain share options granted by the Company since the exercise would increase the earnings per share for the respective year.

Executive Compensation

No executive officer has received any cash compensation for services rendered to ISAA. No compensation of any kind, including finders, consulting or other similar fees, will be paid to any of ISAA's existing stockholders, including ISAA's directors, or any of their respective affiliates, prior to, or for any services they render in order to effectuate, the consummation of a business combination. However, such individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on ISAA's behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. There is no limit on the amount of these out-of-pocket expenses and there will be no review of the reasonableness of the expenses by anyone other than ISAA's Board of Directors and audit committee, which includes persons who may seek reimbursement, or a court of competent jurisdiction if such reimbursement is challenged.

After the completion of ISAA's initial business combination, directors or members of ISAA's management team who remain with ISAA may be paid consulting, management or other fees from the combined company. Any compensation to be paid to ISAA's executive officers will be determined by a compensation committee constituted solely of independent directors.

ISAA is not party to any agreements with ISAA's executive officers and directors that provide for benefits upon termination of employment.

Director Independence

Nasdaq requires that a majority of ISAA's Board of Directors must be composed of "independent directors." Currently, Ruma Bose, Amy Butte, Trevor A. Edwards and Jay Margolis would each be considered

an “independent director” under the Nasdaq listing rules, which is defined generally as a person other than an officer or employee of the company or its subsidiaries or any other individual having a relationship, which, in the opinion of ISAA’s Board of Directors would interfere with the director’s exercise of independent judgment in carrying out the responsibilities of a director. ISAA’s independent directors have regularly scheduled meetings at which only independent directors are present.

ISAA will only enter into a business combination if it is approved by a majority of ISAA’s independent directors. Additionally, ISAA will only enter into transactions with its officers and directors and their respective affiliates that are on terms no less favorable to ISAA than could be obtained from independent parties. Any related-party transactions must also be approved by ISAA’s audit committee and a majority of disinterested independent directors.

Audit Committee

Under the Nasdaq listing standards and applicable SEC rules, ISAA is required to have three members of the audit committee all of whom must be independent. The audit committee consists of Ruma Bose, Trevor A. Edwards, and Jay Margolis, each of whom is an independent director under Nasdaq’s listing standards. Trevor A. Edwards is the Chairperson of the audit committee. The audit committee’s duties, which are specified in ISAA’s Audit Committee Charter, include, but are not limited to:

- reviewing and discussing with management and the independent auditor the annual audited financial statements, and recommending to ISAA’s Board of Directors whether the audited financial statements should be included in ISAA’s Form 10-K;
- discussing with management and the independent auditor significant financial reporting issues and judgments made in connection with the preparation of ISAA’s financial statements;
- discussing with management major risk assessment and risk management policies;
- monitoring the independence of the independent auditor;
- verifying the rotation of the lead (or coordinating) audit partner having primary responsibility for the audit and the audit partner responsible for reviewing the audit as required by law;
- reviewing and approving all related-party transactions;
- inquiring and discussing with management ISAA’s compliance with applicable laws and regulations;
- pre-approving all audit services and permitted non-audit services to be performed by ISAA’s independent auditor, including the fees and terms of the services to be performed;
- appointing or replacing the independent auditor;
- determining the compensation and oversight of the work of the independent auditor (including resolution of disagreements between management and the independent auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or related work;
- establishing procedures for the receipt, retention and treatment of complaints received by ISAA regarding accounting, internal accounting controls or reports which raise material issues regarding ISAA’s financial statements or accounting policies; and
- approving reimbursement of expenses incurred by ISAA’s management team in identifying potential target businesses.

Financial Experts on Audit Committee

The audit committee will at all times be composed exclusively of “independent directors” who are “financially literate” as defined under Nasdaq listing standards. Nasdaq listing standards define “financially literate” as being able to read and understand fundamental financial statements, including a company’s balance sheet, income statement and cash flow statement.

In addition, ISAA must certify to Nasdaq that the committee has, and will continue to have, at least one member who has past employment experience in finance or accounting, requisite professional

certification in accounting, or other comparable experience or background that results in the individual's financial sophistication. ISAA's Board of Directors has determined that Trevor A. Edwards qualified as an "audit committee financial expert," as defined under rules and regulations of the SEC.

Nominating Committee

The Nominating Committee consists of Ruma Bose, Trevor A. Edwards, and Jay Margolis, each of whom is an independent director under Nasdaq's listing standards. Ruma Bose is the Chairperson of the nominating committee. The nominating committee is responsible for overseeing the selection of persons to be nominated to serve on ISAA's Board of Directors. The nominating committee considers persons identified by its members, management, stockholders, investment bankers and others.

Guidelines for Selecting Director Nominees

The guidelines for selecting nominees, which are specified in the Nominating Committee Charter, generally provide that persons to be nominated:

- should have demonstrated notable or significant achievements in business, education or public service;
- should possess the requisite intelligence, education and experience to make a significant contribution to the ISAA board of directors and bring a range of skills, diverse perspectives and backgrounds to its deliberations; and
- should have the highest ethical standards, a strong sense of professionalism and intense dedication to serving the interests of the stockholders.

The Nominating Committee will consider a number of qualifications relating to management and leadership experience, background and integrity and professionalism in evaluating a person's candidacy for membership on the ISAA board of directors. The nominating committee may require certain skills or attributes, such as financial or accounting experience, to meet specific board needs that arise from time to time and will also consider the overall experience and makeup of its members to obtain a broad and diverse mix of board members. The ISAA board of directors also considers director candidates recommended for nomination by ISAA's stockholders during such times as they are seeking proposed nominees to stand for election at the next annual meeting of stockholders (or, if applicable, a meeting of stockholders). ISAA's stockholders that wish to nominate a director for election to the ISAA board of directors should follow the procedures set forth in ISAA's memorandum and articles of association. The nominating committee does not distinguish among nominees recommended by stockholders and other persons.

Compensation Committee

The Compensation Committee consists of Ruma Bose, Trevor A. Edwards, and Jay Margolis, each of whom is an independent director under Nasdaq's listing standards. Trevor A. Edwards is the Chairperson of the compensation committee. The compensation committee's duties, which are specified in ISAA's Compensation Committee Charter, include, but are not limited to:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to ISAA's Chief Executive Officer's compensation, evaluating ISAA's Chief Executive Officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of ISAA's Chief Executive Officer's based on such evaluation;
- reviewing and approving the compensation of all of ISAA's other executive officers;
- reviewing ISAA's executive compensation policies and plans;
- implementing and administering ISAA's incentive compensation equity-based remuneration plans;
- assisting management in complying with ISAA's proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for ISAA's executive officers and employees;

- if required, producing a report on executive compensation to be included in ISAA's annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

Notwithstanding the foregoing, as indicated above, no compensation of any kind, including finders, consulting or other similar fees, will be paid to any of ISAA's existing stockholders, including ISAA's directors, or any of their respective affiliates, prior to, or for any services they render in order to effectuate, the consummation of a business combination. Accordingly, it is likely that prior to the consummation of an initial business combination, the compensation committee will only be responsible for the review and recommendation of any compensation arrangements to be entered into in connection with such initial business combination.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, requires ISAA's executive officers, directors and persons who beneficially own more than 10% of a registered class of ISAA's equity securities to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of ISAA's common stock and other equity securities. These executive officers, directors, and greater than 10% beneficial owners are required by SEC regulation to furnish ISAA with copies of all Section 16(a) forms filed by such reporting persons.

Based solely on ISAA's review of such forms furnished to ISAA and written representations from certain reporting persons, ISAA believes that all filing requirements applicable to its executive officers, directors and greater than 10% beneficial owners were filed in a timely manner during the fiscal year ended December 31, 2021.

Code of Ethics

ISAA adopted a code of conduct and ethics applicable to ISAA's directors, officers and employees in accordance with applicable federal securities laws. The code of ethics codifies the business and ethical principles that govern all aspects of ISAA's business.

In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association, as amended and restated from time to time, and the class rights vested thereunder in the holders of the shares. Our company has the right to seek damages if a duty owed by our directors is breached. We have entered into indemnification agreements with its directors and executive officers, pursuant to which we will agree to indemnify its directors and executive officers against certain liabilities and expenses incurred by such persons in connection with claims made by reason of their being such a director or executive officer.

Compensation of Directors and Executive Officers

In fiscal 2021, Hypebeast paid an aggregate of HKD2.6 million (US\$0.3 million) in cash and benefits to its directors and executive officers as a group. Hypebeast has not set aside or accrued any amount to provide pension, retirement or other similar benefits to its executive officers and directors.

Share Option Schemes

On March 18, 2016, the Hypebeast conditionally approved and adopted the pre-HK IPO share option scheme (the "Pre-HK IPO Scheme") and the post-IPO share option scheme (the "Post-HK IPO Scheme") where eligible participants may be granted options entitling them to subscribe for the Hypebeast's shares. The purpose of the share option schemes is to enable the Hypebeast to grant share options to selected participants as incentives or rewards for their contributions. The Pre-HK IPO Scheme has been expired on April 11, 2016. No further options would be granted under the Pre-HK IPO Scheme. The maximum aggregate number of shares that may be issued under the Post-HK IPO Scheme is 169,287,499, and as of the date of this proxy statement/prospectus, 56,558,332 shares are issued and outstanding.

The principal terms of the Post-HK IPO Scheme are summarized below:

Maximum entitlement of each participant. The substantial shareholders or independent non-executive directors are entitled to no more than 0.1% of the issued shares, or an aggregate value not exceeding HK\$5 million in the 12-month period up to and including the date of such grant. The grant to other participants in any 12-month period shall not exceed 1% of the issued shares from time to time.

Vesting Schedule. As determined by Hypebeast's board of directors upon the grant of an option.

Exercise of Awards. Hypebeast's board of directors shall determine the exercise or purchase price, as applicable, for each award, however such price shall not be less than whichever is the highest of (i) the closing price of the shares as stated in the Hong Kong Stock Exchange's daily quotations sheet on the date of offer of the grant of options; (ii) the average of the closing prices of the shares as stated in the Hong Kong Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of offer of the grant of options; and (iii) the nominal value of the share.

Termination. An option may be exercised within a period to be determined and notified by Hypebeast's board of directors to each grantee, but shall not be more than 10 years from the date of grant of options subject to the provisions for early termination set out in the share option schemes.

Restrictions on Transfers of Founder Shares and Private Placement Shares

The Founder Shares, Private Placement Shares and any shares of common stock issued upon conversion thereof are each subject to transfer restrictions pursuant to lock-up provisions in a letter agreement with ISAA to be entered into by ISAA’s sponsor, officers and directors. Those lock-up provisions provide that such securities are not transferable or salable (i) in the case of the Founder Shares, until the earlier of (A) one year after the completion of ISAA’s initial business combination or (B) subsequent to ISAA’s initial business combination, (x) if the last reported sale price of ISAA’s common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after ISAA’s initial business combination, or (y) the date on which ISAA completes a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of ISAA’s stockholders having the right to exchange their shares of common stock for cash, securities or other property, and (ii) in the case of the Private Placement Shares, until 30 days after the completion of ISAA’s initial business combination, except in each case (a) to ISAA’s officers or directors, any affiliates or family members of any of ISAA’s officers or directors, any members of ISAA’s sponsor, or any affiliates of ISAA’s sponsor; (b) in the case of an individual, by gift to a member of the individual’s immediate family or to a trust, the beneficiary of which is a member of the individual’s immediate family, an affiliate of such person or to a charitable organization; (c) in the case of an individual, by virtue of laws of descent and distribution upon death of the individual; (d) in the case of an individual, pursuant to a qualified domestic relations order; (e) by private sales or transfers made in connection with the consummation of an initial business combination at prices no greater than the price at which the shares were originally purchased; (f) in the event of ISAA’s liquidation prior to the completion of ISAA’s initial business combination; or (g) by virtue of the laws of Delaware or ISAA’s sponsor’s limited liability company agreement upon dissolution of ISAA’s sponsor, provided, however, that in the case of clauses (a) through (e) or (g), these permitted transferees must enter into a written agreement agreeing to be bound by these transfer restrictions and the other restrictions contained in the letter agreements and by the same agreements entered into by ISAA’s sponsor, officers and directors, as the case may be, with respect to such securities (including provisions relating to voting, the trust account and liquidation distributions described elsewhere in this prospectus).

Registration Rights

The holders of the Founder Shares, Private Placement Shares and shares that may be issued upon conversion of working capital loans will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering, requiring ISAA to register such securities for resale (in the case of the Founder Shares, only after conversion to ISAA’s common stock). The holders of the majority of these securities are entitled to make up to three demands, excluding short form demands, that ISAA registers such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to ISAA’s completion of ISAA’s initial business combination and rights to require ISAA to register for resale such securities pursuant to Rule 415 under the Securities Act. ISAA will bear the expenses incurred in connection with the filing of any such registration statements.

SECURITY OWNERSHIP OF THE COMBINED COMPANY AFTER THE BUSINESS COMBINATION

The following tables sets forth information regarding the beneficial ownership of Hypebeast as of the date of this proxy statement/prospectus by:

- each person who is expected by Hypebeast to be the beneficial owner of 5% or more of the outstanding Hypebeast Ordinary Shares immediately following the consummation of the Business Combination;
- each person who is expected to become an executive officer or a director of Hypebeast upon consummation of the Business Combination; and
- all of the executive officers and directors of Hypebeast as a group upon consummation of the Business Combination.

Unless otherwise indicated, Hypebeast believes that all persons named in the table will have, immediately after the consummation of the Business Combination, sole voting and investment power with respect to all Hypebeast's securities beneficially owned by them.

Beneficial ownership is determined in accordance with SEC rules and includes voting or investment power with respect to securities. Except as indicated by the footnotes below, Hypebeast believes, based on the information furnished to it, that the persons and entities named in the table below will have, immediately after the consummation of the Business Combination, sole voting and investment power with respect to all stock that they beneficially own, subject to applicable community property laws. All Hypebeast Ordinary Shares subject to options exercisable within 60 days of the consummation of the Business Combination are deemed to be outstanding and beneficially owned by the persons holding those options for the purpose of computing the number of shares beneficially owned and the percentage ownership of that person. They are not, however, deemed to be outstanding and beneficially owned for the purpose of computing the percentage ownership of any other person.

The expected beneficial ownership of shares of Hypebeast Ordinary Shares post-Business Combination assumes two scenarios:

- **Scenario 1 — Assuming No Redemptions:** This presentation assumes that no holders of ISAA shares exercise redemption rights for a pro rata share of the funds in the Trust Account.
- **Scenario 2 — Assuming Maximum Redemptions:** This presentation assumes that holders of 15,014,000 ISAA Class A common stock will exercise their redemption rights for approximately \$150,146,812 of funds in the Trust Account. Hypebeast's obligations under the Merger Agreement are subject to certain customary closing conditions. Furthermore, Hypebeast will only proceed with the Business Combination if it will have net tangible assets of at least \$5,000,001 upon consummation of the Business Combination (as determined in accordance with Rule 3a51-l(g)(1) of the Exchange Act (or any successor rule)). Scenario 2 includes all adjustments contained in Scenario 1 and presents additional adjustments to reflect the effect of maximum redemptions. Scenario 2 does not take into account the Minimum Available Cash Condition.

Based on the foregoing assumptions, and including (a) that _____ Hypebeast Ordinary Shares are issued to the PIPE Investors pursuant to the share subscription agreements dated as of _____, 2022 (including the _____ Hypebeast Ordinary Shares issued to certain affiliates of the Sponsor in connection with the PIPE Investment), (b) that none of the investors set forth in the table have purchased or purchases additional shares of ISAA Class A common stock or ISAA Class B Common Stock (pre-Business Combination) or ordinary shares of Hypebeast (pre-Business Combination), and (c) that _____ Hypebeast Ordinary Shares are issued to persons who are shareholders of Hypebeast. Hypebeast estimates that there would be 53,374,300 Hypebeast Ordinary Shares issued and outstanding immediately following the consummation of the Business Combination in the "no redemption" scenario, and that there would be 38,360,300 Hypebeast Ordinary Shares issued and outstanding immediately following the consummation of the Business Combination, in the "maximum redemption" scenario. If the actual facts are different from the foregoing assumptions, ownership figures in Hypebeast and the columns under Post-Business Combination in the table that follows will be different. Unless otherwise

noted, the business address of each of the following beneficial owners is 40/F, Cable TV Tower, No.9 Hoi Shing Road, Tsuen Wan, New Territories, Hong Kong.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Certain Transactions of ISAA

In February 2021, ISAA issued an aggregate of 5,031,250 Founder Shares to ISAA's sponsor for an aggregate purchase price of \$25,000 in cash. On June 8, 2021, ISAA's sponsor returned 718,750 shares to ISAA for cancellation, resulting in 4,312,500 shares being outstanding at a price per share of \$0.006. On July 26, 2021, ISAA's sponsor forfeited an additional 142,500 shares for no consideration, resulting in an aggregate of 4,170,000 Founder Shares outstanding. The number of Founder Shares issued was determined based on the expectation that such Founder Shares would represent 20% of the outstanding shares upon completion of this offering. The Founder Shares (including the common stock issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder.

Simultaneously with the closing of the IPO, ISAA consummated the sale of 1,090,000 Private Placement Shares at a price of \$10.00 per Private Placement Share in a private placement to the Sponsor, generating gross proceeds of \$10,900,000.

ISAA granted the Underwriters in the IPO a 45-day option to purchase up to 2,250,000 additional shares to cover over-allotments, if any. On June 16, 2021, the Underwriters partially exercised the over-allotment option and purchased an additional 1,680,000 Over-Allotment Shares, generating gross proceeds of \$16,800,000. The remaining 570,000 shares were not exercised by the underwriter and expired on July 26, 2021.

Simultaneously with the closing of the exercise of the over-allotment option, the ISAA consummated the sale of 100,800 shares (the "Over-Allotment Private Placement Shares") at a purchase price of \$10.00 per share in a private placement to the Sponsor, generating gross proceeds of \$1,008,000.

As more fully discussed in the section of this prospectus entitled "Management — Conflicts of Interest," if any of ISAA's officers or directors becomes aware of an initial business combination opportunity that falls within the line of business of any entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. ISAA's officers and directors currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to ISAA.

Commencing on the closing date of the IPO, ISAA agreed to pay an affiliate of the Sponsor a total of \$10,000 per month for office space, utilities and secretarial and administrative support. Upon completion of ISAA's initial business combination or ISAA's liquidation, ISAA will cease paying these monthly fees.

Other than the foregoing, no compensation of any kind, including any finder's fee, reimbursement, consulting fee or monies in respect of any payment of a loan, has been, or will be, paid by ISAA to the Sponsor, officers and directors, or any affiliate of the Sponsor or officers, prior to, or in connection with any services rendered in order to effectuate, the consummation of an initial business combination (regardless of the type of transaction that it is). However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on ISAA's behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. ISAA's audit committee reviews on a quarterly basis all payments that were made to the Sponsor, officers, directors or their affiliates and determines which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on ISAA's behalf.

In addition, in order to finance transaction costs in connection with an intended initial business combination, the Sponsor or an affiliate of the Sponsor or certain of ISAA's officers and directors may, but are not obligated to, loan ISAA funds as may be required. If ISAA completes an initial business combination, ISAA would repay such loaned amounts. In the event that the initial business combination does not close, ISAA may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from the Trust Account would be used for such repayment. Up to \$1,000,000 of such loans may be convertible into shares of Class A common stock at a price of \$10.00 per share at the option of the lender. The terms of such loans by ISAA's officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. ISAA does not expect to seek loans from

parties other than the Sponsor or affiliates of the Sponsor as ISAA does not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in its trust account.

If shares of common stock are purchased by any of ISAA's directors, officers, or the Sponsor, they will be entitled to funds from the trust account to the same extent as any public stockholder upon ISAA's liquidation but will not have redemption rights related thereto.

Related Party Policy

ISAA's Code of Ethics, requires ISAA to avoid, wherever possible, all related party transactions that could result in actual or potential conflicts of interests, except under guidelines approved by the ISAA board of directors (or the audit committee). Related-party transactions are defined as transactions in which (1) the aggregate amount involved will or may be expected to exceed \$120,000 in any calendar year, (2) ISAA or any of its subsidiaries is a participant, and (3) any (a) executive officer, director or nominee for election as a director, (b) greater than 5% beneficial owner of ISAA's ordinary shares, or (c) immediate family member, of the persons referred to in clauses (a) and (b), has or will have a direct or indirect material interest (other than solely as a result of being a director or a less than 10% beneficial owner of another entity). A conflict of interest situation can arise when a person takes actions or has interests that may make it difficult to perform his or her work objectively and effectively. Conflicts of interest may also arise if a person, or a member of his or her family, receives improper personal benefits as a result of his or her position.

ISAA also requires each of ISAA's directors and executive officers to annually complete a directors' and officers' questionnaire that elicits information about related party transactions.

ISAA's audit committee, pursuant to its written charter, is responsible for reviewing and approving related-party transactions to the extent we enter into such transactions. All ongoing and future transactions between ISAA and any of ISAA's officers and directors or their respective affiliates will be on terms believed by ISAA to be no less favorable to us than are available from unaffiliated third parties. Such transactions will require prior approval by ISAA's audit committee and a majority of ISAA's uninterested "independent" directors, or the members of ISAA's Board of Directors who do not have an interest in the transaction, in either case who had access, at ISAA's expense, to ISAA's attorneys or independent legal counsel. ISAA will not enter into any such transaction unless ISAA's audit committee and a majority of ISAA's disinterested "independent" directors determine that the terms of such transaction are no less favorable to ISAA than those that would be available to ISAA with respect to such a transaction from unaffiliated third parties. Additionally, ISAA requires each of its directors and executive officers to complete a directors' and officers' questionnaire that elicits information about related party transactions.

Certain Transactions of Hypebeast

Related Party Transactions

Since 2011, Hypebeast entered into a series of tenancy agreements with the parents of Ms. Janice Lee, our executive director (the "Landlords"), pursuant to which the Landlords agreed to lease certain property to Hypebeast for residential use purposes. In fiscal 2020 and 2021 and for the six months ended September 30, 2021, Hypebeast incurred an interest expense on lease liabilities of HK\$6,000, HK\$10,000 (US\$1,285) and HK\$6,000 (US\$771), respectively. MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE BUSINESS COMBINATION

The following is a general discussion of the material U.S. federal income tax consequences (i) of the Business Combination to U.S. Holders (defined below) of ISAA shares of common stock (excluding any redeemed shares), (ii) of the subsequent ownership and disposition of Hypebeast Ordinary Shares received in the Business Combination and (iii) exercise of redemption rights by ISAA stockholders that are U.S. Holders. In addition, the following includes a general discussion of certain U.S. federal income tax consequences of the Business Combination to ISAA and Hypebeast.

This discussion is based on provisions of the Code, the Treasury Regulations promulgated thereunder (whether final, temporary, or proposed), administrative rulings of the IRS, and judicial decisions, all as in effect on the date hereof, and all of which are subject to differing interpretations or change, possibly with retroactive effect. This discussion does not purport to be a complete analysis or listing of all potential U.S. federal income tax considerations that may apply to a holder as a result of the Business Combination or as a result of the ownership and disposition of Hypebeast Ordinary Shares. In addition, this discussion does not address all aspects of U.S. federal income taxation that may be relevant to particular holders nor does it take into account the individual facts and circumstances of any particular holder that may affect the U.S. federal income tax consequences to such holder, and accordingly, is not intended to be, and should not be construed as, tax advice. This discussion does not address the U.S. federal 3.8% Medicare tax imposed on certain net investment income or any aspects of U.S. federal taxation other than those pertaining to the income tax, nor does it address any tax consequences arising under any U.S. state and local, or non-U.S. tax laws. Holders should consult their own tax advisors regarding such tax consequences in light of their particular circumstances.

No ruling has been requested or will be obtained from the IRS regarding the U.S. federal income tax consequences of the Business Combination or any other related matter; thus, there can be no assurance that the IRS will not challenge the U.S. federal income tax treatment described below or that, if challenged, such treatment will be sustained by a court.

This summary is limited to considerations relevant to U.S. Holders that hold ISAA shares of common stock and, after the completion of the Business Combination, Hypebeast Ordinary Shares, as “capital assets” within the meaning of section 1221 of the Code (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation that may be important to holders in light of their individual circumstances, including holders subject to special treatment under the U.S. tax laws, such as, for example:

- banks or other financial institutions, underwriters, or insurance companies;
- traders in securities who elect to apply a mark-to-market method of accounting;
- real estate investment trusts and regulated investment companies;
- tax-exempt organizations, qualified retirement plans, individual retirement accounts, or other tax-deferred accounts;
- expatriates or former long-term residents of the United States;
- subchapter S corporations, partnerships or other pass-through entities or investors in such entities;
- dealers or traders in securities, commodities or currencies;
- grantor trusts;
- persons subject to the alternative minimum tax;
- U.S. persons whose “functional currency” is not the U.S. dollar;
- persons who received ISAA shares of common stock through the issuance of restricted stock under an incentive plan or through a tax-qualified retirement plan or otherwise as compensation;
- persons who own (directly or through attribution) 5% or more (by vote or value) of the outstanding shares of ISAA common stock, or, after the Business Combination, the issued Hypebeast ordinary shares (excluding treasury shares); or

- holders holding ISAA shares of common stock, or, after the Business Combination, Hypebeast Ordinary Shares, as a position in a “straddle,” as part of a “synthetic security” or “hedge,” as part of a “conversion transaction,” or other integrated investment or risk reduction transaction.

As used in this proxy statement/prospectus, the term “U.S. Holder” means a beneficial owner of ISAA shares of common stock, and, after the Business Combination, Hypebeast Ordinary Shares received in the Business Combination, that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity that is classified as a corporation for U.S. federal income tax purposes) that is created or organized in or under the laws of the United States or any State thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust (i) if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (ii) that has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person for U.S. federal income tax purposes.

If a partnership, including for this purpose any entity or arrangement that is treated as a partnership for U.S. federal income tax purposes, holds ISAA shares of common stock, and, after the completion of the Business Combination, Hypebeast Ordinary Shares received in the Business Combination, the U.S. federal income tax treatment of a partner in such partnership will generally depend on the status of the partner and the activities of the partnership. A holder that is a partnership and the partners in such partnership should consult their own tax advisors with regard to the U.S. federal income tax consequences of the Business Combination and the subsequent ownership and disposition of Hypebeast Ordinary Shares received in the Business Combination.

THIS SUMMARY DOES NOT PURPORT TO BE A COMPREHENSIVE ANALYSIS OR DESCRIPTION OF ALL POTENTIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE BUSINESS COMBINATION. ISAA STOCKHOLDERS SHOULD CONSULT WITH THEIR TAX ADVISORS REGARDING THE PARTICULAR TAX CONSEQUENCES TO THEM OF THE BUSINESS COMBINATION AND OF THE OWNERSHIP AND DISPOSITION OF HYPEBEAST ORDINARY SHARES AFTER THE BUSINESS COMBINATION, INCLUDING THE APPLICABILITY AND EFFECTS OF U.S. FEDERAL, STATE, LOCAL, AND OTHER TAX LAWS.

U.S. Federal Income Tax Consequences of the Business Combination to U.S. Holders

The U.S. federal income tax consequences of the Business Combination to U.S. Holders of shares of ISAA common stock will depend, in part, on whether the Merger qualifies as a reorganization within the meaning of Section 368(a) of the Code and whether the requirements of Section 367(a) of the Code are satisfied.

There are many requirements that must be satisfied in order for the Merger to qualify as a reorganization under Section 368(a) of the Code, some of which are based upon factual determinations, and the reorganization treatment could be adversely affected by events or actions that occur or are taken after the Merger. One such requirement, among others, is that the acquiring corporation continue, either directly or indirectly through certain controlled corporations, either a significant line of the acquired corporation’s historic business or use a significant portion of the acquired corporation’s historic business assets in a business, in each case, within the meaning of Treasury regulations Section 1.368-1(d). However, due to the absence of guidance bearing directly on how the above rules apply in the case of an acquisition of a corporation with no active business and only investment-type assets, such as ISAA, the qualification of the Merger as a reorganization is not free from doubt. In addition, the treatment of the Merger as a reorganization would depend on whether sufficient stockholders of ISAA exchange their common stock for Hypebeast Ordinary Shares rather than redeem it for cash. If a significant number of stockholders of ISAA decide to redeem their common stock, the “continuity of business enterprise” requirement that is necessary to qualify as a reorganization under Section 368(a) of the Code may not be satisfied and the requirement that ISAA

retain “substantially all” of its assets to qualify as a reorganization under Section 368 of the Code may not be satisfied. Due to the absence of guidance bearing directly on whether an acquisition of a corporation with no active business can qualify as a “reorganization” under Section 368(a) of the Code, legal counsel to ISAA on U.S. federal income tax matters is not rendering an opinion regarding the qualification of the Merger as a “reorganization” under Section 368(a) of the Code. No ruling has been, or will be, sought by ISAA or Hypebeast from the IRS with respect to the Business Combination and there can be no assurance that the IRS will not challenge the qualification of the Merger as a “reorganization” under Section 368(a) of the Code or that a court would not sustain such a challenge.

Moreover, Section 367(a) of the Code and the applicable Treasury regulations promulgated thereunder provide that, where a U.S. person exchanges stock or securities in a U.S. corporation for stock or securities in a non-U.S. (“foreign”) corporation in a transaction that qualifies as a reorganization, the U.S. person is required to recognize any gain, but not loss, realized on such exchange unless certain additional requirements are met. In general, for the Merger to meet these additional requirements, certain reporting requirements must be satisfied and (i) no more than 50% of both the total voting power and the total value of the stock of the transferee foreign corporation is received, in the aggregate, by the “U.S. transferors” (as defined in the Treasury regulations and computed taking into account direct, indirect and constructive ownership) in the transaction; (ii) no more than 50% of each of the total voting power and the total value of the stock of the transferee foreign corporation is owned, in the aggregate, immediately after the transaction by “U.S. persons” (as defined in the Treasury regulations) that are either officers or directors or “five-percent target shareholders” (as defined in the Treasury regulations and computed taking into account direct, indirect and constructive ownership) of the transferred U.S. corporation; and (iii) the “active trade or business test” as defined in Treasury regulations Section 1.367(a)-3(c)(3) must be satisfied. There are significant factual and legal uncertainties concerning the determination of whether these requirements will be satisfied in the case of the Business Combination. The rules dealing with Section 367(a) of the Code discussed above are very complex and are affected by various factors in addition to those described above. Accordingly, U.S. Holders are strongly urged to consult their tax advisor concerning the application of these rules to the Merger under their particular circumstances, including whether the U.S. Holder will be a five-percent transferee shareholder and the possibility of entering into a “gain recognition agreement” under applicable Treasury regulations. *If the Merger Qualifies as a Reorganization*

If the Merger qualifies as a reorganization under Section 368 of the Code and Section 367(a) does not apply, a U.S. Holder that exchanges its ISAA shares of common stock pursuant to the Business Combination should not recognize gain or loss on the exchange of ISAA shares of common stock for Hypebeast Ordinary Shares. The aggregate adjusted tax basis of a U.S. Holder in the Hypebeast Ordinary Shares received as a result of the Business Combination should equal the aggregate adjusted tax basis of the ISAA shares of common stock surrendered in the exchange. A U.S. Holder’s holding period for the Hypebeast Ordinary Shares received in the exchange should include the holding period for the ISAA shares of common stock surrendered in the exchange. If Section 367(a) of the Code applies to the Merger, a U.S. Holder may recognize gain (but not loss) as a result of the Merger.

U.S. Holders should consult their own tax advisors as to the particular consequences to them of the exchange of ISAA shares of common stock for Hypebeast Ordinary Shares pursuant to the Business Combination, and the qualification of the Merger as a reorganization, and the potential application of Section 367(a) to the Merger.

If the Merger Does Not Qualify as a Reorganization

If the Merger fails to qualify as a Reorganization for a reason other than the application of Section 367(a) of the Code, a U.S. Holder that exchanges its ISAA shares of common stock for the consideration under the Business Combination will recognize gain or loss equal to the difference between (i) the sum of the fair market value of the Hypebeast Ordinary Shares received and (ii) the U.S. Holder’s adjusted tax basis in the ISAA shares of common stock exchanged. A U.S. Holder’s aggregate tax basis in the Hypebeast Ordinary Shares received will be the fair market value of those securities on the date the U.S. Holder receives them. The U.S. Holder’s holding period for the Hypebeast Ordinary Shares received pursuant to the Business Combination will begin on the day after the date the U.S. Holder receives such Hypebeast Ordinary Shares.

Such gain or loss will be a capital gain or loss and will be a long-term capital gain or loss if the U.S. Holder's holding period for the ISAA shares of common stock exceeds one year at the time of the Business Combination. Long-term capital gains of non-corporate U.S. Holders, including individuals, currently are subject to reduced rates of U.S. federal income taxation. It is unclear, however, whether the redemption rights with respect to the ISAA shares of common stock have suspended the applicable holding period for this purpose. The deductibility of capital losses is subject to limitations under the Code. Any such gain or loss recognized by a U.S. Holder will generally be treated as U.S. source gain or loss.

Certain U.S. Federal Income Tax Consequences of Exercising Redemption Rights

In the event that a U.S. Holder elects to redeem its ISAA shares of common stock for cash, the treatment of the transaction for U.S. federal income tax purposes will depend on whether the redemption qualifies as sale or exchange of the ISAA shares of common stock under Section 302 of the Code. If the redemption qualifies as a sale or exchange of the ISAA shares of common stock, the U.S. Holder will be treated as recognizing capital gain or loss equal to the difference between the amount realized on the redemption and such U.S. Holder's adjusted tax basis in the ISAA shares of common stock surrendered in such redemption transaction. Any such capital gain or loss generally will be long-term capital gain or loss if the U.S. Holder's holding period for the ISAA shares of common stock redeemed exceeds one year. Long-term capital gains recognized by non-corporate U.S. Holders will be eligible to be taxed at reduced rates. It is unclear, however, whether the redemption rights with respect to the ISAA shares of common stock have suspended the applicable holding period for this purpose. The deductibility of capital losses is subject to limitations.

If the redemption does not qualify as a sale or exchange of ISAA shares of common stock, the U.S. Holder will be treated as receiving a corporate distribution. Such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent paid from ISAA's current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will constitute a return of capital that will be applied against and reduce (but not below zero) the U.S. Holder's adjusted tax basis in the ISAA shares of common stock. Any remaining excess will be treated as gain realized on the sale or other disposition of the ordinary shares. Dividends paid to a U.S. Holder that is a taxable corporation generally will qualify for the dividends received deduction if the requisite holding period is satisfied. With certain exceptions (including, but not limited to, dividends treated as investment income for purposes of investment interest deduction limitations) and provided certain holding period requirements are met, dividends paid to a non-corporate U.S. Holder generally will constitute "qualified dividends" that will be subject to tax at the maximum tax rate accorded to long-term capital gains. However, it is unclear whether the redemption rights with respect to the ISAA shares of common stock may prevent a U.S. Holder from satisfying the applicable holding period requirements with respect to the dividends received deduction or the preferential tax rate on qualified dividend income, as the case may be.

Whether a redemption qualifies for sale or exchange treatment will depend largely on the total number of shares of ISAA common stock treated as held by the U.S. Holder relative to all of the shares of ISAA common stock outstanding both before and after the redemption. The redemption of ISAA shares of common stock generally will be treated as a sale or exchange of the ISAA shares of common stock (rather than as a corporate distribution) if the redemption (i) is "substantially disproportionate" with respect to the U.S. Holder, (ii) results in a "complete termination" of the U.S. Holder's interest in ISAA or (iii) is "not essentially equivalent to a dividend" with respect to the U.S. Holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. Holder takes into account not only ISAA shares of common stock actually owned by the U.S. Holder, but also shares of ISAA common stock that are constructively owned by it. A U.S. Holder may constructively own, in addition to stock owned directly, stock owned by certain related individuals and entities in which the U.S. Holder has an interest or that have an interest in such U.S. Holder. In order to meet the substantially disproportionate test, the percentage of ISAA's outstanding voting stock actually and constructively owned by the U.S. Holder immediately following the redemption of the ISAA shares of common stock must, among other requirements, be less than 80% of the percentage of ISAA's outstanding voting stock actually and constructively owned by the U.S. Holder immediately before the redemption. There will be a complete termination of a U.S. Holder's

interest if either (i) all of the shares of the ISAA shares of common stock actually and constructively owned by the U.S. Holder are redeemed or (ii) all of the shares of the ISAA common stock actually owned by the U.S. Holder are redeemed and the U.S. Holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of stock owned by certain family members and the U.S. Holder does not constructively own any other ISAA shares of common stock. The redemption of the ISAA shares of common stock will not be essentially equivalent to a dividend if a U.S. Holder's conversion results in a "meaningful reduction" of the U.S. Holder's proportionate interest in ISAA. Whether the redemption will result in a meaningful reduction in a U.S. Holder's proportionate interest in ISAA will depend on the particular facts and circumstances. However, the IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority stockholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a "meaningful reduction." A U.S. Holder should consult with its own tax advisors as to the tax consequences of a redemption.

If none of the foregoing tests is satisfied, then the redemption will be treated as a corporate distribution. After the application of those rules regarding corporate distributions, any remaining tax basis of the U.S. Holder in the redeemed ordinary shares will be added to the U.S. Holder's adjusted tax basis in its remaining ISAA shares of common stock, or possibly in other ISAA shares of common stock constructively owned by it.

Ownership and Disposition of Hypebeast Ordinary Shares by U.S. Holders

Distributions on Hypebeast Ordinary Shares

If Hypebeast makes distributions of cash or property on the Hypebeast Ordinary Shares, such distributions will be treated for U.S. federal income tax purposes first as a dividend to the extent of Hypebeast's current and accumulated earnings and profits (as determined for U.S. federal income tax purposes), and then as a tax-free return of capital to the extent of the U.S. Holder's tax basis, with any excess treated as capital gain from the sale or exchange of the shares. Since Hypebeast does not intend to provide calculations of its earnings and profits under U.S. federal income tax principles, a U.S. Holder generally would be required to treat all such distributions as dividends for U.S. federal income tax purposes. Any dividend generally will not be eligible for the dividends received deduction allowed to corporations in respect of dividends received from U.S. corporations.

- Subject to the discussion below under "*— Passive Foreign Investment Company Rules.*" dividends received by certain non-corporate U.S. Holders (including individuals) may be "qualified dividend income," which is taxed at the lower applicable capital gains rate, provided that:
- the Hypebeast Ordinary Shares are readily tradable on an established securities market in the United States;
- Hypebeast is neither a PFIC (as discussed below under "*— Passive Foreign Investment Company Rules.*") nor treated as such with respect to the U.S. Holder in any taxable year in which the dividend is paid or the preceding taxable year;
- the U.S. Holder satisfies certain holding period requirements; and
- the U.S. Holder is not under an obligation to make related payments with respect to positions in substantially similar or related property.

There can be no assurance that Hypebeast Ordinary Shares will be considered "readily tradable" on an established securities market in the United States in accordance with applicable legal authorities. Furthermore, there can be no assurance that Hypebeast will not be treated as a PFIC in any taxable year. See discussion below under "*— Passive Foreign Investment Company Rules.*" U.S. Holders should consult their tax advisors regarding the availability of the lower rate for dividends paid with respect to Hypebeast Ordinary Shares. Subject to certain exceptions, dividends on Hypebeast Ordinary Shares will constitute foreign source income for foreign tax credit limitation purposes. If such dividends are qualified dividend income (as discussed above), the amount of the dividend taken into account for purposes of calculating the foreign tax credit limitation will be limited to the gross amount of the dividend, multiplied by a fraction, the numerator of which is the reduced rate applicable to qualified dividend income and the denominator of which is the highest

rate of tax normally applicable to dividends. The limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. For this purpose, dividends distributed by Hypebeast with respect to the Hypebeast Ordinary Shares generally will constitute “passive category income” but could, in the case of certain U.S. Holders, constitute “general category income.”

Sale, Exchange, Redemption or Other Taxable Disposition of Hypebeast Ordinary Shares

Subject to the discussion below under “— Passive Foreign Investment Company Rules,” a U.S. Holder generally would recognize gain or loss on any sale, exchange, redemption or other taxable disposition of Hypebeast Ordinary Shares in an amount equal to the difference between (i) the amount realized on the disposition and (ii) such U.S. Holder’s adjusted tax basis in such Hypebeast Ordinary Shares, as applicable. Any gain or loss recognized by a U.S. Holder on a taxable disposition of Hypebeast Ordinary Shares generally will be capital gain or loss. A non-corporate U.S. Holder, including an individual, who has held the Hypebeast Ordinary Shares for more than one year generally will be eligible for reduced tax rates for such long-term capital gains. The deductibility of capital losses is subject to limitations. Any such gain or loss recognized generally will be treated as U.S. source gain or loss. In the event any non-U.S. tax (including withholding tax) is imposed upon such sale or other disposition, a U.S. Holder’s ability to claim a foreign tax credit for such non-U.S. tax is subject to various limitations and restrictions. U.S. Holders should consult their tax advisors regarding the ability to claim a foreign tax credit.

Passive Foreign Investment Company Rules

The treatment of U.S. Holders of the Hypebeast Ordinary Shares could be materially different from that described above, if Hypebeast is treated as a PFIC for U.S. federal income tax purposes. A non-U.S. entity treated as a corporation for U.S. federal income tax purposes generally will be a PFIC for U.S. federal income tax purposes for any taxable year if either:

- at least 75% of its gross income for such year is passive income; or
- at least 50% of the value of its assets (generally based on an average of the quarterly values of the assets) during such year is attributable to assets that produce passive income or are held for the production of passive income.

For this purpose, Hypebeast will be treated as owning its proportionate share of the assets and earning its proportionate share of the income of any other entity treated as a corporation for U.S. federal income tax purposes in which Hypebeast owns, directly or indirectly, 25% or more (by value) of the stock.

Based on the fiscal year 2021 composition of the income, assets and operations of Hypebeast and its subsidiaries, Hypebeast does not believe it will be treated as a PFIC for the taxable year that includes the Business Combination. However, there can be no assurances in this regard, nor can there be any assurances that Hypebeast will not be treated as a PFIC in any future taxable year. Moreover, the application of the PFIC rules is subject to uncertainty in several respects, and Hypebeast can make no assurances that the IRS will not take a contrary position or that a court will not sustain such a challenge by the IRS.

Whether Hypebeast or any of its subsidiaries is treated as a PFIC is determined on an annual basis. The determination of whether Hypebeast or any of its subsidiaries is a PFIC is a factual determination that depends on, among other things, the composition of Hypebeast’s income and assets, and the market value of its and its subsidiaries’ shares and assets. Changes in the composition of Hypebeast’s or any of its subsidiaries’ income or composition of Hypebeast’s or any of its subsidiaries’ assets may cause it to be or become a PFIC for the current or subsequent taxable years. Under the PFIC rules, if Hypebeast were considered a PFIC at any time that a U.S. Holder owns Hypebeast Ordinary Shares, Hypebeast would continue to be treated as a PFIC with respect to such investment unless (i) it ceased to be a PFIC and (ii) the U.S. Holder made a “deemed sale” election under the PFIC rules. If such election is made, a U.S. Holder will be deemed to have sold its Hypebeast Ordinary Shares at their fair market value on the last day of the last taxable year in which Hypebeast is classified as a PFIC, and any gain from such deemed sale would be subject to the consequences described below. After the deemed sale election, the Hypebeast Ordinary Shares with respect to which the deemed sale election was made will not be treated as shares in a PFIC unless Hypebeast subsequently becomes a PFIC.

For each taxable year that Hypebeast is treated as a PFIC with respect to a U.S. Holder's Hypebeast Ordinary Shares, the U.S. Holder will be subject to special tax rules with respect to any "excess distribution" (as defined below) received and any gain realized from a sale or disposition (including a pledge) of its Hypebeast Ordinary Shares (collectively the "Excess Distribution Rules"), unless the U.S. Holder makes a valid QEF election or mark-to-market election as discussed below. Distributions received by a U.S. Holder in a taxable year that are greater than 125% of the average annual distributions received during the shorter of the three preceding taxable years or the U.S. Holder's holding period for the Hypebeast Ordinary Shares will be treated as excess distributions. Under these special tax rules:

- the excess distribution or gain will be allocated ratably over the U.S. Holder's holding period for the Hypebeast Ordinary Shares;
- the amount allocated to the current taxable year, and any taxable years in the U.S. Holder's holding period prior to the first taxable year in which Hypebeast is a PFIC, will be treated as ordinary income; and
- the amount allocated to each other taxable year will be subject to the highest tax rate in effect for individuals or corporations, as applicable, for each such year and the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each such year.

Under the Excess Distribution Rules, the tax liability for amounts allocated to taxable years prior to the year of disposition or excess distribution cannot be offset by any net operating losses, and gains (but not losses) realized on the sale of the Hypebeast Ordinary Shares cannot be treated as capital gains, even though the U.S. Holder holds the Hypebeast Ordinary Shares as capital assets.

Certain of the PFIC rules may impact U.S. Holders with respect to equity interests in subsidiaries and other entities which Hypebeast may hold, directly or indirectly, that are PFICs (collectively, "Lower-Tier PFICs"). There can be no assurance, however, that Hypebeast does not own, or will not in the future acquire, an interest in a subsidiary or other entity that is or would be treated as a Lower-Tier PFIC. U.S. Holders should consult their tax advisors regarding the application of the PFIC rules to any of Hypebeast's subsidiaries.

If Hypebeast is a PFIC, a U.S. Holder of Hypebeast Ordinary Shares may avoid taxation under the Excess Distribution Rules described above by making a QEF election. However, a U.S. Holder may make a QEF election with respect to its Hypebeast Ordinary Shares only if Hypebeast provides U.S. Holders on an annual basis with certain financial information specified under applicable U.S. Treasury Regulations. Because Hypebeast currently does not intend to provide U.S. Holders with such information on an annual basis, U.S. Holders generally would not be able to make a QEF election with respect to the Hypebeast Ordinary Shares.

A U.S. Holder of Hypebeast Ordinary Shares may also avoid taxation under the Excess Distribution Rules by making a mark-to-market election. The mark-to-market election is available only for "marketable stock," which is stock that is regularly traded on a qualified exchange or other market, as defined in applicable U.S. Treasury Regulations. The Hypebeast Ordinary Shares, which are expected to be listed on the Nasdaq, are expected to qualify as marketable stock for purposes of the PFIC rules, but there can be no assurance that they will be "regularly traded" for purposes of these rules. Because a mark-to-market election cannot be made for equity interests in any Lower-Tier PFICs, a U.S. Holder generally will continue to be subject to the Excess Distribution Rules with respect to its indirect interest in any Lower-Tier PFICs as described above, even if a mark-to-market election is made for Hypebeast.

If a U.S. Holder makes a valid mark-to-market election with respect to its Hypebeast Ordinary Shares, such U.S. Holder will include in income for each year that Hypebeast is treated as a PFIC with respect to such Hypebeast Ordinary Shares an amount equal to the excess, if any, of the fair market value of the Hypebeast Ordinary Shares as of the close of the U.S. Holder's taxable year over the adjusted basis in the Hypebeast Ordinary Shares. A U.S. Holder will be allowed a deduction for the excess, if any, of the adjusted basis of the Hypebeast Ordinary Shares over their fair market value as of the close of the taxable year. However, deductions will be allowed only to the extent of any net mark-to-market gains on the Hypebeast Ordinary Shares included in the U.S. Holder's income for prior taxable years. Amounts included in income under a mark-to-market election, as well as gain on the actual sale or other disposition of the Hypebeast

Ordinary Shares, will be treated as ordinary income. Ordinary loss treatment will also apply to the deductible portion of any mark-to-market loss on the Hypebeast Ordinary Shares, as well as to any loss realized on the actual sale or disposition of the Hypebeast Ordinary Shares, to the extent the amount of such loss does not exceed the net mark-to-market gains for such Hypebeast Ordinary Shares previously included in income. A U.S. Holder's basis in the Hypebeast Ordinary Shares will be adjusted to reflect any mark-to-market income or loss. If a U.S. Holder makes a mark-to-market election, any distributions Hypebeast makes would generally be subject to the rules discussed above under "— Distributions on Hypebeast Ordinary Shares," except the lower rates applicable to qualified dividend income would not apply.

A U.S. Holder that is eligible to make a mark-to-market election with respect to its Hypebeast Ordinary Shares may do so by providing the appropriate information on IRS Form 8621 and timely filing that form with the U.S. Holder's tax return for the year in which the election becomes effective. U.S. Holders should consult their tax advisors as to the availability and desirability of a mark-to-market election, as well as the impact of such election on interests in any Lower-Tier PFICs.

A U.S. Holder of a PFIC generally is required to file an IRS Form 8621 on an annual basis. U.S. Holders are strongly encouraged to consult their tax advisors regarding the application of the PFIC rules and the associated reporting requirements to their particular circumstances.

Information Reporting and Backup Withholding

In general, information reporting requirements will apply to dividends received by U.S. Holders of Hypebeast Ordinary Shares (including constructive dividends), and the proceeds received on the sale or other taxable disposition of Hypebeast Ordinary Shares effected within the United States (and, in certain cases, outside the United States), in each case, other than U.S. Holders that are exempt recipients (such as corporations). Information reporting requirements will also apply to redemptions from U.S. Holders of ISAA shares of common stock. Backup withholding (currently at a rate of 24%) may apply to such amounts if the U.S. Holder fails to provide an accurate taxpayer identification number (generally on an IRS Form W-9 provided to the paying agent or the U.S. Holder's broker) or is otherwise subject to backup withholding.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or credit against a holder's U.S. federal income tax liability, if any, provided the required information is timely furnished to the IRS.

The preceding discussion of certain material U.S. federal tax considerations is for general information purposes only. It is not tax advice to holders of ISAA shares of common stock or Hypebeast Ordinary Shares. Each such holder should consult its own tax advisor regarding the particular U.S. federal, state and local, and non-U.S. tax considerations of purchasing, holding, and disposing of ISAA shares of common stock or Hypebeast Ordinary Shares, including the consequences of any proposed change in applicable law.

SHARES ELIGIBLE FOR FUTURE SALE

Upon completion of this offering, Hypebeast will have a share capital comprised of 38,360,300 Hypebeast Ordinary Shares (assuming redemption by holders of 15,014,000 ISAA's outstanding shares of common stock). All of the Hypebeast Ordinary Shares issued in connection with the Merger will be freely transferable by persons other than by Hypebeast's "affiliates" without restriction or further registration under the Securities Act, subject to the restrictions detailed below. Sales of substantial amounts of Hypebeast Ordinary Shares in the public market could adversely affect prevailing market prices of the Hypebeast Ordinary Shares. Prior to the Business Combination, Hypebeast Ordinary Shares were traded on The Stock Exchange of Hong Kong Limited. Hypebeast intends to apply for listing of the Hypebeast Ordinary Shares on Nasdaq in connection with the Business Combination.

Transfer Restrictions

On April 3, 2022, Hypebeast announced its entry into a Sponsor Support Agreement by and among the Sponsor, Hypebeast, ISAA, and officers and directors of ISAA who hold the ISAA shares of common stock. Under the Sponsor Support Agreement, the Sponsor and the officer and directors agreed, with some exclusions, that until the termination of the Merger Agreement, they will not, and will not cause their affiliates not to, without the prior written consent of Hypebeast: (i) (a) offer to sell, contract or agree to sell, hypothecate, pledge, grant any option, right or warrant to purchase or otherwise transfer, dispose of or agree to transfer or dispose of, directly or indirectly, or establish or increase a put equivalent position or liquidate or decrease a call equivalent position within the meaning of Section 16 of the Exchange Act, and the rules and regulations of the Securities and Exchange Commission promulgated thereunder, any securities of ISAA held by them, (b) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of any such securities, whether any such transaction is to be settled by delivery of such securities, in cash or otherwise, or (c) publicly announce any intention to effect any transaction specified in clause (a) or (b) (the actions specified in clauses (a)-(c) (collectively, a "Transfer") or (ii) grant any proxies or enter into any voting arrangement, whether by proxy, voting agreement, voting trust, voting deed or otherwise (including pursuant to any loan of ISAA securities), or enter into any other agreement, with respect to any ISAA securities, in each case, other than as set forth in the Sponsor Support Agreement or the voting and other arrangements under the organizational documents of ISAA.

Regulation S

Regulation S under the Securities Act provides an exemption from registration requirements in the United States for offers and sales of securities that occur outside the United States. Rule 903 of Regulation S provides the conditions to the exemption for a sale by an issuer, a distributor, their respective affiliates or anyone acting on their behalf, while Rule 904 of Regulation S provides the conditions to the exemption for a resale by persons other than those covered by Rule 903. In each case, any sale must be completed in an offshore transaction, as that term is defined in Regulation S, and no directed selling efforts, as that term is defined in Regulation S, may be made in the United States.

Rule 144

Pursuant to Rule 144, a person who has beneficially owned restricted shares of ISAA's common stock for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of ISAA's affiliates at the time of, or at any time during the three months preceding, a sale and (ii) ISAA was subject to the Exchange Act periodic reporting requirements for at least three months before the sale and has filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as ISAA was required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares of ISAA's common stock for at least six months but who are ISAA's affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of shares of common stock then outstanding, which will equal 198,400 shares immediately after this offering (or 227,875 if the underwriters exercise their over-allotment option in full); or

- the average weekly reported trading volume of the common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by ISAA's affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about ISAA.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and materials required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Current Reports on Form 8-K; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, ISAA's initial stockholders will be able to sell their Founder Shares and Private Placement Shares, as applicable, pursuant to Rule 144 without registration one year after ISAA have completed its initial business combination.

Registration Rights

In connection with the IPO, ISAA entered into a registration rights agreement with the Sponsor (the "Sponsor Registration Rights Agreement") for the registration for resale under the Securities Act of the Founder Shares and Private Placement Shares (collectively, the "Sponsor Registrable Shares"). The holders of a majority of the Sponsor Registrable Shares are entitled to make up to three demands that ISAA register the Sponsor Registrable Shares. Holders of a majority of the Founder Shares or the Private Placement Shares can elect to exercise these registration rights at any time commencing on or after ISAA consummates a Business Combination. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the consummation of a business combination. ISAA agreed to bear the expenses incurred in connection with the filing of any such registration statement. As a condition to the consummation of the Business Combination, the Merger Sub, ISAA and the Sponsor will execute a Deed of Novation, pursuant to which the Merger Sub will assume all the rights, duties, obligations, benefits, interest, duties and liabilities of ISAA in, to and under the Sponsor Registration Rights Agreement.

As per the Merger Agreement, ISAA, the Sponsor and Hypebeast will enter into a registration rights agreement (the "Surviving Corporation Registration Rights Agreement") governing the registration for resale under the Securities Act of (i) the Surviving Corporation's shares of common stock issued to the shareholders of Hypebeast who are not affiliates of Hypebeast or the Surviving Corporation, (ii) all other securities of the Surviving Corporation held by the Surviving Corporation's officers, directors, nominees, and direct and indirect parents, control persons, affiliates and associates immediately after the Business Combination, and (iii) _____ of the Surviving Corporation issuable to certain service providers in connection with the closing of the Business Combination (collectively, the "Registrable Securities"). The Hypebeast Registration Rights Agreement will provide that the holders of a majority of the Registrable Securities can, at any time after the consummation of the Business Combination, make up to four demands that the Surviving Corporation register the Registrable Securities. In addition, the holders of the Registrable Securities have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the consummation of the Business Combination. The Surviving Corporation will bear the expenses incurred in connection with the filing of any such registration statement.

DESCRIPTION OF SECURITIES

Securities of ISAA

ISAA shares of common stock are quoted on Nasdaq, under the symbols “ISAA.” The ISAA shares of common stock commenced trading on Nasdaq on June 9, 2021.

ISAA’s Amended and Restated Certificate of Incorporation requires ISAA to make quarterly dividends of \$0.05 per share of Class A common stock. Securities of Hypebeast

The following description of the material terms of the share capital of Hypebeast following the Transactions includes a summary of specified provisions of the memorandum of association (the “**Memorandum of Association**”) and the amended and restated articles of association of Hypebeast (the “**Articles of Association**”) and together with the Memorandum of Association, the “**Amended and Restated Memorandum and Articles of Association**”) that are currently in effect and will remain effective after the completion of the Business Combination. This description is qualified by reference to Hypebeast’s Amended and Restated Memorandum and Articles of Association as will be in effect upon closing of the Transactions. References in this section to “we” or “us” refer to Hypebeast.

General

Hypebeast is a Cayman Islands exempted company and, as of the Closing, its affairs will be governed by the Amended and Restated Memorandum and Articles of Association, the Cayman Companies Act and the common law of the Cayman Islands. Pursuant to the Amended and Restated Memorandum and Articles of Association, Hypebeast is authorized to issue 6,000,000,000 ordinary shares of a par value of HK\$0.01 each (“**Ordinary Shares**”). Hypebeast’s ordinary shares are currently traded on the Stock Exchange of Hong Kong, under the symbol “HYPBY” and with the stock code 00150. Hypebeast is applying to list its ordinary shares on Nasdaq in connection with the Business Combination, after which Hypebeast will be dual listed in the United States and Hong Kong.

Share Capital

All of our issued and outstanding Hypebeast Ordinary Shares are fully paid and non-assessable. The Hypebeast Ordinary Shares are issued in registered form, and are issued when registered in the register of members of Hypebeast. Hypebeast may not issue Hypebeast Ordinary Shares to bearer. Subject to the provisions of the Cayman Companies Act and the Articles of Association and, where applicable, the Listing Rules and without prejudice to any special rights or restrictions for the time being attached to any shares or any class of shares, all unissued shares in Hypebeast are at the disposal of the board, which may offer, allot, grant options over or otherwise dispose of them to such persons, at such times, for such consideration and on such terms and conditions as it in its absolute discretion thinks fit, but so that no shares shall be issued at a discount to their nominal value.

The holders of Hypebeast Ordinary Shares will be entitled to one vote per share on all matters that require a shareholder’s vote.

Subject to the provisions of the Cayman Companies Act and the Amended and Restated Memorandum and Articles of Association and to any special rights conferred on the holders of any shares or class of shares, any share may be issued (a) with or have attached thereto such rights, or such restrictions, whether with regard to dividend, voting, return of capital, or otherwise, as the Directors may determine, or (b) on terms that, at the option of Hypebeast or the holder thereof, it is liable to be redeemed.

Dividends

Hypebeast in general meeting may declare dividends in any currency to be paid to the members but no dividend shall be declared in excess of the amount recommended by the board. The Articles of Association provide dividends may be declared and paid out of the profits of Hypebeast, realised or unrealised, or from any reserve set aside from profits which the directors determine is no longer needed. With the sanction of an ordinary resolution dividends may also be declared and paid out of share premium account or any other fund or account which can be authorised for this purpose in accordance with the Companies Act.

Variation of Rights

Subject to the Cayman Companies Act, if at any time the share capital of Hypebeast is divided into different classes of shares, all or any of the special rights attached to the shares or any class of shares may (unless otherwise provided for by the terms of issue of that class) be varied, modified or abrogated either with the consent in writing of the holders of not less than three fourths in nominal value of the issued shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares of that class. To every such separate general meeting the provisions of the Articles of Association relating to general meetings will mutatis mutandis apply, but so that the necessary quorum (other than at an adjourned or postponed meeting) shall be two persons holding or representing by proxy not less than one third in nominal value of the issued shares of that class and at any adjourned or postponed meeting two holders present in person or by proxy (whatever the number of shares held by them) shall be a quorum. Every holder of shares of the class shall be entitled to one vote for every such share held by him.

Transfer of Shares

Subject to the Amended and Restated Memorandum and Articles of Association, Nasdaq rules and the applicable law, our shareholders may transfer all or any of his or her Hypebeast Ordinary Shares by an instrument of transfer. The board may decline to recognise any instrument of transfer unless a fee (not exceeding the maximum sum as the Stock Exchange may determine to be payable) determined by the Directors is paid to Hypebeast, the instrument of transfer is properly stamped (if applicable), it is in respect of only one class of share and is lodged at the relevant registration office or registered office or such other place at which the principal register is kept accompanied by the relevant share certificate(s) and such other evidence as the board may reasonably require to show the right of the transferor to make the transfer (and if the instrument of transfer is executed by some other person on his behalf, the authority of that person so to do).

Liquidation

On a winding-up of our company, subject to any rights or restrictions for the time being attached to any class of shares, if the assets available for distribution amongst our shareholders shall be more than sufficient to repay the whole of the share capital at the commencement of the winding up, the excess shall be distributed *pari passu* amongst such members in proportion to the amount paid up on the shares held by them respectively.

Indemnification of Directors and Executive Officers and Limitation of Liability

Cayman Islands law does not limit the extent to which a company's articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime. The Articles of Association permit indemnification of officers and directors from and against all actions, costs, charges, losses, damages and expenses which they or any of

them, their or any of their heirs, executors or administrators, shall or may incur or sustain by or by reason of any act done, concurred in or omitted in or about the execution of their duty, or supposed duty, in their respective offices or trusts.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers or persons controlling our company under the foregoing provisions, we have been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Certain Anti-Takeover Provisions

Certain provisions in the Amended and Restated Memorandum and Articles of Association may be deemed to have an anti-takeover effect and may delay, deter or prevent a tender offer or takeover attempt that a shareholder might consider to be in its best interests, including attempts that might result in a premium being paid over the market price for Hypebeast Ordinary Shares. These provisions are also designed, in part, to encourage persons seeking to acquire control of us to first negotiate with our board of directors.

Ordinary Shares

The authorized but unissued Hypebeast Ordinary Shares will be available for future issuance by the board of directors on such terms as our board of directors may determine, subject to any limitations in the Amended and Restated Memorandum and Articles of Association. These additional shares may be utilized for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued Hypebeast Ordinary Shares could render more difficult or discourage an attempt to obtain control over us by means of a proxy contest, tender offer, merger, amalgamation, scheme of arrangement or otherwise.

Preference Shares

Preference shares could be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue these preference shares, the price of Hypebeast Ordinary Shares may fall and the voting and other rights of the holders of Hypebeast Ordinary Shares may be materially adversely affected. Subject to the provisions of the Cayman Companies Act and the Articles of Association and to any special rights conferred on the holders of any shares or class of shares, any share may be issued (a) with or have attached thereto such rights, or such restrictions, whether with regard to dividend, voting, return of capital, or otherwise, as the Directors may determine, or (b) on terms that, at the option of Hypebeast or the holder thereof, it is liable to be redeemed.

However, under Cayman Islands law, our directors may only exercise the rights and powers granted to them under the Amended and Restated Memorandum and Articles of Association for a proper purpose and for what they believe in good faith to be in our best interests.

Board of Directors

Our board of directors shall consist of such number of directors as the shareholders may from time to time determine and there should be a minimum of two directors at all times. Upon the consummation of the Business Combination, our board of directors will consist of up to seven directors.

Appointment of Directors

Our directors shall, be elected by the shareholders by way of any ordinary resolution to either fill a casual vacancy or as an addition to the existing directors. Without prejudice to Hypebeast's power to appoint a person to be a director pursuant to the Amended and Restated Memorandum and Articles of Association, the board of directors shall have power at any time to appoint any person who is willing to act as a director, either to fill casual vacancy or as an addition to the existing directors.

Any director may in writing appoint another person to be such director's alternate, with the alternate having the authority to act in the director's place at any meeting at which the appointing director is unable to be present. A director may, but is not required to, appoint another director to be an alternate.

Removal of Directors

A director may be removed from office by ordinary resolution of Hypebeast before the expiration of his period of office. A director will also cease to be a director if he or she (i) dies or becomes bankrupt or makes any arrangement or composition with such director's creditors; (ii) is found to be or becomes of unsound mind; (iii) resigns the office of director by notice in writing to the company; (iv) not being present personally or by proxy or represented by an alternate director at meetings of directors for a continuous period of six months without special leave of absence from our board of directors, and our board of directors passes a resolution that he or she has by reason of such absence vacated office; (v) ceases to be a director by virtue of any provision of law or is removed from office pursuant to the Articles of Association; or (vi) is prohibited, by any applicable law, from being a director.

Directors' Fiduciary Duties

Under Cayman Islands law, directors and officers owe the following fiduciary duties:

- duty to act in good faith in what the director or officer believes to be in the best interests of the company as a whole;
- duty to exercise powers for the purposes for which those powers were conferred and not for a collateral purpose;
- duty not to improperly fetter the exercise of future discretion;
- duty to exercise powers fairly as between different sections of members;
- duty not to put themselves in a position in which there is a conflict between their duty to the company and their personal interests; and
- duty to exercise independent judgment.

In addition to the above, directors and officers also owe a duty of care which is not fiduciary in nature. This duty has been defined as a requirement to act as a reasonably diligent person having both the general knowledge, skill and experience that may reasonably be expected of a person carrying out the same functions as are carried out by that director in relation to the company and the general knowledge skill and experience of that director.

Meetings of Shareholders

As a Cayman Islands exempted company, Hypebeast is not obliged by law to call annual general meetings. According to the Articles of Association, Hypebeast must hold an annual general meeting of the Company every year within a period of not more than fifteen (15) months after the holding of the last preceding annual general meeting or a period of not more than eighteen (18) months from the date of adoption of the Articles of Association, unless a longer period would not infringe the Listing Rules.

Capitalization of Profits and Reserves

Hypebeast may, upon the recommendation of the Board, at any time and from time to time pass an ordinary resolution to the effect that it is desirable to capitalise all or any part of any amount for the time being standing to the credit of any reserve or fund (including a share premium account and capital redemption reserve and the profit and loss account) whether or not the same is available for distribution and accordingly that such amount be set free for distribution among the shareholders or any class of shareholders who would be entitled thereto if it were distributed by way of dividend and in the same proportions, on the footing that the same is not paid in cash but is applied either in or towards paying up the amounts for the time being unpaid on any shares in the Company held by such shareholders respectively or in paying up in full unissued shares, debentures or other obligations of the Company, to be allotted and distributed credited as fully paid up among such Members, or partly in one way and partly in the other, and the Board shall give effect to such resolution provided that, for the purposes above, a share premium account and any capital redemption reserve or fund representing unrealised profits, may be applied only in paying up in full unissued shares of the Company to be allotted to such shareholders credited as fully paid.

Amended and Restated Memorandum and Articles of Association

The Articles of Association may be rescinded, altered or amended by the Company in general meeting by special resolution. The Articles of Association state that a special resolution shall be required to alter the provisions of the Memorandum of Association, to amend the Articles of Association or to change the name of the Company.

Mergers and Consolidations

Hypebeast may by a special resolution merge or consolidate with one or more constituent companies (as defined in the Cayman Companies Act), upon such terms as our directors may determine subject to the Cayman Companies Act.

Transfer Agent and Registrar

Following the completion of the Business Combination, Continental Stock Transfer & Trust Company will act as the transfer agent and registrar for Hypebeast Ordinary Shares.

Stock Exchange Listing

Hypebeast will apply for listing, to be effective at the time of the closing of the Business Combination, of its Hypebeast Ordinary Shares on the Nasdaq under the symbol "HYPB". Hypebeast will not have units issued or traded following consummation of the Business Combination.

Enforceability of Civil Liability under Cayman Islands Law

Hypebeast has been advised by its Cayman Islands legal counsel that although there is no statutory enforcement in the Cayman Islands of judgments obtained in the federal or state courts of the United States (and the Cayman Islands are not a party to any treaties for the reciprocal enforcement or recognition of such judgments with the United States), the courts of the Cayman Islands would recognize as a valid judgment, a final and conclusive judgment in personam obtained in the federal or state courts of the United States against the Company under which a sum of money is payable (other than a sum of money payable in respect of multiple damages, taxes or other charges of a like nature or in respect of a fine or other penalty) or, in certain circumstances, an in personam judgment for non-monetary relief, and would give a judgment based thereon provided that (a) such courts had proper jurisdiction over the parties subject to such judgment; (b) such courts did not contravene the rules of natural justice of the Cayman Islands; (c) such judgment was not obtained by fraud; (d) the enforcement of the judgment would not be contrary to the public policy of the Cayman Islands; (e) no new admissible evidence relevant to the action is submitted prior to the rendering of the judgment by the courts of the Cayman Islands; and (f) there is due compliance with the correct procedures under the laws of the Cayman Islands.

Anti-Money Laundering

If any person in the Cayman Islands knows or suspects or has reasonable grounds for knowing or suspecting that another person is engaged in criminal conduct or money laundering or is involved with terrorism or terrorist financing and property and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector, or other trade, profession, business or employment, the person will be required to report such knowledge or suspicion to (i) the Financial Reporting Authority of the Cayman Islands, pursuant to the Proceeds of Crime Act (As Revised) of the Cayman Islands if the disclosure relates to criminal conduct or money laundering, or (ii) a police officer of the rank of constable or higher, or the Financial Reporting Authority, pursuant to the Terrorism Act (As Revised) of the Cayman Islands, if the disclosure relates to involvement with terrorism or terrorist financing and property. Such a report shall not be treated as a breach of confidence or of any restriction upon the disclosure of information imposed by any enactment or otherwise.

Cayman Islands Data Protection Regime

We are subject to a data protection regime in the Cayman Islands, contained in The Data Protection Act, 2017 and The Data Protection Regulations, 2018 (collectively, the "DPL"). The Office of the

Ombudsman of the Cayman Islands (the “Ombudsman”) acts as supervisory authority for the DPL. The DPL provides statutory safeguards for the rights of individuals whose personal information is held and processed in the Cayman Islands or by Cayman Islands entities elsewhere. The DPL imposes obligations on Hypebeast as a data controller, in respect of any data it collects from which any living individual (a “data subject”) can be identified (“personal data”). Typically, such personal data will be provided to Hypebeast by potential investors at the time of their subscription, and may relate to individual investors or the officers, controllers and beneficial owners of entity investors. The types of data provided may include an individual’s name, residential address or other contact details, signature, nationality, place and date of birth, tax status, tax ID, bank account details, source of funds and/or source of wealth details.

Hypebeast’s obligations in relation to personal data are set out in eight data protection principles contained in the DPL. These require Hypebeast to process personal data fairly and securely and not to retain it for longer than necessary or to re-use it for other purposes. Any third party that processes data on behalf of Hypebeast must agree in writing to act only on our instructions and to keep such data secure.

The DPL gives data subjects certain rights in respect of their personal data. A data subject may require disclosure of its personal data held by or on behalf of Hypebeast and the reasons it is being processed. A data subject may also require Hypebeast to correct or to stop processing their personal data, again unless certain exemptions apply. Exemptions include, for example, the processing being necessary to comply with applicable laws and regulations. Data subjects have rights to complain to the Ombudsman if they consider that Hypebeast has not complied with the DPL. The Ombudsman has broad powers to enforce the DPL against Hypebeast, which could include monetary penalties of up to US\$300,000.

Cayman Islands Privacy Notice

All entities formed or registered in the Cayman Islands, such as Hypebeast, are subject to the DPL. The DPL imposes certain obligations on us as data controllers in respect of any personal data relating to individuals that is provided to us or to any third party on our behalf.

Hypebeast may receive personal data from current and prospective investors (including, for example, personal data on individual directors and beneficial owners or controllers of entities) (“PD”).

The types of PD collected by or on behalf of Hypebeast on any individual may include their name, residential address or other contact details, signature, nationality, place and date of birth, tax status, tax ID, bank account details, source of funds and/or source of wealth details.

PD is collected by or on behalf of Hypebeast for the following purposes:

- a. Compliance with applicable laws and regulations (e.g. anti-money laundering rules requiring verification of identity; and tax transparency reporting under the Foreign Account Tax Compliance Act and Common Reporting Standard).
- b. Processing subscriptions, transfers and distributions.
- c. Risk assessment and management.
- d. Ongoing communication with current and prospective investors.
- e. Fulfilment of contractual and other obligations to Investors and other counterparties.

PD is only retained and used by or on behalf of Hypebeast to the extent reasonably necessary for the purposes stated above. Statutory retention periods may require that PD be retained for a specific period of time after a relationship comes to an end or an incipient relationship is not commenced, and generally it will be prudent for Hypebeast to retain personal data relating to any relationship until the relevant limitation periods for claims have expired.

PD may be provided by current or prospective shareholders directly to Hypebeast’s service provider, such as the transfer agent, or may later be transferred to such service providers by Hypebeast in connection with their provision of services to us.

Hypebeast takes all reasonable steps to identify and safeguard the physical and electronic security of PD that Hypebeast holds, or which is held by service providers on our behalf. PD is only received by or transferred to service providers who have provided written confidentiality and security undertakings.

Individuals who believe that their rights under the DPL have been infringed, have a right to complain to the Office of the Cayman Islands Ombudsman (<https://ombudsman.ky>).

<u>Shareholder Action by Written Consent</u>	
Subject to the rights, if any, of the holders of any outstanding series of preferred stock, any action required or permitted to be taken by the stockholders of ISAA must be effected by a duly called annual or special meeting of such stockholders and may not be effected by written consent of the stockholders.	Unanimous written consent required to pass a resolution without a meeting.

<u>Corporate Opportunity</u>	
To the extent allowed by law, the doctrine of corporate opportunity, or any other analogous doctrine, shall not apply with respect to ISAA or any of its officers or directors, or any of their respective affiliates, in circumstances where the application of any such doctrine would conflict with any fiduciary duties or contractual obligations they may have as of the date of the Amended and Restated Certificate of Incorporation of ISAA or in the future, and ISAA renounces any expectancy that any of the directors or officers of ISAA will offer any such corporate opportunity of which he or she may become aware to ISAA, except, the doctrine of corporate opportunity shall apply with respect to any of the directors or officers of ISAA with respect to a corporate opportunity that was offered to such person solely in his or her capacity as a director or officer of ISAA and (i) such opportunity is one ISAA is legally and contractually permitted to undertake and would otherwise be reasonable for ISAA to pursue and (ii) the director or officer is permitted to refer that opportunity to ISAA without violating any legal obligation. ENFORCEABILITY OF CIVIL LIABILITIES UNDER U.S. SECURITIES LAWS

Hypebeast is incorporated under the laws of the Cayman Islands. Because substantially all of Hypebeast's assets are located outside the United States, any judgment obtained in the United States against Hypebeast may not be collectible within the United States.

Hypebeast has been advised by its Cayman Islands legal counsel that although there is no statutory enforcement in the Cayman Islands of judgments obtained in the federal or state courts of the United States (and the Cayman Islands are not a party to any treaties for the reciprocal enforcement or recognition of such judgments with the United States), the courts of the Cayman Islands would recognize as a valid judgment, a final and conclusive judgment in personam obtained in the federal or state courts of the United States against the Company under which a sum of money is payable (other than a sum of money payable in respect of multiple damages, taxes or other charges of a like nature or in respect of a fine or other penalty) or, in certain circumstances, an in personam judgment for non-monetary relief, and would give a judgment based thereon provided that (a) such courts had proper jurisdiction over the parties subject to such judgment; (b) such courts did not contravene the rules of natural justice of the Cayman Islands; (c) such judgment was not obtained by fraud; (d) the enforcement of the judgment would not be contrary to the public policy of the Cayman Islands; (e) no new admissible evidence relevant to the action is submitted prior to the rendering of the judgment by the courts of the Cayman Islands; and (f) there is due compliance with the correct procedures under the laws of the Cayman Islands.

Hypebeast has been advised by its Hong Kong legal counsel that the recognition and enforcement of foreign judgments are subject to compliance with Hong Kong laws. The Hong Kong courts may recognize and enforce judgments from courts in other jurisdictions in accordance with Hong Kong laws based either on the ordinances of Hong Kong or common law principles. Currently, except for the arrangement with mainland China, Hong Kong has not entered into any multilateral convention or bilateral treaty regarding recognition and enforcement of foreign court judgments nor is Hong Kong a party to any international treaties/conventions relevant to the enforcement of foreign court judgments, including with the United States or the Cayman Islands. The consequence is that foreign judgments obtained from the United States or the Cayman Islands courts can only be enforced in Hong Kong in accordance with common law principal, which entails issuing fresh proceedings in Hong Kong based on the foreign judgment.

The legality of the Hypebeast Ordinary Shares offered hereby and certain other Cayman Islands legal matters will be passed upon for Hypebeast by Conyers Dill & Pearman. Certain legal matters relating to U.S. law will be passed upon for Hypebeast by Kirkland & Ellis LLP. Certain legal matters relating to U.S. law will be passed upon for ISAA by Loeb & Loeb LLP.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE SHAREHOLDERS AND THE BOARD OF DIRECTORS OF HYPEBEAST LIMITED:

Opinion on the Financial Statements

We have audited the accompanying consolidated statements of financial position of Hypebeast Limited and its subsidiaries (the “Company”) as of 31 March 2020 and 2021, the related consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the years ended 31 March 2020 and 2021, and the related notes (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of 31 March 2020 and 2021, and the results of its operations and its cash flows for the years ended 31 March 2020 and 2021, in conformity with the International Financial Reporting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

The consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Group is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

None of the subsidiaries had issued any debt securities at the end of both reporting periods.

Consolidation of Variable Interest Entity

In order to comply with the PRC laws and regulations which restrict foreign control of companies involved in provision of value-added telecommunications services, which is classified as one of the restricted business, the Group operates its restricted business in the PRC through Hypebeast Cultural, its PRC domestic company, whose equity interests are held by the Legal Owner.

The Group obtained effective control over the finance and operation of Hypebeast Cultural and the entire interests and benefits generated by entering into the VIE Agreements among the Legal Owner, Hypebeast Cultural and Beijing Hypebeast. The VIE Agreements include (i) the loan agreement, (ii) the exclusive option and equity trust agreement, (iii) the service agreement, (iv) the equity pledge agreement, and (v) the non-competition agreement. The VIE Agreements can be extended at the Group’s options prior to the expiration date. Management concluded that Hypebeast Cultural is consolidated VIE of the Group, of which the Group is the ultimate primary beneficiary. As such, the Group consolidated the financial results of Hypebeast Cultural in the Group’s consolidated financial statements.

(i) The Loan Agreement

Pursuant to the Loan Agreement, Beijing Hypebeast has granted an interest-free loan to the Legal Owner of the Hypebeast Cultural with the sole purpose of investing into the equity interest in Hypebeast Cultural. Beijing Hypebeast can require the Legal Owner to settle the loan amount with the equity interest of Hypebeast Cultural, subject to any applicable PRC laws, rules and regulations. The Loan Agreement is renewable upon expiration.

(ii) The Exclusive Option and Equity Trust Agreement

Pursuant to the Exclusive Option and Equity Trust Agreement, the Legal Owner has granted the full power and authority to Beijing Hypebeast or its nominee (i) exercise an option to purchase all or part of the Legal Owner's equity interests in Hypebeast Cultural at the consideration being either RMB1 (or any price mutually agreed by the parties) or the minimum price allowed by applicable laws if such transfer of equity interests is allowed by the applicable PRC laws ("Exclusive Option"); and (ii) purchase all or part of the assets of Hypebeast Cultural at the minimum price allowed under the applicable PRC laws during the option period, being the period from the effective date of the Exclusive Option and Equity Trust Agreement to the date on which all the equity interest in Hypebeast Cultural having been transferred to Beijing Hypebeast or its nominee. Without the prior written consent of Beijing Hypebeast, Hypebeast Cultural and the Legal Owner shall not engage in any transaction or action which will create any substantive influence to the assets, business, rights or operation management of Hypebeast Cultural and its investment company, controlling or shareholding company. The Legal Owner has executed a power of attorney to grant Beijing Hypebeast the power of attorney to act on its behalf on all matters pertaining Hypebeast Cultural and to exercise all of its rights as a shareholder, including but not limited to convene, attend and vote at shareholders' meetings, designate and appoint directors and senior management members. The Exclusive Option and Equity Trust Agreement shall remain effective during the exercise period unless terminated by Beijing Hypebeast by written notice.

(iii) The Service Agreement

Pursuant to the Service Agreement, Beijing Hypebeast shall provide to Hypebeast Cultural certain management consulting and technical services, including but not limited to business and strategic planning, marketing development, clientele management and development, software development and application, etc. at the agreed service fees. The service fee shall be an amount reasonable determined by Beijing Hypebeast, which is based on the management consulting and technical service provided by Beijing Hypebeast to Hypebeast Cultural under the Service Agreement. Beijing Hypebeast has the exclusive proprietary rights to all intellectual property rights created or bought by Hypebeast Cultural. In the absence of prior written prior consent of Beijing Hypebeast, Hypebeast Cultural may not accept any management consulting and technical services provided by any third party.

(iv) Equity Pledge Agreement

Pursuant to the Equity Pledge Agreement, the Legal Owner has pledged all her equity interests in Hypebeast Cultural as well as all rights and benefits relating to such equity interests to Beijing Hypebeast to secure Hypebeast Cultural and Legal Owner's due performance of their respective obligations under the VIE Agreements. During the term of the pledge, all interests, distributions and dividends arising from the pledged equity shall belong to Beijing Hypebeast. The pledge shall remain valid until the last contract in the VIE Agreements is terminated (including any renewal).

(v) Non-Competition Agreement

Pursuant to the Non-Competition Agreement, the Legal Owner agreed to avoid any direct or indirect competition in the same business with Beijing Hypebeast and Hypebeast Cultural, during the period that the Legal Owner pledged her respective interests in Hypebeast Cultural. Such businesses include, but are not limited to (i) management consulting, marketing and promotion planning and economic and trade consulting services; technical development, consulting, assignment, services business under type II value-added telecommunication services; and (iii) sales of clothes, apparel accessories and daily necessities, commission agent (excluding auctioning) and the importation and exportation of goods and technology.

I. GENERAL (continued)

The Non-Competition Agreement has a term of ten (10) years commencing from the effective date. At the request of Beijing Hypebeast, the Non-competition Agreement may be renewed for a further term of the (10) years for unlimited times. Notwithstanding the above, all obligations of the Legal Owner under the Non-Competition Agreement shall automatically terminate upon the expirations of two (2) years from the date on which the Legal Owner is no longer a shareholder, director or staff of Hypebeast Cultural.

Risks in relations to the VIE structure

The Company believes that the contractual arrangements among Beijing Hypebeast, Hypebeast Cultural and its shareholder are in compliance with the current PRC laws and legally enforceable. However, uncertainties in the interpretation and enforcement of the PRC laws, regulations and policies could limit the Company's ability to enforce these contractual arrangements. As a result, the Company may be unable to consolidate the Hypebeast Cultural in the consolidated financial statements. The Company's ability to control the VIE also depends on the authorization by the shareholder of the Hypebeast Cultural to exercise voting rights on all matters requiring shareholder's approval in the Hypebeast Cultural. The Company believes that the agreements on authorization to exercise shareholder's voting power are legally enforceable. If the corporate structure and contractual arrangements are found to be in violation of any existing or future PRC laws or regulations, the relevant regulatory authorities would have broad discretion in dealing with such violations, including:

- revoking the business licenses of such entities;
- discontinuing or restricting the conduct of any transactions between the Company and Hypebeast Cultural;
- imposing fines, confiscating the income from Hypebeast Cultural, or imposing other requirements with which the Company or Hypebeast Cultural may not be able to comply;
- requiring the Company to restructure its ownership structure or operations, including terminating the Contractual Arrangements with Hypebeast Cultural and deregistering the equity pledges of Hypebeast Cultural, which in turn would affect Company's ability to consolidate, derive economic interests from, or exert effective control over Hypebeast Cultural; or
- restricting or prohibiting Company's use of the proceeds of any of its financing outside PRC to finance Company's business and operations in PRC.

The following table sets forth the assets, liabilities, results of operations and changes in cash, cash equivalents of the Beijing Hypebeast (the "VIE") structured by the VIE Agreements, which have eliminated the intercompany transactions:

As of 31 March, 2020 and 2021, the total liabilities of the consolidated VIE after eliminating the intra-company transactions within the Group were HK\$5,658,000 and HK\$11,027,000 respectively, which were mainly consisting of trade and other payables.

For the years ended 31 March, 2020 and 2021, the total net revenues of the Group's consolidated VIE were HK\$32,766,000 and HK\$34,975,000, respectively, which have been reflected in the Group's consolidated financial statements with the intra-company transactions within the Group eliminated.

There are no terms in any arrangements, considering both explicit arrangements and implicit variable interests that require the Company to provide financial support to the VIE. However, if the VIE was ever to need financial support, the Company may, at its option and subject to statutory limits and restrictions, provide financial support to the VIE through loans to the shareholders of the VIE or entrustment loans to the VIE.

The Company believes that there are no assets held in the consolidated VIE that can be used only to settle obligations of the VIE, except for registered capital and the PRC statutory reserves. As the consolidated VIE is incorporated as a limited liability company under the PRC Company Law, creditors of the VIE do not have recourse to the general credit of the Company for any of the liabilities of the consolidated VIE.

Relevant PRC laws and regulations restrict the VIE from transferring a portion of their net assets, equivalent to the balance of its registered capital and the PRC statutory reserves, to the Company in the form of loans and advances or cash dividends.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED 31 MARCH 2020 AND 2021**3. BASIS OF PREPARATION AND PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES****3.1 Basis of preparation of consolidated financial statements**

The consolidated financial statements have been prepared in accordance with IFRSs issued by the IASB. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users.

The directors of the Company have, at the time of approving the consolidated financial statements, a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the consolidated financial statements.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial assets that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

3.2 Significant accounting policies**(a) Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities (including VIE) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the reporting periods are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

(b) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

HYPEBEAST LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED 31 MARCH 2020 AND 2021**3. BASIS OF PREPARATION AND PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment that are within the scope of the IFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with IFRS 16 *Leases* ("IFRS 16"), and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 *Inventories* ("IAS 2") or value in use in IAS 36 *Impairment of Assets* ("IAS 36").

For financial instruments which are transacted at fair value and a valuation technique that unobservable inputs are to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that at initial recognition the results of the valuation technique equals the transaction price.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

For assets and liabilities that are recognized at fair value in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(c) Interest in a joint venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of a joint venture are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of a joint venture used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in a joint venture is initially recognised in the consolidated statements of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the joint venture. Changes in net assets of the joint venture other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of a joint venture exceeds the Group's interest in that joint venture, the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture.

The Group assesses whether there is an objective evidence that the interest in a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any

impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When a group entity transacts with a joint venture of the Group, profits and losses resulting from the transactions with the joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the joint venture that are not related to the Group.

(d) Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with IFRS 9 *Financial Instruments* ("IFRS 9"). In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation*Output method*

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

HYPEBEAST LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED 31 MARCH 2020 AND 2021

3. BASIS OF PREPARATION AND PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Principal versus agent

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent).

The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer.

The Group is an agent if its performance obligation is to arrange for the provision of the specified good or service by another party. In this case, the Group does not control the specified good or service provided by another party before that good or service is transferred to the customer. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party.

Contract costs*Incremental costs of obtaining a contract*

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained.

The Group recognises such costs (such as sales commissions) as an asset if it expects to recover these costs. The asset so recognised is subsequently amortised to profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the assets relate.

The Group applies the practical expedient of expensing all incremental costs to obtain a contract if these costs would otherwise have been fully amortised to profit or loss within one year.

(e) Leases**Definition of a lease**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application or arising from business combinations, the Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group also applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

HYPEBEAST LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED 31 MARCH 2020 AND 2021**3. BASIS OF PREPARATION AND PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (continued)***Short-term leases*

The Group applies the short-term lease recognition exemption to leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term leases are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets are depreciated on a straight-line basis over the shorter of their estimated useful lives and the lease terms.

The Group presents right-of-use assets as a separate line item on the consolidated statements of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under IFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable.

Variable lease payments that do not depend on an index or a rate are not included in the measurement of lease liabilities and right-of-use assets, and are recognised as expense in the period in which the event or condition that triggers the payment occurs.

When a lease contract contains a specific clause that provides for rent reduction or suspension of rent in the event that the underlying assets (or any part thereof) are affected by adverse events beyond the control of the Group and the lessor so as to render the underlying assets unfit or not available for

HYPEBEAST LIMITED

use, the relevant rent reduction or suspension of rent resulting from the specific clause is accounted for as part of the original lease and not as a lease modification. Such rent reduction or suspension of rent is recognised in profit or loss in the period in which the event or condition that triggers those payments to occur.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever the lease term has changed in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.

The Group presents lease liabilities as a separate line item on the consolidated statements of financial position.

The Group as a lessee*Lease modifications*

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability, less any leases incentives receivables, based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

(f) Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of the reporting periods, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that dates. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange

rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the date of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate).

(g) Borrowing costs

Borrowing costs which are not directly attributable to the acquisition, construction or production of qualifying assets are recognised in profit or loss in the period in which they are incurred.

(h) Employee benefit**Retirement benefit costs**

Payments to state-managed retirement schemes/the Mandatory Provident Fund Scheme (“MPF Scheme”) are recognised as an expense when employees have rendered service entitling them to the contributions.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another IFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries and annual leave) after deducting any amount already paid.

(i) Share-based payment**Equity-settled share-based payment transactions***Share options granted to directors and employees*

Equity-settled share-based payments to directors of the Company and employees of the Group who have contributed or will contribute to the Group are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments without taking into consideration all non-market vesting conditions determined at the grant date is expensed on a straight-line basis over the vesting period, based on the Group’s estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share options reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share options reserve. For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When share options are forfeited after the vesting date or are still not

exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to accumulated profits.

(j) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated statements of financial position and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and interest in a joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to settle the carrying amount of its liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 Income Taxes requirements to right-of-use assets and lease liabilities separately. Temporary differences on initial recognition of the relevant right-of-use assets and lease liabilities are not recognised due to application of the initial recognition exemption. Temporary differences arising from subsequent revision to the carrying amounts of right-of-use assets and lease liabilities, resulting from remeasurement of lease liabilities and lease modifications, that are not subject to initial recognition exemption are recognised on the date of remeasurement or modification.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current

tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax is recognised in profit or loss.

(k) Property, plant and equipment

Property, plant and equipment held for use in the supply of goods or services, or for administrative purposes, are stated in the consolidated statements of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Leasehold improvements in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment other than leasehold improvements under construction less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

(l) Intangible assets**Intangible assets acquired separately**

Intangible assets with finite useful lives represent the website domain names which are acquired separately and carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

(m) Impairment on property, plant and equipment, right-of-use assets and intangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets and intangible assets with finite useful lives to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment, right-of-use assets and intangible assets with finite useful lives are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit ("CGU") to which the asset belongs.

In testing a CGU for impairment, corporate assets are allocated to the relevant CGU when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the CGU or group of CGUs to which the corporate asset belongs, and is compared with the carrying amount of the relevant CGU or group of CGUs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or CGU or a group of CGUs) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU or a group of CGUs) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

(n) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a first-in-first-out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs necessary to make the sales.

(o) Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade and unbilled receivables arising from contracts with customers which are initially measured in accordance with

IFRS 15 *Revenue from Contracts with Customers* ("IFRS 15"). Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets*Classification and subsequent measurement of financial assets*

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset and is included in the "other income, other gains and losses" line item.

FOR THE YEARS ENDED 31 MARCH 2020 AND 2021**3. BASIS OF PREPARATION AND PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (continued)***Impairment of financial assets and contract assets*

The Group performs impairment assessment under expected credit loss (“ECL”) model on financial assets (including trade and other receivables, amount due from a joint venture, rental deposits, pledged bank deposits and bank balances) and contract assets which are subject to impairment assessment under IFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade and unbilled receivables and contract assets.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instruments as at the reporting date with the risk of a default occurring on the financial instruments as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instruments’ external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor’s ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor’s ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased

HYPEBEAST LIMITED

significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of “investment grade” as per globally understood definitions.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower’s financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over one year past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group’s recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward- looking information.

Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for certain trade and unbilled receivables and contract assets are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade and unbilled receivables and contract assets where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity*Classification as debt or equity*

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

Financial liabilities including trade and other payables and bank borrowings are subsequently measured at amortised cost, using the effective interest method.

FOR THE YEARS ENDED 31 MARCH 2020 AND 2021**3. BASIS OF PREPARATION AND PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (continued)***Derecognition of financial liabilities*

The Group recognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies which are described in note 3, the management of the Group is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The followings are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of each reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year.

Impairment assessment of trade and unbilled receivables

Trade and unbilled receivables that with significant balances or credit-impaired are assessed for ECL individually. The management of the Group estimates the amount of the remaining trade and unbilled receivables based on collective assessment through grouping of various debtors by geographical locations and then further grouped by past due status of respective trade receivables. Estimated loss rates are based on historical observed default rates over the expected life of the debtors and forward-looking information that is reasonable and supportable available without undue costs or effort.

The credit loss allowance of the trade and unbilled receivables is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows.

As at 31 March 2020 and 2021, the carrying amounts of trade and unbilled receivables were HK\$188,386,000 and HK\$172,741,000 and the Group recognised impairment losses under ECL model, net of reversal of HK\$973,000 and HK\$776,000 during the year ended 31 March 2020 and 2021, respectively.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade and unbilled receivables are disclosed in notes 31 and 20, respectively.

(ii) Performance obligations for contracts with customers

a) Sales of goods through online and offline retail platform

The Group sells branded clothing, shoes and accessories to customers through its online and offline retail platform in Hong Kong, the PRC, the US, and other overseas countries.

Taking into consideration of the relevant contract terms that entered into with customers on sales of goods through online and offline retail platform, the Group concluded that the Group does not have an enforceable right to payment prior to the relevant products shipped/delivered to customers.

Revenue from sales of goods through online and offline retail platform is therefore recognised at a point in time when the goods is shipped/delivered to customers, being at the point that the customer obtains the control of the goods and the Group has present right to payment and collection of the consideration is probable.

The Group typically receive payment in full before the sales orders processed. When the Group receives the payment in full before the goods is shipped/delivered to customers, this will give rise to contract liabilities at the start of a contract, until the revenue recognised when the goods is shipped/delivered to the customers.

5. REVENUE (continued)

b) Commission fee from consignment sales

Commission fee from consignment sales represents commission received by the Group when the Group acts as consignee for certain suppliers on selling their clothing, shoes and accessories to customers through its online retail platform on consignment basis.

The Group is an agent under the consignment sales contracts as its performance obligation is to sell the products supplied by another party. In this regards, the Group does not control the products provided by another party before those goods sold and shipped/ delivered to customers. Accordingly, the Group recognises revenue in the amount of commission to be received pursuant to the consignment sales contracts and is therefore recognised at a point in time when the goods is shipped/delivered to customers, being at the point that the customer obtains the control of the goods and the Group has present right to payment and collection of the consideration is probable.

The Group typically receives payment in full before the consignment sales orders processed. When the Group receives the payment in full before the consignment goods is shipped/delivered to customers, this will give rise to contract liabilities and payable to consignor at the start of the contract, until the commission fee income recognised when the consignment goods is shipped/delivered to customers.

c) Provision of advertising spaces

Revenue from provision of advertising spaces is recognised over time because the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs. Revenue is recognised for provision of advertising spaces based on insertion order agreed by both parties using output method over the period that the advertisement launched. The normal credit term is 30 to 60 days in accordance with the invoice date.

The insertion order includes total contract value, period of advertisement launched in the online platform or social media platform and the target impression rate or click rate required by customers.

The Group receives 50% of the contract value as deposits from new customers when they sign the contracts for provision of advertising spaces. The deposits and advance payment schemes result in contract liabilities being recognised until the advertisement launched in relevant spaces and relevant benefits received by the customers.

d) Provision of services for creative agency projects

Creative agency projects consist of project-based production of advertisement (including photo shooting, video production and editorial work prior to the publishing on advertising spaces). The relevant deliverables (i.e. completed advertisement) specified in the contracts are based on customer's specifications with no alternative use. Creative agency projects comprise of large-scale projects and small-scale projects.

For large-scale projects, the Group will typically sign a service contract with the customer, taking into consideration of the relevant contract terms, the Group concluded that the Group has an enforceable right to payment prior to the completion of the relevant services and delivered to customers. Accordingly, revenue from the provision of services for large-scale projects is therefore recognised based on the agreed payment schedule pursuant to the contracts using output method over the period of the projects.

For small-scale projects, the Group will typically issue the insertion order to the customer. There is no contract terms to mention an enforceable right to payment prior to the completion of relevant services

and delivered to customers. Accordingly, revenue from the provision of services for small-scale projects is therefore recognised at a point in time when the completed advertisement is delivered to customers, being at the point that the customer obtains the control of the advertisement and the Group has present right to payment and collection of the consideration is probable.

The normal credit term is 30 to 60 days in accordance with the invoice date for both large-scale and small-scale projects.

e) Publication of magazines

The Group publishes its own magazine every quarter and delivers to its customers upon subscription made. Taking into consideration of the relevant contract terms that entered into with customers on the subscription of magazines, the Group concludes that the Group does not have an enforceable right to payment prior to the magazines published and shipped/delivered to customers. Revenue from publication of magazines is therefore recognised at a point in time when the published magazines is shipped/delivered to customers, being at the point that the customer obtains the control of the magazines and the Group has present right to payment and collection of the consideration is probable. The Group typically receive payment in full upon the subscription of magazines by the customers.

(iii) Transaction price allocated to the remaining performance obligation for contracts with customers

All of the Group's remaining performance obligations for contracts with customers are for periods of one year or less. As permitted under IFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

6. SEGMENT INFORMATION

Information reported to the Chief Executive Officer ("CEO") of the Group, being the chief operating decision maker ("CODM") for the purpose of resource allocation and assessment of segment performance focuses on types of goods delivered, or service provided. No operating segments identified by CODM have been aggregated in arriving at the reportable segments of the Group.

Specifically, the Group's reportable and operating segments under IFRS 8 are as follows:

9. INCOME TAX EXPENSE (continued)

Income tax expense at concessionary rate

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the “Bill”) which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

Accordingly, the Hong Kong Profits Tax is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million.

Under the notice of the Ministry of Finance and the State Taxation Administration (2019) No.13, certain PRC subsidiaries are qualified as a small-scale and low-profit enterprise in calendar year 2019. Accordingly, 25% of the first RMB1 million of assessable profits would be assessed for EIT at 20, 50% of assessable profits between RMB1 million to RMB3 millions would be assessed for the EIT at 20% and the remaining assessable profits above RMB3 millions would continue to be assessed for the EIT at the basis tax rate of 25%.

Basic income tax expense

The basic tax rate of the Company’s PRC subsidiaries is 25% for both years under the Law of the PRC on Enterprise Income Tax (the “EIT Law”) and Implementation Regulations of the EIT Law.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdiction.

The income tax expense for the year can be reconciled to the profit before tax per the consolidated statements of profit or loss and other comprehensive income as follows:

The validity period of the options is ten years, from 8 December 2020 to 7 December 2030. The closing price of the Shares of the Company immediately before the date on which the options were granted was HK\$0.77.

The estimated fair values of the 28,400,000 share options granted on 8 December 2020 was approximately HK\$13,611,000. The fair value per option granted on 8 December 2020 range from HK\$0.4592 to HK\$0.4912.

The Black-Scholes Option Pricing Model has been used to estimate the fair value of the share options. The variables and assumptions used in computing the fair value of the share options are based on the Directors' best estimate. The value of a share option varies with different variables of certain subjective assumptions. The inputs into the model are as follows:

	8 December 2020	28 June 2019
Share price at date of grant of share options	HK\$0.788	HK\$1.04
Exercise price	HK\$0.788	HK\$1.04
Expected life	5 – 6 years	4 years
Expected volatility	76.89%	81.11%
Expected dividend yield	0%	0%
Risk-free rate	0.33%	1.43%

Expected volatility was determined by using the historical volatility of the Company's share price over the previous years. The expected life used in the model has been adjusted as appropriate, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioral considerations.

For the years ended 31 March 2020 and 2021, the Group recognised total expenses of HK\$6,413,000 and HK\$7,003,000 in relation to the share options granted by the Company.

30. CAPITAL RISK MANAGEMENT

The Directors manage its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debt, which includes bank borrowings and lease liabilities as disclosed in notes 25 and 26 respectively, net of cash and cash equivalents and equity.

The Directors review the capital structure from time to time. As a part of this review, the Directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations

Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables and deposits, amount due from a joint venture, pledged bank deposits, bank balances and cash, financial asset at fair value through profit or loss, trade and other payables, bank borrowings and lease liabilities. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (interest rate risk and foreign currency risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

The Group is primarily exposed to the financial risks of changes in interest rates and foreign currency exchange rates. Details of each type of market risks are described as follows:

(i) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to lease liabilities. The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank borrowings and bank balances. The Company currently does not enter into any hedging instrument for cash flow interest rate risk.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Dollar Best Lending Rate arising from the Group's Hong Kong dollars denominated borrowings.

The sensitivity analysis below has been determined based on the exposure to interest rates for bank borrowings at the end of the reporting period. The analysis is prepared assuming amounts of these financial instruments outstanding at the end of each reporting period were outstanding for the whole year. A 50 basis points increase or decrease in the prevailing rates of relevant banks is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower for variable rate bank borrowings, with all other

variables held constant, the Group's post-tax profit for the year ended 31 March 2020 and 2021 would decrease/increase by HK\$137,000 and HK\$25,000, respectively.

(ii) Foreign currency risk

The Group undertakes certain operating transactions in foreign currency, which exposes the Group to foreign currency risk. The Group currently does not have a foreign currency hedging policy. However, the Directors monitor foreign exchange exposure and will consider hedging significant foreign currency exposure should such need arise.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities as at the end of each reporting period are as follows:

	2020		2021	
	Assets	Liabilities	Assets	Liabilities
	HK\$'000	HK\$'000	HK\$'000	HK\$'000

Renminbi ("RMB")	<u>5,213</u>	<u>1,206</u>	<u>6,583</u>	<u>1,828</u>

Sensitivity analysis

The Group is mainly exposed to the risk of fluctuation against US\$, EURO and RMB during the years ended 31 March 2020 and 2021.

The following table details the sensitivity to a 2%, 5% and 5% increase and decrease in HK\$ against US\$, EURO and RMB, respectively. These rates are the sensitivity rates used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a change in foreign currency rates. The negative number below indicates a decrease in the post-tax profit where HK\$ strengthens 2%, 5% and 5% against US\$, EURO and RMB, respectively. For a 2%, 5% and 5% weakening of HK\$ against US\$, EURO and RMB, there would be an equal and opposite impact on the profit or loss for the year.

Credit risk and impairment provision

As at 31 March 2020 and 2021, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of respective financial assets as stated in the consolidated statements of financial position. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets. The Group would charge penalty on certain customers for overdue settlement according to the sales agreement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED 31 MARCH 2020 AND 2021**31. FINANCIAL INSTRUMENTS (continued)***Trade and unbilled receivables and contract assets arising from contracts with customers*

As at 31 March 2020 and 2021, the Group has concentration of credit risk as 37% and 60% and 53% and 71% of the trade and unbilled receivables was due from the Group's largest customer and the five largest customers respectively.

As at 31 March 2020 and 2021, the Group's concentration of credit risk by geographical locations which accounted for 49% and 68%, representing in Hong Kong and in the PRC for the trade and unbilled receivables.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals. Before accepting any new customer, the Group uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed once a year. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. Trade and unbilled receivables and contract assets that with significant balances or credit-impaired are assessed for ECL individually. The management of the Group estimates the amount of lifetime ECL of the remaining trade and unbilled receivables and contract assets using a collective basis grouped by geographical locations, and then further grouped by past due status of respective trade receivables. Estimated loss rates are based on historical observed default rates over the expected life of the debtors and forward-looking information that is reasonable and supportable available without undue costs or effort. Details of the quantitative disclosures are set out below in this note.

In relation to contract assets arisen from provision of advertising spaces, the management performs impairment assessment on a periodic basis. Based on the assessment, the management is of the opinion that the probability of defaults of the relevant counterparties are insignificant since the counterparties are either listed or multinational companies with continuing business relationship. In addition, the management is confident that the target impression rate or click rate stipulated in the contracts will be satisfied in due course and the accrued revenue on the advertising spaces are fully recoverable but only subject to timing of satisfying the target impression rate or click rate pursuant to the contracts. Accordingly, the credit risk regarding contract assets is limited.

Amount due from a joint venture

As at 31 March 2020 and 2021, the gross carrying amount of amount due from a joint venture is HK\$11,870,000 and HK\$13,120,000. For the purpose of impairment assessment for amount due from a joint venture, exposure to credit risk for this balance is assessed individually with lifetime ECL. Impairment of HK\$4,019,000 on amount due from a joint venture with a loss rate of 30.6% was provided by the Group as at 31 March 2021.

Other receivables and deposits, pledged bank deposits and bank balances

The Group performs impairment assessment under ECL model on other receivables and deposit, pledged bank deposits and bank balances based on 12m ECL as no significant increase in credit risk since initial recognition.

The credit risk on other receivables and deposits is limited because the counterparties have no historical default record and the Directors expect that the general economic conditions will not significantly changed for the 12 months after the reporting date.

The credit risk on pledged bank deposits and bank balances is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

31. FINANCIAL INSTRUMENTS (continued)

Based on the Group's internal credit rating, no material impairment loss allowance is recognised for other receivables. No material impairment loss allowance is recognised for pledged bank deposits and bank balances based on external credit rating.

The Group is exposed to concentration of credit risk on:

- Liquid funds which are deposited with several banks with high credit ratings; and
- Amount due from a joint venture with no history of default.

Other than above, the Group does not have any other significant concentration of credit risk. The tables below is the internal credit policy of the Group:

Internal credit rating	Description	Trade and unbilled receivables/ contract assets	Other financial assets/other items

As at 31 March 2020 and 2021, trade and unbilled receivables with significant outstanding balances with gross carrying amounts of HK\$65,879,000 and HK\$38,893,000 were assessed individually. As all these debtors with significant balances are either listed or multinational companies with good financial position and without recent default history, they are all classified as low risk and loss rate of 0.16% in 2020 and 0.10% to 0.20% in 2021 is applied.

The estimated loss rates are estimated based on historical observed default rates over the expected life of the trade and unbilled receivables and are adjusted for forward-looking information that is available without undue cost or effort. The Group determines the average loss rate by considering the geographic locations of trade receivables, after considering aging, repayment history and/or past due status of respective trade receivables. The grouping is regularly reviewed by management to ensure relevant information about specific trade receivable is updated.

During the years 31 March 2020 and 2021, the Group provided impairment losses under ECL model for trade and unbilled receivables of HK\$870,000 and HK\$720,000 based on the collective assessment and HK\$103,000 and HK\$56,000 based on significant balances.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents as well as undrawn banking facilities deemed adequate by the Directors to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The Directors monitor the utilisation of bank borrowings.

The following table details the Group's remaining contractual maturity for its financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank borrowings with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The table includes both interest and principal cash flows. To the extent that interest flows are variable rate, the undiscounted amount is derived from weighted average interest rate at the end of the reporting period.

Bank borrowings with a repayment on demand clause are included in the “repayable on demand or less than 1 year” time band in the above maturity analysis. As at 31 March 2020 and 2021, the aggregate carrying amounts of these bank borrowings amounted to HK\$32,836,000 and HK\$5,996,000. Taking into account the Group’s financial position, the Directors do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The Directors believe that these bank borrowings will be repaid in accordance with the scheduled repayment dates set out in the loan agreements.

The following table details the Group’s aggregate principal and interest cash outflows for bank borrowings with a repayment on demand clause. **NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2020 AND 2021**

1. GENERAL INFORMATION (continued)

For the six months ended 30 September 2020 and 2021, the total net revenues of the Group's consolidated VIE were HK\$17,041,000 and HK\$32,375,000, respectively, which have been reflected in the Group's consolidated financial statements with the intra-company transactions within the Group eliminated.

There are no terms in any arrangements, considering both explicit arrangements and implicit variable interests that require the Company to provide financial support to the VIE. However, if the VIE was ever to need financial support, the Company may, at its option and subject to statutory limits and restrictions, provide financial support to the VIE through loans to the shareholders of the VIE or entrustment loans to the VIE.

The Company believes that there are no assets held in the consolidated VIE that can be used only to settle obligations of the VIE, except for registered capital and the PRC statutory reserves. As the consolidated VIE is incorporated as a limited liability company under the PRC Company Law, creditors of the VIE do not have recourse to the general credit of the Company for any of the liabilities of the consolidated VIE.

Relevant PRC laws and regulations restrict the VIE from transferring a portion of their net assets, equivalent to the balance of its registered capital and the PRC statutory reserves, to the Company in the form of loans and advances or cash dividends.

2. PRINCIPAL ACCOUNTING POLICIES

The Group's unaudited interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" issued by the International Accounting Standards Board ("IASB"). Other than additional accounting policies resulting from application of amendments to International Financial Reporting Standards ("IFRSs"), the accounting policies and basis of preparation adopted in the preparation of these unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's audit consolidated financial statements for the year ended 31 March 2020 and 31 March 2021. The notes presented in these unaudited interim condensed consolidated financial statements include only significant events and transactions occurring since the Company's last fiscal year end and are not fully inclusive of all matters required to be disclosed by IFRS in the Company's annual consolidated financial statements. As a result, these unaudited interim condensed consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the year ended 31 March 2020 and 31 March 2021.

3. APPLICATION OF AMENDMENTS TO IFRSs

In the six months ended 30 September 2021, the Group has applied the following amendments to IFRSs issued by International Accounting Standards Board ("IASB"), for the first time, which are mandatorily effective for the annual periods beginning on or after 1 April 2021 for the preparation of the Group's unaudited interim condensed consolidated financial statements:

Amendment to IFRS 16	Covid-19-Related Rent Concessions
Amendment to IFRS 16	Covid-19-Related Rent Concessions beyond 30 June 2021
Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16	Interest Rate Benchmark Reform — Phase 2

Except as disclosed below, the application of the amendments to IFRSs in the current period has had no material impact on the Group's financial positions and performance for the current and prior periods and/or on the disclosures set out in these unaudited interim condensed consolidated financial statements.

**NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2020 AND 2021**

3. APPLICATION OF AMENDMENTS TO IFRSs (continued)

In June 2021, the IFRS Interpretations Committee (“Committee”), through its agenda decision, clarified the costs an entity should include as “estimated costs necessary to make the sale” when determining the net realisable value of inventories. In particular, whether such costs should be limited to those that are incremental to the sale. The Committee concluded that the estimated costs necessary to make the sale should not be limited to those that are incremental but should also include costs that an entity must incur to sell its inventories including those that are not incremental to a particular sale. The Group’s existing accounting policy is to determine net realisable value taking into consideration incremental costs only. As at 30 September 2021, the Group is still in the process of assessing the potential impact and has yet to implement the change in accounting policy based on the Committee’s agenda decision. The impacts on such change, if any, will be disclosed in the Group’s future consolidated financial statements.

19. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

Fair value measurements and valuation processes

The management of the Group reviews the appropriateness of the valuation techniques and inputs for fair value measurements regularly.

In estimating the fair value, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the management of the Group will perform the valuation with reference to the valuation of external qualified valuers.

**NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2020 AND 2021**

19. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS (continued)

The fair values of these financial assets are determined (in particular, the valuation technique(s) and inputs used), as well as the level of the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

- Level 1 fair value measurements are based on quoted prices (unadjusted) in active market for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Financial assets	Fair value as at		Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable input(s)
	31 March 2021	30 September 2021			
	HK\$'000	HK\$'000			
Private equity investment at FVTPL	1,647	1,647	Level 3	Adjusted cost approach, base on market capitalisation (note a)	Market capitalisation: 0%
Convertible promissory note	N/A	2,333	Level 3	Scenario base approach with probability-weighted cash flow method (note b)	Probability of next round of preference equity financing: 70% in Q4 2021, 25% in Q1 2022 and 5% in 2Q 2022, respectively. Discount rate: 0.04% to 0.07% Time to maturity: 0.45 to 0.95 years

Notes:

- a. Adjusted cost approach assumes a reasonable investor will pay no more for an asset than it would cost to replace the same asset, to the extent the existing asset provides less utility than a new asset and adjusted by market capitalisation. It bases on the concept of replacement, less depreciation from physical deterioration and functional obsolescence, as an indication of value.
- b. Scenario base approach with probability-weighted cash flow method is used to compare the net payoff receivables by note holder, i.e. the conversion payoff by note issuer with debt payoff by note issuer, and then estimating their present value in different scenarios.

The financial assets amounting to HK\$1,647,000 as at 31 March 2021 and 30 September 2021, represent the Group's equity interest in a private entity established in the US. This investment is not held for trading, instead, they are held for long-term strategic purposes. The fair value of the investment as at 31 March 2021 and 30 September 2021 were measured using a valuation technique with significant unobservable inputs and hence was classified as Level 3 of the fair value hierarchy.

The financial assets amounting to HK\$2,333,000 represent the Group's investment in convertible promissory note issued by an private entity established in the US. The fair value of the investment as at 30 September 2021 were measured using a valuation technique with significant unobservable inputs and hence was classified as Level 3 of the fair value hierarchy.

The directors of the Company consider that the fair value of these financial assets are approximately to the initial purchase costs.

(the "Merger Sub"), a wholly-owned subsidiary of the Company, entered into an agreement and plan of merger (the "Merger") (the "Merger Agreement"), pursuant to which, subject to satisfaction of the conditions precedent stipulated under the Merger Agreement, (a) Merger Sub will merge with and into Iron Spark, with Iron Spark being the surviving entity in the Merger, and after giving effect to the Merger, Iron Spark will become a wholly-owned subsidiary of the Company; and (b) each Iron Spark Share issued and outstanding immediately before completion of the Merger will be cancelled and automatically converted into the right to receive, without interest, one consolidated share at completion of the Merger.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of
Iron Spark I Inc.

Opinion on the Financial Statements

We have audited the accompanying balance sheet of Iron Spark I Inc. (the “Company”) as of December 31, 2021, the related statements of operations, changes in stockholders’ deficit and cash flows for the period from January 22, 2021 (inception) through December 31, 2021, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021, and the results of its operations and its cash flows for the period from January 22, 2021 (inception) through December 31, 2021, in conformity with accounting principles generally accepted in the United States of America.

Explanatory Paragraph — Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As more fully described in Note 1 to the financial statements, the Company’s business plan is dependent on the completion of a business combination and the Company’s cash and working capital as of December 31, 2021 are not sufficient to complete its planned activities. These conditions raise substantial doubt about the Company’s ability to continue as a going concern. Management’s plans in regard to these matters are also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

IRON SPARK I INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 1. DESCRIPTION OF ORGANIZATION, BUSINESS OPERATIONS AND GOING CONCERN

Iron Spark I Inc. (the “Company”) is a blank check company incorporated in Delaware on January 22, 2021. The Company was formed for the purpose of entering into a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities (a “Business Combination”). The Company is not limited to a particular industry or geographic region for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of December 31, 2021, the Company had not commenced any operations. All activity for the period from January 22, 2021 (inception) through December 31, 2021 relates to the Company’s formation and the initial public offering (“Initial Public Offering”), which is described below, and since the closing of the Initial Public Offering, the search for a prospective initial Business Combination. The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering.

The registration statement for the Company’s Initial Public Offering was declared effective on June 8, 2021. On June 11, 2021, the Company consummated its Initial Public Offering of 15,000,000 shares of Class A common stock (the “Public Shares”). The Shares were sold at a price of \$10.00 per Public Share, generating gross proceeds to the Company of \$150,000,000, which is discussed in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 1,090,000 shares (the “Private Placement Shares”) at a price of \$10.00 per Private Placement Share in a private placement to Iron Spark I LLC (the “Sponsor”), generating gross proceeds of \$10,900,000, which is described in Note 4.

The Company granted the underwriters in the Initial Public Offering (the “Underwriters”) a 45-day option to purchase up to 2,250,000 additional Shares to cover over-allotments, if any. On June 16, 2021, the Underwriters partially exercised the over-allotment option and purchased an additional 1,680,000 shares (the “Over-Allotment Shares”), generating gross proceeds of \$16,800,000. The remaining 570,000 shares were not exercised by the underwriter and expired on July 26, 2021.

Simultaneously with the closing of the exercise of the over-allotment option, the Company consummated the sale of 100,800 shares (the “Over-Allotment Private Placement Shares”) at a purchase price of \$10.00 per share in a private placement to the Sponsor, generating gross proceeds of \$1,008,000.

Following the closing of the Initial Public Offering on June 11, 2021, an amount of \$173,472,000 (\$10.40 per Public Share) from the net proceeds of the sale of the Public Shares in the Initial Public Offering, the sale of the Private Placement Shares, the sale of the Over-Allotment Shares, and the exercise of the over-allotment option was placed in a U.S.-based trust account (the “Trust Account”), and were invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with maturities of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest only in direct U.S. government treasury obligations, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds held in the Trust Account, as described below.

Transaction costs related to the issuances described above amounted to \$9,515,489, consisting of \$3,336,000 of cash underwriting fees, \$5,838,000 of deferred underwriting fees and \$341,489 of other costs. In addition, at December 31, 2021, \$494,693 of cash was held outside of the Trust Account and is available for working capital purposes.

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Placement Shares, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete a Business Combination with one or more target businesses that together have an aggregate fair market value of at least 80% of the value of the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into an initial Business Combination. The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the "Investment Company Act").

The Company will provide its holders of the outstanding Public Shares (the "public stockholders") with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The public stockholders will be entitled to redeem their Public Shares for \$10.00. In addition, concurrently with the release of funds from the Trust Account, non-redeeming stockholders will receive \$0.05 per share (assuming that the Company did not previously distribute \$0.40 per share in dividends) and the Sponsor will receive amounts remaining in the Trust Account that are in excess of \$10.00 per Public Share.

The Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 immediately prior to or upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation (the "Amended and Restated Certificate of Incorporation"), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission ("SEC") and file tender offer documents with the SEC containing substantially the same information as would be included in a proxy statement prior to completing a Business Combination. If, however, stockholder approval of the transaction is required by law, or the Company decides to obtain stockholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the Sponsor has agreed to vote its Founder Shares (as defined in Note 5) and any Public Shares purchased during or after the Initial Public Offering in favor of approving a Business Combination. Additionally, each public stockholder may elect to redeem their Public Shares irrespective of whether they vote for or against the initial transaction or do not vote at all.

Notwithstanding the above, if the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Amended and Restated Certificate of Incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the Public Shares, without the prior consent of the Company.

The Sponsor has agreed (a) to waive redemption rights with respect to the Founder Shares and Public Shares held by them in connection with the completion of a Business Combination and (b) not to propose an amendment to the Amended and Restated Certificate of Incorporation (i) to modify the substance or timing of the Company's obligation to allow redemption in connection with the Company's initial Business Combination and certain amendments to the Amended and Restated Certificate of Incorporation or to redeem 100% of its Public Shares if the Company does not complete a Business Combination or (ii) with respect to any other provision relating to stockholders' rights or pre-initial Business Combination activity, unless the Company provides the public stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

The Company will have until June 11, 2023 to complete a Business Combination (the “Combination Period”). If the Company is unable to complete a Business Combination within the Combination Period and stockholders do not approve an amendment to the Amended and Restated Certificate of Incorporation to extend this date, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining stockholders and the Company’s board of directors, dissolve and liquidate, subject in the case of clauses (ii) and (iii) to the Company’s obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

The Sponsor has agreed to waive liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Sponsor acquires Public Shares in or after the Initial Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Public Share (\$10.00).

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a vendor for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (i) \$10.40 per Public Share or (ii) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of trust assets, in each case net of the interest which may be withdrawn to pay the Company’s tax obligation and up to \$100,000 for liquidation excepts, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account (even if such waiver is deemed to be unenforceable) and except as to any claims under the Company’s indemnity of the underwriters of Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the “Securities Act”). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except the Company’s independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Going Concern Consideration

As of December 31, 2021, the Company had \$494,693 in cash held outside of the Trust Account and working capital of \$391,964. The Company has incurred and expects to continue to incur significant costs in pursuit of its acquisition plans. These conditions raise substantial doubt about the Company’s ability to continue as a going concern for a period of time within one year after the date that the financial statements are issued. Management plans to address this uncertainty through the Business Combination as discussed above. There is no assurance that the Company’s plans to consummate the Business Combination will be successful or successful within the Combination Period. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations, and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***Basis of Presentation***

The accompanying financial statement is presented in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the SEC.

Emerging Growth Company

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of December 31, 2021.

Investments Held in Trust Account

As of December 31, 2021, the Company had \$171,811,812 in investments held in the Trust Account. The assets held in the Trust Account were held in money market funds, which are invested in U.S. Treasury securities.

Class A Common Stock Subject to Possible Redemption

All of the 16,680,000 shares of Class A common stock sold as part of the Units in the Initial Public Offering contain a redemption feature which allows for the redemption of such Public Shares in connection

with the Company's liquidation, if there is a shareholder vote or tender offer in connection with the Business Combination and in connection with certain amendments to the Company's Amended and Restated Certificate of Incorporation. In accordance with SEC and its staff's guidance on redeemable equity instruments, which has been codified in Accounting Standards Codification ("ASC") 480-10-S99, redemption provisions not solely within the control of the Company require common stock subject to redemption to be classified outside of permanent equity. Therefore, all Class A common stock has been classified outside of permanent equity.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable common stock to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable common stock are affected by charges against additional paid in capital and accumulated deficit.

As of December 31, 2021, the Class A common stock reflected in the balance sheet are reconciled in the following table:

Gross proceeds	\$166,800,000
Less:	
Issuance costs allocated to Class A common stock	(9,485,615)
Proceeds allocated to over-allotment option	(112,500)
Plus:	
Remeasurement of carrying value to redemption value	9,598,115
Class A common stock subject to possible redemption	<u><u>\$166,800,000</u></u>

Offering Costs Associated with the Initial Public Offering

The Company complies with the requirements of ASC 340-10-S99-1 and SEC Staff Accounting Bulletin Topic 5A — *Expenses of Offering*. Offering costs consist principally of professional and registration fees incurred through the balance sheet date that are related to the Initial Public Offering. Offering costs directly attributable to the issuance of an equity contract to be classified in equity are recorded as a reduction in equity. Offering costs for equity contracts that are classified as assets and liabilities are expensed immediately. The Company incurred offering costs amounting to \$9,515,489 as a result of the Initial Public Offering (consisting of a \$3,336,000 underwriting fee, \$5,838,000 of deferred underwriting fees and \$341,489 of other offering costs). The Company recorded \$9,515,489 of offering costs as a reduction of equity in connection with the shares of Class A common Stock included in the Public Shares.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under ASC 740, *Income Taxes*. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of December 31, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

Net Loss Per Common Share

Net loss per common share is computed by dividing net loss by the weighted-average number of shares of common stock outstanding during the period. As the Public Shares are considered to be redeemable at fair value, and a redemption at fair value does not amount to a distribution different than other stockholders, Class A and Class B common stock are presented as one class of stock in calculating net loss per share. As a result, the calculated net loss per share is the same for Class A and Class B shares of common stock. At December 31, 2021, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the periods presented.

The following table reflects the calculation of basic and diluted net loss per common share (in dollars, except per share amounts):

	<u>For the period from January 22, 2021 (inception) through December 31, 2021</u>	
	<u>Class A</u>	<u>Class B</u>
Basic and diluted net loss per share:		
Numerator:		
Net loss	<u>\$ (729,596)</u>	<u>\$ (282,549)</u>
Denominator:		
Basic and diluted weighted average shares outstanding	<u>10,576,596</u>	<u>4,095,984</u>

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under FASB ASC Topic 820, *Fair Value Measurement* ("ASC 820"), approximates the carrying amounts represented in the accompanying balance sheet, primarily due to their short-term nature.

The Company applies ASC 820, which establishes a framework for measuring fair value and clarifies the definition of fair value within that framework. ASC 820 defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Company's principal or most advantageous market in an orderly transaction between market participants on the measurement date. The fair value hierarchy established in ASC 820 generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions that market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The carrying amounts reflected in the balance sheet for cash, prepaid expenses and other current assets, due to a related party, and accrued expenses approximate fair value due to their short-term nature.

Level 1 — Assets and liabilities with unadjusted, quoted prices listed on active market exchanges. Inputs to the fair value measurement are observable inputs, such as quoted prices in active markets for identical assets or liabilities.

Level 2 — Inputs to the fair value measurement are determined using prices for recently traded assets and liabilities with similar underlying terms, as well as direct or indirect observable inputs, such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 — Inputs to the fair value measurement are unobservable inputs, such as estimates, assumptions, and valuation techniques when little or no market data exists for the assets or liabilities.

The following table presents information about the Company's financial assets that are measured at fair value on a recurring basis as of December 31, 2021, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

Description	Amount at Fair Value	Level 1	Level 2	Level 3
December 31, 2021				
Assets				
Investments held in Trust Account:				
Money Market investments	\$171,811,812	\$171,811,812	\$ —	\$ —

The Company utilized a Modified Black-Scholes simulation model to value the over-allotment option at initial measurement, upon partial exercise of the over-allotment option, and each reporting period, with changes in fair value recognized in the statement of operations. The estimated fair value of the over-allotment options are determined using Level 3 inputs. Inherent in a binomial options pricing model are assumptions related to expected share-price volatility, expected life, risk-free interest rate and dividend yield. The Company estimates the volatility of its ordinary shares based on historical volatility that matches the expected remaining life of the over-allotment option. The risk-free interest rate is based on the U.S. Treasury zero-coupon yield curve on the grant date for a maturity similar to the expected remaining life of the over-allotment option. The expected life of the over-allotment option is assumed to be equivalent to their remaining contractual term. The dividend rate is based on the historical rate, which the Company anticipates to remain at zero.

The following table provides the significant inputs to the Black-Scholes simulation for the fair value of the over-allotment option:

	At June 11, 2021 (Initial Measurement)	At June 16, 2021 (Partial Exercise)	At June 30, 2021
Stock price	\$10.00	\$ 9.95	\$ 9.98
Exercise price	\$10.00	\$10.00	\$ 10
Dividend yield	—%	—%	—%
Expected term (in years)	0.12	0.11	0.07
Volatility	3.80%	3.89%	3.50%
Risk-free rate	0.01%	0.04%	0.05%
Fair value of over-allotment options	\$ 0.05	\$ 0.03	\$ 0.03

Recent Accounting Standards

In August 2020, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40) (“ASU 2020-06”) to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2023 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. The Company is currently assessing the impact, if any, that ASU 2020-06 would have on its financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company’s financial statements.

NOTE 3. INITIAL PUBLIC OFFERING

Pursuant to the Initial Public Offering, the Company sold 16,680,000 Public Shares, which includes the partial exercise by the underwriters of their over-allotment option in the amount of 1,680,000, at \$10.00 per Public Share, generating gross proceeds of \$166,800,000.

NOTE 4. PRIVATE PLACEMENT

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 1,090,000 Private Placement Shares at a price of \$10.00 per Private Placement Share, generating gross proceeds of \$10,900,000. On June 16, 2021, the underwriters notified the Company of their intention to exercise the over-allotment option in part, resulting in the Sponsor paying an aggregate of \$1,008,000 in exchange for 100,800 Over-Allotment Private Placement Shares.

The proceeds from the sale of the Private Placement Shares and Over-Allotment Private Placement Shares were added to the net proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Shares and Over-Allotment Private Placement Shares will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Shares and Over-Allotment Private Placement Shares will expire worthless.

NOTE 5. RELATED PARTY TRANSACTIONS***Founder Shares***

On February 3, 2021, the Sponsor paid \$25,000 to cover certain offering costs of the Company in consideration for 5,031,250 shares of Class B common stock (the “Founder Shares”). The Founder Shares include an aggregate of up to 562,500 shares subject to forfeiture to the extent that the underwriter’s over-allotment is not exercised in full or in part, so that the Sponsor will own 20% of the Company’s issued and outstanding shares upon the completion of the Initial Public Offering. On June 8, 2021, the Sponsor surrendered 718,750 Founder Shares for no consideration. On June 16, 2021, the underwriters partially exercised the over-allotment option to purchase an additional 1,680,000 shares (see Note 6). On July 26, 2021, 142,500 Founder Shares were forfeited upon the expiration of the underwriters’ over-allotment option, resulting in an aggregate of 4,170,000 Founder Shares outstanding.

The Sponsor has agreed that, subject to certain limited exceptions, the Founder Shares will not be transferred, assigned, sold or released from escrow until the earlier of (a) one year after the completion of a Business Combination or (b) the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction after a Business Combination that results in all of the Company’s stockholders having the right to exchange their Class A common stock for cash, securities or other property.

Notwithstanding the foregoing, if (i) the closing price of the Company's Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Business Combination or (ii) if the Company consummates a transaction after the Business Combination which results in the Company's stockholders having the right to exchange their shares for cash, securities or other property, the founder shares will be released from the lock-up.

Due to Related Parties

An affiliate of the Sponsor and the Sponsor have paid \$71,382 to cover certain operating costs and offering costs on behalf of the Company. A portion of the outstanding balance was paid on January 20, 2022 in the amount of \$11,382. As of December 31, 2021, the Company owed \$60,000 to the Sponsor and \$11,382 to an affiliate of the sponsor.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Sponsor makes any Working Capital Loans, such loans may be converted into shares of Class A common stock, at the price of \$10.00 per share at the option of the lender. If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds held in the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination is not completed, the Company may use a portion of the proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion, up to \$1,000,000 of such Working Capital Loans may be convertible into shares of Class A common stock at a price of \$10.00 per share. As of December 31, 2021, the Company does not have any outstanding related party loans.

Consulting Agreement

The Company entered into an agreement with a related party on January 26, 2021, to pay the related party a total of \$25,000 per month for research, financial analysis, due diligence, bookkeeping and other administrative services from formation through the completed business combination. For the period from January 22, 2021 (inception) through December 31, 2021, the Company incurred \$280,000 in fees for these services. As of December 31, 2021, \$25,000 related to this agreement is recorded in due to related parties on the balance sheet.

Administrative Support Agreement

The Company entered into an agreement, commencing on the effective date of the Initial Public Offering, to pay the Sponsor a total of \$10,000 per month for office space, administrative and support services. Upon the completion of the Business Combination or the Company's liquidation, the Company will cease paying these monthly fees. For the period from January 22, 2021 (inception) through December 31, 2021, the Company incurred \$67,333 in fees for these services. As of December 31, 2021, \$67,333 related to this agreement is recorded in due to related parties on the balance sheet.

NOTE 6. COMMITMENTS

Registration Rights Agreement

The holders of the Founder Shares and Private Placement Shares are entitled to registration rights, requiring the Company to register such securities for resale (in the case of the Founder Shares, only after conversion to shares of Class A common stock). The holders of the majority of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities.

In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of a Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act. The registration rights agreement does not contain liquidating damages or other cash settlement provisions resulting from delays in registering the Company’s securities. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The Company granted the underwriter a 45-day option to purchase up to 2,250,000 additional shares of Class A common stock to cover over-allotments at the Initial Public Offering price, less the underwriting discounts and commissions. On June 16, 2021, the Underwriters partially exercised the over-allotment option and purchased an additional 1,680,000 Over-Allotment Shares for an aggregate purchase price of \$16,800,000. The remaining 570,000 shares were not exercised by the underwriter and expired on July 26, 2021.

The underwriter was paid a cash underwriting fee of \$0.20 per share, or \$3,336,000 in the aggregate. In addition, \$0.35 per share, or \$5,838,000 in the aggregate will be payable to the underwriter for deferred underwriting commissions. The deferred fee will become payable to the underwriter from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

NOTE 7. STOCKHOLDER’S EQUITY

Preferred stock — The Company is authorized to issue up to 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. At December 31, 2021, there were no shares of preferred stock issued or outstanding.

Class A common stock — The Company is authorized to issue up to 100,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of the Class A common stock are entitled to one vote for each share. As of December 31, 2021, there were 17,870,800 shares of Class A common stock issued and 1,190,800 shares of Class A common stock outstanding, excluding 16,680,000 shares of Class A common stock subject to possible redemption.

Class B common stock — The Company is authorized to issue up to 10,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of Class B common stock are entitled to one vote for each share. On February 3, 2021, the Company issued an aggregate of 5,031,250 shares of Class B common stock to the Sponsor. On June 8, 2021, the Sponsor surrendered 718,750 shares of Class B common stock for no consideration. On July 26, 2021, the Sponsor forfeited an additional 142,500 of Class B common stock for no consideration, resulting in an aggregate of 4,170,000 shares of Class B common stock outstanding. Shares and associated amounts have been retroactively restated to reflect the share surrender.

Holders of Class A common stock and Class B common stock will vote together as a single class on all other matters submitted to a vote of shareholders except as required by law. Prior to a Business Combination, holders of Class B common stock will have the right to elect all of the Company’s directors and may remove members of the board of directors for any reason, and holders of the Class A common stock will not be entitled to vote on the appointment of directors during such time.

The Founder Shares are identical to the shares of Class A common stock sold in the Initial Public Offering, and holders of Founder Shares have the same stockholder rights as public stockholders, except that (i) the Founder Shares are subject to certain transfer restrictions, (ii) the Sponsor, officers and directors have entered into a letter agreement with the Company, pursuant to which they have agreed (A) to waive their redemption rights with respect to any Founder Shares and any Public Shares held by them in connection with the completion of an initial Business Combination, (B) to waive their redemption rights with respect to their Founder Shares and Public Shares in connection with a stockholder vote to approve an amendment to the Amended and Restated Certificate of Incorporation (x) to modify the substance or timing of the

ability of holders of the Public Shares to seek redemption in connection with an initial Business Combination or the obligation to redeem 100% of the Public Shares if the Company does not complete an initial Business Combination within 24 months from the closing of the Initial Public Offering or (y) with respect to any other provision relating to stockholders' rights or pre-initial Business Combination activity and (C) to waive their rights to liquidating distributions from the Trust Account with respect to any Founder Shares held by them if the Company fails to complete an initial Business Combination within 24 months from the closing of the Initial Public Offering, although they will be entitled to liquidating distributions from the Trust Account with respect to any Public Shares they hold if the Company fails to complete an initial Business Combination within such time period, (iii) they are entitled to registration rights, and (iv) the anchor investors have agreed to waive their right to liquidating distributions from the Trust Account with respect to any Founder Shares held by them if the Company fails to complete an initial Business Combination within the prescribed time frame, although they will be entitled to liquidating distributions from the Trust Account with respect to any Public Shares they hold if the Company fails to complete an initial Business Combination within the prescribed time frame. If the Company submits an initial Business Combination to the public stockholders for a vote, the Sponsor, officers and directors have agreed pursuant to the letter agreement to vote any Founder Shares held by them and any Public Shares purchased during or after the Initial Public Offering (including in open market and privately negotiated transactions) in favor of an initial Business Combination. Permitted transferees of the Founder Shares held by the Sponsor, officers and directors would be subject to the same restrictions applicable to the Sponsor, officers or directors, respectively.

The Founder Shares will automatically convert into shares of common stock concurrently with or immediately following the consummation of an initial Business Combination on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of common stock or equity-linked securities are issued or deemed issued in connection with an initial Business Combination, the number of shares of common stock issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the total number of shares of common stock outstanding after such conversion (after giving effect to any redemptions of shares of common stock by public stockholders), including the total number of shares of common stock issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of an initial Business Combination, excluding any shares of common stock or equity-linked securities or rights exercisable for or convertible into shares of common stock issued, or to be issued, to any seller in an initial Business Combination.

With certain limited exceptions, the Founder Shares are not transferable, assignable or salable (except to the officers and directors and other persons or entities affiliated with or related to the Sponsor, each of whom will be subject to the same transfer restrictions) until the earlier of (A) one year after the completion of an initial Business Combination or (B) subsequent to an initial Business Combination, (x) if the last reported sale price of the Company's common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30- trading day period commencing at least 150 days after an initial Business Combination, or (y) the date on which the Company completes a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of the stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Until the earlier of (i) the consummation of a Business Combination or (ii) the liquidation of the Company, the Company shall distribute quarterly on a pro-rata basis to the holders of record of the Public Shares within fifteen (15) days from the end of the prior quarter, a dividend in the amount of \$0.05 per Public Share out of amount contained in the Trust Account. In addition, at the closing of a Business Combination, holders of Public Shares that have elected to not exercise their Redemption Rights in connection with such Business Combination shall receive a dividend in the amount of \$0.05 per Public Share.

NOTE 8. INCOME TAX

For the period from January 22, 2021 (inception) through December 31, 2021 the income tax provision consists of the following:

Federal	
Current	\$ —
Deferred	(225,569)
State	
Current	\$ —
Deferred	—
Change in valuation allowance	225,569
Income tax provision	<u>\$ —</u>

For the period from January 22, 2021 (inception) through December 31, 2021 a reconciliation of the statutory federal income tax rate to the Company's effective tax rate is as follows:

Statutory federal income tax rate	21.0%
State taxes, net of federal tax benefit	0.0%
Other	0.0%
Change in fair value of over-allotment option	1.3%
Change in valuation allowance	<u>(22.3)%</u>
Income tax provision	<u>0.0%</u>

The Company's effective tax rates for the period presented differ from the expected (statutory) rates due to the recording of full valuation allowances on deferred tax assets and permanent differences.

The Company files income tax returns in the U.S. federal jurisdiction which remain open and subject to examination.

The Company's net deferred tax assets (liabilities) as of December 31, 2021 is as follows:

Deferred tax assets:	
Start-up costs	\$ 187,741
Net operating loss carryforwards	<u>37,828</u>
Total deferred tax assets	225,569
Valuation allowance	<u>(225,569)</u>
Deferred tax assets, net of allowance	<u>\$ —</u>

As of December 31, 2021, the Company has available U.S. federal operating loss carry forwards of \$180,133 that may be carried forward indefinitely.

In assessing the realization of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences representing future deductible amounts become deductible. Management considers the scheduled reversal of deferred tax assets, projected future taxable income and tax planning strategies in making this assessment. After consideration of all the information available, management believes that significant uncertainty exists with respect to future realization of the deferred tax assets and has therefore established a full valuation allowance. For the period ended December 31, 2021, the change in the valuation allowance was \$225,569.

NOTE 9. SUBSEQUENT EVENTS

On December 30, 2021, the Company entered into an arrangement with Morgan Stanley & Co. LLC (“Morgan Stanley”) in which the Company retains Morgan Stanley to provide financial advisory services in connection with the potential business combination. On January 4, 2022, the Company entered into a letter agreement with BTIG, LLC (“BTIG”) in which the company retains BTIG to provide strategic and capital markets advisory services. As compensation for such services, the Company is to pay BTIG an advisory fee of \$2,000,000 which becomes payable upon the consummation of the business combination. However, the fee will not be paid if BTIG receives a fee in connection with its role as a lead placement agent to Hypebeast in a private placement in connection with the business combination. In addition, the Company will reimburse all of BTIG’s reasonable out-of-pocket costs and expenses incurred in connection with its activities up to \$25,000.

On January 14, 2022, the Company paid a cash dividend to the holders of record of the Public Shares as of January 7, 2022 in the amount of \$0.05 per Public Share out of its Trust Account. The Company is obligated to make such dividend payments to holders of Public Shares on a quarterly basis until the earlier of (i) the consummation of a Business Combination or (ii) the liquidation of the Company. The next dividend shall be paid to holders of Public Shares in April 2022.

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statements were issued. Based upon this review, the Company did not identify any other subsequent events that would have required adjustment or disclosure in the financial statements.

As of Closing, the obligations of the SPAC to dissolve or liquidate pursuant to the SPAC Charter shall terminate and the SPAC shall have no obligation whatsoever pursuant to the SPAC Charter to dissolve and liquidate the assets of the SPAC by reason of the consummation of the Transactions. (ii) each party shall, and shall cause each of its Subsidiaries and Controlled entities to, make their respective directors, officers and employees, upon reasonable advance notice, available at a reasonable time and location to the Company, SPAC and their respective Representatives in connection with the preparation of the Transaction Filings;

(iii) each party shall, as promptly as reasonably practicable, correct any information provided by it for use in the relevant Transaction Filings (and other related materials) if and to the extent that such information is determined to have become false or misleading in any material respect or as otherwise required by applicable Laws;

(iv) to the extent not prohibited by applicable Law, the Company, on the one hand, and SPAC, on the other hand, shall provide the other party and its counsel with (1) any comments or other communications, whether written or oral, that SPAC or its counsel or the Company or its counsel, as the case may be, may receive from time to time from the SEC, HKSE or their respective staffs with respect to the Registration Statement, the Proxy Statement or any other Transaction Filings promptly after receipt of those comments or other communications and (2) a reasonable opportunity to participate in the response of the Company or SPAC, as applicable, to those comments and to provide comments on that response (to which reasonable and good faith consideration shall be given), including, to the extent reasonably practicable, by participating with SPAC or its counsel or the Company or its counsel, as the case may be, in any discussions or meetings with the SEC and/or HKSE; and

(v) for the avoidance of doubt, each of the Company and SPAC shall cooperate and provide the other party (and its counsel) with a reasonable opportunity to review and agree upon (such agreement not to be unreasonably withheld, conditioned or delayed) the Registration Statement and any other Transaction Filings (including any amendment or supplement thereto) before the same is filed with and/or submitted to the SEC and/or HKSE.

(d) As soon as practicable following the Registration Statement (x) “clearing” comments from the SEC and the HKSE and (y) being declared effective by the SEC after it is approved by the HKSE, SPAC shall (except as otherwise agreed in writing by the parties hereto) (i) within ten (10) Business Days of such clearance, effectiveness and approval, distribute the Proxy Statement to the SPAC Stockholders, (ii) pursuant to the Proxy Statement, call the SPAC Special Meeting in accordance with Delaware Law for a date no later than thirty (30) days following the effectiveness of the Registration Statement and (iii) not adjourn the SPAC Special Meeting without the prior written consent of the Company;

provided, however, that SPAC shall adjourn the SPAC Special Meeting (1) if, as of the time that the SPAC Special Meeting is originally scheduled, there are insufficient SPAC Shares represented at such meeting (either in person or by proxy) to constitute a quorum necessary to conduct the business of the SPAC Special Meeting, (2) if, as of the time that the SPAC Special Meeting is originally scheduled, adjournment of the SPAC Special Meeting is necessary to enable the SPAC to solicit additional proxies required to obtain the Required SPAC Stockholder Approval, or (3) to comply with applicable Law; provided further, that for both prior clauses (1) and (2), SPAC shall not adjourn or postpone on more than two (2) occasions and the date of the SPAC Special Meeting is not adjourned or postponed more than an aggregate of thirty (30) consecutive days.

(e) Prior to the Closing, the Company shall prepare and use commercially reasonable efforts to cause the Depository Bank to file with the SEC a registration statement on Form F-6 relating to the registration under the Securities Act for the issuance of the Company Shares (the "Form F-6").

7.4 SPAC Change of Recommendation.

(a) Notwithstanding anything in this Agreement to the contrary, if, at any time prior to obtaining the Required SPAC Stockholder Approval, the SPAC Board determines in good faith, after consultation with its outside legal counsel and financial advisor, that in response to a SPAC Intervening Event, to make a SPAC Change of Recommendation is necessary for the SPAC Board to comply with its fiduciary duties under applicable Law, the SPAC Board may, prior to obtaining the Required SPAC Stockholder Approval, make a SPAC Change of Recommendation; provided, however, that SPAC shall not be entitled to make, or agree or resolve to make, a SPAC Change of Recommendation unless (i) SPAC delivers to the Company a written notice (a "SPAC Intervening Event Notice") advising the Company that the SPAC Board proposes to take such action and containing the material facts underlying the SPAC Board's determination that a SPAC Intervening Event has occurred and that to make a SPAC Change of Recommendation is necessary for the SPAC Board to comply with its fiduciary duties under applicable Law and (ii) at or after 5:00 p.m., New York time, on the fourth (4th) Business Day immediately following the day on which SPAC delivered the SPAC Intervening Event Notice (such period from the time the SPAC Intervening Event Notice is provided until 5:00 p.m., New York time, on the fourth (4th) Business Day immediately following the day on which SPAC delivered the SPAC Intervening Event Notice (it being understood that any material development with respect to a SPAC Intervening Event shall require a new notice but with an additional three (3) Business Day (instead of four (4) Business Day) period from the date of such notice), the "SPAC Intervening Event Notice Period"), the SPAC Board reaffirms in good faith (after consultation with its outside legal counsel and financial advisor) that to make a SPAC Change of Recommendation is necessary for the SPAC Board to comply with its fiduciary duties under applicable Law. If requested by the Company, SPAC shall, and shall use its reasonable best efforts to cause its Representatives to, during the SPAC Intervening Event Notice Period, engage in good faith negotiations with the Company and its Representatives to make such adjustments in the terms and conditions of this Agreement so that to make a SPAC Change of Recommendation is not necessary for SPAC Board to comply with the SPAC Board's fiduciary duties under applicable Law.

(b) SPAC agrees that, unless this Agreement is terminated in accordance with Article X, its obligation to establish a record date for, duly call, give notice of, convene and hold the SPAC Special Meeting for the purpose of obtaining the approval from the SPAC Stockholders shall not be affected by any SPAC Change of Recommendation, and SPAC agrees to establish a record date for, duly call, give notice of, convene and hold the SPAC Special Meeting and submit for the approval of its stockholders the matters contemplated by the Proxy Statement (including the SPAC Stockholder Approval Matters), regardless of whether or not there shall be any SPAC Change of Recommendation. For the avoidance of doubt, a SPAC Change of Recommendation will not limit or otherwise affect the agreements and covenants set forth in the Sponsor Support Agreement.

7.5 Permitted Equity Financing. During the Interim Period and subject to compliance with the Listing Rules and the Company Charter, the Company may enter into one or more Permitted Equity Subscription Agreements that would constitute a Permitted Equity Financing; provided that unless otherwise agreed by SPAC and the Company in writing, (i) each Permitted Equity Subscription Agreement shall be in substantially the same form as the PIPE Subscription Agreements, (ii) no such Permitted Equity Subscription Agreement shall provide for a purchase price per Company Share of less than US\$10 (including

any discounts, rebates, equity kickers or promote), and (iii) no such Permitted Equity Subscription Agreement shall provide for the issuance of any Equity Securities of the Company other than the Company Shares.

7.6 Available Funding; Company Capitalization Matters.

(a) Concurrently with the Closing, each party will use its commercially reasonable efforts to procure that (i) the PIPE Transaction (including the Permitted Equity Financing, if any) is consummated pursuant to the terms and conditions of the PIPE Subscription Agreements and the Permitted Equity Subscription Agreements and (ii) holders of the SPAC Shares do not elect to exercise their SPAC Stockholder Redemption Rights as provided for in the SPAC Charter and the Prospectus, such that the condition precedent to Closing under Section 8.3(f), shall be satisfied.

(b) Without limiting Section 7.6(a), above, the SPAC and the Company shall use their commercially reasonable efforts to take, or cause to be taken, all actions and to do, or cause to be done, all things necessary, proper or advisable to arrange and consummate the PIPE Transaction (including the Permitted Equity Financing, if any) on the terms set forth in the PIPE Subscription Agreements and the Permitted Equity Subscription Agreements, as applicable, including using the SPAC's and the Company's commercially reasonable efforts to (i) maintain in full force and effect the PIPE Subscription Agreements and the Permitted Equity Subscription Agreements in accordance with their respective terms, (ii) satisfy on a timely basis all conditions precedent to the closing of PIPE Transaction and the Permitted Equity Financing set forth in the respective PIPE Subscription Agreements and Permitted Subscription Agreements that are applicable to the Company or any of its Subsidiaries and within the control of the Company or any of its Subsidiaries, and to consummate the PIPE Transaction and the Permitted Equity Financing concurrently with the Closing, (iii) comply on a timely basis with the Company's obligations under the PIPE Subscription Agreements and the Permitted Subscription Agreements, and (iv) enforce SPAC's and the Company's rights under the PIPE Subscription Agreements and the Permitted Subscription Agreements. The Company shall provide the SPAC with copies of all the PIPE Subscription Agreements (including the Permitted Subscription Agreements, if any) and shall give the SPAC prompt written notice upon becoming aware of (A) any breach or default (or any event or circumstance which, with or without notice, lapse of time or both, could reasonably be expected to give rise to any breach or default) by any party to any of the PIPE Subscription Agreements and Permitted Subscription Agreements known to the Company, (B) any actual or potential failure to carry out any of the terms of any of the PIPE Subscription Agreements and the Permitted Subscription Agreements, (C) any actual or, to the Knowledge of the Company, threatened termination or repudiation of any of the PIPE Subscription Agreements and the Permitted Subscription Agreements by any party thereto, or (D) any material dispute or disagreement between or among any of the parties to any of the PIPE Subscription Agreements and the Permitted Subscription Agreements known to the Company or (E) the occurrence of an event or development that the Company reasonably expects to have a material and adverse impact on the ability of the Company to consummate all or any portion of the PIPE Transaction and the Permitted Equity Financing. Without the prior written consent of the SPAC, the Company shall not permit any material amendment or modification to be made to, or any waiver of any material provision or remedy under, any of the PIPE Subscription Agreements or Permitted Subscription Agreements (including, without limitation, any amendment, modification or waiver that (v) adversely affects the availability of all or any portion of the PIPE Transaction and the Permitted Equity Financing, (w) adversely affects the termination provisions of, or would result in the termination of, any of the PIPE Subscription Agreements or Permitted Subscription Agreements, (x) reduces the aggregate amount of the PIPE Transaction and the Permitted Equity Financing, (y) imposes additional conditions precedent to the availability of the PIPE Transaction and the Permitted Equity Financing or amends or modifies any of the existing conditions to the funding of the PIPE Transaction and the Permitted Equity Financing, or (z) adversely impacts the ability of the SPAC or the Company to enforce its rights against any PIPE Investors or any investors in the Permitted Equity Financing under any of the PIPE Subscription Agreements or Permitted Subscription Agreements), or release or consent to the termination of the obligations of any PIPE Investor or any investors in the Permitted Equity Financing under any of the PIPE Subscription Agreements or Permitted Subscription Agreements known to the Company.

- (a) by mutual written consent of the Company and the SPAC;
- (b) by written notice from the Company or the SPAC to the other if any Authority shall have enacted, issued, promulgated, enforced or entered any Order which has become final and non-appealable and has the effect of making consummation of the Transactions illegal or otherwise preventing or prohibiting consummation of the Transactions;

11.2 Amendments; No Waivers; Remedies.

(a) This Agreement cannot be amended, except by a writing signed by each of the SPAC and the Company, and cannot be terminated orally or by course of conduct. No provision hereof can be waived, except by a writing signed by the party against whom such waiver is to be enforced, and any such waiver shall apply only in the particular instance in which such waiver shall have been given.

(b) Neither any failure or delay in exercising any right or remedy hereunder or in requiring satisfaction of any condition herein nor any course of dealing shall constitute a waiver of or prevent any party from enforcing any right or remedy or from requiring satisfaction of any condition. No notice to or demand on a party waives or otherwise affects any obligation of that party or impairs any right of the party giving such notice or making such demand, including any right to take any action without notice or demand not otherwise required by this Agreement. No exercise of any right or remedy with respect to a breach of this Agreement shall preclude exercise of any other right or remedy, as appropriate to make the aggrieved party whole with respect to such breach, or subsequent exercise of any right or remedy with respect to any other breach.

(c) Except as otherwise expressly provided herein, no statement herein of any right or remedy shall impair any other right or remedy stated herein or that otherwise may be available.

(d) Notwithstanding anything else contained herein, neither shall any party seek, nor shall any party be liable for, punitive or exemplary damages, under any tort, contract, equity, or other legal theory, with respect to any breach (or alleged breach) of this Agreement or any provision hereof or any matter otherwise relating hereto or arising in connection herewith.

11.3 Arm's Length Bargaining; No Presumption Against Drafter. This Agreement has been negotiated at arm's-length by parties of equal bargaining strength, each represented by counsel or having had but declined the opportunity to be represented by counsel and having participated in the drafting of this Agreement. This Agreement creates no fiduciary or other special relationship between or among the parties, and no such relationship otherwise exists. No presumption in favor of or against any party in the construction or interpretation of this Agreement or any provision hereof shall be made based upon which Person might have drafted this Agreement or such provision.

11.4 Publicity. Except as required by Law (including the Listing Rules) and except with respect to the SPAC SEC Documents, the Company HKSE Filings (including the Required Company Shareholder Communications), the parties agree that neither they nor their agents shall issue any press release or make any other public disclosure concerning the transactions contemplated hereunder without the prior approval of the other party hereto. If a party is required to make such a disclosure as required by Law (including the Listing Rules), the parties will use their commercially reasonable efforts to cause a mutually agreeable release or public disclosure to be issued.

11.5 Expenses. Each party shall bear its own costs and expenses in connection with this Agreement and the transactions contemplated hereby, unless otherwise specified herein. Notwithstanding the foregoing,

(a) any filing fees with respect to any regulatory or governmental filings shall be shared equally by the Company and the SPAC; (b) in the event that this Agreement is terminated pursuant to Section 10.1(a), Section 10.1(d) or Section 10.1(e), the SPAC shall pay or reimburse or shall cause to be paid or reimbursed the Company for all fees and expenses incurred by the Company in connection with the preparation and delivery of the PCAOB Financial Statements; and (c) in no event shall any SPAC Stockholder be entitled in its capacity as a stockholder of SPAC to reimbursement or repayment of any costs or expenses incurred in respect of the transactions contemplated by this Agreement or any Additional Agreement.

11.6 No Assignment or Delegation. No party may assign any right or delegate any obligation hereunder, including by merger, consolidation, operation of law, or otherwise, without the written consent of the other party. Any purported assignment or delegation without such consent shall be void, in addition to constituting a material breach of this Agreement.

11.7 Non-Survival of Representations, Warranties and Covenants. Except for those covenants and agreements contained in this Agreement that by their terms expressly apply in whole or in part after the Closing, and then only with respect to any breaches occurring after the Closing or as otherwise contemplated by Section 10.2 (Effect of Termination), the representations, warranties, covenants, obligations or other agreements in this Agreement or in any certificate (including any confirmations therein), statement or instrument delivered pursuant to this Agreement, including any rights arising out of any breach of such representations, warranties, covenants, obligations, agreements and other provisions, shall not survive the Closing and shall terminate and expire upon the occurrence of the Closing (and there shall be no liability after the Closing in respect thereof).

11.8 Counterparts; Facsimile Signatures. This Agreement may be executed in counterparts, each of which shall constitute an original, but all of which shall constitute one agreement. This Agreement shall become effective upon delivery to each party of an executed counterpart or the earlier delivery to each party of original, photocopied, or electronically transmitted signature pages (including by email or in .pdf format) that together (but need not individually) bear the signatures of all other parties.

11.9 Entire Agreement. This Agreement together with the Additional Agreements and the NDA, including any exhibits and schedules attached hereto or thereto, sets forth the entire agreement of the parties with respect to the subject matter hereof and thereof and supersedes all prior and contemporaneous understandings and agreements related thereto (whether written or oral), including the LOI, all of which are merged herein. No provision of this Agreement or any Additional Agreement, including any exhibits and schedules attached hereto or thereto, may be explained or qualified by any agreement, negotiations, understanding, discussion, conduct or course of conduct or by any trade usage. Except as otherwise expressly stated herein or any Additional Agreement, there is no condition precedent to the effectiveness of any provision hereof or thereof. No party has relied on any representation from, or warranty or agreement of, any person in entering into this Agreement, prior hereto or contemporaneous herewith or any Additional Agreement, except those expressly stated herein or therein.

11.10 Severability. A determination by a court or other legal authority that any provision that is not of the essence of this Agreement is legally invalid shall not affect the validity or enforceability of any other provision hereof. The parties shall cooperate in good faith to substitute (or cause such court or other legal authority to substitute) for any provision so held to be invalid a valid provision, as alike in substance to such invalid provision as is lawful.

11.11 Construction of Certain Terms and References; Captions. In this Agreement and unless the context of this Agreement otherwise requires or unless otherwise specified:

(a) References to particular sections and subsections, schedules, and exhibits not otherwise specified are cross-references to sections and subsections, schedules, and exhibits of this Agreement.

(b) (i) The words “herein,” “hereof,” “hereunder,” and words of similar import refer to this Agreement as a whole and not to any particular provision of this Agreement; (ii) “party” means a party signatory hereto; (iii) any use of the singular or plural, or the masculine, feminine, or neuter gender, includes the others; “including” means “including without limitation;” (iv) “or” means “and/or;” (v) “any” means “any one, more than one, or all;” (vi) the word “extent” in the phrase “to the extent” means the degree to which a subject or thing extends and such phrase shall not simply mean “if;” (vii) the

word “will” shall be construed to have the same meaning as the word “shall”; (viii) each defined term used in this Agreement shall have a comparable meaning when used in its plural or singular form; (ix) references to “written” or “in writing” include in electronic form; (x) any financial or accounting term has the meaning of the term under IFRSs or HKFRSs (as applicable) as consistently applied heretofore by the Company Group throughout the respective periods involved; and (xi) a reference to any Person includes such Person’s predecessors, successors and permitted assigns.

(c) Any reference to any agreement (including this Agreement), instrument, or other document includes all schedules, exhibits, or other attachments referred to therein, and any reference to a statute or other law includes any rule, regulation, ordinance, or the like promulgated thereunder, in each case, as amended, restated, supplemented, or otherwise modified from time to time. Any reference to a numbered section in the relevant Disclosure Letter means the same-numbered section of such Disclosure Letter.

(d) If any action is required to be taken or notice is required to be given within a specified number of days following a specific date or event, the day of such date or event is not counted in determining the last day for such action or notice. If any action is required to be taken or notice is required to be given on or before a particular day which is not a Business Day, such action or notice shall be considered timely if it is taken or given on or before the next Business Day.

(e) Captions, headings and the table of contents contained in this Agreement are not a part of this Agreement, but are included for convenience only.

(f) Capitalized terms used in the Exhibits and the Disclosure Letter and not otherwise defined therein have the meanings given to them in this Agreement.

11.12 Further Assurances; Enforcement. Each party shall execute and deliver such documents and take such action, as may reasonably be considered within the scope of such party’s obligations hereunder, necessary to effectuate the transactions contemplated by this Agreement. Each party agree that irreparable damage would occur in the event that any of the provisions of this Agreement were not performed in accordance with their specific terms or were otherwise breached. It is accordingly agreed that the parties hereto shall be entitled to an injunction or injunctions to prevent breaches of this Agreement and to specific enforcement of the terms and provisions of this Agreement, in addition to any other remedy to which any party is entitled at law or in equity. In the event that any Action shall be brought in equity to enforce the provisions of this Agreement, no party shall allege, and each party hereby waives the defense, that there is an adequate remedy at law, and each party agrees to waiver any requirement for the securing or posting of any bond in connection therewith.

11.13 Third Party Beneficiaries. Neither this Agreement nor any provision hereof confers any benefit or right upon or may be enforced by any Person not a signatory hereto; provided that (a) the D&O Indemnified Persons (and their successors, heirs and Representatives) are intended third-party beneficiaries of, and may enforce, Section 6.9(a); and (b) each Company Counsel (and their respective successors, heirs and Representatives) is an intended third-party beneficiary of, and may enforce, Section 11.16 (Conflicts and Privilege).

11.14 Waiver. Reference is made to the final IPO prospectus of the SPAC, dated June 8, 2021 (the “Prospectus”). The Company has read the Prospectus and understand that the SPAC has established the Trust Account for the benefit of the public stockholders of the SPAC and the underwriters of the IPO pursuant to the Investment Management Trust Agreement and that, except for a portion of the interest earned on the amounts held in the Trust Account, the SPAC may disburse monies from the Trust Account only for the purposes set forth in the Investment Management Trust Agreement. For and in consideration of the SPAC agreeing to enter into this Agreement, the Company hereby agrees, notwithstanding any other provision of this Agreement or otherwise, that it does not have any right, title, interest or claim of any kind in or to any monies in the Trust Account and hereby agrees that it will not seek recourse against the Trust Account for any claim it may have in the future as a result of, or arising out of, any negotiations, Contracts or agreements with the SPAC.

11.15 Disclosure Letters. The Company Disclosure Letter and the SPAC Disclosure Letter (including, in each case, any section thereof) referenced herein are a part of this Agreement as if fully set

forth herein. All references herein to the Company Disclosure Letter or the SPAC Disclosure Letter (including, in each case, any section thereof) shall be deemed references to such parts of this Agreement, unless the context shall otherwise require. Any disclosure made by a party in the applicable Disclosure Letter, or any section thereof, with reference to any section of this Agreement or section of the applicable Disclosure Letter shall be deemed to be a disclosure with respect to such other applicable sections of this Agreement or sections of the applicable Disclosure Letter to which it is reasonably apparent on the face of such disclosure that such disclosure is responsive to such other section of this Agreement or section of the applicable Disclosure Letter. Certain information set forth in the Disclosure Letters is included solely for informational purposes and may not be required to be disclosed pursuant to this Agreement. The disclosure of any information shall not be deemed to constitute an acknowledgment that such information is required to be disclosed in connection with the representations and warranties made in this Agreement, nor shall such information be deemed to establish a standard of materiality or that the facts underlying such information constitute a Company Material Adverse Effect or a SPAC Material Adverse Effect, as applicable.

11.16 Conflicts and Privilege. The parties agree that, notwithstanding the fact that Kirkland & Ellis LLP (the "Company Counsel") may have, prior to the Closing, represented the Company and Merger Sub in connection with this Agreement, the Additional Agreements and the Transactions, and has also represented the Company, the Merger Sub and/or their respective Affiliates in connection with matters other than the transaction that is the subject of this Agreement, the Company Counsel will be permitted in the future, after the Closing, to represent the shareholders or holders of other equity interests of the Company on or prior to the Closing or any of their respective directors, members, partners, officers, employees or Affiliates (other than the Surviving Corporation) (each a "Designated Person") in connection with matters in which such Persons are adverse to the Surviving Corporation, including any disputes arising out of, or related to, this Agreement. The Company and the Merger Sub hereby agree, in advance, to waive (and to cause their respective Affiliates to waive) any actual or potential conflict of interest that may hereafter arise in connection with the Company Counsel's future representation of any Designated Person in which the interests of such Person are adverse to the interests of the Company and/or the Merger Sub or any of their respective Affiliates, including any matters that arise out of this Agreement or that are substantially related to this Agreement or to any prior representation by the Company Counsel of any Designated Person. The parties acknowledge and agree that, for the purposes of the attorney-client privilege, the Company and each other Designated Person shall be deemed the client of the Company Counsel with respect to the negotiation, execution and performance of this Agreement and the Additional Agreements. All such communications shall remain privileged after the Closing and the privilege and the expectation of client confidence relating thereto shall belong solely to the relevant Designated Person, shall be controlled by such Designated Person and shall not pass to or be claimed by the Surviving Corporation.

INFORMATION NOT REQUIRED IN THE PROSPECTUS

Item 20. Indemnification of Directors and Officers.

The laws of the Cayman Islands do not limit the extent to which a company's memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against willful default, willful neglect, civil fraud or the consequences of committing a crime.

The memorandum and articles of association of Hypebeast that will become effective immediately prior to the completion of Business Combination provide that we shall indemnify our directors and officers (each, an "indemnified person") to the maximum extent permitted by law against all actions, proceedings, costs, charges, expenses, losses, damages or liabilities incurred or sustained by such indemnified person, other than by reason of such person's willful default or fraud, in or about the conduct of our company's business or affairs (including as a result of any mistake of judgment) or in the execution or discharge of his/her duties, powers, authorities or discretions, including, without prejudice to the generality of the foregoing, any costs, expenses, losses or liabilities incurred by such indemnified person in defending (whether successfully or otherwise) any civil proceedings concerning our company or its affairs in any court whether in the Cayman Islands or elsewhere.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is theretofore unenforceable.

Item 22. Undertakings

A. The undersigned registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.
 - (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.
- (2) That, for the purpose of determining any liability under the Securities Act of 1933, as amended, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- (4) To file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A of Form 20-F at the start of any delayed offering or throughout a continuous offering.
- (5) For purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

B. The undersigned registrant hereby undertakes:

- (1) that prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form.
- (2) that every prospectus: (i) that is filed pursuant to paragraph (1) immediately preceding, or (ii) that purports to meet the requirements of Section 10(a)(3) of the Act and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

- C. Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
- D. The undersigned registrant hereby undertakes (i) to respond to requests for information that is incorporated by reference into the prospectus pursuant to Items 4, 10(b), 11, or 13 of this Form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.
- E. The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, as amended, the registrant has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in Hong Kong, on May 5, 2022.

ALTERATION OF CAPITAL

4. The Company may from time to time by ordinary resolution in accordance with the Law alter the conditions of its Memorandum of Association to:
- (a) increase its capital by such sum, to be divided into shares of such amounts, as the resolution shall prescribe;
 - (b) consolidate and divide all or any of its capital into shares of larger amount than its existing shares;
 - (c) divide its shares into several classes and without prejudice to any special rights previously conferred on the holders of existing shares attach thereto respectively any preferential, deferred, qualified or special rights, privileges, conditions or such restrictions which in the absence of any such determination by the Company in general meeting, as the Directors may determine provided always that where the Company issues shares which do not carry voting rights, the words "non-voting" shall appear in the designation of such shares and where the equity capital includes shares with different voting rights, the designation of each class of shares, other than those with the most favourable voting rights, must include the words "restricted voting" or "limited voting"; App. 3 10(1) 10(2)

-

5. The Board may settle as it considers expedient any difficulty which arises in relation to any consolidation and division under the last preceding Article and in particular but without prejudice to the generality of the foregoing may issue certificates in respect of fractions of shares or arrange for the sale of the shares representing fractions and the distribution of the net proceeds of sale (after deduction of the expenses of such sale) in due proportion amongst the Members who would have been entitled to the fractions, and for this purpose the Board may authorise some person to transfer the shares representing fractions to their purchaser or resolve that such net proceeds be paid to the Company for the Company's benefit. Such purchaser will not be bound to see to the application of the purchase money nor will his title to the shares be affected by any irregularity or invalidity in the proceedings relating to the sale.

6. The Company may from time to time by special resolution, subject to any confirmation or consent required by the Law, reduce its share capital or any capital redemption reserve or other undistributable reserve in any manner permitted by law.

7. Except so far as otherwise provided by the conditions of issue, or by these Articles, any capital raised by the creation of new shares shall be treated as if it formed part of the original capital of the Company, and such shares shall be subject to the provisions contained in these Articles with reference to the payment of calls and instalments, transfer and transmission, forfeiture, lien, cancellation, surrender, voting and otherwise.

SHARE RIGHTS

8. (1) Subject to the provisions of the Law and the Company's Memorandum and Articles of Association and to any special rights conferred on the holders of any shares or class of shares, any share in the Company (whether forming part of the present capital or not) may be issued with or have attached thereto such rights or restrictions whether in regard to dividend, voting, return of capital or otherwise as the Board may determine. App. 3 6(1)

(2) Subject to the provisions of the Law, the rules of any Designated Stock Exchange and the Memorandum and Articles of Association of the Company, and to any special rights conferred on the holders of any shares or attaching to any class of shares, shares may be issued on the terms that they may be, or at the option of the Company or the holder are, liable to be redeemed on such terms and in such manner, including out of capital, as the Board may deem fit.

9. Where the Company purchases for redemption a redeemable share, purchases not made through the market or by tender shall be limited to a maximum price as may from time to time be determined by the Company in general meeting, either generally or with regard to specific purchases. If purchases are by tender, tenders shall be available to all Members alike. App. 3 8(1) 8(2)

VARIATION OF RIGHTS

10. Subject to the Law and without prejudice to Article 8, all or any of the special rights for the time being attached to the shares or any class of shares may, unless otherwise provided by the terms of issue of the shares of that class, from time to time (whether or not the Company is being wound up) be varied, modified or abrogated either with the consent in writing of the holders of not less than three-fourths in nominal value of the issued shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares of that class. To every such separate general meeting all the provisions of these Articles relating to general meetings of the Company shall, *mutatis mutandis*, apply, but so that: App. 3 6(1) 11B 2(1)

- (a) the necessary quorum (other than at an adjourned meeting) shall be two persons (or in the case of a Member being a corporation, its duly authorized representative) holding or representing by proxy not less than one-third in nominal value of the issued shares of that class and at any adjourned meeting of such holders, two holders present in person or (in the case of a Member being a corporation) its duly authorized representative or by proxy (whatever the number of shares held by them) shall be a quorum; and App. 3 6(2)
- (b) every holder of shares of the class shall be entitled on a poll to one vote for every such share held by him.

11. The special rights conferred upon the holders of any shares or class of shares shall not, unless otherwise expressly provided in the rights attaching to or the terms of issue of such shares, be deemed to be varied, modified or abrogated by the creation or issue of further shares ranking *pari passu* therewith.

SHARES

12. (1) Subject to the Law, these Articles, any direction that may be given by the Company in general meeting and, where applicable, the rules of any Designated Stock Exchange and without prejudice to any special rights or restrictions for the time being attached to any shares or any class of shares, the unissued shares of the Company (whether forming part of the original or any increased capital) shall be at the disposal of the Board, which may offer, allot, grant options over or otherwise dispose of them to such persons, at such times and for such consideration and upon such terms and conditions as the Board may in its absolute discretion determine but so that no shares shall be issued at a discount. Neither the Company nor the Board shall be obliged, when making or granting any allotment of, offer of, option over or disposal of shares, to make, or make available, any such allotment, offer, option or shares to Members or others with registered addresses in any particular territory or territories being a territory or territories where, in the absence of a registration statement or other special formalities, this would or might, in the opinion of the Board, be unlawful or impracticable. Members affected as a result of the foregoing sentence shall not be, or be deemed to be, a separate class of members for any purpose whatsoever.

(2) The Board may issue warrants or convertible securities or securities of similar nature conferring the right upon the holders thereof to subscribe for any class of shares or securities in the capital of the Company on such terms as it may from time to time determine.

13. The Company may in connection with the issue of any shares exercise all powers of paying commission and brokerage conferred or permitted by the Law. Subject to the Law, the commission may be satisfied by the payment of cash or by the allotment of fully or partly paid shares or partly in one and partly in the other.

14. Except as required by law, no person shall be recognised by the Company as holding any share upon any trust and the Company shall not be bound by or required in any way to recognise (even when having notice thereof) any equitable, contingent, future or partial interest in any share or any fractional part of a share or (except only as otherwise provided by these Articles or by law) any other rights in respect of any share except an absolute right to the entirety thereof in the registered holder.

15. Subject to the Law and these Articles, the Board may at any time after the allotment of shares but before any person has been entered in the Register as the holder, recognise a renunciation thereof by the allottee in favour of some other person and may accord to any allottee of a share a right to effect such renunciation upon and subject to such terms and conditions as the Board considers fit to impose.

SHARE CERTIFICATES

16. Every share certificate shall be issued under the Seal or a facsimile thereof or with the Seal printed thereon and shall specify the number and class and distinguishing numbers (if any) of the shares to which it relates, and the amount paid up thereon and may otherwise be in such form as the Directors may from time to time determine. The seal of the Company may only be affixed to a share certificate with the authority of the Directors, or be executed under the signature of appropriate officials with statutory authority, unless otherwise determined by the Directors. No certificate shall be issued representing shares of more than one class. The Board may by resolution determine, either generally or in any particular case or cases, that any signatures on any such certificates (or certificates in respect of other securities) need not be autographic but may be affixed to such certificates by some mechanical means or may be printed thereon. App. 3 2(1)

17. (1) In the case of a share held jointly by several persons, the Company shall not be bound to issue more than one certificate therefor and delivery of a certificate to one of several joint holders shall be sufficient delivery to all such holders.

(2) Where a share stands in the names of two or more persons, the person first named in the Register shall as regards service of notices and, subject to the provisions of these Articles, all or any other matters connected with the Company, except the transfer of the shares, be deemed the sole holder thereof.

18. Every person whose name is entered, upon an allotment of shares, as a Member in the Register shall be entitled, without payment, to receive one certificate for all such shares of any one class or several certificates each for one or more of such shares of such class upon payment for every certificate after the first of such reasonable out-of-pocket expenses as the Board from time to time determines.

19. Share certificates shall be issued within the relevant time limit as prescribed by the Law or as the Designated Stock Exchange may from time to time determine, whichever is the shorter, after allotment or, except in the case of a transfer which the Company is for the time being entitled to refuse to register and does not register, after lodgment of a transfer with the Company.

20. (1) Upon every transfer of shares the certificate held by the transferor shall be given up to be cancelled, and shall forthwith be cancelled accordingly, and a new certificate shall be issued to the transferee in respect of the shares transferred to him at such fee as is provided in paragraph (2) of this Article. If any of the shares included in the certificate so given up shall be retained by the transferor a new certificate for the balance shall be issued to him at the aforesaid fee payable by the transferor to the Company in respect thereof.

(2) The fee referred to in paragraph (1) above shall be an amount not exceeding the relevant maximum amount as the Designated Stock Exchange may from time to time determine provided that the Board may at any time determine a lower amount for such fee.

21. If a share certificate shall be damaged or defaced or alleged to have been lost, stolen or destroyed a new certificate representing the same shares may be issued to the relevant Member upon request and on payment of such fee as the Designated Stock Exchange may determine to be the maximum fee payable or such lesser sum as the Board may determine and, subject to compliance with such terms (if any) as to evidence and indemnity and to payment of the costs and reasonable out-of-pocket expenses of the Company in investigating such evidence and preparing such indemnity as the Board may think fit and, in case of damage or defacement, on delivery of the old certificate to the Company provided always that where share warrants have been issued, no new share warrant shall be issued to replace one that has been lost unless the Directors are satisfied beyond reasonable doubt that the original has been destroyed. App. 3 2(2)

LIEN

22. The Company shall have a first and paramount lien on every share (not being a fully paid share) for all moneys (whether presently payable or not) called or payable at a fixed time in respect of that share. The Company shall also have a first and paramount lien on every share (not being a fully paid share) registered in the name of a Member (whether or not jointly with other Members) for all amounts of money presently payable by such Member or his estate to the Company whether the same shall have been incurred before or after notice to the Company of any equitable or other interest of any person other than such member, and whether the period for the payment or discharge of the same shall have actually arrived or not, and notwithstanding that the same are joint debts or liabilities of such Member or his estate and any other person, whether a Member or not. The Company's lien on a share shall extend to all dividends or other moneys payable thereon or in respect thereof. The Board may at any time, generally or in any particular case, waive any lien that has arisen or declare any share exempt in whole or in part, from the provisions of this Article. App. 3 1(2)

23. Subject to these Articles, the Company may sell in such manner as the Board determines any share on which the Company has a lien, but no sale shall be made unless some sum in respect of which the lien exists is presently payable, or the liability or engagement in respect of which such lien exists is liable to be presently fulfilled or discharged nor until the expiration of fourteen (14) clear days after a notice in writing, stating and demanding payment of the sum presently payable, or specifying the liability or engagement and demanding fulfilment or discharge thereof and giving notice of the intention to sell in default, has been served on the registered holder for the time being of the share or the person entitled thereto by reason of his death or bankruptcy.

24. The net proceeds of the sale shall be received by the Company and applied in or towards payment or discharge of the debt or liability in respect of which the lien exists, so far as the same is presently payable, and any residue shall (subject to a like lien for debts or liabilities not presently payable as existed upon the share prior to the sale) be paid to the person entitled to the share at the time of the sale. To give effect to any such sale the Board may authorise some person to transfer the shares sold to the purchaser thereof. The purchaser shall be registered as the holder of the shares so transferred and he shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings relating to the sale.

CALLS ON SHARES

25. Subject to these Articles and to the terms of allotment, the Board may from time to time make calls upon the Members in respect of any moneys unpaid on their shares (whether on account of the nominal value of the shares or by way of premium), and each Member shall (subject to being given at least fourteen (14) clear days' Notice specifying the time and place of payment) pay to the Company as required by such notice the amount called on his shares. A call may be extended, postponed or revoked in whole or in part as the Board determines but no Member shall be entitled to any such extension, postponement or revocation except as a matter of grace and favour.

26. A call shall be deemed to have been made at the time when the resolution of the Board authorising the call was passed and may be made payable either in one lump sum or by instalments.

27. A person upon whom a call is made shall remain liable for calls made upon him notwithstanding the subsequent transfer of the shares in respect of which the call was made. The joint holders of a share shall be jointly and severally liable to pay all calls and instalments due in respect thereof or other moneys due in respect thereof.

28. If a sum called in respect of a share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest on the amount unpaid from the day appointed for payment thereof to the time of actual payment at such rate (not exceeding twenty per cent. (20%) per annum) as the Board may determine, but the Board may in its absolute discretion waive payment of such interest wholly or in part.

29. No Member shall be entitled to receive any dividend or bonus or to be present and vote (save as proxy for another Member) at any general meeting either personally or by proxy, or be reckoned in a quorum, or exercise any other privilege as a Member until all calls or instalments due by him to the Company, whether alone or jointly with any other person, together with interest and expenses (if any) shall have been paid.

30. On the trial or hearing of any action or other proceedings for the recovery of any money due for any call, it shall be sufficient to prove that the name of the Member sued is entered in the Register as the holder, or one of the holders, of the shares in respect of which such debt accrued, that the resolution making the call is duly recorded in the minute book, and that notice of such call was duly given to the Member sued, in pursuance of these Articles; and it shall not be necessary to prove the appointment of the Directors who made such call, nor any other matters whatsoever, but the proof of the matters aforesaid shall be conclusive evidence of the debt.

31. Any amount payable in respect of a share upon allotment or at any fixed date, whether in respect of nominal value or premium or as an instalment of a call, shall be deemed to be a call duly made and payable on the date fixed for payment and if it is not paid the provisions of these Articles shall apply as if that amount had become due and payable by virtue of a call duly made and notified.

32. On the issue of shares the Board may differentiate between the allottees or holders as to the amount of calls to be paid and the times of payment.

33. The Board may, if it thinks fit, receive from any Member willing to advance the same, and either in money or money's worth, all or any part of the moneys uncalled and unpaid or instalments payable upon any shares held by him and upon all or any of the moneys so advanced (until the same would, but for such advance, become presently payable) pay interest at such rate (if any) as the Board may decide. The Board may at any time repay the amount so advanced upon giving to such Member not less than one (1) month's Notice of its intention in that behalf, unless before the expiration of such notice the amount so advanced shall have been called up on the shares in respect of which it was advanced. Such payment in advance shall not entitle the holder of such share or shares to participate in respect thereof in a dividend subsequently declared. App. 3 3(1)

FORFEITURE OF SHARES

34. (1) If a call remains unpaid after it has become due and payable the Board may give to the person from whom it is due not less than fourteen (14) clear days' Notice:
- (a) requiring payment of the amount unpaid together with any interest which may have accrued and which may still accrue up to the date of actual payment; and
 - (b) stating that if the Notice is not complied with the shares on which the call was made will be liable to be forfeited.
- (2) If the requirements of any such Notice are not complied with, any share in respect of which such Notice has been given may at any time thereafter, before payment of all calls and interest due in respect thereof has been made, be forfeited by a resolution of the Board to that effect, and such forfeiture shall include all dividends and bonuses declared in respect of the forfeited share but not actually paid before the forfeiture.
35. When any share has been forfeited, notice of the forfeiture shall be served upon the person who was before forfeiture the holder of the share. No forfeiture shall be invalidated by any omission or neglect to give such Notice.
36. The Board may accept the surrender of any share liable to be forfeited hereunder and, in such case, references in these Articles to forfeiture will include surrender.
-

37. Any share so forfeited shall be deemed the property of the Company and may be sold, re-allotted or otherwise disposed of to such person, upon such terms and in such manner as the Board determines, and at any time before a sale, re-allotment or disposition the forfeiture may be annulled by the Board on such terms as the Board determines.

38. A person whose shares have been forfeited shall cease to be a Member in respect of the forfeited shares but nevertheless shall remain liable to pay the Company all moneys which at the date of forfeiture were presently payable by him to the Company in respect of the shares, with (if the Directors shall in their discretion so require) interest thereon from the date of forfeiture until payment at such rate (not exceeding twenty per cent. (20%) per annum) as the Board determines. The Board may enforce payment thereof if it thinks fit, and without any deduction or allowance for the value of the forfeited shares, at the date of forfeiture, but his liability shall cease if and when the Company shall have received payment in full of all such moneys in respect of the shares. For the purposes of this Article any sum which, by the terms of issue of a share, is payable thereon at a fixed time which is subsequent to the date of forfeiture, whether on account of the nominal value of the share or by way of premium, shall notwithstanding that time has not yet arrived be deemed to be payable at the date of forfeiture, and the same shall become due and payable immediately upon the forfeiture, but interest thereon shall only be payable in respect of any period between the said fixed time and the date of actual payment.

39. A declaration by a Director or the Secretary that a share has been forfeited on a specified date shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share, and such declaration shall (subject to the execution of an instrument of transfer by the Company if necessary) constitute a good title to the share, and the person to whom the share is disposed of shall be registered as the holder of the share and shall not be bound to see to the application of the consideration (if any), nor shall his title to the share be affected by any irregularity in or invalidity of the proceedings in reference to the forfeiture, sale or disposal of the share. When any share shall have been forfeited, notice of the declaration shall be given to the Member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof, shall forthwith be made in the register, but no forfeiture shall be in any manner invalidated by any omission or neglect to give such notice or make any such entry.

40. Notwithstanding any such forfeiture as aforesaid the Board may at any time, before any shares so forfeited shall have been sold, re-allotted or otherwise disposed of, permit the shares forfeited to be bought back upon the terms of payment of all calls and interest due upon and expenses incurred in respect of the share, and upon such further terms (if any) as it thinks fit.

41. The forfeiture of a share shall not prejudice the right of the Company to any call already made or instalment payable thereon.

42. The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

REGISTER OF MEMBERS

43. (1) The Company shall keep in one or more books a Register of its Members and shall enter therein the following particulars, that is to say:

- (a) the name and address of each Member, the number and class of shares held by him and the amount paid or agreed to be considered as paid on such shares;
- (b) the date on which each person was entered in the Register; and
- (c) the date on which any person ceased to be a Member.

(2) The Company may keep an overseas or local or other branch register of Members resident in any place, and the Board may make and vary such regulations as it determines in respect of the keeping of any such register and maintaining a Registration Office in connection therewith.

44. The Register and branch register of Members, as the case may be, shall be open to inspection for at least two (2) hours during business hours by Members without charge or by any other person, upon a maximum payment of \$2.50 or such lesser sum specified by the Board, at the Office or such other place at which the Register is kept in accordance with the Law or, if appropriate, upon a maximum payment of \$1.00 or such lesser sum specified by the Board at the Registration Office. The Register including any overseas or local or other branch register of Members may, after notice has been given by advertisement in an appointed newspaper or any other newspapers in accordance with the requirements of any Designated Stock Exchange or by any electronic means in such manner as may be accepted by the Designated Stock Exchange to that effect, be closed at such times or for such periods not exceeding in the whole thirty (30) days in each year as the Board may determine and either generally or in respect of any class of shares.

RECORD DATES

45. Subject to the rules of any Designated Stock Exchange, notwithstanding any other provision of these Articles the Company or the Directors may fix any date as the record date for:

- (a) determining the Members entitled to receive any dividend, distribution, allotment or issue and such record date may be on, or at any time not more than thirty (30) days before or after, any date on which such dividend, distribution, allotment or issue is declared, paid or made;
- (b) determining the Members entitled to receive notice of and to vote at any general meeting of the Company.

TRANSFER OF SHARES

46. Subject to these Articles, any Member may transfer all or any of his shares by an instrument of transfer in the usual or common form or in a form prescribed by the Designated Stock Exchange or in any other form approved by the Board and may be under hand or, if the transferor or transferee is a clearing house or its nominee(s), by hand or by machine imprinted signature or by such other manner of execution as the Board may approve from time to time. App. 3 1(4)

47. The instrument of transfer shall be executed by or on behalf of the transferor and the transferee provided that the Board may dispense with the execution of the instrument of transfer by the transferee in any case which it thinks fit in its discretion to do so. Without prejudice to the last preceding Article, the Board may also resolve, either generally or in any particular case, upon request by either the transferor or transferee, to accept mechanically executed transfers. The transferor shall be deemed to remain the holder of the share until the name of the transferee is entered in the Register in respect thereof. Nothing in these Articles shall preclude the Board from recognising a renunciation of the allotment or provisional allotment of any share by the allottee in favour of some other person.

48. (1) The Board may, in its absolute discretion, and without giving any reason therefor, refuse to register a transfer of any share (not being a fully paid up share) to a person of whom it does not approve, or any share issued under any share incentive scheme for employees upon which a restriction on transfer imposed thereby still subsists, and it may also, without prejudice to the foregoing generality, refuse to register a transfer of any share to more than four (4) joint holders or a transfer of any share (not being a fully paid up share) on which the Company has a lien. App. 3 1(2) 1(3)

(2) No transfer shall be made to an infant or to a person of unsound mind or under other legal disability.

(3) The Board in so far as permitted by any applicable law may, in its absolute discretion, at any time and from time to time transfer any share upon the Register to any branch register or any share on any branch register to the Register or any other branch register. In the event of any such transfer, the shareholder requesting such transfer shall bear the cost of effecting the transfer unless the Board otherwise determines.

(4) Unless the Board otherwise agrees (which agreement may be on such terms and subject to such conditions as the Board in its absolute discretion may from time to time determine, and which agreement the Board shall, without giving any reason therefor, be entitled in its absolute discretion to give or withhold), no shares upon the Register shall be transferred to any branch register nor shall shares on any branch register be transferred to the Register or any other branch register and all transfers and other documents of title shall be lodged for registration, and registered, in the case of any shares on a branch register, at the relevant Registration Office, and, in the case of any shares on the Register, at the Office or such other place at which the Register is kept in accordance with the Law.

49. Without limiting the generality of the last preceding Article, the Board may decline to recognise any instrument of transfer unless:-

- (a) a fee of such maximum sum as the Designated Stock Exchange may determine to be payable or such lesser sum as the Board may from time to time require is paid to the Company in respect thereof; App. 3
1(1)
 - (b) the instrument of transfer is in respect of only one class of share;
 - (c) the instrument of transfer is lodged at the Office or such other place at which the Register is kept in accordance with the Law or the Registration Office (as the case may be) accompanied by the relevant share certificate(s) and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer (and, if the instrument of transfer is executed by some other person on his behalf, the authority of that person so to do); and
 - (d) if applicable, the instrument of transfer is duly and properly stamped.
-

50. If the Board refuses to register a transfer of any share, it shall, within two (2) months after the date on which the transfer was lodged with the Company, send to each of the transferor and transferee notice of the refusal.

51. The registration of transfers of shares or of any class of shares may, after notice has been given by advertisement in any newspapers or by any other means in accordance with the requirements of any Designated Stock Exchange to that effect be suspended at such times and for such periods (not exceeding in the whole thirty (30) days in any year) as the Board may determine.

TRANSMISSION OF SHARES

52. If a Member dies, the survivor or survivors where the deceased was a joint holder, and his legal personal representatives where he was a sole or only surviving holder, will be the only persons recognised by the Company as having any title to his interest in the shares; but nothing in this Article will release the estate of a deceased Member (whether sole or joint) from any liability in respect of any share which had been solely or jointly held by him.

53. Any person becoming entitled to a share in consequence of the death or bankruptcy or winding-up of a Member may, upon such evidence as to his title being produced as may be required by the Board, elect either to become the holder of the share or to have some person nominated by him registered as the transferee thereof. If he elects to become the holder he shall notify the Company in writing either at the Registration Office or Office, as the case may be, to that effect. If he elects to have another person registered he shall execute a transfer of the share in favour of that person. The provisions of these Articles relating to the transfer and registration of transfers of shares shall apply to such notice or transfer as aforesaid as if the death or bankruptcy of the Member had not occurred and the notice or transfer were a transfer signed by such Member.

54. A person becoming entitled to a share by reason of the death or bankruptcy or winding-up of a Member shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share. However, the Board may, if it thinks fit, withhold the payment of any dividend payable or other advantages in respect of such share until such person shall become the registered holder of the share or shall have effectually transferred such share, but, subject to the requirements of Article 72(2) being met, such a person may vote at meetings.

UNTRACEABLE MEMBERS

55. (1) Without prejudice to the rights of the Company under paragraph (2) of this Article, the Company may cease sending cheques for dividend entitlements or dividend warrants by post if such cheques or warrants have been left uncashed on two consecutive occasions. However, the Company may exercise the power to cease sending cheques for dividend entitlements or dividend warrants after the first occasion on which such a cheque or warrant is returned undelivered. App. 3
13(1)

(2) The Company shall have the power to sell, in such manner as the Board thinks fit, any shares of a Member who is untraceable, but no such sale shall be made unless: App. 3
13(2)(a)
13(2)(b)

- (a) all cheques or warrants in respect of dividends of the shares in question, being not less than three in total number, for any sum payable in cash to the holder of such shares in respect of them sent during the relevant period in the manner authorised by the Articles have remained uncashed;
- (b) so far as it is aware at the end of the relevant period, the Company has not at any time during the relevant period received any indication of the existence of the Member who is the holder of such shares or of a person entitled to such shares by death, bankruptcy or operation of law; and
- (c) the Company, if so required by the rules governing the listing of shares on the Designated Stock Exchange, has given notice to, and caused advertisement in newspapers in accordance with the requirements of, the Designated Stock Exchange to be made of its intention to sell such shares in the manner required by the Designated Stock Exchange, and a period of three (3) months or such shorter period as may be allowed by the Designated Stock Exchange has elapsed since the date of such advertisement.

For the purpose of the foregoing, the "relevant period" means the period commencing twelve (12) years before the date of publication of the advertisement referred to in paragraph (c) of this Article and ending at the expiry of the period referred to in that paragraph.

(3) To give effect to any such sale the Board may authorise some person to transfer the said shares and an instrument of transfer signed or otherwise executed by or on behalf of such person shall be as effective as if it had been executed by the registered holder or the person entitled by transmission to such shares, and the purchaser shall not be bound to see to the application of the purchase money nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings relating to the sale. The net proceeds of the sale will belong to the Company and upon receipt by the Company of such net proceeds it shall become indebted to the former Member for an amount equal to such net proceeds. No trust shall be created in respect of such debt and no interest shall be payable in respect of it and the Company shall not be required to account for any money earned from the net proceeds which may be employed in the business of the Company or as it thinks fit. Any sale under this Article shall be valid and effective notwithstanding that the Member holding the shares sold is dead, bankrupt or otherwise under any legal disability or incapacity.

GENERAL MEETINGS

56. An annual general meeting of the Company shall be held in each year other than the year of the Company's adoption of these Articles (within a period of not more than fifteen (15) months after the holding of the last preceding annual general meeting or not more than eighteen (18) months after the date of adoption of these Articles, unless a longer period would not infringe the rules of the Designated Stock Exchange, if any) at such time and place as may be determined by the Board. App. 11B 3(3)4(2)

57. Each general meeting, other than an annual general meeting, shall be called an extraordinary general meeting. General meetings may be held in any part of the world as may be determined by the Board.

58. The Board may whenever it thinks fit call extraordinary general meetings. Any one or more Members holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the Secretary of the Company, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two (2) months after the deposit of such requisition. If within twenty-one (21) days of such deposit the Board fails to proceed to convene such meeting the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

NOTICE OF GENERAL MEETINGS

59. (1) An annual general meeting must be called by Notice of not less than twenty-one (21) clear days and not less than twenty (20) clear business days. All other general meetings (including an extraordinary general meeting) must be called by Notice of not less than fourteen (14) clear days and not less than ten (10) clear business days but if permitted by the rules of the Designated Stock Exchange, a general meeting may be called by shorter notice, subject to the Law, if it is so agreed: App. 11B 3(1)
- (a) in the case of a meeting called as an annual general meeting, by all the Members entitled to attend and vote thereat; and
 - (b) in the case of any other meeting, by a majority in number of the Members having the right to attend and vote at the meeting, being a majority together representing not less than ninety-five per cent. (95%) of the total voting rights at the meeting of all the Members.
- (2) The notice shall specify the time and place of the meeting and particulars of resolutions to be considered at the meeting and, in case of special business, the general nature of the business. The notice convening an annual general meeting shall specify the meeting as such. Notice of every general meeting shall be given to all Members other than to such Members as, under the provisions of these Articles or the terms of issue of the shares they hold, are not entitled to receive such notices from the Company, to all persons entitled to a share in consequence of the death or bankruptcy or winding-up of a Member and to each of the Directors and the Auditors. App. 11B 3(1)

60. The accidental omission to give Notice of a meeting or (in cases where instruments of proxy are sent out with the Notice) to send such instrument of proxy to, or the non-receipt of such Notice or such instrument of proxy by, any person entitled to receive such Notice shall not invalidate any resolution passed or the proceedings at that meeting.

PROCEEDINGS AT GENERAL MEETINGS

61. (1) All business shall be deemed special that is transacted at an extraordinary general meeting, and also all business that is transacted at an annual general meeting, with the exception of:
- (a) the declaration and sanctioning of dividends;
-

- (b) consideration and adoption of the accounts and balance sheet and the reports of the Directors and Auditors and other documents required to be annexed to the balance sheet;
- (c) the election of Directors whether by rotation or otherwise in the place of those retiring;
- (d) appointment of Auditors (where special notice of the intention for such appointment is not required by the Law) and other officers;
- (e) the fixing of the remuneration of the Auditors, and the voting of remuneration or extra remuneration to the Directors;
- (f) the granting of any mandate or authority to the Directors to offer, allot, grant options over or otherwise dispose of the unissued shares in the capital of the Company representing not more than twenty per cent. (20%) in nominal value of its existing issued share capital; and
- (g) the granting of any mandate or authority to the Directors to repurchase securities of the Company.

(2) No business other than the appointment of a chairman of a meeting shall be transacted at any general meeting unless a quorum is present at the commencement of the business. Two (2) Members entitled to vote and present in person or by proxy or (in the case of a Member being a corporation) by its duly authorised representative shall form a quorum for all purposes.

62. If within thirty (30) minutes (or such longer time not exceeding one hour as the chairman of the meeting may determine to wait) after the time appointed for the meeting a quorum is not present, the meeting, if convened on the requisition of Members, shall be dissolved. In any other case it shall stand adjourned to the same day in the next week at the same time and place or to such time and place as the Board may determine. If at such adjourned meeting a quorum is not present within half an hour from the time appointed for holding the meeting, the meeting shall be dissolved.

63. The chairman of the Company shall preside as chairman at every general meeting. If at any meeting the chairman, is not present within fifteen (15) minutes after the time appointed for holding the meeting, or is not willing to act as chairman, the Directors present shall choose one of their number to act, or if one Director only is present he shall preside as chairman if willing to act. If no Director is present, or if each of the Directors present declines to take the chair, or if the chairman chosen shall retire from the chair, the Members present in person or (in the case of a Member being a corporation) by its duly authorised representative or by proxy and entitled to vote shall elect one of their number to be chairman.

64. The chairman may, with the consent of any meeting at which a quorum is present (and shall if so directed by the meeting), adjourn the meeting from time to time and from place to place as the meeting shall determine, but no business shall be transacted at any adjourned meeting other than the business which might lawfully have been transacted at the meeting had the adjournment not taken place. When a meeting is adjourned for fourteen (14) days or more, at least seven (7) clear days' notice of the adjourned meeting shall be given specifying the time and place of the adjourned meeting but it shall not be necessary to specify in such notice the nature of the business to be transacted at the adjourned meeting and the general nature of the business to be transacted. Save as aforesaid, it shall be unnecessary to give notice of an adjournment.

65. If an amendment is proposed to any resolution under consideration but is in good faith ruled out of order by the chairman of the meeting, the proceedings on the substantive resolution shall not be invalidated by any error in such ruling. In the case of a resolution duly proposed as a special resolution, no amendment thereto (other than a mere clerical amendment to correct a patent error) may in any event be considered or voted upon.

VOTING

66. (1) Subject to any special rights or restrictions as to voting for the time being attached to any shares by or in accordance with these Articles, at any general meeting on a poll every Member present in person or by proxy or, in the case of a Member being a corporation, by its duly authorised representative shall have one vote for every fully paid share of which he is the holder but so that no amount paid up or credited as paid up on a share in advance of calls or instalments is treated for the foregoing purposes as paid up on the share. A resolution put to the vote of a meeting shall be decided by way of a poll save that the chairman of the meeting may in good faith, allow a resolution which relates purely to a procedural or administrative matter to be voted on by a show of hands in which case every Member present in person (or being a corporation, is present by a duly authorized representative), or by proxy(ies) shall have one vote provided that where more than one proxy is appointed by a Member which is a clearing house (or its nominee(s)), each such proxy shall have one vote on a show of hands. For purposes of this Article, procedural and administrative matters are those that (i) are not on the agenda of the general meeting or in any supplementary circular that may be issued by the Company to its Members; and (ii) relate to the chairman's duties to maintain the orderly conduct of the meeting and/or allow the business of the meeting to be properly and effectively dealt with, whilst allowing all Members a reasonable opportunity to express their views.

- (2) Where a show of hands is allowed, before or on the declaration of the result of the show of hands, a poll may be demanded:
- (a) by at least three Members present in person or in the case of a Member being a corporation by its duly authorised representative or by proxy for the time being entitled to vote at the meeting; or
 - (b) by a Member or Members present in person or in the case of a Member being a corporation by its duly authorised representative or by proxy and representing not less than one-tenth of the total voting rights of all Members having the right to vote at the meeting; or
 - (c) by a Member or Members present in person or in the case of a Member being a corporation by its duly authorised representative or by proxy and holding shares in the Company conferring a right to vote at the meeting being shares on which an aggregate sum has been paid up equal to not less than one-tenth of the total sum paid up on all shares conferring that right.

A demand by a person as proxy for a Member or in the case of a Member being a corporation by its duly authorised representative shall be deemed to be the same as a demand by the Member.

67. Where a resolution is voted on by a show of hands, a declaration by the chairman that a resolution has been carried, or carried unanimously, or by a particular majority, or not carried by a particular majority, or lost, and an entry to that effect made in the minute book of the Company, shall be conclusive evidence of the facts without proof of the number or proportion of the votes recorded for or against the resolution. The result of the poll shall be deemed to be the resolution of the meeting. The Company shall only be required to disclose the voting figures on a poll if such disclosure is required by the rules of the Designated Stock Exchange.

68. On a poll votes may be given either personally or by proxy.

69. A person entitled to more than one vote on a poll need not use all his votes or cast all the votes he uses in the same way.

70. All questions submitted to a meeting shall be decided by a simple majority of votes except where a greater majority is required by these Articles or by the Law. In the case of an equality of votes, the chairman of such meeting shall be entitled to a second or casting vote in addition to any other vote he may have.

71. Where there are joint holders of any share any one of such joint holders may vote, either in person or by proxy, in respect of such share as if he were solely entitled thereto, but if more than one of such joint holders be present at any meeting the vote of the senior holder who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose seniority shall be determined by the order in which the names stand in the Register in respect of the joint holding. Several executors or administrators of a deceased Member in whose name any share stands shall for the purposes of this Article be deemed joint holders thereof.

72. (1) A Member who is a patient for any purpose relating to mental health or in respect of whom an order has been made by any court having jurisdiction for the protection or management of the affairs of persons incapable of managing their own affairs may vote, by his receiver, committee, *curator bonis* or other person in the nature of a receiver, committee or *curator bonis* appointed by such court, and such receiver, committee, *curator bonis* or other person may vote by proxy, and may otherwise act and be treated as if he were the registered holder of such shares for the purposes of general meetings, provided that such evidence as the Board may require of the authority of the person claiming to vote shall have been deposited at the Office, head office or Registration Office, as appropriate, not less than forty-eight (48) hours before the time appointed for holding the meeting, or adjourned meeting, as the case may be.

(2) Any person entitled under Article 53 to be registered as the holder of any shares may vote at any general meeting in respect thereof in the same manner as if he were the registered holder of such shares, provided that forty-eight (48) hours at least before the time of the holding of the meeting or adjourned meeting, as the case may be, at which he proposes to vote, he shall satisfy the Board of his entitlement to such shares, or the Board shall have previously admitted his right to vote at such meeting in respect thereof.

73. (1) No Member shall, unless the Board otherwise determines, be entitled to attend and vote and to be reckoned in a quorum at any general meeting unless he is duly registered and all calls or other sums presently payable by him in respect of shares in the Company have been paid.

(2) Where the Company has knowledge that any Member is, under the rules of the Designated Stock Exchange, required to abstain from voting on any particular resolution of the Company or restricted to voting only for or only against any particular resolution of the Company, any votes cast by or on behalf of such Member in contravention of such requirement or restriction shall not be counted. App. 3 14

74. If:

- (a) any objection shall be raised to the qualification of any voter; or
- (b) any votes have been counted which ought not to have been counted or which might have been rejected; or
- (c) any votes are not counted which ought to have been counted;

the objection or error shall not vitiate the decision of the meeting or adjourned meeting on any resolution unless the same is raised or pointed out at the meeting or, as the case may be, the adjourned meeting at which the vote objected to is given or tendered or at which the error occurs. Any objection or error shall be referred to the chairman of the meeting and shall only vitiate the decision of the meeting on any resolution if the chairman decides that the same may have affected the decision of the meeting. The decision of the chairman on such matters shall be final and conclusive.

PROXIES

75. Any Member entitled to attend and vote at a meeting of the Company shall be entitled to appoint another person as his proxy to attend and vote instead of him. A Member who is the holder of two or more shares may appoint more than one proxy to represent him and vote on his behalf at a general meeting of the Company or at a class meeting. A proxy need not be a Member. In addition, a proxy or proxies representing either a Member who is an individual or a Member which is a corporation shall be entitled to exercise the same powers on behalf of the Member which he or they represent as such Member could exercise. App. 11B 2(2)

76. The instrument appointing a proxy shall be in writing under the hand of the appointor or of his attorney duly authorised in writing or, if the appointor is a corporation, either under its seal or under the hand of an officer, attorney or other person authorised to sign the same. In the case of an instrument of proxy purporting to be signed on behalf of a corporation by an officer thereof it shall be assumed, unless the contrary appears, that such officer was duly authorised to sign such instrument of proxy on behalf of the corporation without further evidence of the facts. App. 3 11(2)

77. The instrument appointing a proxy and (if required by the Board) the power of attorney or other authority (if any) under which it is signed, or a certified copy of such power or authority, shall be delivered to such place or one of such places (if any) as may be specified for that purpose in or by way of note to or in any document accompanying the notice convening the meeting (or, if no place is so specified at the Registration Office or the Office, as may be appropriate) not less than forty-eight (48) hours before the time appointed for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote. No instrument appointing a proxy shall be valid after the expiration of twelve (12) months from the date named in it as the date of its execution, except at an adjourned meeting in cases where the meeting was originally held within twelve (12) months from such date. Delivery of an instrument appointing a proxy shall not preclude a Member from attending and voting in person at the meeting convened and in such event, the instrument appointing a proxy shall be deemed to be revoked.

78. Instruments of proxy shall be in any common form or in such other form as the Board may approve (provided that this shall not preclude the use of the two-way form) and the Board may, if it thinks fit, send out with the notice of any meeting forms of instrument of proxy for use at the meeting. The instrument of proxy shall be deemed to confer authority to vote on any amendment of a resolution put to the meeting for which it is given as the proxy thinks fit. The instrument of proxy shall, unless the contrary is stated therein, be valid as well for any adjournment of the meeting as for the meeting to which it relates. App. 3 11(1)

79. A vote given in accordance with the terms of an instrument of proxy shall be valid notwithstanding the previous death or insanity of the principal, or revocation of the instrument of proxy or of the authority under which it was executed, provided that no intimation in writing of such death, insanity or revocation shall have been received by the Company at the Office or the Registration Office (or such other place as may be specified for the delivery of instruments of proxy in the notice convening the meeting or other document sent therewith) two (2) hours at least before the commencement of the meeting or adjourned meeting, at which the instrument of proxy is used.

80. Anything which under these Articles a Member may do by proxy he may likewise do by his duly appointed attorney and the provisions of these Articles relating to proxies and instruments appointing proxies shall apply *mutatis mutandis* in relation to any such attorney and the instrument under which such attorney is appointed.

CORPORATIONS ACTING BY REPRESENTATIVES

81. (1) Any corporation which is a Member may by resolution of its directors or other governing body authorise such person as it thinks fit to act as its representative at any meeting of the Company or at any meeting of any class of Members. The person so authorised shall be entitled to exercise the same powers on behalf of such corporation as the corporation could exercise if it were an individual Member and such corporation shall for the purposes of these Articles be deemed to be present in person at any such meeting if a person so authorised is present thereat. App. 11B 2(2)

(2) If a clearing house (or its nominee(s)), being a corporation, is a Member, it may authorise such persons as it thinks fit to act as its representatives at any meeting of the Company or at any meeting of any class of Members provided that, if more than one person is so authorised, the authorisation shall specify the number and class of shares in respect of which each such representative is so authorised. Each person so authorised under the provisions of this Article shall be deemed to have been duly authorised without further evidence of the facts and be entitled to exercise the same rights and powers on behalf of the clearing house (or its nominee(s)) as if such person was the registered holder of the shares of the Company held by the clearing house (or its nominee(s)) including, where a show of hands is allowed, the right to vote individually on a show of hands. App. 11B 6

(3) Any reference in these Articles to a duly authorised representative of a Member being a corporation shall mean a representative authorised under the provisions of this Article.

WRITTEN RESOLUTIONS OF MEMBERS

82. A resolution in writing signed (in such manner as to indicate, expressly or impliedly, unconditional approval) by or on behalf of all persons for the time being entitled to receive notice of and to attend and vote at general meetings of the Company shall, for the purposes of these Articles, be treated as a resolution duly passed at a general meeting of the Company and, where relevant, as a special resolution so passed. Any such resolution shall be deemed to have been passed at a meeting held on the date on which it was signed by the last Member to sign, and where the resolution states a date as being the date of his signature thereof by any Member the statement shall be prima facie evidence that it was signed by him on that date. Such a resolution may consist of several documents in the like form, each signed by one or more relevant Members.

BOARD OF DIRECTORS

83. (1) Unless otherwise determined by the Company in general meeting, the number of Directors shall not be less than two (2). There shall be no maximum number of Directors unless otherwise determined from time to time by the Members in general meeting. The Directors shall be elected or appointed in the first place by the subscribers to the Memorandum of Association or by a majority of them and thereafter in accordance with Article 84 called for such purpose and who shall hold office for such term as the Members may determine or, in the absence of such determination, in accordance with Article 84 or until their successors are elected or appointed or their office is otherwise vacated.

(2) Subject to the Articles and the Law, the Company may by ordinary resolution elect any person to be a Director either to fill a casual vacancy on the Board, or as an addition to the existing Board. App. 3
4(2)

(3) The Directors shall have the power from time to time and at any time to appoint any person as a Director either to fill a casual vacancy on the Board or as an addition to the existing Board. Any Director appointed by the Board to fill a casual vacancy shall hold office until the first general meeting of Members after his appointment and be subject to re-election at such meeting and any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election. App. 3
4(2)

(4) Neither a Director nor an alternate Director shall be required to hold any shares of the Company by way of qualification and a Director or alternate Director (as the case may be) who is not a Member shall be entitled to receive notice of and to attend and speak at any general meeting of the Company and of all classes of shares of the Company.

(5) The Members may, at any general meeting convened and held in accordance with these Articles, by ordinary resolution remove a Director at any time before the expiration of his period of office notwithstanding anything to the contrary in these Articles or in any agreement between the Company and such Director (but without prejudice to any claim for damages under any such agreement).

App. 3
4(3)
App. 11B
5(1)

(6) A vacancy on the Board created by the removal of a Director under the provisions of subparagraph (5) above may be filled by the election or appointment by ordinary resolution the Members at the meeting at which such Director is removed.

(7) The Company may from time to time in general meeting by ordinary resolution increase or reduce the number of Directors but so that the number of Directors shall never be less than two (2).

RETIREMENT OF DIRECTORS

84. (1) Notwithstanding any other provisions in the Articles, at each annual general meeting one-third of the Directors for the time being (or, if their number is not a multiple of three (3), the number nearest to but not less than one-third) shall retire from office by rotation provided that every Director shall be subject to retirement at an annual general meeting at least once every three years.

(2) A retiring Director shall be eligible for re-election and shall continue to act as a Director throughout the meeting at which he retires. The Directors to retire by rotation shall include (so far as necessary to ascertain the number of directors to retire by rotation) any Director who wishes to retire and not to offer himself for re-election. Any further Directors so to retire shall be those of the other Directors subject to retirement by rotation who have been longest in office since their last re-election or appointment and so that as between persons who became or were last re-elected Directors on the same day those to retire shall (unless they otherwise agree among themselves) be determined by lot. Any Director appointed by the Board pursuant to Article 83(3) shall not be taken into account in determining which particular Directors or the number of Directors who are to retire by rotation.

85. No person other than a Director retiring at the meeting shall, unless recommended by the Directors for election, be eligible for election as a Director at any general meeting unless a Notice signed by a Member (other than the person to be proposed) duly qualified to attend and vote at the meeting for which such notice is given of his intention to propose such person for election and also a Notice signed by the person to be proposed of his willingness to be elected shall have been lodged at the head office or at the Registration Office provided that the minimum length of the period, during which such Notice(s) are given, shall be at least seven (7) days and that (if the Notices are submitted after the despatch of the notice of the general meeting appointed for such election) the period for lodgment of such Notice(s) shall commence on the day after the despatch of the notice of the general meeting appointed for such election and end no later than seven (7) days prior to the date of such general meeting. App. 3 4(4) 4(5)

DISQUALIFICATION OF DIRECTORS

86. The office of a Director shall be vacated if the Director:

- (1) resigns his office by notice in writing delivered to the Company at the Office or tendered at a meeting of the Board;
 - (2) becomes of unsound mind or dies;
 - (3) without special leave of absence from the Board, is absent from meetings of the Board for six consecutive months, and his alternate Director, if any, shall not during such period have attended in his stead and the Board resolves that his office be vacated;
 - (4) becomes bankrupt or has a receiving order made against him or suspends payment or compounds with his creditors;
 - (5) is prohibited by law from being a Director; or
 - (6) ceases to be a Director by virtue of any provision of the Statutes or is removed from office pursuant to these Articles.
-

EXECUTIVE DIRECTORS

87. The Board may from time to time appoint any one or more of its body to be a managing director, joint managing director or deputy managing director or to hold any other employment or executive office with the Company for such period (subject to their continuance as Directors) and upon such terms as the Board may determine and the Board may revoke or terminate any of such appointments. Any such revocation or termination as aforesaid shall be without prejudice to any claim for damages that such Director may have against the Company or the Company may have against such Director. A Director appointed to an office under this Article shall be subject to the same provisions as to removal as the other Directors of the Company, and he shall (subject to the provisions of any contract between him and the Company) ipso facto and immediately cease to hold such office if he shall cease to hold the office of Director for any cause.

88. Notwithstanding Articles 93, 94, 95 and 96, an executive director appointed to an office under Article 87 hereof shall receive such remuneration (whether by way of salary, commission, participation in profits or otherwise or by all or any of those modes) and such other benefits (including pension and/or gratuity and/or other benefits on retirement) and allowances as the Board may from time to time determine, and either in addition to or in lieu of his remuneration as a Director.

ALTERNATE DIRECTORS

89. Any Director may at any time by Notice delivered to the Office or head office or at a meeting of the Directors appoint any person (including another Director) to be his alternate Director. Any person so appointed shall have all the rights and powers of the Director or Directors for whom such person is appointed in the alternative provided that such person shall not be counted more than once in determining whether or not a quorum is present. An alternate Director may be removed at any time by the body which appointed him and, subject thereto, the office of alternate Director shall continue until the happening of any event which, if he were a Director, would cause him to vacate such office or if his appointor ceases for any reason to be a Director. Any appointment or removal of an alternate Director shall be effected by Notice signed by the appointor and delivered to the Office or head office or tendered at a meeting of the Board. An alternate Director may also be a Director in his own right and may act as alternate to more than one Director. An alternate Director shall, if his appointor so requests, be entitled to receive notices of meetings of the Board or of committees of the Board to the same extent as, but in lieu of, the Director appointing him and shall be entitled to such extent to attend and vote as a Director at any such meeting at which the Director appointing him is not personally present and generally at such meeting to exercise and discharge all the functions, powers and duties of his appointor as a Director and for the purposes of the proceedings at such meeting the provisions of these Articles shall apply as if he were a Director save that as an alternate for more than one Director his voting rights shall be cumulative.

90. An alternate Director shall only be a Director for the purposes of the Law and shall only be subject to the provisions of the Law insofar as they relate to the duties and obligations of a Director when performing the functions of the Director for whom he is appointed in the alternative and shall alone be responsible to the Company for his acts and defaults and shall not be deemed to be the agent of or for the Director appointing him. An alternate Director shall be entitled to contract and be interested in and benefit from contracts or arrangements or transactions and to be repaid expenses and to be indemnified by the Company to the same extent *mutatis mutandis* as if he were a Director but he shall not be entitled to receive from the Company any fee in his capacity as an alternate Director except only such part, if any, of the remuneration otherwise payable to his appointor as such appointor may by Notice to the Company from time to time direct.

91. Every person acting as an alternate Director shall have one vote for each Director for whom he acts as alternate (in addition to his own vote if he is also a Director). If his appointor is for the time being absent from Hong Kong or otherwise not available or unable to act, the signature of an alternate Director to any resolution in writing of the Board or a committee of the Board of which his appointor is a member shall, unless the notice of his appointment provides to the contrary, be as effective as the signature of his appointor.

92. Any one of two or more joint holders may give effectual receipts for any dividends or other moneys payable or property distributable in respect of the shares held by such joint holders.

140. All dividends or bonuses unclaimed for one (1) year after having been declared may be invested or otherwise made use of by the Board for the benefit of the Company until claimed. Any dividend or bonuses unclaimed after a period of six (6) years from the date of declaration shall be forfeited and shall revert to the Company. The payment by the Board of any unclaimed dividend or other sums payable on or in respect of a share into a separate account shall not constitute the Company a trustee in respect thereof. App. 3 3(2)

141. Whenever the Board or the Company in general meeting has resolved that a dividend be paid or declared, the Board may further resolve that such dividend be satisfied wholly or in part by the distribution of specific assets of any kind and in particular of paid up shares, debentures or warrants to subscribe securities of the Company or any other company, or in any one or more of such ways, and where any difficulty arises in regard to the distribution the Board may settle the same as it thinks expedient, and in particular may issue certificates in respect of fractions of shares, disregard fractional entitlements or round the same up or down, and may fix the value for distribution of such specific assets, or any part thereof, and may determine that cash payments shall be made to any Members upon the footing of the value so fixed in order to adjust the rights of all parties, and may vest any such specific assets in trustees as may seem expedient to the Board and may appoint any person to sign any requisite instruments of transfer and other documents on behalf of the persons entitled to the dividend, and such appointment shall be effective and binding on the Members. The Board may resolve that no such assets shall be made available to Members with registered addresses in any particular territory or territories where, in the absence of a registration statement or other special formalities, such distribution of assets would or might, in the opinion of the Board, be unlawful or impracticable and in such event the only entitlement of the Members aforesaid shall be to receive cash payments as aforesaid. Members affected as a result of the foregoing sentence shall not be or be deemed to be a separate class of Members for any purpose whatsoever.

142. (1) Whenever the Board or the Company in general meeting has resolved that a dividend be paid or declared on any class of the share capital of the Company, the Board may further resolve either:

- (a) that such dividend be satisfied wholly or in part in the form of an allotment of shares credited as fully paid up, provided that the Members entitled thereto will be entitled to elect to receive such dividend (or part thereof if the Board so determines) in cash in lieu of such allotment. In such case, the following provisions shall apply:
 - (i) the basis of any such allotment shall be determined by the Board;
 - (ii) the Board, after determining the basis of allotment, shall give not less than two (2) weeks' Notice to the holders of the relevant shares of the right of election accorded to them and shall send with such notice forms of election and specify the procedure to be followed and the place at which and the latest date and time by which duly completed forms of election must be lodged in order to be effective;
 - (iii) the right of election may be exercised in respect of the whole or part of that portion of the dividend in respect of which the right of election has been accorded; and
 - (iv) the dividend (or that part of the dividend to be satisfied by the allotment of shares as aforesaid) shall not be payable in cash on shares in respect whereof the cash election has not been duly exercised ("the non-elected shares") and in satisfaction thereof shares of the relevant class shall be allotted credited as fully paid up to the holders of the non-elected shares on the basis of allotment determined as aforesaid and for such purpose the Board shall capitalise and apply out of any part of the undivided profits of the Company (including profits carried and standing to the credit of any reserves or other special account, share premium account, capital redemption reserve other than the Subscription Rights Reserve (as defined below)) as the Board may determine, such sum as may be required to pay up in full the appropriate number of shares of the relevant class for allotment and distribution to and amongst the holders of the non-elected shares on such basis; or
-

- (b) that the Members entitled to such dividend shall be entitled to elect to receive an allotment of shares credited as fully paid up in lieu of the whole or such part of the dividend as the Board may think fit. In such case, the following provisions shall apply:
- (i) the basis of any such allotment shall be determined by the Board;
 - (ii) the Board, after determining the basis of allotment, shall give not less than two (2) weeks' Notice to the holders of the relevant shares of the right of election accorded to them and shall send with such notice forms of election and specify the procedure to be followed and the place at which and the latest date and time by which duly completed forms of election must be lodged in order to be effective;
 - (iii) the right of election may be exercised in respect of the whole or part of that portion of the dividend in respect of which the right of election has been accorded; and
 - (iv) the dividend (or that part of the dividend in respect of which a right of election has been accorded) shall not be payable in cash on shares in respect whereof the share election has been duly exercised ("the elected shares") and in lieu thereof shares of the relevant class shall be allotted credited as fully paid up to the holders of the elected shares on the basis of allotment determined as aforesaid and for such purpose the Board shall capitalise and apply out of any part of the undivided profits of the Company (including profits carried and standing to the credit of any reserves or other special account, share premium account, capital redemption reserve other than the Subscription Rights Reserve (as defined below)) as the Board may determine, such sum as may be required to pay up in full the appropriate number of shares of the relevant class for allotment and distribution to and amongst the holders of the elected shares on such basis.
-

- (2) (a) The shares allotted pursuant to the provisions of paragraph (1) of this Article shall rank *pari passu* in all respects with shares of the same class (if any) then in issue save only as regards participation in the relevant dividend or in any other distributions, bonuses or rights paid, made, declared or announced prior to or contemporaneously with the payment or declaration of the relevant dividend unless, contemporaneously with the announcement by the Board of their proposal to apply the provisions of sub-paragraph (a) or (b) of paragraph (1) of this Article in relation to the relevant dividend or contemporaneously with their announcement of the distribution, bonus or rights in question, the Board shall specify that the shares to be allotted pursuant to the provisions of paragraph (1) of this Article shall rank for participation in such distribution, bonus or rights.
- (b) The Board may do all acts and things considered necessary or expedient to give effect to any capitalisation pursuant to the provisions of paragraph (1) of this Article, with full power to the Board to make such provisions as it thinks fit in the case of shares becoming distributable in fractions (including provisions whereby, in whole or in part, fractional entitlements are aggregated and sold and the net proceeds distributed to those entitled, or are disregarded or rounded up or down or whereby the benefit of fractional entitlements accrues to the Company rather than to the Members concerned). The Board may authorise any person to enter into on behalf of all Members interested, an agreement with the Company providing for such capitalisation and matters incidental thereto and any agreement made pursuant to such authority shall be effective and binding on all concerned.
- (3) The Company may upon the recommendation of the Board by ordinary resolution resolve in respect of any one particular dividend of the Company that notwithstanding the provisions of paragraph (1) of this Article a dividend may be satisfied wholly in the form of an allotment of shares credited as fully paid up without offering any right to shareholders to elect to receive such dividend in cash in lieu of such allotment.
-

(4) The Board may on any occasion determine that rights of election and the allotment of shares under paragraph (1) of this Article shall not be made available or made to any shareholders with registered addresses in any territory where, in the absence of a registration statement or other special formalities, the circulation of an offer of such rights of election or the allotment of shares would or might, in the opinion of the Board, be unlawful or impracticable, and in such event the provisions aforesaid shall be read and construed subject to such determination. Members affected as a result of the foregoing sentence shall not be or be deemed to be a separate class of Members for any purpose whatsoever.

(5) Any resolution declaring a dividend on shares of any class, whether a resolution of the Company in general meeting or a resolution of the Board, may specify that the same shall be payable or distributable to the persons registered as the holders of such shares at the close of business on a particular date, notwithstanding that it may be a date prior to that on which the resolution is passed, and thereupon the dividend shall be payable or distributable to them in accordance with their respective holdings so registered, but without prejudice to the rights inter se in respect of such dividend of transferors and transferees of any such shares. The provisions of this Article shall *mutatis mutandis* apply to bonuses, capitalisation issues, distributions of realised capital profits or offers or grants made by the Company to the Members.

RESERVES

143. (1) The Board shall establish an account to be called the share premium account and shall carry to the credit of such account from time to time a sum equal to the amount or value of the premium paid on the issue of any share in the Company. Unless otherwise provided by the provisions of these Articles, the Board may apply the share premium account in any manner permitted by the Law. The Company shall at all times comply with the provisions of the Law in relation to the share premium account.

(2) Before recommending any dividend, the Board may set aside out of the profits of the Company such sums as it determines as reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the Company may be properly applied and pending such application may, also at such discretion, either be employed in the business of the Company or be invested in such investments as the Board may from time to time think fit and so that it shall not be necessary to keep any investments constituting the reserve or reserves separate or distinct from any other investments of the Company. The Board may also without placing the same to reserve carry forward any profits which it may think prudent not to distribute.

CAPITALISATION

144. The Company may, upon the recommendation of the Board, at any time and from time to time pass an ordinary resolution to the effect that it is desirable to capitalise all or any part of any amount for the time being standing to the credit of any reserve or fund (including a share premium account and capital redemption reserve and the profit and loss account) whether or not the same is available for distribution and accordingly that such amount be set free for distribution among the Members or any class of Members who would be entitled thereto if it were distributed by way of dividend and in the same proportions, on the footing that the same is not paid in cash but is applied either in or towards paying up the amounts for the time being unpaid on any shares in the Company held by such Members respectively or in paying up in full unissued shares, debentures or other obligations of the Company, to be allotted and distributed credited as fully paid up among such Members, or partly in one way and partly in the other, and the Board shall give effect to such resolution provided that, for the purposes of this Article, a share premium account and any capital redemption reserve or fund representing unrealised profits, may be applied only in paying up in full unissued shares of the Company to be allotted to such Members credited as fully paid.

145. The Board may settle, as it considers appropriate, any difficulty arising in regard to any distribution under the last preceding Article and in particular may issue certificates in respect of fractions of shares or authorise any person to sell and transfer any fractions or may resolve that the distribution should be as nearly as may be practicable in the correct proportion but not exactly so or may ignore fractions altogether, and may determine that cash payments shall be made to any Members in order to adjust the rights of all parties, as may seem expedient to the Board. The Board may appoint any person to sign on behalf of the persons entitled to participate in the distribution any contract necessary or desirable for giving effect thereto and such appointment shall be effective and binding upon the Members.

SUBSCRIPTION RIGHTS RESERVE

146. The following provisions shall have effect to the extent that they are not prohibited by and are in compliance with the Law:

(1) If, so long as any of the rights attached to any warrants issued by the Company to subscribe for shares of the Company shall remain exercisable, the Company does any act or engages in any transaction which, as a result of any adjustments to the subscription price in accordance with the provisions of the conditions of the warrants, would reduce the subscription price to below the par value of a share, then the following provisions shall apply:

- (a) as from the date of such act or transaction the Company shall establish and thereafter (subject as provided in this Article) maintain in accordance with the provisions of this Article a reserve (the "Subscription Rights Reserve") the amount of which shall at no time be less than the sum which for the time being would be required to be capitalised and applied in paying up in full the nominal amount of the additional shares required to be issued and allotted credited as fully paid pursuant to subparagraph (c) below on the exercise in full of all the subscription rights outstanding and shall apply the Subscription Rights Reserve in paying up such additional shares in full as and when the same are allotted;
-

- (b) the Subscription Rights Reserve shall not be used for any purpose other than that specified above unless all other reserves of the Company (other than share premium account) have been extinguished and will then only be used to make good losses of the Company if and so far as is required by law;
 - (c) upon the exercise of all or any of the subscription rights represented by any warrant, the relevant subscription rights shall be exercisable in respect of a nominal amount of shares equal to the amount in cash which the holder of such warrant is required to pay on exercise of the subscription rights represented thereby (or, as the case may be the relevant portion thereof in the event of a partial exercise of the subscription rights) and, in addition, there shall be allotted in respect of such subscription rights to the exercising warrant holder, credited as fully paid, such additional nominal amount of shares as is equal to the difference between:
 - (i) the said amount in cash which the holder of such warrant is required to pay on exercise of the subscription rights represented thereby (or, as the case may be, the relevant portion thereof in the event of a partial exercise of the subscription rights); and
 - (ii) the nominal amount of shares in respect of which such subscription rights would have been exercisable having regard to the provisions of the conditions of the warrants, had it been possible for such subscription rights to represent the right to subscribe for shares at less than par and immediately upon such exercise so much of the sum standing to the credit of the Subscription Rights Reserve as is required to pay up in full such additional nominal amount of shares shall be capitalised and applied in paying up in full such additional nominal amount of shares which shall forthwith be allotted credited as fully paid to the exercising warrant holders; and
-

(d) if, upon the exercise of the subscription rights represented by any warrant, the amount standing to the credit of the Subscription Rights Reserve is not sufficient to pay up in full such additional nominal amount of shares equal to such difference as aforesaid to which the exercising warrant holder is entitled, the Board shall apply any profits or reserves then or thereafter becoming available (including, to the extent permitted by law, share premium account) for such purpose until such additional nominal amount of shares is paid up and allotted as aforesaid and until then no dividend or other distribution shall be paid or made on the fully paid shares of the Company then in issue. Pending such payment and allotment, the exercising warrant holder shall be issued by the Company with a certificate evidencing his right to the allotment of such additional nominal amount of shares. The rights represented by any such certificate shall be in registered form and shall be transferable in whole or in part in units of one share in the like manner as the shares for the time being are transferable, and the Company shall make such arrangements in relation to the maintenance of a register therefor and other matters in relation thereto as the Board may think fit and adequate particulars thereof shall be made known to each relevant exercising warrant holder upon the issue of such certificate.

(2) Shares allotted pursuant to the provisions of this Article shall rank *pari passu* in all respects with the other shares allotted on the relevant exercise of the subscription rights represented by the warrant concerned. Notwithstanding anything contained in paragraph (1) of this Article, no fraction of any share shall be allotted on exercise of the subscription rights.

(3) The provision of this Article as to the establishment and maintenance of the Subscription Rights Reserve shall not be altered or added to in any way which would vary or abrogate, or which would have the effect of varying or abrogating the provisions for the benefit of any warrant holder or class of warrant holders under this Article without the sanction of a special resolution of such warrant holders or class of warrant holders.

(4) A certificate or report by the auditors for the time being of the Company as to whether or not the Subscription Rights Reserve is required to be established and maintained and if so the amount thereof so required to be established and maintained, as to the purposes for which the Subscription Rights Reserve has been used, as to the extent to which it has been used to make good losses of the Company, as to the additional nominal amount of shares required to be allotted to exercising warrant holders credited as fully paid, and as to any other matter concerning the Subscription Rights Reserve shall (in the absence of manifest error) be conclusive and binding upon the Company and all warrant holders and shareholders.

ACCOUNTING RECORDS

147. The Board shall cause true accounts to be kept of the sums of money received and expended by the Company, and the matters in respect of which such receipt and expenditure take place, and of the property, assets, credits and liabilities of the Company and of all other matters required by the Law or necessary to give a true and fair view of the Company's affairs and to explain its transactions. App. 11B 4(1)

148. The accounting records shall be kept at the Office or, at such other place or places as the Board decides and shall always be open to inspection by the Directors. No Member (other than a Director) shall have any right of inspecting any accounting record or book or document of the Company except as conferred by law or authorised by the Board or the Company in general meeting.

149. Subject to Article 150, a printed copy of the Directors' report, accompanied by the balance sheet and profit and loss account, including every document required by law to be annexed thereto, made up to the end of the applicable financial year and containing a summary of the assets and liabilities of the Company under convenient heads and a statement of income and expenditure, together with a copy of the Auditors' report, shall be sent to each person entitled thereto at least twenty-one (21) days before the date of the general meeting and at the same time as the notice of annual general meeting and laid before the Company at the annual general meeting held in accordance with Article 56 provided that this Article shall not require a copy of those documents to be sent to any person whose address the Company is not aware or to more than one of the joint holders of any shares or debentures. App. 3 5 11B 3(3) 4(2)

150. Subject to due compliance with all applicable Statutes, rules and regulations, including, without limitation, the rules of the Designated Stock Exchange, and to obtaining all necessary consents, if any, required thereunder, the requirements of Article 149 shall be deemed satisfied in relation to any person by sending to the person in any manner not prohibited by the Statutes, summarised financial statements derived from the Company's annual accounts and the directors' report which shall be in the form and containing the information required by applicable laws and regulations, provided that any person who is otherwise entitled to the annual financial statements of the Company and the directors' report thereon may, if he so requires by notice in writing served on the Company, demand that the Company sends to him, in addition to summarised financial statements, a complete printed copy of the Company's annual financial statement and the directors' report thereon.

151. The requirement to send to a person referred to in Article 149 the documents referred to in that article or a summary financial report in accordance with Article 150 shall be deemed satisfied where, in accordance with all applicable Statutes, rules and regulations, including, without limitation, the rules of the Designated Stock Exchange, the Company publishes copies of the documents referred to in Article 149 and, if applicable, a summary financial report complying with Article 150, on the Company's computer network or in any other permitted manner (including by sending any form of electronic communication), and that person has agreed or is deemed to have agreed to treat the publication or receipt of such documents in such manner as discharging the Company's obligation to send to him a copy of such documents.

152. (1) At the annual general meeting or at a subsequent extraordinary general meeting in each year, the Members shall appoint an auditor to audit the accounts of the Company and such auditor shall hold office until the next annual general meeting. Such auditor may be a Member but no Director or officer or employee of the Company shall, during his continuance in office, be eligible to act as an auditor of the Company. App. 11B 4(2)

(2) The Members may, at any general meeting convened and held in accordance with these Articles, by special resolution remove the Auditor at any time before the expiration of his term of office and shall by ordinary resolution at that meeting appoint another Auditor in his stead for the remainder of his term.

153. Subject to the Law the accounts of the Company shall be audited at least once in every year.

App.
11B 4(2)

154. The remuneration of the Auditor shall be fixed by the Company in general meeting or in such manner as the Members may determine.

155. If the office of auditor becomes vacant by the resignation or death of the Auditor, or by his becoming incapable of acting by reason of illness or other disability at a time when his services are required, the Directors shall fill the vacancy and fix the remuneration of the Auditor so appointed.

156. The Auditor shall at all reasonable times have access to all books kept by the Company and to all accounts and vouchers relating thereto; and he may call on the Directors or officers of the Company for any information in their possession relating to the books or affairs of the Company.

The statement of income and expenditure and the balance sheet provided for by these Articles shall be examined by the Auditor and compared by him with the books, accounts and vouchers relating thereto; and he shall make a written report thereon stating whether such statement and balance sheet are drawn up so as to present fairly the financial position of the Company and the results of its operations for the period under review and, in case information shall have been called for from Directors or officers of the Company, whether the same has been furnished and has been satisfactory. The financial statements of the Company shall be audited by the Auditor in accordance with generally accepted auditing standards. NOTICES

158. Any Notice or document (including any "corporate communication" within the meaning ascribed thereto under the rules of the Designated Stock Exchange), whether or not, to be given or issued under these Articles from the Company to a Member shall be in writing or by cable, telex or facsimile transmission message or other form of electronic transmission or communication and any such Notice and document may be served or delivered by the Company on or to any Member either personally or by sending it through the post in a prepaid envelope addressed to such Member at his registered address as appearing in the Register or at any other address supplied by him to the Company for the purpose or, as the case may be, by transmitting it to any such address or transmitting it to any telex or facsimile transmission number or electronic number or address or website supplied by him to the Company for the giving of Notice to him or which the person transmitting the notice reasonably and bona fide believes at the relevant time will result in the Notice being duly received by the Member or may also be served by advertisement in appropriate newspapers in accordance with the requirements of the Designated Stock Exchange or, to the extent permitted by the applicable laws, by placing it on the Company's website or the website of the Designated Stock Exchange, and giving to the member a notice stating that the notice or other document is available there (a "notice of availability"). The notice of availability may be given to the Member by any of the means set out above other than by posting it on a website. In the case of joint holders of a share all notices shall be given to that one of the joint holders whose name stands first in the Register and notice so given shall be deemed a sufficient service on or delivery to all the joint holders.

7(3)

159. Any Notice or other document:

 - (d) may be given to a Member either in the English language or the Chinese language, subject to due compliance with all applicable Statutes, rules and regulations.
-

160. (1) Any Notice or other document delivered or sent by post to or left at the registered address of any Member in pursuance of these Articles shall, notwithstanding that such Member is then dead or bankrupt or that any other event has occurred, and whether or not the Company has notice of the death or bankruptcy or other event, be deemed to have been duly served or delivered in respect of any share registered in the name of such Member as sole or joint holder unless his name shall, at the time of the service or delivery of the Notice or document, have been removed from the Register as the holder of the share, and such service or delivery shall for all purposes be deemed a sufficient service or delivery of such Notice or document on all persons interested (whether jointly with or as claiming through or under him) in the share.

(2) A Notice may be given by the Company to the person entitled to a share in consequence of the death, mental disorder or bankruptcy of a Member by sending it through the post in a prepaid letter, envelope or wrapper addressed to him by name, or by the title of representative of the deceased, or trustee of the bankrupt, or by any like description, at the address, if any, supplied for the purpose by the person claiming to be so entitled, or (until such an address has been so supplied) by giving the Notice in any manner in which the same might have been given if the death, mental disorder or bankruptcy had not occurred.

(3) Any person who by operation of law, transfer or other means whatsoever shall become entitled to any share shall be bound by every notice in respect of such share which prior to his name and address being entered on the Register shall have been duly given to the person from whom he derives his title to such share.

SIGNATURES

161. For the purposes of these Articles, a facsimile or electronic transmission message purporting to come from a holder of shares or, as the case may be, a Director or alternate Director, or, in the case of a corporation which is a holder of shares from a director or the secretary thereof or a duly appointed attorney or duly authorised representative thereof for it and on its behalf, shall in the absence of express evidence to the contrary available to the person relying thereon at the relevant time be deemed to be a document or instrument in writing signed by such holder or Director or alternate Director in the terms in which it is received.

WINDING UP

162. (1) The Board shall have power in the name and on behalf of the Company to present a petition to the court for the Company to be wound up.

(2) A resolution that the Company be wound up by the court or be wound up voluntarily shall be a special resolution.

163. (1) Subject to any special rights, privileges or restrictions as to the distribution of available surplus assets on liquidation for the time being attached to any class or classes of shares (i) if the Company shall be wound up and the assets available for distribution amongst the Members shall be more than sufficient to repay the whole of the capital paid up at the commencement of the winding up, the excess shall be distributed *pari passu* amongst such members in proportion to the amount paid up on the shares held by them respectively and (ii) if the Company shall be wound up and the assets available for distribution amongst the Members as such shall be insufficient to repay the whole of the paid-up capital such assets shall be distributed so that, as nearly as may be, the losses shall be borne by the Members in proportion to the capital paid up, or which ought to have been paid up, at the commencement of the winding up on the shares held by them respectively.

(2) If the Company shall be wound up (whether the liquidation is voluntary or by the court) the liquidator may, with the authority of a special resolution and any other sanction required by the Law, divide among the Members in specie or kind the whole or any part of the assets of the Company and whether or not the assets shall consist of properties of one kind or shall consist of properties to be divided as aforesaid of different kinds, and may for such purpose set such value as he deems fair upon any one or more class or classes of property and may determine how such division shall be carried out as between the Members or different classes of Members. The liquidator may, with the like authority, vest any part of the assets in trustees upon such trusts for the benefit of the Members as the liquidator with the like authority shall think fit, and the liquidation of the Company may be closed and the Company dissolved, but so that no contributory shall be compelled to accept any shares or other property in respect of which there is a liability.

(3) In the event of winding-up of the Company in Hong Kong, every Member who is not for the time being in Hong Kong shall be bound, within fourteen (14) days after the passing of an effective resolution to wind up the Company voluntarily, or the making of an order for the winding-up of the Company, to serve notice in writing on the Company appointing some person resident in Hong Kong and stating that person's full name, address and occupation upon whom all summonses, notices, process, orders and judgements in relation to or under the winding-up of the Company may be served, and in default of such nomination the liquidator of the Company shall be at liberty on behalf of such Member to appoint some such person, and service upon any such appointee, whether appointed by the Member or the liquidator, shall be deemed to be good personal service on such Member for all purposes, and, where the liquidator makes any such appointment, he shall with all convenient speed give notice thereof to such Member by advertisement as he shall deem appropriate or by a registered letter sent through the post and addressed to such Member at his address as appearing in the register, and such notice shall be deemed to be service on the day following that on which the advertisement first appears or the letter is posted.

INDEMNITY

164. (1) The Directors, Secretary and other officers and every Auditor for the time being of the Company and the liquidator or trustees (if any) for the time being acting in relation to any of the affairs of the Company and everyone of them, and everyone of their heirs, executors and administrators, shall be indemnified and secured harmless out of the assets and profits of the Company from and against all actions, costs, charges, losses, damages and expenses which they or any of them, their or any of their heirs, executors or administrators, shall or may incur or sustain by or by reason of any act done, concurred in or omitted in or about the execution of their duty, or supposed duty, in their respective offices or trusts; and none of them shall be answerable for the acts, receipts, neglects or defaults of the other or others of them or for joining in any receipts for the sake of conformity, or for any bankers or other persons with whom any moneys or effects belonging to the Company shall or may be lodged or deposited for safe custody, or for insufficiency or deficiency of any security upon which any moneys of or belonging to the Company shall be placed out on or invested, or for any other loss, misfortune or damage which may happen in the execution of their respective offices or trusts, or in relation thereto; PROVIDED THAT this indemnity shall not extend to any matter in respect of any fraud or dishonesty which may attach to any of said persons.

(2) Each Member agrees to waive any claim or right of action he might have, whether individually or by or in the right of the Company, against any Director on account of any action taken by such Director, or the failure of such Director to take any action in the performance of his duties with or for the Company; PROVIDED THAT such waiver shall not extend to any matter in respect of any fraud or dishonesty which may attach to such Director.

AMENDMENT TO MEMORANDUM AND ARTICLES OF ASSOCIATION
AND NAME OF COMPANY

165. No Article shall be rescinded, altered or amended and no new Article shall be made until the same has been approved by a special resolution of the Members. A special resolution shall be required to alter the provisions of the memorandum of association or to change the name of the Company. App. 11B 1

166. No Member shall be entitled to require discovery of or any information respecting any detail of the Company's trading or any matter which is or may be in the nature of a trade secret or secret process which may relate to the conduct of the business of the Company and which in the opinion of the Directors it will be inexpedient in the interests of the members of the Company to communicate to the public.
